

**Proceedings of the
2007 IEEE International Conference on Service
Operations and Logistics, and Informatics**

**Philadelphia, Pennsylvania, USA
August 27 - 29, 2007**

Contents

SERVICE SYSTEM DESIGN & PLANNING	1
Modeling a Flow-Shop with Setup Times in Dioid Algebra By <i>Aurélien Corrêa, Abdeljalil Abbas-turki, Rachid Bouyekhf, Abdellah El moudni</i>	1
Discrete Intersection Signal Control By <i>Jia Wu, Abdeljalil Abbas-turki, Aurélien Corrêa, Abdellah El moudni</i>	7
A PHA based on a systemic and generic ontology By <i>Mohamed-habib Mazouni, Jean-françois Aubry</i>	13
SUPPLIER RELATIONSHIP MANAGEMENT (I)	19
A Reinforcement Learning Approach for Dynamic Supplier Selection By <i>Tae il Kim, R. ufuk Bilsel, Soundar r.t. Kumara</i>	19
Strategies and challenges in dynamic supply chain procurement activities By <i>Lyes Benyoucef, Vipul Jain</i>	25
Developing a collaborative supply chain reference model: A case study in China By <i>Shuihua Han, Chao-hsien Chu, Shuangyuan Yang</i>	32
Coordination through Revenue Sharing and Bargaining in a Two-stage Supply Chain By <i>Amy z. Zeng, Jing Hou, Lindu Zhao</i>	38
SERVICE WORKFORCE MANAGEMENT (I)	44
Addressing Arrival Rate Uncertainty in Call Center Workforce Management By <i>Thomas Robbins</i>	44
Forecasting and Dynamic Updating of Uncertain Arrival Rates to A Call Center By <i>Haipeng Shen, Jianhua Huang, Chihoon Lee</i>	50
NSF WORKSHOP (I)	56
Enhancing Service Quality through Integrated Services Marketing By <i>Alex Maritz</i>	56
Adaptive User Profiling in Enhancing RSS-based Information Services By <i>Limin Zeng, Yong Zhang, Robin g. Qiu</i>	63
RETAIL AND SERVICE MANAGEMENT (I)	68
Perceived Interactivity in Online Retail Services By <i>Mijung Park, Jungkun Park</i>	68
A Two-Stage Solution Procedure for Food Delivery Decisions in Cities with Circular Transportation Networks By <i>Zheng Wang, Xiangpei Hu, Amy z. Zeng</i>	74
Shift Scheduling in Call Centers with Multiple Skill Sets and Transportation Costs By <i>Emre Emil, Lerzan Örmeci, Sibel Salman</i>	80

FINANCIAL SERVICES.....	86
Impact Analysis of RFID on Financial Supply Chain Management <i>By Tatsuya Inaba</i>	86
Information Enrichment Service Systems <i>By Daniel Gruhl, Kevin Haas, Jan Pieper, Christine Robson, Tony Stuart</i>	92
SERVICE WORKFORCE MANAGEMENT (II)	98
Demand Forecasting in Operational Workforce Management <i>By Mitul Shah, Gilbert Owusu, Chris Voudouris</i>	98
Modeling and Examining Efficiency Loss in Supply Chains Through Interaction of Multiple Time Zones <i>By Raschid Ijioui, Heike Emmerich, Jürgen Hubert</i>	107
Scheduling of scientific workflows using Threshold accepting algorithm for Computational Grids <i>By Shajulin Benedict, V.vasudevan</i>	113
A Service-Oriented Approach To Onshore Gas Transmission Pipeline Construction <i>By Leone Dunn, Peter Gibson</i>	119
NSF WORKSHOP (II)	125
Reactive Power Compensating Device for High Power Windings Rotor Induction Motor <i>By Hui-rong Xiao, Xiaohua Chen, Quanshui Zhu</i>	125
ICTS SERVICES DESIGN AND MANAGEMENT	129
A Decision Model for Selecting an Offshore Outsourcing Location: Using a Multicriteria Method <i>By Zheng-kui Lin, Jian-jun Wang, Yi-yan Qin</i>	129
The Service Paradox: Supporting Service Supply Chains with Product-oriented ICT <i>By Mairead Brady, Martin Fellenz</i>	134
Contemporary Cultural Researches on Knowledge Sharing <i>By Hai Dong, Farookh Hussain, Elizabeth Chang</i>	140
ON-DEMAND DELIVERY	143
A Study on the Production Quantity - Delivery Lead Time Decision Model For a Two-stage Supply Chain of Seasonal Items <i>By Lin Yong, Chen Kai</i>	143
A Dynamic (s, S) Replenishment Policy for Suppliers Engaged in VMI Agreement with Retailers <i>By Lanjuan Liu, Xinyan Zhou</i>	149
Modelling automated service orchestration for IT-based homeservices <i>By Jochen Meis, Jörg Draeger</i>	155
Optimization with Conflicting Objectives in Logistic Services <i>By Christina Aperjis, Ray Strong</i>	161
SERVICE WORKFORCE MANAGEMENT (III)	167

