

Proceedings of the IEEE/OES/CMTC  
Ninth Working Conference  
on  
Current Measurement Technology

March 17 - 19, 2008

Conference Theme:

*Advances in Current and Wave Measurement  
Technology and Observations*

Sponsored by the Current Measurement Technology Committee  
of the IEEE Oceanic Engineering Society

Introduction .....	1
Background	
Conference Structure	
Agenda .....	3
<b>SESSION 1. ACOUSTIC DOPPLER TECHNOLOGY .....</b>	<b>9</b>
The Development of Doppler Sonar Technology at SIO .....	11
<i>Robert Pinkel</i>	
Pure Coherent Doppler Systems – How Far Can We Push It? .....	19
<i>Atle Lohrmann and Sven Nylund</i>	
Multi-Frequency, Pulse-to-Pulse Coherent Doppler Sonar Profiler .....	25
<i>Alex E. Hay, Len Zedel, Robert Craig and Wesley Paul</i>	
Improving Acoustic Current Measurements by ZPulse Technology .....	30
<i>Torgeir Jakobsen, Helge Minken and Hilde Furset</i>	
<b>SESSION 2. ACOUSTIC MEASUREMENTS AND PLATFORMS .....</b>	<b>37</b>
A Least Squares Approach to Inverting Doppler Beam Data to World Coordinates .....	39
<i>Len Zedel and Francis-Yan Cyr-Racine</i>	
A Comparison of Near-Surface Current Measurement Methods .....	44
<i>Eric Siegel, Dennis Mayer and Robert Weisberg</i>	
AT, an Acoustic Transmissometer .....	50
<i>Albert J. Williams 3<sup>rd</sup></i>	
Free Falling Probe Current and Temperature Measurement System .....	56
<i>T. Rossby and Viola Wolter</i>	
Current Measurements from Autonomous Underwater Gliders .....	61
<i>L.M. Merckelbach, R.D. Briggs, D.A. Smeed and G. Griffiths</i>	
<b>SESSIONS 3 and 4. OPERATIONAL SYSTEMS .....</b>	<b>69</b>
A Long-Term Real Time Sea Bed Morphology Evolution System in the South Atlantic Bight ....	71
<i>G. Voulgaris and J.P. Morin</i>	

---

<b>Maximizing Data Return: Towards a Quality Control Strategy for Managing and Processing TRDI ADCP Data Sets from Moored Instrumentation .....</b>	<b>80</b>
<i>J.A. Taylor and A.M. Jonas</i>	
<b>Coastal Data Information Program Waves QA/QC .....</b>	<b>89</b>
<i>Julianna Thomas, William O'Reilly and Robert E Jensen</i>	
<b>Quality and Reliability of Current Measurement: A Case Study of Overlapping ADCP Datasets Obtained in Deep Water Gulf of Mexico .....</b>	<b>94</b>
<i>Andy Brown, Caroline Nicholas and Rosemary Smith</i>	
<b>Performance of the 75 kHz Long Ranger ADCP in a Low Scattering Environment .....</b>	<b>101</b>
<i>B.A. Magnell and L.I. Ivanov</i>	
<b>Making Progress and Wanting More: One-Year Near-Surface Current Measurements from a Surface Mooring in the Gulf Stream and Other Thoughts About Long-Term Surface Moorings .....</b>	<b>111</b>
<i>George Tupper, Sebastien Bigorre and Bob Weller</i>	
<b>Long-Term Performance of an AWAC Wave Gauge, Chesapeake Bay, VA .....</b>	<b>119</b>
<i>P.T. Puckette and G.B. Gray</i>	
<b>Test and Evaluation of the Doppler Volume Sampler (DVS) Acoustic Doppler Current Profiler (ADCP) .....</b>	<b>125</b>
<i>Paul Devine and Murray D. Scotney</i>	
<b>SESSIONS 5, 6 and 7. REMOTE SENSING .....</b>	<b>129</b>
<b>30 Years of CMTC and CODAR .....</b>	<b>131</b>
<i>D.E. Barrick</i>	
<b>The Australian Coastal Ocean Radar Network (ACORN) .....</b>	<b>137</b>
<i>M.L. Heron, A. Prytz and S. Searson</i>	
<b>Gulf of Maine Ocean Observing System (GoMOOS): Current Measurement in an Integrate Ocean Observing System .....</b>	<b>143</b>
<i>Neal R. Pettigrew and Francois Nevill</i>	
<b>The Mid-Atlantic Regional Coastal Ocean Observing System: Serving Coast Guard and Fisheries Needs in the Mid-Atlantic Bight .....</b>	<b>151</b>
<i>Hugh Roarty, Josh Kohut, Scott Glenn and MARCOOS Principal Investigators</i>	
<b>NOAA IOOS National HF Radar Network Data Management: Status and Plans .....</b>	<b>156</b>
<i>Jack Harlan, Eric Terrill and Richard Crout</i>	

