### **Topic 0: Non-Preferential Topic**

#### **Equipment for Enhancing Power Quality**

|  |                               |    |
|--|-------------------------------|----|
| Chair:   | Dennis Hansen, PacifiCorp     |    |
| Sponsored by:  | Transmission and Distribution |    |
| Compensation of Particle Accelerator Load Using Converter Controlled Pulse Compensator |                               |    |
| Dragan Jovicic and Karsten Kahle .....   |                               | 1  |
| TS-Fuzzy Controlled Active Power Filter for Load Compensation                          |                               |    |
| Sukumar Mishra .....   |                               | 2  |
| Improvement of Power Quality by VSC Based Multi-Terminal HVDC                          |                               |    |
| Hairong Chen; Fan Zhang and Yong Chang .....   |                               | 3  |
| An Optimum Reactance One-Port Compensator for Harmonic Mitigation                      |                               |    |
| Ehab F. El-Saadany and Hatem H. Zeineldin.....   |                               | 9  |
| Application of UPQC to Protect a Sensitive Load on a Polluted Distribution Network     |                               |    |
| Vinod Khadkikar; Ambrish Chandra; Alpha Oumar Barry and Thuy Doan Nguyen .....         |                               | 15 |

#### **Impact of Industry Restructuring on System Dynamic Performance - Utility Experiences, Morning Session**

|  |  |    |
|--|--|----|
| Chair:   | Antonio Conejo, University of Castilla-La Mancha |    |
| Sponsored by:  | Power System Dynamic Performance                 |    |
| Power System Security in Market Clearing and Dispatch Mechanisms   |  |    |
| Claudio A. Canizares and Sameh K.M. Kodsi .....  |  | 21 |
| Utility Experience   |  |    |
| Narinder K. Saini.....   |  | 27 |
| Impact of Industry Restructuring on System Dynamic Performance   |  |    |
| Nisheeth K. Singh .....  |  | 28 |
| Impact of Industry Restructuring on the Chilean Central Interconnected System Security and Dynamic Performance |  |    |
| Luis S. Vargas; Ernesto Huber and Rodrigo Palma-Behnke .....   |  | 35 |
| Dynamic Security Issues in the Italian Deregulated Power System  |  |    |
| Alberto Berizzi and Marino Sforna .....  |  | 38 |

# PES 2006

## Table of Contents

### **Impact of Industry Restructuring on System Dynamic Performance- Afternoon Session: New Tools and Trends**

|  |                                  |    |
|--|----------------------------------|----|
| Chair:   | Yong-Hua Song, Brunel University |    |
| Sponsored by:  | Power System Dynamic Performance |    |
| New Tools for Power System Dynamic Performance Management  |                                  |    |
| W. Rosehart; Antony Schellenberg and Codruta Roman .....   |                                  | 45 |
| Incorporating Dynamic Security Into Market Dispatch Using Accurate Transient Stability Constraints   |                                  |    |
| B Jayasekara and Udaya D. Annakkage .....  |                                  | 52 |
| Control Frame for Synchronous Stability of Interconnected Power Systems in Deregulated Environments  |                                  |    |
| Yixin Ni; Kenny K.Y. Poon; Haoming Liu; Zhou Lan; Haojun Zhu and Lin Zhu .....   |                                  | 58 |
| Determining the Cost of Dynamic Control Capacity for Improving System Efficiency   |                                  |    |
| Marcelo A. Elizondo; Marija D. Ilic and Pedro E. Mercado .....   |                                  | 65 |
| Transient Stability Preventive Control and Optimization via Power Systems Stability Region Analysis  |                                  |    |
| Huanhai Xin; Deqiang Gan; Yinhui Li; Tak Shing Chung and Jiaju Qiu .....   |                                  | 74 |
| Development of Applications in WAMS and WACS: An International Cooperation Experience  |                                  |    |
| Massimo La Scala; Michele De Benedictis; Sergio Bruno; Andrey Grobovoy; Natalia Bondareva; Natalya Borodina; Darya Denisova; Alain J. Germond and Rachid Cherkaoui ..... |                                  | 82 |
| Sensitivity-Based Security-Constrained OPF Market Clearing Model   |                                  |    |
| Federico Milano; Antonio J. Conejo and Claudio A. Canizares .....  |                                  | 92 |

