# SCCC'07

XXVI International Conference of the  
Chilean Society of Computer Science

November 8-9th, 2007  
Iquique, Chile

Los Alamitos, California  
Washington • Tokyo

# Table of Contents

## XXVI International Conference of the Chilean Society of Computer Science—SCCC’07

<b>Foreword</b> _____	<b>vii</b>
<b>Conference Organization</b> _____	<b>viii</b>
 <b>Session 1: Distributing and Adapting</b>	
AmbientTalk: Object-oriented Event-driven Programming in Mobile Ad hoc Networks _____ <i>Tom Van Cutsem, Stijn Mostinckx, Elisa Gonzalez Boix, Jessie Dedecker, and Wolfgang De Meuter</i>	3
A Relaxed-Ring for Self-Organising and Fault-Tolerant Peer-to-Peer Networks _____ <i>Boris Mejías and Peter Van Roy</i>	13
The Puzzle Approach for Designing Context-Enabled Applications _____ <i>Brecht Desmet, Kristof Vanhaesebrouck, Jorge Vallejos, Pascal Costanza, and Wolfgang De Meuter</i>	23
A Unified Mechanism for Improving Advanced Transaction Management in Web Services _____ <i>Sergio Castro, Johan Fabry, Kim Mens, and Theo D’Hondt</i>	30
Eliciting Multi-Agent Systems Intentionality: From Language Extended Lexicon to i* Models _____ <i>Antonio de Padua Albuquerque Oliveira, Julio Cesar Sampaio do Prado Leite, Luiz Marcio Cysneiros, and Claudia Cappelli</i>	40
 <b>Session 2: Specifying, Testing, Querying</b>	
Specifying Fractal and GCM Components with UML _____ <i>Solange Ahumada, Ludovic Apvrille, Tomás Barros, Antonio Cansado, Eric Madelaine, and Emil Salageanu</i>	53
Reducing Component Systems’ Behavior Specification _____ <i>Viliam Holub and Frantisek Plasil</i>	63
On the Impact of Migration Parameters on DIMEP for Designing Combinational Circuits _____ <i>Fatima Zohra Hadjam, Claudio Moraga, and Moustapha Kamel Rahmouni</i>	73
ABAT: An Approach for Building Maintainable Automated Functional Software Tests _____ <i>Marcos Kalinowski, Hugo Vidal Teixeira, and Paul Johan Heinrich van Oppen</i>	83
Open Unification for Program Query Languages _____ <i>Johan Brichau, Coen De Roover, and Kim Mens</i>	92

### **Session 3: Engineering, Scaling**

Extracting Information from Experimental Software Engineering Papers _____	105
<i>Daniela Cruzes, Manoel Mendonça, Victor Basili, Forrest Shull, and Mario Jino</i>	
From a Single Product Architecture to a Product Line Architecture _____	115
<i>María Cecilia Bastarrica, Sebastián Rivas, and Pedro O. Rossel</i>	
Managing the QoS of E-Government: Metrics for Large Scale SOA _____	123
<i>Mauricio Monsalve</i>	
ISPIS: From Conception towards Industry Readiness _____	132
<i>Marcos Kalinowski and Guilherme Horta Travassos</i>	
Cross Cultural Web Comfortability and the Study on the Influence of Cultural Profiles in Chile _____	142
<i>Roberto Okada and Wilson Castillo</i>	
<b>Author Index</b> _____	<b>151</b>
