

2006 Asia Pacific Magnetic Recording Conference

**Singapore
29 November - 1 December 2006**

IEEE Catalog Number:
ISBN:

06EX1640
1-4244-0863-6

Table of Contents

Hard Disk Drive Reliability Modeling and Failure Prediction	1
<i>B.D. Strom, S. C. Lee, G. W. Tyndall, and A. Khurshudov</i>	
Theoretical Study of Self-Excited and Forced Vibrations of Flying Head Slider	3
<i>K. Ono and M. Yamane</i>	
Air-Bearing Design Towards Super Stable Head-Disk Interface	5
<i>Bo Liu, MingSheng Zhang, Yijun Man, Shengkai Yu, Gonzaga Leonard, Yansheng Ma and Febianna Tjiptoharsono</i>	
Designing, Modeling, and Testing Particle Robust Air Bearings for Perpendicular Recording Media	7
<i>J. L. Brand, M. Roy and A. D. Frenz</i>	
Minimum Stable Flying Height with Thermal Protrusion Actuation	9
<i>B. Knigge, O. Ruiz, P. Baumgart</i>	
Roughness contact and dynamic stability of read/write head positioning in both flying-height and off-track directions	11
<i>S. K. Yu, B. Liu, W. Hua and W. D. Zhou</i>	
VIBRATION OF 1.8-IN HDD SPINDLE MOTORS AT VARIOUS AMBIENT TEMPERATURES	13
<i>Tsung-Liang Wu, I. Y. Shen, F. Okamoto and T. Asada</i>	
Design of Hydrodynamic Bearing for Miniature HDDs	15
<i>Takafumi Asada, Hiroaki Saitou, Daisuke Itou</i>	
A Comparison of Turning and Stationary Groove Bearings for Data Storage Equipment Spindle Motors under Transient Contact Conditions	17
<i>M. Feng and T. Kenjo</i>	
ANALYSIS OF THREE SYNCHRONOUS DRIVE MODES FOR THE STARTING PERFORMANCE OF SPINDLE MOTOR	19
<i>S. Lin, C. Bi, Q. Jiang and H. N. Phyu</i>	
A NOVEL METROLOGY TECHNIQUE TO CAPTURE THE FLYING DYNAMICS OF AIR BEARING SLIDER WITH AND WITHOUT INDUCED CONTACT	21
<i>Yiao-Tee Hsia and James Kiely</i>	
Lubricant Dynamics in the Sub-Nanometer Clearance Regime	23
<i>Bruno Marchon, Qing Dai, Bernhard Knigge and Xing-Cai Guo</i>	
Determination and Quantitative Analysis of Surface Functional Groups of Magnetic Media	25
<i>H. Kondo, Y. Nishida and A. Morikawa</i>	
Direct Visualization of Molecularly Thin Lubricant Films Using Low-Coherence Phase-Shifting Interferometry	27
<i>H. Zhang, T. Banno, Y. Mitsuya and K. Fukuzawa</i>	
Hydrogen Bonding in Disk Lubricants	29
<i>Paul H. Kasai</i>	
Finite Element Shock Analysis of an Operating HDD Considering the Flexibility of the Spinning Disk-Spindle, the Head-Suspension-Actuator and the Supporting Structure	31
<i>G. H. Jang and C. H. Seo</i>	
Design and Analysis of Disk Space to Improve the Unloading Performance in HDD	33
<i>No-Cheol Park, Yonghyun Lee, Hyung Jun Lee, Kyoung-Su Park, Hyun Seok Yang and Young-Pil Park</i>	
Compensation of Dominant Frequency Component of Non-Repeatable Runout in Hard Disk Drives	35
<i>Q. Zheng and M. Tomizuka</i>	
Parametric Uncertainty Identification and Model Reduction for Dual-Stage Robust H2 Track-following Control Synthesis	37
<i>R. Conway, S. Felix and R. Horowitz</i>	