Shift Scheduling for Third Level IT Support: Challenges, Models and Case Study <i>By Segev Wasserkrug, Shai Taub, Sergey Zeltyn, Dagan Gilat, Vladimir Lipets, Zohar Feldman, Avishai Mandelbaum</i>	167
Optimatch: Applying Constraint Programming to Workforce Management of Highly-skilled Employees <i>By Yossi Richter, Yehuda Naveh, Donna Gresh, Daniel Connors</i>	173
Research on the Organizational Mode of Information Resources in Knowledge Alliance <i>By Rende Feng, Zejun Liu</i>	179
A decision support tool to plan shifts in a home for the aged <i>By Roberto Cordone, Michele Milesi, Matteo Salani</i>	183
ENTERPRISE SYSTEMS	189
A Quantity Discount Pricing Model to Increase Vendor Profits in a Just-in-Time (JIT) Environment <i>By Aparna A.</i>	189
The E-Commerce Divide in Service SMEs Between China and Australia <i>By Ergun Gide, Mingxuan Wu</i>	192
Curated consumption infrastructure prototyping and its evaluation for video sharing archive based on persistent usage scenario association technology <i>By Tadashi Nakanishi, Noboru Sonehara, Yo'ichi Tohkura</i>	198
A Method and Tool for Process-Centric Supply Chain Transformation <i>By Changrui Ren, Jin Dong, Hongwei Ding, Wei Wang, Minmin Qiu</i>	204
RETAIL AND SERVICE MANAGEMENT (II)	210
Customer Switching Intention in Service Industries and the Effect of Customer Perceived Value <i>By Rui Zhang, Keyi Wang, Kaibo Chen, Rong Rong</i>	210
A Joint Decision Model of Variants Selection, Shelf-space Allocation and Inventory Control <i>By Gao Jun-jun, Yu Lai-ruo</i>	216
Inefficiency of Dual Channel in E-business: Asymmetric Cost Structure and Customer Behavior <i>By Yongma Moon, Tao Yao</i>	221
Price Decision in the Supply Chain of One Product Family with Price-dependent Demand <i>By Li Qian, Yongma Moon, David Ben-ariéh, Tao Yao</i>	227
SUPPLIER RELATIONSHIP MANAGEMENT (II)	233
Agility in Auto Dealers SCM <i>By Mohammad jafar Tarokh, Hoda Ghahremanloo, Mahnaz Karami</i>	233
Study on Coordinated and Un-coordinated Mechanism of Supply Chain <i>By Herui Cui</i>	239
QUALITY AND CUSTOMER SATISFACTION	245
Evaluating Supply Chains with Stochastic Models <i>By Gabriel Alves, Paulo Maciel, Ricardo Lima</i>	245

