## Table of contents

# 2008 International MCETECH Conference on e-Technologies

**MCETECH 2008**

Message du Président du Congrès .....	viii
Message from the Conference Chair .....	ix
Message from the Program Committee Co-chairs .....	x
Program Committee .....	xi
Conference Organization .....	xii

## Regular Research Papers

### Business Process Management

Toward an Integrated User Requirements Notation Framework and Tool for Business Process Management .....	3
<i>Alireza Pourshahid, Daniel Amyot, Liam Peyton, Sepideh Ghanavati, Pengfei Chen, Michael Weiss, and Alan J. Forster,</i>	
Modelling the Interaction of Distributed Systems as Protocols.....	16
<i>Johannes Reich</i>	
Human Workflows via Document-Driven Process Choreography .....	25
<i>Jiangbo Dang, Candemir Toklu, Ken Hampel, and Urs Enke</i>	
Towards Adaptability Support in Collaborative Business Processes .....	34
<i>Ismail Khriess, Enrico Lévesque, Guy Tremblay, and André Jacques</i>	

### Security and Trust

Formal Modeling for Security Behavior Analysis of Computer Systems .....	49
<i>Kamel Adi, Lamia Hamza, and Liviu Pene</i>	
A Model of Trusted Data Collection for Knowledge Discovery in B2B Networks .....	60
<i>Jun Hu, Liam Peyton, Cameron Turner, and Hany Bishay</i>	
Anonymous Credentials for Privacy-Preserving E-learning.....	70
<i>Esmâ Aïmeur, Hicham Hage, and Flavien Serge Mani Onana</i>	
Understanding and Countering Insider Threats in Software Development .....	81
<i>Michael Franz</i>	

## **Service-Oriented Architecture**

Strategies for Cross-Organizational Service Composition.....	93
<i>Christoph Schroth, Till Janner, and Volker Hoyer</i>	
Signature-Based Composition of Web Services.....	104
<i>Anis Alkamari, Hafedh Mili, and Abdel Obaid</i>	
Failure Semantics in a SOA Environment.....	116
<i>Chris Hobbs, Hanane Becha, and Daniel Amyot</i>	

## **Semantic Information Mining**

Design and Implementation of the Pervaho Middleware for Mobile Context-Aware Applications.....	125
<i>Patrick Eugster, Benoît Garbinato, and Adrian Holzer</i>	
Contextualized Linguistic Matching for Heterogeneous Data Source Integration .....	136
<i>Youssef Bououlid Idrissi and Julie Vachon</i>	
Recommendation Quality Evolution Based on Neighbors Discrimination .....	148
<i>Zied Zaier, Robert Godin, and Luc Faucher</i>	
Ontology Learning from Text Using Formal Concept Analysis .....	154
<i>Mohamed Rouane Hacene, Amedeo Napoli, Petko Valtchev, Yannick Toussaint, and Rokia Bendaoud</i>	

## **Web-Mediated Collaborative Work**

NetSim: A Simulation and Visualization Software for Information Network Modeling .....	167
<i>Mélanie Lord and Daniel Memmi</i>	
Towards a Knowledge-Base for Building Complex, Proactive and Service-Oriented E-negotiation Systems .....	178
<i>Giannis Koumoutsos and Kleanthis Thramboulidis</i>	

## **Governance, e-government, and Open Source**

Issues for IT Governance in a Large Not-for-Profit Organization: A Case Study .....	193
<i>Carla L. Wilkin and Jon L. Riddett</i>	
Public-Private Partnership in e-Government: A Case Implementation.....	203
<i>Alain Sandoz, Jean-René Eudes, and Raphaëlle Prévot</i>	
Learning to Trust the Crowd: Some Lessons from Wikipedia.....	212
<i>F. Xavier Olleros</i>	

## **Short Research Papers**

### **Business Process Management**

Assessing the Applicability of Use Case Maps for Business Process and Workflow Description.....	219
<i>Gunter Mussbacher and Daniel Amyot</i>	

Implementing ERP in SMEs: Towards a Ontology Supporting Managerial Decisions ..... 223  
*Hamid Nach and Albert Lejeune*

Proposition of a Method for the Development and Deployment of e-Government Systems  
that Emphasize Good Governance ..... 227  
*Driss Kettani, Bernard Moulin, and Asmae El Mahdi*

## **Security and Trust**

The Security Requirements Behavior Model for Trustworthy Software ..... 235  
*Kassem Saleh and Maryam Habil*

Trust and Autonomic Systems ..... 239  
*H. Lutfiyya, M. Perry, and C. Yew*

SecurityViews: A Dynamic Security for View-Oriented Programming ..... 243  
*Hamid Mcheick and Eric Dallaire*

## **Web Services**

Considerations of Service Assembly Based on the Analysis of Data Flows between Services ..... 249  
*George Feuerlicht*

Behavioral Interface Conformance Checking for WS-BPEL Processes ..... 253  
*Aziz Salah, Guy Tremblay, and Aida Chami*

Practical Load Distribution Models for Web Services Based Environments ..... 258  
*Elarbi Badidi, M. Adel Serhani, Larbi Esmahi, and Mohamed Elkoutbi*

**Author Index ..... 262**