### **Introducing the New IEEE 1453 Flicker Standard**

|   |                               |    |
|---|-------------------------------|----|
| Chair:  | Reuben Burch, Alabama Power   |    |
| Sponsored by:                                       | Transmission and Distribution |    |
| IEEE 1453 - How Well Does it Work in the Real World |                               |    |
| Reuben F. Burch .....                               |                               | 93 |
| The Flicker Meter - IEEE Std. 1454-2004             |                               |    |
| James M. Wikston .....                              |                               | 95 |
| Update on Revisions to IEC Standard 61000-3-7       |                               |    |
| S. Mark Halpin and Germain Beaulieu .....           |                               | 97 |

# PES 2006

## Table of Contents

Application of IEC Flicker Standards to Korean Distribution Systems  
Soo-Hwan Cho; Young-Soo Jang; Gilsoo Jang; Sae-Hyuk Kwon;  
Young-Soo Jeon; No-Hong Kwak and Sung-Woo Lee..... 99

### System Identification and Stability

Chair: Thierry Van Cutsem, University of Liege  
Sponsored by: Power System Dynamic Performance

Estimation of Grid Parameters for the Control of Variable Series Reactance  
FACTS Devices  
Nicklas P. Johansson; Hans-Peter Nee and Lennart Angquist ..... 105

Damping Torque Estimation and Oscillatory Stability Margin Prediction  
Hassan Ghasemi and Claudio A. Canizares ..... 112

Model Validation with Hybrid Dynamic Simulation  
Zhenyu Huang; Dmitry Kosterev; Ross Guttromson and Tony Nguyen..... 118

A Methodology for Parameter Estimation of Synchronous Generators Based on  
Trajectory Sensitivity and Synchronization Technique  
Elmer Pablo Tito Cari; Luis Fernando Costa Alberto and Newton G. Bretas. 127

Validation of a Two-Time Step HVDC Transient Stability Simulation Model  
Including Detailed HVDC Controls and DC Line L/R Dynamics  
Rebecca M. Brandt; Udaya D. Annakkage; Dennis P. Brandt and  
Niraj Kshatriya ..... 133

Development of New Technologies and Functions for the On-Line TSC System  
Akira Takeuchi; Takashi Sato; Hideaki Nishiiri; Toshiyuki Kajihara;  
Yutaka Kokai and Masahiro Yatsu..... 139

Dynamic Event Detection Using Wavelet Analysis  
Kejun Mei; Steven M. Rovnyak and Chee-Mun Ong ..... 147

### Transmission Expansion Planning

Chair: Ron Chu, Exelon - PECO Energy  
Sponsored by: Power System Analysis, Computing and Economics

Transmission System Expansion Planning Using a Sigmoid Function to Handle  
Integer Investment Variables  
Ivo C. Silva Jr.; Edimar J. Oliveira; Jose Luiz R. Pereira and  
Sandoval Carneiro Jr. .... 154

A New Method for Allocating Embedded Cost of Transmission Under Deregulated  
Environment of Power System  
Yog Raj Sood; Narayana Prasad Padhy and H.O. Gupta ..... 155