The Strategic Research of Air Cargo Based on Rule Knowledge and Decision Tree By <i>Cheng Li, Danqing Zhou, Chunxun Xie, Zhong Wu</i>	251
Compare and Contrast of Contemporary Technical Knowledge Sharing Technologies By <i>Hai Dong, Farookh Hussain, Elizabeth Chang</i>	255
METRICS AND LOGISTICS (I)	259
RFID Tag Characterization in a GHz Transverse Electromagnetic Cell By <i>Sidney Dmello, Divya Choudhary, Srikant Chari, James Markham, Lee Mccauley</i>	259
Swarm Intelligence based Reputation Distribution for Trust Models in Open Multi Agent Systems By <i>Saba Mahmood, Azzam ul Asar, Farah Mahmood</i>	265
SERVICE PLANNING (I)	269
Strategic Module Sharing for Customized Service Family Design using a Bayesian Game By <i>Seung ki Moon, Jaehun Sim, Jun Shu, Timothy w. Simpson</i>	269
A Model of Competition in Service Management By <i>Terry Friesz, Changyun Kwon, Matthew Rigdon</i>	275
Adaptive Project Risk Management By <i>Lea Deleris, Kaan Katircioglu, Shubir Kapoor, Richard Lam, Sugato Bagchi</i>	281
Performance Modeling of Service Businesses By <i>Barbara Jones, Ying tat Leung, Sunil Noronha, Jorge Sanz</i>	287
METRICS AND LOGISTICS (II)	293
Analysing The Effectiveness of E-Mail Surveys: A Case Study In Australia By <i>Ergun Gide, Mingxuan Wu</i>	293
Online Simulation for Logistics and Decision Making By <i>Enrique Espinosa, Ernesto Pacheco</i> ..	298
SERVICE PLANNING (II)	304
Efficient Spare Part Management to Satisfy Customers Need By <i>Uwe Dombrowski, Johannes Wrehde, Sven Schulze</i>	304
Using Strategy Maps to Align Distributed Service Organizations By <i>Andreas Nobs, André Minkus, Fabrice Seite</i>	310
QUALITY AND CUSTOMER SATISFACTION	316
A Study on Information Quality Maturity Model in Enterprise By <i>Xiuxia Yan, Zhongwen Sima</i>	316
The Relationships Between The Antecedents of Innovativeness and Business Performance By <i>Ching-huai Peng</i>	322
Research on the Constitution of Enterprise Information Resources System Based on Knowledge	

<i>Alliance</i> By <i>Zejun Liu, Rende Feng</i>	328
EVENT-BASED PRODUCTION AND SUPPLY	332
Research on the Contract in Jointly Managed Inventory By <i>Zhisong Chen, Huimin Wang, Junfei Chen</i>	332
An Exploratory Study of Integrated Product Design and Development By <i>R.s.m. Lau</i>	339
The Study on Structure and Characteristics of Coal Supply Chain By <i>Hui Jiang, Mei-hua Zhou, Jian Meng</i>	345
SERVICE PLANNING (III)	351
Analysis on the Developmental Characters of the Producer Services By <i>Chun li Yang, Ming Yu</i>	351
Factor Analysis to identify latent constructs across management subjects at a business school By <i>Usha Ananthakumar, Manandeep Singh</i>	357
E-MARKET FOR SERVICES	363
Improving E-Government Services Should Start with Domain Names: A Longitudinal Study of Chinese E-Government Domain Names By <i>Yuquan Shi</i>	363
Trustworthiness measurement methodology (TMM) for assessment purposes By <i>Farookh Hussain, Omar Hussain, Elizabeth Chang</i>	369
HEALTHCARE AND DATA MINING	375
Intuitive Data Editing Examples By <i>Roger I. Goodwin</i>	375
Optimization of Duties Assignment in Emergency Services By <i>Daniele Gilberti, Giovanni Righini</i>	383
SERVICE PROCESS ENGINEERING	389
Logistics service abilities: An empirical study of its impact on service quality in China By <i>Xiuxia Yan, Zhongwen Sima</i>	389
Basic Concept In Service Science With Holon By <i>Shigeki Sugiyama</i>	395
A Top-Down Approach from Service Centers to Business Processes By <i>Fabiana Fournier, Amit Fisher, Dagan Gilat, Guy Rackham, Natalia Razinkov, Segev Wasserkrug</i>	400
Total customer service thinking:Application research in resource-based industries——take coal enterprises as example By <i>Manzhi Liu, Meihua Zhou, Weikun Yao, Jian Meng</i>	406
SERVICE SYSTEM	412
Optimalization of the systemic evidence of returnable packaging transport - analyticalsynthetic model By <i>Petr Prochazka, Premysl Zaskodny, Pavol Tarabek</i>	412

