BigComp 2026

Table of Contents

Message from the General Chairs and Program Co-Chairs ..... **xv**
Steering Committee ..... **xvi**
Organizing Committee ..... **xvii**
Program Committee ..... **xix**
Keynotes ..... **xxii**
Reviewers ..... **xxv**
Acknowledgements ..... **xxix**

Conference Papers

Session 1A: Time Series & Spatial Data

Bridging Trend and Periodic Feature for Long-Term Time Series Forecasting 1
Xingzhi Jing (Beijing University of Posts and Telecommunications, China), Yingxia Shao (Beijing University of Posts and Telecommunications, China), Yawen Li (Beijing University of Posts and Telecommunications, China), Siyu Lou (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), and Guanhua Ye (Beijing University of Posts and Telecommunications, China)

Advancing CNNs for Time Series Anomaly Detection: A Multi-Scale Contrastive Learning Framework 9
Hailong Gu (Fudan University, China), Haoran Xiong (Fudan University, China), Yuheng Dai (Fudan University, China), Zhipeng Xie (Fudan University, China), Zhenying He (Fudan University, China), X. Sean Wang (Fudan University, China), and Jinbao Li (Qilu University of Technology, China)

A Graph-Based Framework for Online Time Series Anomaly Detection Using Model Ensemble 17
ZeWei Yu (Nanjing University of Aeronautics and Astronautics, China), Jianqiu Xu (Nanjing University of Aeronautics and Astronautics, China), and Caimin Li (Nanjing Normal University, China)

A Survey on Deep Learning Models for Anomaly Trajectory Detection 25
Chenxi Liu (Ocean University of China, China), Bohan Zhang (Ocean University of China, China), and Yanwei Yu (Ocean University of China, China)

GGTP: Generative Game-Theoretic Planning for Adversarial Autonomous Driving Validation 33
Peiyan Song (Brown University, USA) and Hao Zhang (Carnegie Mellon University, USA)

Session 1B: LLM-Based Data Analysis

Schedroid: LLM-Based Interactive Scheduling for Smart Manufacturing 39
Lilin Xu (Zhejiang University, China), Jingyan Zhu (Zhejiang University, China), Ziyang Xiao (Zhejiang University, China), Jingrong Xie (Zhejiang University, China), Shisi Guan (Zhejiang University, China), Han Wu (Huawei Noah's Ark Lab, China), Xiaojin Fu (Huawei Noah's Ark Lab, China), WingYin Yu (Huawei Noah's Ark Lab, China), Xiongwei Han (Huawei Noah's Ark Lab, China), Tao Zhong (Huawei Noah's Ark Lab, China), Mingxuan Yuan (Huawei Noah's Ark Lab, China), Gang Chen (Zhejiang University, China), and Dongxiang Zhang (Zhejiang University, China)

Mitigating Understanding Bias: Explicit Meta Enhancement in LLM-Based Table Reasoning 47
Jiaying Lin (University of Science and Technology of China, China), Qingyang Mao (University of Science and Technology of China, China), Mingyue Cheng (University of Science and Technology of China, China), and Qi Liu (University of Science and Technology of China, China)

ForexAgent: Identifying Trading Strategies in Forex Markets with Large Language Models 55
Xin Shu (University of New South Wales, Australia), Mingchen Ju (University of New South Wales, Australia), Zebin Chen (University of New South Wales, Australia), Yi Ding (University of New South Wales, Australia), Wantong Zhang (University of California, Berkeley, United States of America), Dong Wen (University of New South Wales, Australia), and Zhengyi Yang (University of New South Wales, Australia)

Beyond Translation: Exploring LLM-Based Multilingual Cognitive Behavioral Therapy 63
Hyeonbeen Lee (Incheon National University, Republic of Korea) and Jangho Lee (Incheon National University, Republic of Korea)

Better Together: Hybridizing Encoders and LLMs for Unseen Biomedical Texts 68
Goun Pyeon (Chungnam National University, South Korea), Hyunseok Kang (Chungnam National University, South Korea), Inbum Heo (Chungnam National University, South Korea), and Sangkeun Jung (Chungnam National University, South Korea)