---

<b>A Conceptual Design for Simultaneous Measurements of 3D Surface Wave Field and Ocean Surface Current Vector using the InSAR Technology .....</b>	<b>160</b>
<i>Paul A. Hwang, Jakov V. Toporkov and Mark A. Sletten</i>	
<b>Current Measurements in Coastal Waters and Rivers by TerraSAR-X Along-Track InSAR .....</b>	<b>165</b>
<i>Roland Romeiser</i>	
<b>A Coherent Microwave Marine Radar for Decameter-Scale Coastal Current Mapping .....</b>	<b>168</b>
<i>Dennis B. Trizna</i>	
<b>Near-Surface Current Profile Measurements using Time Series Optical Imagery .....</b>	<b>174</b>
<i>John Dugan, Cindy Piotrowski, Seth Zuckerman, Clayton Chinn, Matt Yi and Ken Vierra</i>	
<b>Remote Sensing Stream Flow and Soil Moisture by using Reflected GPS Signals L1 and L2 Observation and Doppler Shifts with an Integrated GPS Receiver .....</b>	<b>181</b>
<i>L.C. Shen, J.C. Juang and C.L. Tsai</i>	
<b>Comparison of HF Radar and ADCP Surface Currents at the Delaware Bay Mouth .....</b>	<b>189</b>
<i>A. Skarke, B.L. Lipphardt Jr, P. Muscarella, K.C. Wong, A. Trembanis, and M. Badiey</i>	
<b>Marine Doppler Radar Surface Current Measurements in the Surf Zone .....</b>	<b>194</b>
<i>Dragana Perkovic, Thomas C. Lippmann and Stephen J. Frasier</i>	
<b>Surface Current and Wave Validation of a Nested Regional HF Radar Network in the Mid-Atlantic Bight .....</b>	<b>203</b>
<i>Josh Kohut, Hugh J. Roarty, Sage Lichtenwalner, Scott Glenn, Don Barrick, Belinda Lipa and Arthur Allen</i>	
<b>SESSION 8. WAVES .....</b>	<b>209</b>
<b>Directional Spectra Comparisons between HF Radar and a Wave Model .....</b>	<b>211</b>
<i>Lucy R. Wyatt, J. Jim Green and Andrew Middleditch</i>	
<b>Shallow Angle Wave Profiling LIDAR .....</b>	<b>217</b>
<i>M.R. Belmont, J.M.K. Horwood, R.W.F. Thurley and J. Baker</i>	
<b>Wave Measurements from Subsurface Buoys .....</b>	<b>224</b>
<i>Torstein Pederson and Eric Siegel</i>	
<b>A Comparative Study of an AADI RDCP600, an RDI ADCP (1200KHz) and a Triaxys Wave Buoy in the Dee Estuary .....</b>	<b>234</b>
<i>John Kenny</i>	

<b>SESSION 9. RIVERS AND ESTUARIES .....</b>	<b>243</b>
<b>River Current Measurements using Coherent Microwave Radar: Toward Gaging Unstable Streams .....</b>	<b>245</b>
<i>William J. Plant, William C. Keller, Chris Siani and Gene Chatham</i>	
<b>Validation of Exposure Time for Discharge Measurements made with Two Bottom-Tracking Acoustic Doppler Current Profilers .....</b>	<b>250</b>
<i>Jonathan A. Czuba and Kevin Oberg</i>	
<b>Dual-RiverSonde Measurements of Two-Dimensional River Flow Patterns .....</b>	<b>258</b>
<i>Calvin C. Teague, Donald E. Barrick, Peter M. Lilleboe, Ralph T. Cheng, Paul Stumpner and Jon R. Burau</i>	
<b>Measuring Gravity Currents in the Chicago River, Chicago, Illinois .....</b>	<b>264</b>
<i>Kevin A. Oberg, Jonathan A. Czuba and Kevin K. Johnson</i>	
<b>SESSION 10. REGIONAL CIRCULATION .....</b>	<b>271</b>
<b>The Residual Dynamics of a Hypertidal Coastal Sea – A Cognoscente’s Perspective .....</b>	<b>273</b>
<i>M.J. Howarth</i>	
<b>Estimating Lagrangian Residual Circulation (LRC) in the Iroise Sea .....</b>	<b>279</b>
<i>Leif Petersen, Héloïse Muller and Vincent Mariette</i>	
<b>Satellite-Tracked Drifter Measurements of Inertial Currents in the Gulf of Mexico .....</b>	<b>285</b>
<i>Steven P. Anderson and Neha Sharma</i>	
<b>Exhibitors .....</b>	<b>289</b>
<b>Conference Committee .....</b>	<b>292</b>
<b>Author Index .....</b>	<b>293</b>