# PES 2006

## Table of Contents

|  |     |
|--|-----|
| Market-Based Transmission Investment Under Perfect Competition: Is it Efficient?<br>Wenzhuo Shang and Oscar Volij .....  | 163 |
| Reference Transmission Network: A Game Theory Approach<br>Anna Minoia; Damien Ernst; Maria Dicorato; Michele Trovato and<br>Marija D. Ilic .....   | 171 |
| An Integrated Economic Impact Assessment Index on Transmission Expansion<br>Fenglei Zheng; Yao Zhang and Yunhe Hou.....  | 172 |
| Testing the Effects of Power Transfers on Market Performance and the<br>Implications for Transmission Planning<br>Timothy D. Mount and Robert J. Thomas.....   | 178 |
| <b>Computer Simulation Platforms and Interfaces for Power Systems</b>  |     |
| Chair: Chika Nwankpa, Drexel University<br>Sponsored by: Power System Analysis, Computing and Economics  |     |
| Automation of Transmission Planning Analysis Process Using Python and GTK+<br>John Condren and Seungwon An .....   | 185 |
| Human Factor Aspects of Three-Dimensional Visualization of Power System<br>Information<br>Douglas A. Wiegmann; Thomas J. Overbye; Stephan M. Hoppe;<br>Gavin R. Essenberg and Yan Sun.....                     | 193 |
| Real Time Interface for Interconnecting Fully Digital and Analog Simulators Using<br>Short Line or Transformer<br>Suresh Chand Verma; Hideki Odani; Shigeaki Ogawa; Kenichi Kuroda and<br>Yoshiyuki Kono ..... | 200 |
| Development of a Grid Computing Platform for Electric Power System<br>Applications<br>Qi Huang; Kaiyu Qin and Wenyong Wang .....   | 207 |
| A Novel Grid Computing Approach for Probabilistic Small Signal Analysis<br>Zhao Xu; Mohsin Ali; Zhao Yang Dong and Xue Li .....  | 214 |
| <b>Congestion Management and Curtailment</b>   |     |
| Chair: Paolo Marannino, Universit degli Studi di Pavia<br>Sponsored by: Power System Analysis, Computing and Economics   |     |
| Line Impact Cost Concept to Calculate Congestion Costs in Deregulated Electricity<br>Market<br>Brinda Malladi; Bala Venkatesh and Eugene F. Hill .....   | 222 |

# PES 2006

## Table of Contents

A Study on Congestion Management Improvement in ERCOT Market  
 Jun Yu; Shuye Teng; Brandon Whittle and Yongjun Ren..... 228

A Study of Curtailment Model of Bilateral Transaction Based on Relative Entropy  
 Hongming Yang; Renjun Zhou and Mingyong Lai..... 234

A Decoupled Semismooth Newton Method for Optimal Power Flow  
 Xiaojiao Tong; Yongping Zhang and Felix F.Wu..... 240

Application of a Coordinated Auctioning Method for the Allocation of Cross  
 Border Transmission Capacities in the European System  
 Paolo Marannino; Fabio Zanellini; Paola Bresesti and Riccardo Vailati ..... 246

### Distribution

Chair: TBD  
 Sponsored by: Transmission and Distribution

Capacitor Switching and Network Reconfiguration for Loss Reduction in  
 Distribution System  
 Zhang Dong; Fu Zhengcai; Du Y. and Zhang Liuchun..... 254

Dynamic Voltage Support of the Transmission Network from Distribution Level  
 Slaven Kincic; Ambrish Chandra; Pierre-Jean LagacØand Milorad Papic ..... 260

Developing a Comprehensive Substation Cyber Security and Data Management  
 Solution  
 Ashvin Sologar and Jerrod Moll..... 268

A New Arcing Fault Modeling and Detection Technique for Navy IPS Power  
 System  
 James A. Momoh and Ayodele S. Ishola-Salawu..... 274

### Distribution - Modeling and Analysis

Chair: TBD  
 Sponsored by: Transmission and Distribution

Load Fluctuation Analysis of Commercial and Residential Customers for  
 Operation Planning of a Hybrid Photovoltaic and Cogeneration System  
 Hiroshi Asano and Shigeru Bando ..... 281

Load Profiling and Data Mining Techniques in Electricity Deregulated Market  
 Anisah Hanim Nizar; Zhao Yang Dong and Junhua H. Zhao ..... 287

Economical Evaluations of Reactive Power Supply as an Ancillary Service Offered  
 by Distributors  
 Mariano G. Ippolito; Fabio Massaro; Gabriele Pecoraro and  
 Eleonora Riva Sanseverino ..... 294

# PES 2006

## Table of Contents

Effective Heuristic Approach for Loss Reduction in Distribution Networks.  
Sang Yule Choi ..... 299

An Optimized Diagnostic Architecture for Real-Time Monitoring of MV Networks  
Angelo Campocchia; Iolanda Incontrera and Eleonora Riva Sanseverino ..... 305

### Heuristic Optimization Techniques for Power Systems

Chair: Karen N. Miu, Drexel University  
Sponsored by: Power System Analysis, Computing and Economics

Optimal Metering Systems for Monitoring Power Networks Under Multiple  
Topological Scenarios  
Julio Cesar Souza; Milton Brown Do Coutto Filho; Marcus Schilling and  
Charles Capdeville ..... 311

