ICCGI Preliminary Program

IPv6TD1

2

6TO4 vs. TunnelBrokers

Carlos Friaças, Miguel Baptista, Mónica Domingues, Paulo Ferreira

10

SHISA: IPv6 Mobility Framework for BSD Operating Systems

Keiichi Shima, Ryuji Wakikawa, Koshiro Mitsuya, Tsuyoshi Momose, Keisuke Uehara

11

Testing and verifying an IPv6 based multicast network

Vilmos Bilicki

12

Study of IPv6 Multicast Deployment in MPLS Networks

Wim Verrydt, Ciprian Popoviciu

13

IPv6 as a Practical Solution to Network Management Challenges

Ciprian Popoviciu, Petre Dini

IPv6TD2

27

Bulk Transfer Capacity Estimation in IPv6 Networks

Robert Gardner, Francisco Garcia

94

QoS and IPv6 Infrastructure for Industrial Control Applications

Ramona Marfievici, Gheorghe Sebestyen, Anca Pop-Bidian

122

A Monitoring Approach for Safe IPv6 Renumbering

Frederic Beck, Isabelle Chrisment, Olivier Festor

125

Determinants of IP Version 6 Adoption

Anat Hovav, Yoo Jung Kim

119

An Approach for the Administration and Security of IPv6 Transition Mechanisms: An SNMP MIB for 6to4

Georgios Koutepas, Athanasios Douitsis, Demetris Philippides, Vasilis Maglaris

ICCGI1: Special Topics

8

Multi-Attribute Decision Making E-Course

Cornel Resteanu, Marius Somodi, Bogdan Alexe

19

Eye Location Under Various Illumination Conditions

Geng Du, Fei Su, Anni Cai

34

The state of e-Government and e-Participation in European Regions

Eugenio Fernandez, Gonzalo Arevalo, Jesus Alberto Messias de la Cerda

62

Using mixed VR/AR technologies in education

Dorin Mircea Popovici, Luca-Dan Serbanati

70

Content-Based Image Query on Color Feature in the Image Databases Obtained from DICOM Files

Liana Stanescu, Dumitru Dan Burdescu, Anca Ion, Marius Brezovan

108

Numerical computation and approximation of the locations and amplitudes of the extrema of $(\sin^2 x)/x$

Jean Le Bihan

ICCGI2: Mobility and Multimedia

15

Using Communication Genre for searching with Small Display Devices

Carlos Costa, Manuela Aparicio

38

Delivery Context Access for Mobile Browsing

Sailesh Sathish, Olli Pettay

69

Peer-to-Peer Platform for Anytime / Anywhere Connectivity in Educational Environments

Josephine KOHLENBERG, Mahendiran PRATHABAN, Sandoche BALAKRICHENAN

81

A Network-aware Scalable Video Congestion Control Mechanism in Heterogeneous Wireless Networks

Fan Yinglei, Su Fang, Xu Huimin

ICCGI3: Services

29

Service-aware Overlay Adaptation in Ambient Networks

Lawrence Cheng, Kerry Jean, Roel Ocampo, Alex Galis

99

Layering Model and Fault Detection Algorithm for Internet Services

Xiaohui Huang, Shihong Zou, Wendong Wang, Shiduan Cheng

109

Key Issues in the Optimization of Runtime Processes for Dynamic Provisioning of Ubiquitous Services

Sorin M. Iacob, Mortaza S. Bargh

ICCGI4: Computation

37

Formal Models of Appeal and Its Evaluation in Argumentation-based Negotiation of Agent

Wu Jinghua, Jiang Guorui, Huang Tiyun

54

Learning decision trees with Genetic Programming

Wing-Ho Shum, Kwong-Sak Leung, Man-Leung Wong

58

Complex vs. Intensive in Parallel Computation

Mihaela Malita, George Stefan, Marius Stoian

79

Towards a Flexible Middleware for Autonomous Integrated Management Applications

Mehdi Kessis, Pascal Dechamboux, Claudia Roncancio, Therry Coupaye, Alexandre Lefebvre

ICCGI5: Software Development

40

An Authoring Tool for Adaptive Assessment Items

Héctor Barbosa León, Francisco García Peñalvo

92

MetaCET: An Object Oriented Tool for Language Design

Francisco Gortzar, Micael Gallego, Abraham Duarte

106

Toward a Concern-Oriented Analysis Method for Enterprise Information Systems

Crenguta Bogdan, Luca Dan Serbănati

115

Implementing Logic Wrappers Using XSLT Stylesheets

Amelia Badica, Costin Badica, Elvira Popescu

ICCGI6: Industrial Systems I

42

Design and Implementation of an Instructional Foundation Fieldbus-based Pilot Plant

Javad karami, Karim Salahshoor

52

Integrated approach for optimizing service level and reproduction point under stochastic demand

