## CONTENTS

### ***Plenary Session***

- D. Mazmanov, L. Manukyan, D. Kakulia, A. Razmadze, L. Shoshiashvili, R. Zaridze*, MAS based software for the solving of diffraction and SAR problems on unbounded objects ..... 11
- O. V. Kusyi, N. N. Voitovich, O. F. Zamorska*, Recognition of irregular waveguide geometry using opposite directions technique ..... 17
- E. A. Gevorkyan*, The application of double-scale expansion method for the solving of the wave equation with periodic coefficients..... 21
- Yide Zhou, Jianbo Wu, Ruiliang Yang, Xiaowei Fan*, Reconstructing the acoustic pressure field using spheroidal wave functions ..... 25

### ***Electromagnetic Theory***

- B. Z. Katsenelenbaum*, Inverse scattering from bodies with impedance boundary 31
- A. G. Sveshnikov, A. N. Bogolyubov, M. D. Malykh, J. V. Mukhartova*, The solution of the boundary problem for an arbitrary elliptic operator satisfying the radiation condition..... 35
- O. O. Drobakhin, A. V. Doronin*, Neural network inverse method for dielectric structures by multifrequency signals ..... 39
- O. M. Dumin, O. O. Dumina, V. O. Katrich*, Comparative analysis of the analytical and numerical solutions of transient wave propagation problem ..... 43
- G. I. Koshovy, A. G. Koshovy*, On interaction between the E-polarized electromagnetic wave and the CSA-pre-fractals ..... 47

### ***Non-homogeneous Media***

- Akleman Funda, Yapar Ali* Reconstruction of longitudinally inhomogeneous dielectric in waveguides via integral equation technique..... 53
- Özdemir Özgür, Altuncu Yasemin*, On the relation between surface impedance and shape of the perfectly conducting objects..... 59
- Yaman Fatih, Yapar Ali*, One-dimensional profile inversion of a planar layer bounded by an inhomogeneous impedance boundary ..... 65
- V. F. Borulko*, Superluminal tunneling and negative group delay in layered Bragg structures..... 71
- V. F. Borulko*, Bragg phenomena on metal plane with section of quasiperiodic spatial perturbation of surface impedance..... 74
- Z. Modebadze, B. Partcvania, T. Surguladze, L. Shoshiashvili*, Experimental and numerical study of electromagnetic field influence on mollusk neurons..... 78

## ***Waveguide and Dielectric Structures***

<i>L. E. Berdzenishvili, E. B. Jakobia</i> , Study of inductive losses in waveguide spoke-like lasers on neodymium-doped silicate glasses .....	87
<i>D. G. Kakulia, G. G. Kajaia, G. N. Ghvedashvili, D. D. Karkashadze, R. S. Zaridze</i> , Transmission characteristics of dielectric layers with periodical dents .....	91
<i>V. V. Yatsyk</i> , Diffraction on layered dielectric structure with weakly Kerr-like nonlinearity.....	95
<i>M. V. Andreev, S. G. Aleksin, O. O. Drobakhin, V. G. Korotkaya</i> , 1-D inverse problem solution for dielectric structure with discrete profile of permittivity: Gel'fand-Levitan method .....	99

## ***Antennas and Arrays***

<i>B. M. Levin</i> , Reflectarray with any given radiation direction .....	105
<i>B. M. Levin</i> , Method of calculation of two-layer reflectarray with microstrip radiators.....	109
<i>M. B. Protsenko, S. V. Nesteruk</i> , Research of antenna with controlled radiation polarization.....	113
<i>I. I. Zinenko, V. P. Pyankov, V. P. Chumachenko</i> , Analysis of a flanged sectoral horn loaded with dielectric plug.....	117
<i>M. I. Andriychuk</i> , Calculation and optimization of the antenna array radiation patterns in 3-D case .....	121

## ***Acoustics***

<i>O. Pidubniak, N. Pidubniak</i> , Transition and resonance processes in the material of an acoustic rototron.....	127
<i>O. Pidubniak, N. Pidubniak</i> , Pulse radiation by acoustic rototron.....	133
<i>Nikolaos L. Tsitsas, Christodoulos Athanasiadis</i> , Direct and inverse acoustic spherical wave scattering by a small layered sphere with soft core .....	139
<i>Christodoulos Athanasiadis, Nikolaos L. Tsitsas</i> , Scattering relations for interior acoustic excitation of a layered obstacle with a soft or hard core.....	143
<i>Ya. I. Kunets, V. V. Matus, V. V. Porokhovs'kyj, V. O. Mishchenko</i> , Remote definition of mechanical and geometric parameters of thin spatial plane inclusions of low contrast.....	147

## ***Analytical and Numerical Methods***

<i>A. D. Polishchuk</i> , Construction of boundary operators for the Laplacian in the case of tired surface. – I. Using the simple layer potential .....	153
<i>A. D. Polishchuk</i> , Construction of boundary operators for the Laplacian in the case of tired surface. – II. Using the double layer potential.....	157

<i>Yu. P. Topolyuk</i> , Convergence of gradient method for free phase problem with isometric operator.....	161
<i>V. Biletskyi, S. Yaroshko</i> , A method of generalized separation of variables for solving three-dimensional integral equations.....	164
<i>I. V. Tupyshak, N. N. Voitovich</i> , Real vanishing solutions to nonlinear equation related to modified phase problem.....	169
<i>P. O. Savenko, M. D. Tkach, L. P. Protsakh</i> , Implicit function method in solving of nonlinear two-dimensional spectral problem.....	173

***Numerical Simulation and Reconstruction***

<i>A. Bijamov Jr, D. Kakulia, G. Saparishvili, T. Gogua, D. Karkashadze, R. Zaridze</i> , Software for 3D computer simulation of complex material based devices.....	181
<i>V. Tabatadze, D. Kakulia, G. Ghvedashvili, G. Saparishvili, R. Zaridze</i> , Visualization of the body front-face area based on total field reconstruction .....	185
<i>O. V. Kusyi</i> , Body shape reconstruction by its scattering patterns. Influence of data distortion.....	189
<i>A. R. Sydor</i> , Analysis of reliability indices for compound electromagnetic systems .....	193
<i>D. Karkashadze, L. Shoshiashvili, G. Ghvedashvili, D. Kakulia, G. Kajaia, T. Gogua</i> , 3D IWGA Source in FDTD modeling .....	197
<i>L. Shoshiashvili, A. Razmadze, N. Jejelava, R. Zaridze, L. G. Bit-Babik, A. Faraone</i> , Validation of numerical bioheat FDTD model .....	201