Session 2A: Graphs

Contrastive Learning-Based Self-Supervised Community Search in Attributed Heterogeneous Information Networks 72
Yuan Li (North China University of Technology, China), Jianpeng Sun (North China University of Technology, China), Guoli Yang (Advanced Institute of Big Data, China), and Yuhai Zhao (Northeastern University, China)

H-MGC: Multi-Scale Graph Clustering through Adaptive Motif Resolution Fusion 80
Ao Shen (Beijing University of Posts and Telecommunications, China) and Jianfeng Guan (Beijing University of Posts and Telecommunications, China)

A Fusion Model to Cognize the Structure of Heterogeneous Graph for Public Safety Scenarios..... 88
Jin Yu (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), and Meiyu Liang (Beijing University of Posts and Telecommunications, China)

Knowledge Graph Enhanced Large Language Models for Traditional Chinese Medicine Question-Answering 96
Qiran Yang (Yanshan University, China), Jingxuan Han (Yanshan University, China), Huazhe Wang (Yanshan University, China), Shujie Xia (Fujian University of Traditional Chinese Medicine, China), Jinyi Long (Jinan University, China), Jia Zhang (Jinan University, China), and Guodong Du (Yanshan University, China)

Session 2B: LLM

Making Low-Saliency Context Exert Its Effect: Multi-Prompt Context-Aware Contrastive Decoding 104
Mingzhao Li (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), Jinyuan Li (Beijing University of Posts and Telecommunications, China), Meiyu Liang (Beijing University of Posts and Telecommunications, China), and Ziqiang Yu (Yantai University, China)

Investigating Evolutionary Characteristics of Deep Learning Framework Bugs in the Large Language Model Era 112
Kaishen Xie (Wuhan University of Technology, China), Jiale Shen (Wuhan University of Technology, China), Hao Zhou (Wuhan University of Technology, China), and Fuyang Li (Wuhan University of Technology, China)

Linear Separability and Feature Importance Analysis in Large Language Model Representation Spaces 120
JaeSeong Kim (Semyung University, Republic of Korea) and Suan Lee (Semyung University, Republic of Korea)

Calibrated Query Augmentation and Dual Preference Alignment for Retrieval-Augmented Generation 127
Junjiang Wu (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), Shilong Ou (Beijing University of Posts and Telecommunications, China), Liang Yu (Inspur Computer Technology Co., Ltd, China), Yingxia Shao (Beijing University of Posts and Telecommunications, China), and Guanhua Ye (Beijing University of Posts and Telecommunications, China)

Session 3A: IR & Recommendation

MLego: Fast and Scalable Analytic Queries Through Model Materialization and Reuse 135
Fei Ye (Fudan University, China), Lu Jia (CDF Sunrise Internet Technology Co., Ltd., China), Bin Huang (CDF Sunrise Internet Technology Co., Ltd., China), Zhenying He (Fudan University, China), Yinan Jing (Fudan University, China), Kai Zhang (Fudan University, China), and X. Sean Wang (Fudan University, China)

Tool-Augmented Multi-Turn Academic Paper Recommendation via Reinforcement Learning 143
Jiarong Zhang (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), Guanhua Ye (Beijing University of Posts and Telecommunications, China), and Yingxia Shao (Beijing University of Posts and Telecommunications, China)

MGMMD: Multi-Grained Multi-Modal Diffusion Model for Text-Video Cross-Modal Retrieval 151
Ruoyu Fan (Beijing University of Posts and Telecommunications, China), Meiyu Liang (Beijing University of Posts and Telecommunications, China), Yuxuan Li (Beijing University of Posts and Telecommunications, China), and Xueying Liu (Shandong University, China)

Enhancing the Efficiency of Answering High-Dimensional Why-not kNN Questions 155
Qi Cao (Fudan University, China), Fei Ye (Fudan University, China), Lu Jia (CDF Sunrise Internet Technology Co., Ltd., China), Bin Huang (CDF Sunrise Internet Technology Co., Ltd., China), Zhenying He (Fudan University, China), Yinan Jing (Fudan University, China), Kai Zhang (Fudan University, China), and X.Sean Wang (Fudan University, China)