Optimal Switching Placement for Customer Interruption Cost Minimization  
Chia-Hung Lin; Chao-Shun Chen; Hui-Jen Chuang; Chung-Sheng Li;  
Ming-Yang Huang and Chia-Wen Huang ..... 312

A Multi-Objective Genetic Algorithm Approach to Optimal Allocation of Multi-  
Type FACTS Devices for Power Systems Security  
Daniel Radu and Yvon Bøanger ..... 318

Coordinated Aggregation Particle Swarm Optimization Applied in Reactive Power  
and Voltage Control  
John G. Vlachogiannis and Kwang Y. Lee ..... 326

Ant Colony System Based Unit Commitment Problem with Gaussian Load  
Distribution  
Sishaj P. Simon; Narayana Prasad Padhy and R.S. Anand..... 332

A Fault-Tolerant P-Q Decoupled Control Scheme for Static Synchronous Series  
Compensator  
Wei Qiao; Ronald G. Harley and Ganesh Kumar Venayagamoorthy ..... 340

### Load and Price Forecasting

Chair: Alexandre Alves Da Silva, Federal University of Rio de Janeiro / COPPE  
Sponsored by: Power System Analysis, Computing and Economics

Economic Impact Assessment of Load Forecast Errors Considering the Cost of  
Interruptions  
Miguel A. Ortega-Vazquez and Daniel S. Kirschen..... 348

Electricity Price Forecasting with Effective Feature Preprocessing  
Junhua Zhao; Zhao Yang Dong and Xue Li..... 356

# PES 2006

## Table of Contents

|  |     |
|--|-----|
| Forecasting the Hourly Ontario Energy Price by Multivariate Adaptive Regression Splines<br>Hamidreza Zareipour; Kankar Bhattacharya and Claudio A. Canizares .....   | 364 |
| A Study of ERCOT Real-Time Energy Market Price<br>Jun Yu and Sharon Xuanyuan Wang.....   | 371 |
| <b>Multi-Agent Systems for Power Systems</b>   |     |
| Chair: David Cartes, Florida State University<br>Co-Chair: Sanjeev Srivastava, Florida State University<br>Sponsored by: Power System Analysis, Computing and Economics  |     |
| Evaluating Congestion Management Schemes in Liberalized Electricity Markets Using an Agent-Based Simulator<br>Thilo Krause and G ran Andersson .....   | 377 |
| An Agent-Based Negotiation Method for Bilateral Contracts of Energy<br>Ashkan Rahimi-Kian; Hamed Kebriaei and Farnaz Mahan .....   | 385 |
| Applying Multi-Agent System Technology in Practice: Automated Management and Analysis of SCADA and Digital Fault Recorder Data<br>Euan M. Davidson; Stephen D.J. McArthur; James R. McDonald;<br>Tom Cumming and Ian Watt..... | 393 |
| Agent-Based Distributed Simulation<br>Jian Wu; Noel N. Schulz and Wenzhong Gao.....  | 394 |
| Integrating Virtual Test Bed and JADE Agent Platform Using CORBA for Reconfiguration of Shipboard Power Systems<br>Gilberto Morejon; Sanjeev K. Srivastava and David A. Cartes .....   | 400 |
| <b>Optimal Allocation of Static and Dynamic Vars</b>   |     |
| Chair: Venkataramana Ajjarapu, Iowa State University<br>Sponsored by: Power System Dynamic Performance   |     |
| Dynamic Versus Steady-State Modeling of FACTS Controllers in Transmission Congestion<br>Claudio A. Canizares and Sameh K.M. Kodsi .....  | 406 |
| Performing Comprehensive Voltage Stability Studies for the Determination of Optimal Location, Size and Type of Reactive Compensation<br>Pouyan Pourbeik; Rodolfo J. Koessler; William Quaintance and<br>Willie Wong .....      | 412 |
| Voltage Stability and Voltage Recovery: Load Dynamics and Dynamic VAR Sources<br>A.P. Sakis Meliopoulos; George J. Cokkinides and George Stefopoulos .....   | 418 |

# PES 2006

## Table of Contents

Determining Reactive Power Requirements in the Southern Part of the Entergy System for Improving Voltage Security - A Case Study  
 Venkat S. Kolluri and S. Mandal..... 426