Table of Contents

Timing Jitter Modeling and Minimization for a Servo Track Writer	40
<i>C. Du, J. Zhang and E. H. Ong</i>	
Rejection of Unknown Periodic Disturbances in Magnetic Hard Disk Drives.....	42
<i>M. Nagashima, K. Usui and M. Kobayashi</i>	
IDENTIFICATION, MODELING, AND COMPENSATION OF SEEKINDUCED VIBRATIONS FOR A HIGH DENSITY HDD.....	44
<i>T. Semba, M. T. White, F. Y. Huang</i>	
Servo Signal Quality for Perpendicular Recording in Servo Write Process	46
<i>K. Akagi, T. Hamaguchi and S. Nishida</i>	
Openloop Gain Criteria above the Nyquist Frequency for HDD Head Positioning Control.....	48
<i>T. Hara</i>	
A Study on Positioning Error Caused by FIV using Helium Filled Hard Drives	50
<i>Keiji Aruga, Masaya Suwa</i>	
INVESTIGATION OF AIRFLOWVELOCITY DISTRIBUTION IN HARD DISK DRIVES USING LES AND PIV.....	52
<i>M. Ikegawa, H. Mukai, Y. Hirono, M. Kaiho and Y. Abe</i>	
A Newly Developed Multi-functional Lubricant for Ultra-low Flying Height Regime	54
<i>H. Chiba, M. Sasa, S. Ogata and K. Watanabe</i>	
Lubricant-Slider Interactions in Near-Contact Head-Disk Interfaces	56
<i>V. Raman, R. Pit, K. Conard and N.Bach</i>	
Effects of end groups on the spreading characteristics of molecularly thin liquid lubricant films in hard disk drives.....	58
<i>N. Tagawa, M. Korenaga, A. Mori, N. Kobayashi and M. Ikegami</i>	
DYNAMIC NUMERICAL SIMULATION OF LUBRICANT BEHAVIOR AT THE HEAD DISK INTERFACE.....	60
<i>H. Kubotera and D.B. Bogy</i>	
A Perspective on the Future of Hard Disk Drive (HDD) Technology	62
<i>Paul Frank and Roger Wood</i>	
Patterned magnetic recording media.....	64
<i>A. Kikitsu, Y. Kamata, M. Sakurai and K. Naito</i>	
Write Fault Protection for Shock Disturbance in HDDs Without a Shock Sensor.....	66
<i>QingWei Jia and Shinobu Yoshida,</i>	
Numerical Modeling and Performance Analysis of a Disk Drive Spindle Motor Using Circuit-Field Coupled Systems	69
<i>H. N. Phyu and C. Bi, Lin Song</i>	
Performance of Doubly salient Permanent Magnet Motors for Parallel and Tapered Rotor Poles.....	75
<i>N. K. Sheth and K. R. Rajagopal</i>	
A Method for High Precision Spindle Motor Eccentricity Measurement.....	77
<i>J.C Huang and C. Bi</i>	
Drag Torque Measurement of Hard Disk Drive Spindle Motors.....	80
<i>Q. Jiang, C. Bi and S. Lin</i>	
Direct PID Tuning For Spindle Motor Systems.....	82
<i>C. S. Soh, C. Bi, K. C. Chua</i>	
Influence of Drive Current to Unbalanced-Magnetic-Pull in Spindle Motor.....	84
<i>Chao BI, Nay Lin Htun Aung, Hla Nu Phyu, Quan JIANG and Song LIN</i>	
Design Modification of Micro-Actuator to Improve Shock Resistance of HDD	86
<i>Eo-Jin Hong, Woo-Sung Kim and Ho Seong Lee</i>	

