

**ESMO 2006-2006 IEEE 11th
International Conference on
Transmission & Distribution
Construction, Operation and
Live-Line Maintenance**

**Albuquerque, NM
15-20 October 2006**

**IEEE Catalog Number:
ISBN:**

**06CH37844
1-4244-0723-0**

| | |
|---|------------|
| Implementing New Technology in an Aged Infrastructure: Case Study of Incremental Automation..... | 1 |
| <i>Steve Willard</i> | |
| Predicting Future Asset Condition Based on Current Health Index and Maintenance Level..... | 8 |
| <i>Thor Hjartarson, Shawn Otal</i> | |
| Infrastructure Aging and Maintenance Costs are Rising—Extending the Life Expectancy of Transmission Lines Through the Use of Data, Inspection and Planning..... | 16 |
| <i>Jennifer L. Johnson</i> | |
| Insulated Bus Pipe (IBP) for Power Utility Applications..... | 23 |
| <i>Richard Worth, Moni Islam, Charles Smith</i> | |
| A New Protection Scheme for Short Transmission Lines Using IEEE 802.11 Protocol..... | 28 |
| <i>M.M. Eissa, A.S. Ali, M.E. Masoud, K.M. Abdel-Latif</i> | |
| Temperature vs Reliability for Hardened Systems in Substations..... | 35 |
| <i>Jim Hammond</i> | |
| Dispelling the Myths Associated with Spread Spectrum Radio Technology in Electric Power SCADA Networks..... | 42 |
| <i>Dan Paladino</i> | |
| Energized Line Working with Polymer Insulators for Voltage 60 kV and Above..... | 48 |
| <i>Ed Hunt</i> | |
| Development of Automatic Cleaning Robot for Live-Line Insulators | 54 |
| <i>Byung-Hak Cho, Seung-Hyun Byun , Joon-Young Park, Jin-Seok Kim</i> | |
| Test Results-Test Method for Determining the Protective Performance of a Shield Attached on a Line Line Tools or on Racking Rods on Electric Arc Hazards | 59 |
| <i>Nestor Kolcio, Donald A. Gillies, John W. Page, Jim Stillwagon, Bohdan Kolcio</i> | |
| Development of Automatic Inspection Robot for Live-Line Insulators..... | 66 |
| <i>Joon-Young Park, Byung-Hak Cho, Seung-Hyun Byun</i> | |
| Line Scout Technology: Development of an Inspection Robot Capable of Clearing Obstacles While Operating on a Live Line | 73 |
| <i>Serge Montambault, Nicolas Pouliot</i> | |
| Safety of the Personnel Working on Multi-Circuit Power Overhead Lines Implies the Precise Knowledge of the Magnetic Induced Voltages. Algorithm, Software and Comparison with Measurements at Real Scale | 82 |
| <i>George A. Florea, Stelian I.A. Gal, Laurentiu Lipan, Elena Mateescu, Ilie Ardelean, Flavius D. Surianu</i> | |
| Personal Filters for Live-Line Workers to Mitigate the Biologic Impact of the Low Frequency Magnetic Field | 89 |
| <i>Ancu Dinca, George A. Florea, Stelian I.A. Gal</i> | |
| Causes and Control of the Maximum Anticipated Per-Unit Transient Overvoltage Factor (T) Used in Energized Work..... | 93 |
| <i>Charlie Grose</i> | |
| Recommended Practices for using a Helicopter in a Wire Environment..... | 99 |
| <i>Tom Verdecchio</i> | |
| Reliability Centered Maintenance Study on Voltage Regulators | 106 |
| <i>Damon W. Holladay, Bruce D. Dallman, Clifford H. Grigg</i> | |
| Methods to Mitigate Contamination and Moisture Ingress in Switchgear..... | 111 |
| <i>Jerry Baskin</i> | |
| Austin Energy Builds Stronger Distribution System, Cost Effectively with Steel Poles | 118 |
| <i>Jeff Padavick</i> | |
| Automatic Elevator System for Maintenance Services..... | 124 |
| <i>R. A. Roncolato, N. W. Romanelli, O. Horikawa, A Hirakawa, S.M. Amancio, M. Silverio</i> | |

| | |
|---|------------|
| Impacts of the Blackout on August 14 on the Renovation of Power Market in China | 129 |
| <i>C. Wang, H.He, T.X. Zhu</i> | |
| Snow Rescue Task Force..... | 134 |
| <i>Alex Marcoux, Art Seely</i> | |
| Utility Flight Operations, Flights for Light | 142 |
| <i>Norbert Kilroe</i> | |
| Induced Voltage in Parallel Transmission Lines Caused by Electric Field Induction | 150 |
| <i>Randy Horton, Mark Halpin, Keith Wallace</i> | |
| Engineered Wood Structures for the Electric Utility and Telecommunications Industries..... | 157 |
| <i>Robert Reisdorff</i> | |
| Dynamic Thermal Rating System Relieves Transmission Constraint | 165 |
| <i>Jerry Ausen, Bernard F. Fitzgerald, Ernest A. Gust, Daniel C. Lawry, John P. Lazar, Randall L. Oye</i> | |
| Using the Phaseraiser Structure Lifting System to Increase Groundline Clearances | 170 |
| <i>Robert Reisdorff</i> | |
| Guidelines for Emergency Resource Planning for Overhead Transmission Line Asset Planning | 177 |
| <i>Keith Lindsey</i> | |
| Bird on a Wire: An Elevated State..... | 188 |
| <i>Peggy Jellen, Carl Brittain, Gwyn McKee</i> | |
| On Site PD Diagnostics of Power Cables Using the Oscillating Voltage Method..... | 194 |
| <i>F. Petzold, M. Beigert, Edward Gulski, Henning Oetjen</i> | |
| Development of Improved Underground Distribution Power Cables..... | 201 |
| <i>Jae-Bong Lee, Ju-Yong Kim, Il-Keun Song, Byung-Sook Kim</i> | |
| Minimizing Outages and Safe Switching of Line Regulators..... | 208 |
| <i>C.E. Nielsen, Robert Indeliecto</i> | |
| Protective Grounding Methods and Requirements on Distribution Line Wood Pole Construction | 213 |
| <i>Lane Garrett, Keith Wallace, Shashi Patel</i> | |
| Corrosion and Electromagnetic Field Coupling in the State of Kuwait | 219 |
| <i>A. M. Qabazard, M.A. Elhirbawy</i> | |
| Ground Resistance Measurement Using Fall-of Potential Method Using Capacitive Test Probes | 225 |
| <i>Dr. C. Korasli</i> | |
