

2007 International Conference on Systems Engineering and Modeling

**Haifa, Israel
20-23 March 2007**

IEEE Catalog Number:

07EX1601

ISBN:

1-4244-0770-2

Table of Contents

Project Modeling Approaches

Project Management and Software Development Processes: Integrating RUP and PMBOK	1
<i>Daniel Callegari, Ricardo Bastos</i>	
PROPOST: A Knowledge-based Tool for Supporting Project Portfolio Management.....	9
<i>Eduardo Newton, Rosario Girardi</i>	
Project Management Simulation-Based Learning for Systems Engineering Students.....	17
<i>Lior Davidovitch, Avy Shtub, Avi Parush</i>	
Combinatorial Technological Systems Problems (Example of Communication Center).....	24
<i>Mark Sh. Levin</i>	

System Engineering Methods

Simulating Design Processes with self-iteration activities based on DSM planning	33
<i>Arie Karniel, Yoram Reich</i>	
Algebra of Systems:an executable framework for model synthesis and evaluation.....	42
<i>Benjamin Koo, Willard Simmons, Edward Crawley</i>	
Incremental Integration of Heterogeneous Systems Views	50
<i>Mario Gleirscher, Daniel Ratiu, Bernhard Schaetz</i>	
Classifying and Modeling Exceptions through Object Process Methodology	61
<i>Yudit Somekh, Mor Peleg, Dov Dori</i>	

Project Management and Methods

A Systematic Approach to Process Tailoring	71
<i>Eliana Pereira, Ricardo Melo Bastos, Toacy Cavalcante de Oliveira</i>	
Model Integration with Model Weaving: a Case Study in System Architecture.....	79
<i>Albin Jossic, Marcos Didonet Del Fabro, Jean-Philippe Lerat, Jean Bézivin, Frédéric Jouault</i>	
The Role of Improvisation in Off-the-Shelf Software Development of Entrepreneurial Vendors	85
<i>Uzi de Haan, Shalom Cohen</i>	

System Engineering Modeling Languages

Scrutinizing UML and OPM Modeling Capabilities with Respect to Systems Engineering	93
<i>Shalom Cohen, Avi Soffer</i>	
Systems Modeling Languages: OPM versus SysML.....	102
<i>Yariv Grobshtein, Valeriya Perelman, Eliyahu Safra, Dov Dori</i>	
Alleviating Complexity of Modeling in System Engineering Tools	110
<i>Avi Soffer, Shalom Cohen</i>	

Software and Embedded Intensive Systems Engineering

A Consistency-Preserving Protocol for Distributed Collaborative Model Authoring	118
<i>Dizza Beimel, Lior Galanti</i>	
A Formal Reference Model of Grouped-Metadata Object and a Change Model based on it using for Component-based Software Testing	127
<i>Liangli Ma, Houxiang Wang, Yongjie Li</i>	
VDML: A Modeling Language For New Vehicle Development	135
<i>João Ferreira, Francesco Furini, Sandra Augusto</i>
