

2007 4th International Workshop on Advanced Ground Penetrating Radar

**Naples, Italy
27-29 June 2007**

IEEE Catalog Number:
ISBN:

07EX1651
1-4244-0886-5

Table of Contents

Development of the Hand held dual sensor ALIS and its evaluation	1
<i>M. Sato, K. Takahashi, J. Fujiwara</i>	
General representations of electromagnetic interferometry	6
<i>E. Slob, K. Wapenaar</i>	
Array-Based GPR for Shallow Subsurface Imaging	10
<i>A. G. Yarovoy, T. G. Savelyev, P. J. Aubry, L. P. Ligthart</i>	
Directional Borehole Radar Calibration	14
<i>O. Borchert, M. Aliman, A. Glasmachers</i>	
Analysis of Dipole Antenna Eccentered in a Borehole for Borehole Radar	19
<i>S. Ebihara and Y. Inoue</i>	
Principle of a direction sensitive borehole antenna with advanced technology and data examples	23
<i>V. Gundelach, D. Eisenburger</i>	
Analysis of Directional Borehole Radar Measurement Data	27
<i>T. Takayama, M. Sato, J. H. Kim</i>	
Influence of Mode Conversion at Borehole on Direction Finding with Dipole Array Antenna	31
<i>S. Ebihara, Y. Inaida, R. Suzuki</i>	
Using GPR to Monitor Cracks in a Historical Building	37
<i>L. Orlando</i>	
Inversion of dispersive APVO GPR curves: a thin-layer approach for fracture characterization on a vertical cliff	41
<i>J. Deparis, S. Garambois</i>	
Ground penetrating radar imaging of a 4th Century Roman Fort, Humayma, Jordan	46
<i>G. S. Baker, H. M. Ambrose</i>	
Multi-frequency ground-penetrating radar method for revealing complex sedimentary facies	52
<i>A. J. Delaney, M. L. Prentice, J. Horsman, S. A. Arcone</i>	
Applications of GPR to archaeology and geology: the example of the regio III in Pompeii (Naples, Italy)	56
<i>P. M. Barone, E. Pettinelli, T. Bellomo, C. Scarpati</i>	
Low Frequency GPR in Difficult Terrain	60
<i>M. Carnevale, J. Hager</i>	
Masonry investigation through Very Large Bandwidth CW-SF radar	66
<i>M. Pieraccini, F. Parrini, L. Noferini, C. Atzeni</i>	
Geophysical investigations in the Castle of Crotona (Calabria Region, Italy)	70
<i>M. Bavusi, A. Giocoli, E. Rizzo, V. Lapenna</i>	
Incorporating near-surface layering in GPR data inversion for improved surface water content estimates	74
<i>K. Kooper, S. Lambot and E. C. Slob</i>	
Evaluating Ground-Penetrating Radar use for water infiltration monitoring	80
<i>A. Saintenoy, S. Schneider, P. Turcholka</i>	
Determination of soil permittivity from GPR data and a microwave tomography approach: a preliminary study	85
<i>F. Soldovieri, G. Prisco, R. Persico</i>	
Constraining GPR data inversion using hydrodynamic laws for non-invasive soil hydraulic and electric property determination	90
<i>S. Lambot, S. Guillaso, H. Vereecken, E. Slob</i>	
Design and construction of a large test site to characterize the GPR response in the vadose zone	95
<i>B. Di Pasquo, E. Pettinelli, A. Di Matteo, E. Mattei, A. De Santis, G. Vannaroni, P. A. Annan, D. J. Redman</i>	

