

Proceedings

International Conference on Machine Vision 2007

(ICMV 2007)

December 28-29, 2007

Islamabad, Pakistan

Organized By

UCF

Military College of Signals, National University of Sciences & Technology

And

University of Central Florida

Proceedings
International Conference on Machine Vision 2007
(ICMV 2007)

Table of Contents

Paper Title	Page #
3-D Reconstruction	
A Hybrid Approach Towards Vision Based Self-localization of Autonomous Mobile Robots	1
Abdul Bais, Robert Sablatnig, Khawaja M. Yahya, Ghulam Mubashar Hassan	
Equivalence of Oblique and Frontal Illumination in Perspective Shape from Shading	7
Shin Yin Yuan, Chi Kin Chow	
Wide Baseline Stereo Based on Background Modeling	12
Naveed Iqbal Rao, M. Junaid Khan	
Focus Measure Operator using 3D Gradient	18
Muhammad Bilal Ahmad	
Face Processing	
Iris Localization via Intensity Gradient and Recognition through Bit Planes	23
Abdul Basit, Muhammad Javed	
Lip localization and Performance Evaluation	29
Shafiq Ur Rehman	
Best Wavelength Selection for Gabor Wavelet using GA for EBGm Algorithm	35
Mohamad Hoseyn Sigari	
Color Model Based Real-Time Face Detection with AdaBoost in Color Image	40
Peng YuXin, Yuxin Jin, He Kezhong	
A Study on Partial Face Recognition of Eye Region	46
Han Foon Neo, Chuan Chin Teo	
Iranian Face Database With Age, Pose and Expression	50
Melika Abbasian Nik, Azam Bastanfard, Mohammad Dehshibi	
Image Processing	
Improving Quality Of Fractal Compressed Images	56
Ehsan Nadernejad, Hamid Hassanpour	
A New Fast No Search Fractal Image Compression in DCT domain	62
Mehdi Salarian, Hamid Hassanpour	
Texture features based on Fourier transform and Gabor filters: an empirical comparison	67
Ahsan Ursani, Kidiyo Kpalma, Joseph Ronsin	

Matching

Automatic Landmark Detection in Cephalometry Using a Modified Active Shape Model with Sub Image Matching	73
Rahele Kafieh, Alireza Mehri, Saeed Sadri	
Shape and Structure for Image Matching and Retrieval	79
Naveed Khattak, George Stockman	
Structure-Less Object Detection Using AdaBoost Algorithm	85
Arif Mahmood	
Best-Match Rectangle Adjustment Algorithm for Persistent and Precise Correlation Tracking	91
Javed Ahmed, M Noman Jafri	

Pattern Recognition and Classification

Creation and Selection of Most Stable Discriminating Features for On-Line Signature Verification	97
Muhammad Talal Ibrahim, Khurram Alimgeer, Muhammad Aurangzeb Khan, Imtiaz Taj	
Online Incremental Random Forests	102
Osman Hassab Elgawi	
Extracting Information from Shadows in SAR Imagery	107
M Jahangir, D Blacknell, C P Moate, R D Hill	
Classification of Potential Nuclei in Prostate Histology Images using Shape Manifold Learning	113
Muhammad Arif, Nasir Rajpoot	
A Robust System for Text Extraction in Video	119
Jingchao Zhou	
Computer Aided Diagnosis of Skin Carcinomas based on textural characteristics	125
Mohammad Ali Chaudhry, Robina Ashraf	

Segmentation

A Computationally Efficient Evaluation Environment for Image Segmentation	129
Hassan Al-Muhairi, Martin Fleury, Adrian Clark	
Procrustes – Based Shape Prior For Parametric Active Contours	135
Mehdi Kamandar, Seyed Alireza Seyedin	
A Methodology for Resolving Severely Occluded Vehicles Based on Component-Based Multi-Resolution Relational Graph Matching	141
Clement Pang, Zhigang Tan, Nelson Yung	
A Low-cost Strong Shadow-based Segmentation Approach for Vehicle Tracking in Congested Traffic Scenes	147
Ehsan Adeli Mosabbebi, Maryam Sadeghi, Mahmood Fathy	
Author's Index	153