A Normal-Form Based Approach to Place Power System Stabilizers  
 Shu Liu; A.R. Messina and V. Vittal..... 431

### Simulation and Control

Chair: Udaya Annakkage, University of Manitoba  
 Sponsored by: Power System Dynamic Performance

The Integrated Simulation Platform for Islanding Control of Large-Scale Power Systems: Theory, Implementation and Test Results  
 Ying Qiao; Chen Shen; Jiayun Wu and Qiang Lu..... 438

Real Time Dynamic Simulator for Power System Control Applications  
 Rajat Majumder; Balarko Chaudhuri; Bikash C. Pal and Christian Dufour .... 446

A Novel SVC Supplementary Controller Based on Wide Area Signals  
 Yong Chang; Zheng Xu; Gaihong Cheng and Jiani Xie ..... 453

Parameter Dependent Control Lyapunov Function for Series and Shunt FACTS Devices Considering Uncertain Power System Model  
 FLÁvio H.J.R. Silva; Renato B.L. Guedes; Lu s Fernando Costa Alberto and Newton G. Bretas ..... 460

Analysis of System Oscillations Using Wide-Area Measurements  
 Joshua K. Wang; Robert M. Gardner and Yilu Liu..... 466

Robustness Analysis of Large Power Systems with Parametric Uncertainties  
 R. Castellanos.; C. Juarez ; Jesus H. Hernandez and A.R. Messina ..... 472

Hybrid HVDC Converters and Their Impact on Power System Dynamic Performance  
 B. Qahraman; Ani M. Gole and I.T. Fernando..... 480

### T&D- New Issues and New Directions

Chair: Sukumar Bramha, Widener University  
 Sponsored by: Transmission and Distribution

Small Nuclear Power Generation Units, and Electric Power System Interconnection  
 Sang-Seung Lee; Jong-Keun Park; Seung-II Moon; Yong-Tae Yoon; Jong-Won Kim and Goon-Cherl Park ..... 486

# PES 2006

## Table of Contents

|   |     |
|---|-----|
| SF6 Leak Rates from High Voltage Circuit Breakers - U.S. EPA Investigates<br>Potential Greenhouse Gas Emissions Source<br>Jerome Blackman; Mollie Averyt and Zephyr Taylor.....   | 492 |
| Autonomous Control of Microgrids<br>Paolo Piagi and Robert H. Lasseter.....   | 496 |
| A Concept for Dual Gaseous and Electric Energy Transmission<br>Patrick Favre-Perrod and Andreas Bitschi .....   | 504 |
| <b>Controller Design and System Control</b>   |     |
| Chair: Young-Hyun Moon, Yonsei University<br>Sponsored by: Power System Dynamic Performance<br>Performance Evaluation of the On-Line Transient Stability Control System<br>(On-Line TSC System)<br>Akira Takeuchi; Yoshihito Niwa; Masato Nakane and Tadashi Miura..... | 511 |
| Wide-Area Robust $H_2/H_\infty$ Control with Pole Placement for Damping Inter-Area<br>Oscillations<br>He Chen; Zhizhong Guo and Hong Bai.....   | 518 |
| Nonlinear Control of Single-Machine-Infinite-Bus Transient Stability<br>Jason J. Ford; Gerard Ledwich and Zhao Yang Dong.....   | 525 |
| Novel Flux Modulated Positive and Negative Sequence Deadbeat Current Control<br>of Voltage Source Converters<br>Hailian Xie; Lennart Ljung and Hans-Peter Nee.....  | 533 |
| Influence of Transfer Conductance on Power System Stability with Excitation<br>Control<br>Yuanzhang Sun; Shan He; Romeo Ortega and Martha Galaz .....   | 541 |
| Robust Decentralized Controller Design for Power Systems Using Matrix<br>Inequalities Approaches<br>Getachew K. Befekadu and Istvan Erlich.....   | 547 |
| Constructive Nonlinear Control of the Parallel AC/DC Transmission System<br>Qing Zhong; Yao Zhang; Jinming Yang and Zhigang Wu .....  | 555 |
| Coordinate Damping Control of HVDC and SVC Based on Wide Area Signal<br>Yong Chang; Zheng Xu; Gaihong Cheng and Jiani Xie .....   | 561 |
| Simultaneous Design of Damping Controllers and Internal Controllers of a Unified<br>Power Flow Controller<br>M.A. Abido; Ali T. Al-Awami and Y.L. Abdel-Magid .....   | 568 |