Table of Contents

Estimation of Electromagnetic of Libyan soil Properties by Stepped Frequency Radar	99
<i>S. I. Elkhetali, K. A. Salem</i>	
Localization of thin metallic scatterers by experimental data	103
<i>R. Solimene, A. Brancaccio, J. Romano, R. Pierri</i>	
An Investigation into the Implementation of ADI-FDTD Subgrids in FDTD GPR Modeling.....	108
<i>N. Diamanti and A. Giannopoulos</i>	
Advanced forward modeling and tomographic inversion for leaking water pipes monitoring	113
<i>L. Crocco, G. Prisco, F. Soldovieri, N. J. Cassidy</i>	
First-Arrival Traveltimes Inversion Based on Minimal Number of Parameters in shallow cross-well GPR Tomography	118
<i>M. Mangue, H. Perroud, D. Rousset</i>	
Characterization of inhomogeneous cylinders from transient data	123
<i>K. Belkebir, I. Catapano and J. M. Geffrin</i>	
Frequency-Dependent Attenuation and Velocity Characteristics of Magnetically Lossy Materials.....	128
<i>N. J. Cassidy</i>	
Solving the full nonlinear inverse problem for GPR using a three step method	133
<i>L. van Kempen, N. T. Thanh, H. Sahli, D. N. Hao</i>	
Electromagnetic scattering by buried cylinders.....	139
<i>M. Di Vico, P. Martinelli, L. Pajewski, G. Schettini, F. Frezza</i>	
Time-frequency domain signature analysis of GPR data for landmine identification	145
<i>O. Lopera, N. Milisavljevic, D. Daniels and B. Macq</i>	
Subsurface localization of interfaces.....	149
<i>A. Brancaccio, R. Pierri, F. Soldovieri, G. Leone</i>	
A Full Waveform Inversion Algorithm for Interpreting Crosshole Radar Data.....	155
<i>S. Kuroda, M. Takeuchi, H. J. Kim</i>	
Localization of small PEC spheres by multiview/single-frequency data: numerical results.....	161
<i>R. Solimene, A. Buonanno, R. Pierri</i>	
Shape reconstruction of three dimensional buried objects from stepped frequency data.....	165
<i>I. Catapano, L. Crocco, T. Isernia</i>	
Vertical and Horizontal Resolution of GPR bow-tie antennas	171
<i>F. I. Rial, M. Pereira, H. Lorenzo, P. Arias, A. Novo</i>	
Investigation of Convenient Antenna Designs for Ultra-Wide Band GPR Systems	176
<i>A. S. Turk, D. A. Sahinkaya, M. Sezgin, H. Nazli</i>	
Improved Bow-Tie Antenna for Pulse Radiation and Its Implementation in a GPR Survey	181
<i>A. A. Lestari, D. Yulian, Liarto, A. B. Suksmono, E. Bharata, A. G. Yarovoy and L. P. Lighthart</i>	
Analysis of a non Electrical Resistive GPR Antenna.....	187
<i>G. Garcia, G. Casassa, D. Ulloa, R. Zamora</i>	
Look-Ahead Radar and Horizon Sensing for Coal Cutting Drums	192
<i>I. Y. Bausov, G. L. Stolarczyk, L. G. Stolarczyk, Sc. D. S. Koppenjan</i>	
A Clutter Canceller for Continuous Wave GPR.....	196
<i>G. Grazzini, M. Pieraccini, F. Parrini, C. Atzeni</i>	
The broadband device for nondestructive measurements of dielectric permeability of lossy media	201
<i>N. Chubinsky, V. Filonenko</i>	
Design of a GPR for deep investigations.....	206
<i>V. Utsi</i>	

Table of Contents

GPR Antenna Test Facility at IRCTR-IB.....	210
<i>A. A. Lestari, D. Yulian, Liarto, T. P. Soetikno, A. B. Suksmono, E. Bharata, A. G. Yarovoy and L. P. Lighthart</i>	
Experimental Verification of LOZA-V GPR Penetration Depth and Signal Quality.....	214
<i>V. V. Kopeikin, I. V. Krasheninnikov, P. A. Morozov and A. V. Popov, F. Guangyou, L. Xiaojun and Z. Bin</i>	
Metal-sheet test to estimate shape and frequency content of the radar pulse	218
<i>L. Nuzzo, T. Quarta</i>	
Calibration report of the SHARAD instrument.....	223
<i>R. Croci, F. Fois, R. Mecozzi, R. Seu, E. Flamini</i>	
Sounding Mars with SHARAD & MARSIS	228
<i>E. Flamini, G. Picardi, R. Seu, R. Mecozzi, D. Biccari, M. Cartacci, A. Cicchetti, A. Masdea, F. Fois, D. Calabrese, O. Bombaci, C. Catallo, A. Croce, R. Croci, M. Guelfi, E. Zampolini, G. Alberti, S. Mattei, C. Papa</i>	
A prototype for the WISDOM GPR on the ExoMars mission.....	234
<i>S-E Hamran, T. Berger, L. Hanssen and M. J. Oyan, V. Ciarletti and C. Corbel, D. Plettmeier</i>	
MARSIS Data Inversion Approach	238
<i>G. Picardi, D. Biccari, M. Cartacci, A. Cicchetti, S. Giuppi, A. Marini, A. Masdea, R. Noschese, F. Piccari, R. Seu, C. Federico, A. Frigeri, P. T. Melacci, R. Orosei, O. Bombaci, D. Calabrese, E. Zampolini, L. Marinangeli, E. Pettinelli, E. Flamini</i>	
SHARAD radar signal processing technique	243
<i>G. Alberti, S. Dinardo, S. Mattei, C. Papa, M. R. Santovito</i>	
The inspection of large retaining walls using GPR.....	247
<i>J. Hugenschmidt, R. Mastrangelo</i>	
A Stakeholder Led Accuracy Assessment System for Utility Location.....	252
<i>A. M. Thomas, C. D. F. Rogers, N. Metje, D. N. Chapman</i>	
EM characterization of bituminous concretes using a quadratic experimental design	258
<i>A. J.L. Chazelas, B. X. Dérobert, C. M. Adous, D. G. Villain, E. V. Baltazart, F. L. Laguerre, G. P. Queffelec</i>	
An innovative on-board processor for the real-time GPR monitoring of railway substructure conditions	264
<i>S. Caorsi, G. Cevini, F. Burro, M. Sciotti, S. Sorge</i>	
Prediction of structural damages of road pavement using GPR	270
<i>A. Benedetto</i>	
Characterizing Railroad Ballast Using GPR: Recent Experiences in the United States.....	275
<i>R. Roberts, A. Schutz, I. Al-Qadi, E. Tutumluer</i>	
GPR signal attenuation vs. depth on damaged flexible road pavements	280
<i>D. Ranalli, M. Scozzafava, M. Tallini, S. Colagrande</i>