Zhao Yong-quan, Lu Li-bin, Fang Shu-fen

68

Performance Monitoring and Visualization of Large-Sized and Multi-Threaded Applications with the Pajé Framework

Mehdi Kessis

75

Connection Migration Mechanisms in a Cluster Environment

Leila Ismail

ICCGI7: Industrial Systems II

84

SmartWellOnto: An Ontology for Smart Wells

Mihaela M. Oprea Mariea Marcu Mihai Pascu Coloja

91

Performing Verification and Validation for KT-OSS Development

Dae-Woo Kim, Hyun-Min Lim, Sang-Kon Lee

113

Toward Reconciling Availability, Consistency and Integrity in Replicated Information Systems

H. Decker, F.D. Munoz-Escoi, J.E. Armendariz-Inigo

121

Coupling Latency Time to the Throughput Performance Analysis on Wireless CAN

Sofiene DRIDI, Bechir GOUISSEM, Salem HASNAOUI, Houria REZIG

ICCGI8: Internet and web

43

Distributed Cache System for Large-Scale Networks

Mikio Kataoka, Hideki Okita, Junji Yamamoto, Kunihiko Toumura, Toshiaki Suzuki

59

Between Web and Grid-based Mathematical Services

Dana Petcu

104

BitTorrent Traffic Characteristics

David Erman, Dragos Ilie and Adrian Popescu

117

A Semantically-enhanced Component-based Architecture for Software Composition

Juan Miguel Gomez, Sung-Kook Han, Ioan Toma, Brahmananda Sapkota, Angel Garcia-Crespo

ICCGI9: Knowledge and context I

44

Support Vector Machines Optimization - An Income Prediction Study

Alina Lazar, Robert Zaremba

80

Context Provisioning for Future Service Environments

Dana Pavel, Dirk Trossen

82

Contextualisation of Management Overlays in Ambient Networks
Kerry Jean, Lawrence Cheng, Roel Ocampo, Alex Galis

ICCGI10: Knowledge and context II

89

Low Dynamics RLSL Adaptive Algorithm Using A Priori Estimation Errors
C. Paleologu , S. Ciochina, A.A. Enescu

95

Naive Bayes Web Page Classification with HTML Mark-up Enrichment
Victor Fresno, Raquel Martinez, Soto Montalvo, Arantza Casillas

97

Context-Aware Mobile Tour Guide
Kaiyu Wan, Vasu Alagar

ICCGI11: Biotechnologies

45

Local Alignment of DNA Sequences with the Connex Array
Dominique Thiebaut, Gheorghe Stefan, Mihaela Malita

76

Identifying Transcription Factor Binding Sites in Promoters of Human Genes
Wei Shi, Wanlei Zhou

96

Information Technology in Health Care Systems: Barriers to Adoption
Stefanos Zenios

ICCGI12: Network technologies I

46

Requirements for Next Generation Middleware Implementations
Kavi Kumar Khedo

57

A New Algorithm for Network Anomaly Detection
Jun Lv, Xing Li

87

Multiprotocol Label Switching Meta-Frames
Radu Dragos, Martin Collier

88

Reliable Architecture for Power System Operational Communications
Alessandro Garibbo, Laura Petrolino, Giancarlo Caroti, Francesco Rufino

ICCGI13: Network technologies II

90

Supplementary Interworking Architecture for Hybrid Data Networks (UMTS-WiMAX)
Shahbaz Khan, Shoaib Khan, Sahibzada Ali Mahmud, Dr. Hamed Al-Raweshidy

98

An Approach to Optimizations Links Utilization in MPLS Networks
M.K Huerta, X. Hesselbach, R.Fabregat

100

Research on Symmetric NAT Traversal in P2P applications
Yong Wang, Zhao Lu, Junzhong Gu

120

Broadband access to university students in Greece
Athanasios Liakopoulos

ICCGI14: Security I

49

Strengthening Elliptic Curve Digital Signature Algorithm To Be More Suitable To
Mobile Networks
Komathy K., Narayanasamy P.

53

Intrusion Detection on Grid
Fang-Yie Leu, Ming-Chang Li, Jia-Chun Lin

55

DNSSEC Operational Impact and Performance
Alexis Guillard

61

E-learning: Biometrics as a Security Factor
Kornelije Rabuzin, Miroslav Baca, Mario Sajko

ICCGI15: Security II

64

An Intrusion Surveillance System to Detect IRC-based DDoS Attacks

Yang Xiang, Wanlei Zhou

65

An Analytical Model for DDoS Attacks and Defense

Yang Xiang and Wanlei Zhou

78

A mobile based approach to strong authentication on web

Gianluigi Me, Daniele Pirro, Roberto Sarrecchia

105

Analysis of SMTP Connection Characteristics for Detecting Spam Relays

PJ Sandford, JM Sandford, DJ Parish