Distributed Processing of kNN Queries over Moving Objects on Dynamic Road Networks 163
Mingjin Tao (Yantai University, China), Kailin Jiao (Yantai University, China), Yawen Li (Beijing University of Posts and Telecommunications, China), Wei Liu (Yantai University, China), and Ziqiang Yu (Yantai University, China)

Session 3B: AI in Industrial Applications

Dynamic Pod Configuration for FPS-Compliant Split Computing in AI-RAN 171
Daeyoung Jung (Korea University, South Korea), Haneul Ko (Kyung Hee University, South Korea), Daesik Kim (Korea University, South Korea), Minji Bang (Korea University, South Korea), and Sangheon Pack (Korea University, South Korea)

Exploring Cost-Efficient and Resource-Optimized Kubernetes Deployments in Multi-Region Settings 175
Lixinqian Yu (The University of Melbourne, Australia) and Richard Sinnott (The University of Melbourne, Australia)

Intelligent Stuck Pipe Risk Prediction Based on Dynamic Condition Recognition and Multi-Source Data Fusion 183
Jiangyue Liu (Xidian University, China), Yingfeng Li (Sinopec Zhongyuan Oil-field Service Corporation, China), Wentao Guan (Sinopec Zhongyuan Oil-field Service Corporation, China), Chuanyang Li (Sinopec Zhongyuan Oil-field Service Corporation, China), Chen Zhang (Sinopec Zhongyuan Oil-field Service Corporation, China), and Xiubin Zhu (Xidian University, China)

Physics-Consistent Hybrid AI for Quantum Device Manufacturing 191
Hyeyoung Lee (Korean University, South Korea) and Muhammad Nadeem (SPILab Corporation, South Korea)

A Framework for Hallucination-Mitigating Manufacturing Anomaly Detection 199
Seongmin Han (Korea University Seoul, Republic of Korea), Jonghwa Shim (Korea University Seoul, Republic of Korea), and Eenjun Hwang (Korea University Seoul, Republic of Korea)

Session 4A: NLP & LLM Applications

A Linguistic Analysis of Human and LLM Annotations on English Sentence Difficulty 206
Yerim Han (Chungnam National University, South Korea), Inbum Heo (Chungnam National University, South Korea), and Sangkeun Jung (Chungnam National University, South Korea)

High-Quality Portrait Generation with Facial Semantic Prior Guidance 214
Yilu Chen (Nanjing University of Science and Technology, China), Haijie Yang (Nanjing University of Science and Technology, China), Yi Pan (Nanjing University of Science and Technology, China), and Jianjun Qian (Nanjing University of Science and Technology, China)

HybPashto-POS: A Hybrid Framework for Improved Part of Speech Tagging in the Low-Resourced Pashto Language 222
Yar Muhammad (Beihang University, China), Richong Zhang (Beihang University, China), and Asmat Ullah (Beihang University, China)

Improving Relational Deep Learning via Language Model-Based Graph Augmentation 230
Kunyoung Kim (Sungkyunkwan University, Korea), Hwiseung Son (Sungkyunkwan University, Korea), and Mye Sohn (Sungkyunkwan University, Korea)

PLiTS-Net: A PLM-Conditioned Liquid Thread Network for Social Media Sentiment Analysis 237
Wanfeng Ding (Monash University, Australia) and Hanif Bhuiyan (City of Gold Coast, Australia)

Session 4B: Security & Privacy

Scalable and Efficient Unbalanced PSI from FHE with Client Friendly Overhead 245
Jinmao Song (Dongguan University of Technology, China), Jia-Nan Liu (Dongguan University of Technology, China), Minhua Su (Dongguan University of Technology, China), Jinlong Zheng (Dongguan University of Technology, China), Kai He (Dongguan University of Technology, China), and Xueqiao Liu (University of Wollongong, Australia)