AN INNOVATIVE SYSTEM FOR LEARNING SERVICES IN PROJECT MANAGEMENT <i>By Constanta-nicoleta Bodea</i>	417
Online Advertisement Campaign Optimization <i>By Weiguo Liu, Shi Zhong, Mayank Chaudhary, Shyam Kapur</i>	422
SECURITY & SAFETY-RELATED SERVICES AND MANAGEMENT	426
Financial Distress Prediction Based on Decision Tree Models <i>By Jiang Yanhui, Qin Zheng</i>	426
A Trust Evaluation Model for B2C E-commerce <i>By Zheng Qin, Bo Tian</i>	432
Risk Identification of Information System based on ISELC <i>By Li-ping Liu, Hai-long Yu</i>	438
CUSTOMER RELATIONSHIP MANAGEMENT	444
Intelligence CRM: A Contact Center Model <i>By Mohammad jafar Tarokh, Hoda Ghahremanloo</i>	444
Supply chain optimization by reducing and preventing inflated orders <i>By Mehdi Mohseni aliabadi</i>	450
Value-based Customer Loyalty Evolution <i>By Weikun Yao, Meihua Zhou, Jian Meng</i>	455
LOGISTIC PLANNING (I)	460
A Capacity Planning Model in the TFT-LCD Production Chain <i>By James t. Lin, Tzu-li Chen</i> ...	460
Agent-based Clustering Approach to Transport Logistics <i>By Gulshanara Singh</i>	466
Visualization and data mining method for inventory classification <i>By Innar Liiv</i>	472
SUPPLY CHAIN MANAGEMENT	478
Applicability of RFID in the prognostics of logistic systems <i>By Adriana Lopez de la cruz, Hans Veeke, Gabriel Lodewijks</i>	478
Study on the Logistics Management Information System For Discrete Manufacturing Enterprises <i>By Chunju Jing, Zhiyuan Fang, Yu Zhou</i>	483
A new approach to model goal and plan conflicts in a dynamic supply chain <i>By Vipul Jain, Lyes Benyoucef, S. g. Deshmukh</i>	487
LOGISTIC PLANNING (II)	493
Designing a hazardous waste reverse logistics network for third party logistics supplier under the fuzzy environment <i>By Yong Zhang, Xu-hong Li, Hai-jun Mao, Cheng-lin Ma</i>	493
Outsourcing Decision-making Strategy for Collecting Used-products in Reverse Logistics <i>By Chenlan Wang, Tijun Fan</i>	499
The Research of Enterprise's logistics information on the basis of EAI <i>By Zhong Wu, Cheng Li,</i>	

<i>Hongguang Yao, Chunxun Xie</i>	505
DECISION SUPPORT SYSTEM	510
Research on Case-based Reasoning Combined with Rule-Based Reasoning for Emergency <i>By Shimin Da, Huizhang Shen, Hong Liu</i>	510
Development Method of Domain Ontology Based on Reverse Engineering <i>By Yan Luo, Changrui Yu</i>	515
SERVICE SUSTAINING	520
Empirical Analysis of the Driving Factors of Logistics Service Ability Innovation <i>By Wei Liu, Wenshun Li, Wen Wang</i>	520
Research on the Multi-factor Integrated Model of Enterprise Technique Innovation Based on Knowledge Alliance <i>By Rende Feng, Zejun Liu, Yiping Zhang</i>	526
Illustrative example of determining Quality of Service (QoS) using trustworthiness measurement methodology <i>By Farookh Hussain, Omar Hussain, Elizabeth Chang</i>	530
LOGISTIC PLANNING (III)	536
Research on Vehicle Scheduling Problem of distribution in VMI model <i>By Hongguang Yao, Danqing Zhou</i>	536
Research on Model of the Logistics Cooperative Relation Based on Theories of Ecosystem <i>By Chunxun Xie, Cheng Li, Hongguang Yao, Zhong Wu</i>	541
Container Forwarder Operational Planning: A Local Vehicle Routing Model with Simultaneous Pick up and Delivery Service <i>By Pengfei Zhou</i>	545
