

2007 IEEE Power Engineering Society Conference and Exposition in Africa

**Johannesburg, South Africa
16-20 July 2007**

Pages 1-299

IEEE Catalog Number:
ISBN 10:
ISBN 13:

CFP07PES-PRT
1-4244-1477-6
978-1-4244-1477-2

Table of Contents

Allocation of Transmission Loss Cost with Traceable Flow Method in Power System Network.....	1
<i>H. Siahkali</i>	
Transient Polarity Comparison for Integrated Protection of Distribution Network.....	7
<i>Z Q Bo, J H He, X Z Dong, B R J Caunce, A Klimek</i>	
The Use of an Electromagnetic Finite Elements Package to Aid in Understanding Shaft Voltages in a Synchronous Generator	14
<i>Daniel de Canha, Willie A Cronje, Alan S Meyer, Simon J Hoffe</i>	
Exergy Analysis for Performance Optimization of a Steam Turbine Cycle.....	20
<i>Tapan K. Ray, Ranjan Ganguly, Amitava Gupta</i>	
Proposed Transformer Paralleling Guide for IEEE Transformer Committee	28
<i>E. Tom Jauch</i>	
Control Practices Contribute To Premature Transformer Failures.....	36
<i>E. Tom Jauch</i>	
A New Partitioned Algorithm of Innovation Graph Technique	42
<i>Yanjun Zhang, Yibin Shi, Suquan Zhou, Yongjie Leng, Tianyu An</i>	
PROTECTION AND SUBSTATION AUTOMATION SYSTEMS: STANDARDIZATION, INTEGRATION AND INFORMATION TECHNOLOGY	49
<i>I. De Mesmaeker, C. Rytøft, P. Reinhardt</i>	
Power Transformer Transient Based Protection Using Wavelet De-Noising.....	55
<i>Z. J. Ou, J. H. He, Z. Q. Bo, A. Klimek</i>	
New Topology of Multi - Level - Converter with Optimised Pulse Sequences	60
<i>Frank Grundmann, Jian Xie</i>	
Ant Colony Optimization-Based Approach to Optimal Reactive Power Dispatch: A Comparison of Various Ant Systems.....	67
<i>Alireza Abbasy, Seyed Hamid Hosseini</i>	
A Generalized Load Flow Method to Assess Steady-State Equilibrium of Power Systems	75
<i>Igor Kopcak, Luiz Carlos Pereira da Silva, Vivaldo Fernando da Costa</i>	
Fault Classification in Distribution Power Lines Based on Electromagnetic Field Measurement and Fourier Transform.....	82
<i>S. A. Davari, S. M. Shahrtash</i>	
Effectiveness of Zonal Pricing Congestion Management Scheme in the European Electricity Market.....	87
<i>M. Imran, J. W. Bialek</i>	
Covered-Conductor Overhead Distribution Line Modeling and Experimental Verification for Determining its Line Characteristics	95
<i>G. Murtaza Hashmi, Matti Lehtonen</i>	
Loading Capability of Transformer in Over-excitation Condition	102
<i>M. Savaghebi, A. Gholami, H. Hooshyar</i>	
Proper Dimension of HTS Material for a Resistive Type SFCL in an 11kV Distribution System	105
<i>H. Heydari, H. Hooshyar, M. Savaghebi, R. Sharifi</i>	
Harmonics Consideration of a Resistive Type Superconducting Fault Current Limiter.....	109
<i>H. Heydari, H. Hooshyar, M. Savaghebi, R. Sharifi</i>	
High Pressure Pump Efficiency Determination from Temperature and Pressure Measurements	113
<i>A.E Cattaert</i>	