Constant-Round Outsourcing Private Decision Tree Evaluation 253
Dingcheng Li (Dongguan University of Technology, China), Kai He (Dongguan University of Technology, China), Xueqiao Liu (University of Wollongong, Australia), and Jia-Nan Liu (Dongguan University of Technology, China)

Analyzing LLM Safety Circumvention via Multilingual Euphemistic Coating 261
SangHyeon Gil (Semyung University, South Korea), JaeSeong Kim (Semyung University, South Korea), and Suan Lee (Semyung University, South Korea)

RFLASS: Reinforced Federated Learning with Latent-Space Data Augmentation and Adaptive Sample Selection 265
Zhenhui Pan (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), Meiyu Liang (Beijing University of Posts and Telecommunications, China), Zeli Guan (Beijing University of Posts and Telecommunications, China), and Jia Wang (Beijing University of Posts and Telecommunications, China)

An Adversarial Attack Framework for end-to-end Lipreading Systems 273
Hira Tabassum (Jinan University, China), Jian Weng (Jinan University, China), and Yongdong Wu (Jinan University, China)

Session 5A: Image Analysis

AEONet: An Attention-Enhanced Network for Robust Image Matching 281
Yang Zhao (Jinan University, China), Yijun Peng (Jinan University), and Shuyuan Lin (Jinan University, China)

RelightDiffNet: A Dual-Branch Diffusion Model for Background-Conditioned Foreground Relighting 289
Zhirui Liu (Sun Yat-sen University, China), Xin Huang (Sun Yat-sen University, China), Chunlin Luan (Sun Yat-sen University, China), Yinda Chen (Sun Yat-sen University, China), Guanchen Yao (Sun Yat-sen University, China), Jialing Yang (Sun Yat-sen University, China), Heidi Ottevaere (Vrije Universiteit Brussel, Belgium), Yunfeng Nie (Vrije Universiteit Brussel, Belgium), and Wenqi Ren (Sun Yat-sen University, China)

Improving Multi-Object Tracking Performance via Graph-Augmented Detection Under Computational Constraints 297
Peiqi Liu (Beihang University, China) and Wenling Li (Beihang University, China)

A Big Data-Oriented Robust Local-Region Image Watermarking Framework with Adaptive Geometric Correction 306
Yantao Li (Jinan University, China), Ziqiao Liu (Jinan University, China), and Bingwen Feng (Jinan University, China)

Session 5B: AI for Complex Data

Multi-Dimensional Neural Mesh Compression via Joint 2D-3D Optimization 313
Yuteng Liu (Beijing Technology and Business university, China) and Haisheng Li (Beijing Technology and Business university, China)

LED: A Benchmark for Evaluating Layout Error Detection in Document Analysis 317
Inbum Heo (chungnam national university, South Korea), Taewook Hwang (chungnam national university, South Korea), Jeesu Jung (chungnam national university, South Korea), and SangKeun Jung (chungnam national university, South Korea)

Hierarchical Group-Based Shapley Explanation for Interpretable Financial Fraud Detection 325
Seungho Choi (Seoul National University, South Korea), Seonkyu Lim (Korea Financial Telecommunications and Clearings Institute, South Korea), Kwanggeun Kim (Sogang University, South Korea), and Jinwook Seo (Seoul National University, South Korea)

MEDKGC: A Mixture-of-Experts Enhanced Diffusion Model for Multimodal Knowledge Graph Completion 333
Xu Hou (Beijing University of Posts and Telecommunications, China), Meiyu Liang (Beijing University of Posts and Telecommunications, China), and Wei Huang (Beijing University of Posts and Telecommunications, China)

Poster Papers

Evaluating Robustness and Generalization in LLMs Under Adversarial and Real-World Conditions 341
Yiğit Demirşan (Ozyegin University, Turkey) and Olcay Taner Yıldız (Ozyegin University, Turkey)