# PES 2006

## Table of Contents

|   |     |
|---|-----|
| Robust Adaptive Control Design for Generator Excitation<br>Lan Zhou; Deqiang Gan and Yixin Ni .....   | 576 |
| Nonlinear Backstepping Design of Robust Adaptive Modulation Controller for TCSC<br>Lin Zhu; Haoming Liu; Zexiang Cai and Yixin Ni .....   | 581 |
| Optimal Design of Power System Stabilizers Using a Small Population Based PSO<br>Tridib K. Das and Ganesh Kumar Venayagamoorthy .....   | 587 |
| A Fuzzy Logic Decision Maker and Controller for Reducing Load Frequency Oscillations in Multi-Area Power Systems<br>Ismail H. Altas and Jelle Neyens.....                                   | 594 |
| Design of PSS and STATCOM-Based Damping Stabilizers Using Genetic Algorithms<br>Mohammad A. Abido.....  | 603 |
| Decentralized Extended-Backstepping Control of Power Systems<br>Ali Karimi and Ali Feliachi.....  | 611 |
| Application of the Optimal Damper on Damping Turbine-Generator Torque Vibrations in a HVDC Link<br>Jong-Ian Tsai and Ron-Ching Wu.....  | 619 |
| Design of Power System Stabilizer: A Comparison Between Genetic Algorithms (GAs) and Population-Based Incremental Learning (PBIL)<br>Komla A. Folly.....                                    | 626 |
| <b>Distribution -Economics and DSM</b>  |     |
| Chair: Yahia Baghzouz, University of Nevada Las Vegas<br>Sponsored by: Transmission and Distribution  |     |
| MW+MVAr-Miles Based Distribution Charging Methodology<br>Furong Li; Narayana Prasad Padhy; Ji Wang and Bless Kuri .....   | 634 |
| Determination of Time-Of-Day Schedules in the Portuguese Electric Sector<br>Isabel Apolinário; Nuno Felizardo; António Leite Garcia; Paulo Oliveira; Artur Trindade and Pedro Verdelho..... | 639 |
| Additive Tariffs in the Electricity Sector<br>Isabel Apolinário; Nuno Felizardo; António Leite Garcia; Paulo Oliveira; Artur Trindade and Pedro Verdelho.....                               | 647 |

# PES 2006

### Energy Markets

|   |  |
|---|--|
| Chair:  | Martin Baughman, University of Texas at Austin |
| Sponsored by:   | Power System Analysis, Computing and Economics |
| Market-Clearing with Stochastic Security Part I: Formulation<br>François Bouffard; Francisco D. Galiana and Antonio J. Conejo .....               | 663  |
| Market-Clearing with Stochastic Security Part II: Case Studies<br>François Bouffard; Francisco D. Galiana and Antonio J. Conejo .....             | 664  |
| Localized Reactive Power Markets Using the Concept of Voltage Control Areas<br>Jin Zhong; Emilia Nobile; Anjan Bose and Kankar Bhattacharya ..... | 665  |
| A Probability Model for the Electricity Price Duration Curve Under an Oligopoly Market<br>Jorge Valenzuela and Mainak Mazumdar .....              | 666  |
| An Oligopolistic Model of an Integrated Market for Energy and Spinning Reserve<br>Guillermo Bautista; Victor H. Quintana and Jose A. Aguado ..... | 667  |

### Lightning and Related Issues

|   |                               |
|---|-------------------------------|
| Chair:  | Bill Chisholm, Kinetrics      |
| Sponsored by:   | Transmission and Distribution |
| Influence of the Stroke Angle on the Flashover Rate of an Overhead Transmission Line<br>Juan A. Martinez and Ferley Castro-Aranda .....   | 668                           |
| Lightning Characterization for Flashover Rate Calculation of Overhead Transmission Lines<br>Juan A. Martinez and Ferley Castro-Aranda .....   | 674                           |
| Development of Arcing Horn Device for Interrupting Ground-Fault Current of 77 kV Overhead Lines<br>Mikimasa Iwata; Takashi Chino; Sugio Imoto; Masato Nakayama;<br>Hiroki Sakamoto and Ryoji Matsusihta ..... | 680                           |
| Automatic Fault Localization Based on Lightning Information<br>Janko Kosmac; Vladimir Djurica and Maks Babuder .....  | 681                           |