Table of Contents

Wind Measurements and Energy Potential for a Remote Village in Saudi Arabia	121
<i>S. Rehman, I. M. El-Amin, S. Shaahid, A. Ahmad, F. Ahmad, T. Thabit, S. Rehman., I. M. El-Amin, A. Ahmad, F. Ahmad, T. Thabet</i>	
Flicker Propagation in Interconnected Power Systems.....	126
<i>Sankika Tennakoon, Sarath Perera, Danny Sutanto</i>	
Analysis of Network Asymmetry of Interconnected 66kV Sub-transmission Systems in relation to Voltage Unbalance.....	132
<i>Prabodha Paranavithana, Sarath Perera, Danny Sutanto</i>	
Ground Layer Depth and the Effect of GPR.....	140
<i>A. Puttarach, N.Chakpitak, T. Kasirawat, C. Pongsriwat</i>	
A Generation Reserve Optimization Model Incorporating Demand Market Participation	145
<i>P. Smit, R. Naidoo, V. Naidoo</i>	
Online Voltage Stability Monitoring and Contingency Ranking using RBF Neural Network.....	150
<i>B. Moradzadeh, S.H. Hosseinian, M.R. Toosi, M.B Menhaj</i>	
Altruistic versus Profit Maximising System Operators of Rural Power Systems.....	157
<i>A. Sendegeya, M. Amelin, L. Söder, E. Lugujo, I. P. Da Silva</i>	
Feature Extraction of High Impedance Arcing Faults in Compensated MV Networks. Part I: DWT-Based Analysis of Phase Quantities	164
<i>N. I. Elkalashy, M. Lehtonen, H. A. Darwish, A-M. I. Taalab, M. A. Izzularab</i>	
Feature Extraction of High Impedance Arcing Faults in Compensated MV Networks. Part II: DWT-Based Analysis of Residual Components	170
<i>N. I. Elkalashy, M. Lehtonen, H. A. Darwish, A-M. I. Taalab, M. A. Izzularab</i>	
A Hybrid Strategy for Distributed Generators Islanding Detection	175
<i>M. Ezzi, M. I. Marei, M. Abdel-Rahman, M. M. Mansour</i>	
Examining Power Line Communication on Egypt's Low Voltage Grid for AMR Network.....	182
<i>A. Helmy, M. Abdel Rahman, M.M Mansour</i>	
Simulation of Nonlinear Elements within the Framework of Time Domain.....	188
<i>S. H. Hosseinian, E. Nasr Azadani, B. Vahidi</i>	
Robustness Evaluation Of H Power System Stabilizer.....	193
<i>K Mocwane, KA Folly</i>	
Advanced Alarm Processing Facilities Installed on Eskom's Energy Management System.....	199
<i>Richard Candy, Jacques Taisne</i>	
Intelligent Local and Hierarchical Control of FACTS Devices	207
<i>Salman Mohagheghi, Ganesh K. Venayagamoorthy, Ronald G. Harley</i>	
Applying a New Simulated Annealing Algorithm to Control the THDV and Solve Continuous Problems	215
<i>Soheil Ghadami, Maryam Shokoufi Moghiman, Mir Hoseyn Dezfoulian</i>	
Feasibility of Increased Power via Apollo Songo HVDC Scheme.....	221
<i>N. Mbuli</i>	
Thermostatic Load Modeling	227
<i>M. Abdel-Rahman</i>	
HVDC Strengthening in Southern Africa.....	233
<i>P. Tuson</i>	
Potential Applications and Network Considerations for an Emerging Technology - High Voltage Direct Current (HVDC) Technology in Africa	239
<i>Irma Emmanuel Lubini</i>	

Table of Contents

DC and AC Side Harmonics in CCC Converters	245
<i>Luis C. Origa de Oliveira, Wilson M. Borges, Júlio B. de Souza, Lidia L. Ravagnani</i>	
Intelligent Optimal Control of Wind Power Generating System by a Complemented Linear Quadratic Gaussian Approach	250
<i>Endusa Billy Muhando, Tomonobu Senjyu, Otara Zachary Siagi, Toshihisa Funabashi</i>	
Energy Consumption Modeling in South Africa Correlated with the Income.....	258
<i>Willy Siti</i>	
Master Plan for the Electricity Distribution Network of Istanbul European Side	265
<i>M. E. Cebeci, O. B. Tör, U. Karaagaç, M. Altin, M. Akdeniz, A. Nadar</i>	
Heuristic Guided Lagrangian Relaxation and Augmented Lagrange Hopfield Network for Unit Commitment.....	271
<i>Vo Ngoc Dieu, Weerakorn Ongsakul</i>	
A study of laser-generated plasmas and their application to high voltage engineering.....	279
<i>N. J. West, I. R. Jandrell</i>	
Optimization of the Efficiency of Aeolian Vibration Dampers.....	285
<i>H. J. Krispin, S. Fuchs, P. Hagedorn</i>	
Important Parameters for Prediction of Power Loads - A Bottom-Up Approach Utilizing Measurements from an Automatic Meter Reading System	288
<i>F. Wallin, C. Bartusch, E. Thorin, E. Dahlquist</i>	
An Online Method of Extracting Single Event Sag Indices	295
<i>R. Naidoo, P. Pillay</i>	
Management of Voltage Dip Performance for Large Industrial Customers.....	300
<i>Ulrich Minnaar, Andrew Sprunt, Thinus Du Plessis, Robert Koch, Dharmesh Bhana</i>	
Comparison of the lightning risk profile of different types of structures with incoming power services	306
<i>A.S. Dickson, I.R. Jandrell</i>	
A Performance Evaluation of Shaped Planar Inductor Windings in Gapped Core Applications Utilizing Turns With Constant DC-Resistance.....	312
<i>D.C. Pentz, I.W. Hofsjajer</i>	
Novel Technique for Shaped Planar Inductor Winding Optimization in Gapped Core Applications.....	318
<i>D.C. Pentz, I.W. Hofsjajer</i>	
Acoustic and HF Detection of Defects on Porcelain Pin Insulators.....	324
<i>C. Nyamupangedengu, L.P. Luhlanga, T. Letlape</i>	
Voltage Sag Source Location: Case Study in Zambian Grid	329
<i>Readlay Makaliki, Roberto C. Leborgne</i>	
Angle Modulated Particle Swarm Optimization Based Defensive Islanding of Large Scale Power Systems.....	334
<i>Wenxin Liu, Li Liu, David A. Cartes</i>	
Investigation into the Complexity versus Performance of the DC Bus in a Voltage Fed Converter	342
<i>E. Brink, I.W. Hofsjajer</i>	
Eskom's New Coal-Fired Power Stations Programme Case of Bravo Power Station Scheme: Transmission Integration (Feasibility study)	350
<i>C. Shako Tulamba</i>	
Electrical Power Flow Spectral Analysis relating to Vibration in a Large Electromechanical System	355
<i>C. Lines, P. Warner</i>	
A novel approach to providing on route power supplies to rural and urban communities in close proximity to the extra high voltage DC transmission line.....	359
<i>Gunnar Asplund, Andrew Williamson</i>	