Chaos-Aided Image Encryption in the Complex-Valued Domain 350
Ying Wang (The First Affiliated Hospital of Jinan University, China), Ying Xu (Jinan University, China), Hao Cheng (Jinan University, China), Jihang Luo (The First Affiliated Hospital of Jinan University, China), Danxian Jiang (Affiliated Hospital of Guangdong Medical University, China), Guoxia Jia (The First Affiliated Hospital of Jinan University, China), Weixiang Chen (The First Affiliated Hospital of Jinan University, China), Shuwen Zeng (The First Affiliated Hospital of Jinan University, China), Meng Xu (The First Affiliated Hospital of Jinan University, China), and Yin Li (The First Affiliated Hospital of Jinan University, China)

CTLKE: Keyphrase Extraction Agent for Chinese Technical Literature 354
Taorui Chen (South China University of Technology, China), Jianqiang Xiao (Harbin Institute of Technology, Shenzhen, China), and Huan Wang (Industrial Technology Research Center, Guangdong Institute of Scientific & Technical Information, China)

Edge-Gated Graph Attention Network for Graph Classification 358
Chi Chen (Beijing Institute of Technology, China), Shiyu Hou (Beijing Institute of Technology, China), Ye Yuan (Beijing Institute of Technology, China), Guangqing Zhong (Fabarta Co., Ltd., China), and LianPeng Qiao (Beijing Institute of Technology, China)

Multi-Modal Semantics Enhanced Graph Convolutional Network for Session-Based Recommendation 362
Chuanxu Jia (Shandong University of Science and Technology, China), Jinyu Zhang (Shandong University of Science and Technology, China), Yunhang Li (Qingdao Huanghai University, China), Hui Zhou (Shandong University of Science and Technology, China), Xiaoxue Yang (Qingdao Huanghai University, China), and Zhongying Zhao (Shandong University of Science and Technology, China)

ESG-LLM: An Instruction-Finetuned Large Language Model for Corporate ESG Scoring 366
Yawen Li (Beijing University of Posts and Telecommunications, China), Weitao Wang (Beijing University of Posts and Telecommunications, China), Mengyu Zhuang (Beijing University of Posts and Telecommunications, China), and Taikang Tian (Beijing University of Posts and Telecommunications, China)

Quantum Machine Learning-Aided Personalized Federated Learning for Big Data 370
Doan Hieu Nguyen (Pusan National University, South Korea), Xuan Tung Nguyen (PHENIKKA University, Vietnam), Joon-Ho Kwon (Pusan National University, South Korea), and Won-Joo Hwang (Pusan National University, South Korea)

A Novel Large-Small Model Collaboration Framework for Code Generation: Balancing Cost and Accuracy 374
Chengming Liu (Wuhan University of Technology, China), Chenxuan Hu (Wuhan University of Technology, China), Shiran Tao (Wuhan University of Technology, China), and Fuyang Li (Wuhan University of Technology, China)

Optimizing Random Forest Hyperparameters: A Theoretical and Empirical Analysis of Variance Scaling 378
Imani Beckett (University of California San Diego, United States)

EmoSSM:AnEmotionally-Driven State Space Model for Mental Health Detection on Social Media . 382
Limiao Zhang (State Key Laboratory of Opto-Electronic Information Acquisition and Protection Technology, Anhui University), Xinyu Liu (Information Materials and Intelligent Sensing Laboratory of Anhui Province, Anhui University), Xinyang Qi (Institutes of Physical Science and Information Technology, Anhui University), and Haiping Ma (Institutes of Physical Science and Information Technology, Anhui University)

Workshop Papers

The 6th International Workshop on Conceptual Model (Concept 2026)

Motion Cues for Robust Continuous Sign Language Recognition: Baselines and Diagnostics 386
Nirmal Adhikari (Inha University, South Korea), Chingiz Tursunbaev (Inha University, South Korea), and Wookey Lee (Inha University, South Korea)

Enhancing Sign Language Recognition: A Computationally Efficient and Interpretable Multi-Modal Approach 390
Chingiz Tursunbaev (Inha University, Korea), Mukhiddin Toshpulatov (Inha University, Korea), Nirmal Adhikari (Inha University, Korea), and Wookey Lee (Inha University, Korea)