# PES 2006

## Table of Contents

### Modeling, Analysis and System Identification

Chair: Ali Feliachi, West Virginia University

Sponsored by: Power System Dynamic Performance

Equivalent Simplification of Torsional Dynamics in the Closely Coupled Identical Turbine-Generators

Xitian Wang and Yang Fan ..... 687

Nonlinear State Space Modeling of a Variable Speed Wind Power Generation System

S.H. Edjtahed; Mehdi Karrari; W. Rosehart and O.P. Malik ..... 691

A Detailed Pumped Storage Station Model for Power System Analysis

Huimin M. Gao and Chao Wang ..... 699

Contribution of Wind Farms to the Network Stability

Roberto D. Fernández; Ricardo J. Mantz and Pedro E. Battaiotto ..... 704

Dynamic Patterns and Model Order Reduction in Small-Signal Models of Doubly Fed Induction Generators for Wind Power Applications

Luis Rouco and Juan L. Zamora ..... 710

Increase of Fault Ride-Through Capability for the Grid-Connected Wind Farms

Hee-Sang Ko; Juri Jatskevich; Guy A. Dumont and Ali Moshref ..... 718

Study on Electromechanical Wave Continuum Model for Power Systems in Mechanics

Delin Wang; Xiaoru Wang and James S. Thorp ..... 724

A Bilinear Analysis Technique for Detection and Quantification of Nonlinear Modal Interaction in Power Systems

Jaime Arroyo; Emilio Barocio; Ramon Betancourt and A.R. Messina ..... 733

Stability and Voltage Regulation Enhancement Using an Optimal Gain Vector

Hassan Bevrani and Takashi Hiyama ..... 741

Three-Phase Voltage Stability Studies Embedding a StatCom

José Luis Murillo and Juan M. Ramirez ..... 747

Dynamic Phasor Estimates for Power System Oscillations and Transient Detection

Jose A. de la O Serna ..... 753

Identification of Critical Cluster in Transient Stability Study Using Line Potential Energy Method

W.P. Yuan; K.W. Chan and Y. Zhang ..... 760

## Table of Contents

Outage Data Concepts for Generation and Transmission Equipment  
 Don O. Koval and Ali A. Chowdhury ..... 4411

Power Plant Performance Indices in New Market Environment: IEEE Standard 762  
 Working Group Activities and GADS Database  
 G. Michael Curley ..... 4418

### Switchgear Poster Session

Chair: Jeff Nelson, TVA  
 Sponsored by: Switchgear

Design Objectives for Spring Mechanism Generator Circuit Breaker with High  
 Reliability  
 Jean-Marc Willieme; Denis Frigiére; Endre Mikes and  
 Georges F. Montillet ..... 4423

Condition Diagnostics of Energized Electrical Equipment: Case Studies  
 Albert Livshitz and Bella H. Chudnovsky ..... 4429

### Risk Management for Power System Economics

Chair: Richard B. Adler, Exelon - PECO Energy  
 Sponsored by: Power System Analysis, Computing and Economics

A Survey on Risk Management in Electricity Markets  
 Min Liu; Felix F. Wu and Yixin Ni ..... 4435

Risk Assessment of Strategies Using Total Time on Test Transform  
 Na Zhao; Yonghua Song and Helen Lu ..... 4441

Benchmarking of Hydroelectric Stochastic Risk Management Models Using  
 Financial Indicators  
 Niko A. Iliadis; Mario V.F. Pereira; Sérgio Granville; Matthias Finger;  
 Pierre Haldi and Luiz Augusto Barroso ..... 4449

Evaluation of Insurance on Generation Forced Outages  
 John N. Jiang; Hanjie Chen and Martin L. Baughman ..... 4457

Price Volatility and Service Interruption Risk-Hedging by Transmission Contract  
 Pathom Attaviryanupap and Akihiko Yokoyama ..... 4464