Table of Contents

Numerical Simulation of Turbulent Air Flow in Hard Disk Drives	88
<i>Kannan Sundaravadivelu and Qide Zhang</i>	
Toward Efficient Op-Shock Simulation	90
<i>H. Harmoko, F. F. Yap, N. Vahdati and M. Liu</i>	
Flow Structural Interaction of the Actuator Arm in Hard Disk Drive	92
<i>K. P. Tan, K. Sundaravadivelu, Q. D. Zhang, E. H. Ong, E. T. Ong and C. K. Thum.</i>	
Optimal Design of Rubber Mounts Supporting Notebook HDD for Shock and Vibration Isolation	94
<i>Seungho Lim, Young-Bae Chang, No-Cheol Park and Young-Pil Park</i>	
Temperature Distribution of Magnetic Head in HAMR System	96
<i>Qide Zhang, Baoxi Xu, M.A Suriadi, Eng-Hong Ong and Teck-Hong Yip</i>	
Comb-shape Patterned Clamp/Spacer for Improvement of Recirculation Filter Efficiency in Hard Disk Drive	98
<i>Sung-Eun Park, Dae-Young Lee, Tae-Sik Kang and Jungho Hwang</i>	
Studies on Air Flow Induced Vibration in a Simplified Hard Disk Drive using LES	100
<i>Albert Tan Chok Shiong, Maria Anastasia Suriadi and Zhang Qide</i>	
Secondary Flow Oscillation in Outer Region of Unobstructed Co-rotating Disks in Shroud	103
<i>Dae-Wee Kong and Won-Gu Joo</i>	
Arm Design to Reduce Arm Bending Resonance-Induced Off-Track in a Hard Disk Drive	105
<i>Yong-Han Song, Woo-Sung Kim and Ho Seong Lee</i>	
A RESET PI-LEAD FILTER DESIGN WITH APPLICATION IN HARD DISK DRIVES	108
<i>F. Hong and W. E. Wong</i>	
Evaluation of Servo Patterns for Perpendicular Recording	109
<i>Songhua Zhang and Wai Ee Wong</i>	
Flying Height Measurement Based on Phase Comparison Michelson Interferometry Using White Light Illumination	111
<i>Y. He, H. Zhang, Y. Mitsuya and K. Fukuzawa</i>	
OPTICAL MEASUREMENT OF FLYING-HEIGHT CHANGE DUE TO THERMAL PROTRUSION OF MAGNETIC HEAD	113
<i>M. Kurita, T. Shiramatsu, K. Miyake, H. Tanaka, M. Suk and S. Saegusa</i>	
Study of Shock Response of Operational HDD with Discrete Stiffness/Damping	114
<i>H. Li, J. Liu, S. Yoshida, S. K. Yu and B. Liu</i>	
Op-Shock Simulation of the Head Disk Assembly of a Small-Form Factor Drive	116
<i>B.J. Shi, D.W. Shu, J. Luo, Q.Y. Ng and S. Gan</i>	
Nonlinear Head-Disk Interface Modeling for Hard Disk Drives with Ultra-low Flying Heights	118
<i>Y.M. Zhang, H.Q. Li, D.W. Shu and B.J. Shi</i>	
Enhancement of Near-Field Optical Throughput using Double Grating Structure for HAMR Head	120
<i>Dong-Soo Lim and Young-Joo Kim</i>	
Reliable Process Monitoring Through Tool Optimization Leads to Yield Improvement	122
<i>Jack Chang and Vamsi Velidandla</i>	
Shock Performance of a Disk-Drive Assembly Using Active-Passive Piezoelectric Actuators	124
<i>K. W. Chan and W. H. Liao</i>	
Suspension to Reduce Off-track Due to Disk Vibration and Suspension Bending	126
<i>Haeng-Soo Lee, Woo-Sung Kim and Ho-Seong Lee</i>	
3D Analysis of Medium Field with Consideration of Perpendicular Head-Medium Combinations	128
<i>K. S. Chai, Z.J. Liu, J. T. Li and H. H. Long</i>	
Investigation of Soft Failure of Small Form Factor HDD under Forced Vibration	130
<i>K.T. Chua, A. Yudhanto, E.H. Ong and J.Q. Mou</i>	

Table of Contents

Simulation of Air Bearing Pressure on Discrete Track Recording Media.....	132
<i>W. Zhou, B. Liu, S. Yu and W. Hua</i>	
Phase-Sensing Interferometry for Flying-Height Metrology	135
<i>R. Sappey, T. Carr, M. Loera and C. Lee</i>	
Simulation of Nanometer Spaced Air Bearing Slider with Complex Rail Shape.....	137
<i>W. Hua, B. Liu, S. Yu and W. Zhou</i>	
DISK TOPOGRAPHY METROLOGY FOR ADDRESSING HEAD-DISK INTERFACE CHALLENGES.....	139
<i>P. Tribhuvan, V.Velidandla and S.Venkataram</i>	
REDUCING FLOW-INDUCED VIBRATION OF HEAD-GIMBAL ASSEMBLIES IN HARD-DISK-DRIVES	141
<i>S. Nakamura, Y. Hirono, H. Takahashi, K. Wakatsuki, S. Hagiya, R. Aduma and S. Saegusa</i>	
Lubricant Transfer from Disk to Slider	143
<i>Y.S Ma and B. Liu</i>	
Dynamic Simulation of the Suspension Lift-Tab on a Ramp During the Unloading Process of a Hard Disk Drive.....	145
<i>Hongrui AO, Shao WANG, Yanhui YUAN, Yan LIU, Quock Y. NG, Samuel GAN and Mui Chong CHAI</i>	
Altitude-Insensitive Femto Slider Design	147
<i>L. Gonzaga and B. Liu</i>	
Effect of dimple offset on the operational shock performance of small form factor drives	150
<i>P. Bhargava, D. Bogy</i>	
Flying Stability Study of a Thermal Actuated Slider	152
<i>Mingsheng Zhang, Wong Chee How, Shengkai Yu and Bo Liu</i>	
Molecular Dynamics Simulation for Analysis of Surface Morphology of Tri-functional Lubricant Films.....	154
<i>Y. Tagaya, Y. Mitsuya, H. Zhang and K. Fukuzawa</i>	
CALCULATING AIR BEARING PRESSURE AND FLYING HEIGHT IN A HUMID ENVIRONMENT.....	156
<i>Shuyu Zhang, Brian Strom, Sungchang Lee, George Tyndall</i>	
In-Situ Mechanical Impedance of Air Bearing in Hard Disk Drive.....	158
<i>Hanxiang He, Shih-Fu Ling</i>	
Parametric Optimization of Tape-burnish Process for Perpendicular Recording Media of Hard Disk Drive.....	160
<i>J.M. Zhao, S.N. Piramanayagam, J.Z. Shi, J.Zhang, Anthony, Kay</i>