A Data-Oriented Conceptual Model and Hybrid TDNN–BiLSTM Framework for Context-Aware Speaker Verification in Smart Environments 394
Sundareswari Thiyagarajan (Inha University, South Korea) and Deok-Hwan Kim (Inha University, South Korea)

IEEE BigComp 2026 Workshop on Efficient Data Representation and Learning (EDRL 2026)

Enhancing GNN Learning on Relational Databases Using Semantic Clustering-Based Graph Enrichment 398
Hwiseung Son (Sungkyunkwan University, Korea), Kunyoung Kim (Sungkyunkwan University, Korea), Donggyu Kim (Sungkyunkwan University, Korea), and Mye Sohn (Sungkyunkwan University, Korea)

MiENet:A Mixture Expert Network for Dynamic Computing Resource Prediction 405
Mingdong He (Guangdong Power Grid Corporation, China), Zhaoyi Yang (Guangdong Power Grid Corporation, China), Chuangye Zhao (Guangdong Power Grid Corporation, China), Lei Xu (Guangdong Power Grid Corporation, China), Hao Wei (Guangdong Power Grid Corporation, China), Bo Li (Guangdong Power Grid Corporation, China), Xiaobo Huang (Guangdong Power Grid Corporation, China), and Liquan Luo (Guangdong Power Grid Corporation, China)

Pairwise Judgment Formulation for Semantic Embedding Model in Web Search 413
Mengze Hong (Hong Kong Polytechnic University), Di Jiang (Hong Kong Polytechnic University), Zichang Guo (Hong Kong Polytechnic University), and Chen Jason Zhang (Hong Kong Polytechnic University)

Trust-Free Personalized Decentralized Learning 418
Yawen Li (Beijing University of Posts and Telecommunications, China), Yan Li (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), Yingxia Shao (Beijing University of Posts and Telecommunications, China), Meiyu Liang (Beijing University of Posts and Telecommunications, China), and Guanhua Ye (Beijing University of Posts and Telecommunications, China)

TTParser: Leveraging LLM for Enhanced Mapping of ATT&CK Tactics, Techniques, and Procedures in Unstructured Cyber Threat Intelligence 426
Yongxin Cai (Guangzhou University, China), Huacong Zhou (Guangzhou University, China), Zeyan Wang (Guangzhou University, China), Jingchao Chen (Guangzhou University, China), Zhenqi Cai (Guangzhou University, China), Jing Qiu (Guangzhou University, China), and Zhe Li (Hebei Utilization and Planning Institute of Natural Resources, China)

Demo Papers

Building Futures: LLM-Guided Career Pathways for Australia's Construction Graduates 433
Yi Ding (University of New South Wales, Australia), Diya Yan (University of New South Wales, Sydney, Australia), Xushuo Tang (University of New South Wales, Australia), Ziyao Lu (University of New South Wales, Australia), Wenqian Zhang (University of New South Wales, Australia), Riza Y. Sunindijo (University of New South Wales, Australia), Cynthia C. Wang (University of New South Wales, Australia), and Zhengyi Yang (University of New South Wales, Australia)

SDMC : A System for Analyzing Supply-Demand Matching in Community Life Circles 437
Zhangjun Wang (Yunnan University, China), Kaikai Guo (Yunnan University, China), Hongmei Chen (Yunnan University, China), and Lobsang Tashi (Yunnan University, China)

VARTS: A Tool for the Visualization and Analysis of Representative Time Series Data 441
Duosi Jin (Nanjing University of Aeronautics and Astronautics, China), Jianqiu Xu (Nanjing University of Aeronautics and Astronautics, China), and Guidong Zhang (Guangdong University of Technology, China)

A Tool for Semantic-Aware Spatial Corpus Construction 445
Wei Huang (Nanjing University of Aeronautics and Astronautics, China), Xieyang Wang (Nanjing University of Aeronautics and Astronautics, China), Jianqiu Xu (Nanjing University of Aeronautics and Astronautics, China), and Guidong Zhang (Guangdong University of Technology, China)

Author Index **449**