Table of Contents

MONITORING POWER QUALITY BEYOND EN 50160 AND IEC 61000-4-30	365
<i>Amir Broshi</i>	
Interconnecting Large-scale Wind Power to Transmission Networks	372
<i>Johan HR Enslin</i>	
The Analysis and Design of an Inter-Winding Shielding Structure of a High Frequency Transformer	378
<i>A. Portolan, I.W. Hofsjajer</i>	
Geophysical and geological pre-investigations for HVDC-electrodes	384
<i>H. Thunehed, U. Åström, B. Westman</i>	
Application of Weighted Structured Total Least Squares in Identification of Power System Oscillation Modes	387
<i>Rastko Zivanovic</i>	
Valuation of FACTS for Managing Congestion in Combined Pool and Bilateral Markets	392
<i>You Shi, Kennedy Mwanza, Le Anh Tuan</i>	
Design and Analysis of a Double-Sided Tubular Linear Synchronous Generator with Particular Application to Wave-Energy Conversion	399
<i>Danson M. Joseph , Willie A. Cronje</i>	
The Impedance Chart and its Application in Obtaining the Shape and Complex Plane Position of the Out-Of-Step Polygons	407
<i>LNF de Villiers, JM van Coller</i>	
A Study of Bird Streamer Initiated Breakdown Characteristics Under HVDC Conditions	416
<i>N.M. Ijumba, K. Naidoo, A.C. Britten</i>	
A comparative study of space charge effects on corona current using an indoor corona cage and a monopolar test line	422
<i>M. J. Lekganyane, N. M. Ijumba, A. C. Britten</i>	
A Real-Time Simulator Study Into The Performance Of A Novel Voltage Regulator For On-Load Tap-Changing Transformers	428
<i>T. Modisane, B. S. Rigby</i>	
A FACTS-Based Power Flow Controller Model for The IEEE SSR First Benchmark Model	436
<i>R. Pillay Carpanen, B. S. Rigby</i>	
Automated Real-Time Simulator Testing of Protection Relays	444
<i>B. S. Rigby</i>	
Identification of Induction Machines Stator Currents with Generalized Neurons	451
<i>Jing Huang, Ganesh K. Venayagamoorthy, Keith Corzine</i>	
Grid-connected and islanded operation of a hybrid power system	458
<i>Y. Zhou, J. A. Ferreira, P. Bauer</i>	
Design of a Portable Hand Crank Generating System to Power Remote Off-Grid Communities	464
<i>Long Wu, Aristidis Zachas, Ronald G. Harley, Thomas G. Habetler, Deepakraj M. Divan</i>	
Commissioning of an AMR Prototype System by PLC Technology	472
<i>Soodeh Haghgoo, Amir Seyedi</i>	
The electrical demand by transport on the grid after oil depletion	477
<i>J.J. Wolmarans, J.A. Ferreira</i>	
Application of Evolution Algorithm in Power System Control Design	484
<i>KA. Folly</i>	
A Fuzzy Technique for Voltage Control During Parallel Operation between In-plant Generation and Utility	489
<i>Ahmed Hegazy, Yasser Galal</i>	

Table of Contents

A Dynamic Fault Current Limiter (DFCL)	497
<i>H. Rubenbauer, G. Herold</i>	
Coordinated Control of Multiple HVDC systems for damping interarea oscillations in CSG	504
<i>Li Licheng, Wu Xiaochen, Li Peng</i>	
Comparison of Standards for Determining Losses and Efficiency of Three-Phase Induction Motors	511
<i>H. M. Mzungu, A. B. Sebitosi, M. A. Khan</i>	
An Integrated Design Approach for Small Grid-tied Permanent Magnet Wind Generators	517
<i>M.A. Khan, S. Zorlu, R. Guan, P. Pillay, K.D. Visser</i>	
Standards and Technical Guidelines for the Interconnection of Renewable Energy Sources into the Grid (Distribution Networks)	523
<i>T.T. Madangombe, K. A. Folly, P. Pillay</i>	
Proposed Ancillary Services for the Southern African Power Pool	530
<i>Graeme A Chown, Jonathan Hedgecock, John Diya, Alison Chikova</i>	
Study on the Key Equipment's Insulation Level of ± 800kV UHVDC Power Transmission Project	536
<i>lv Jinzhuang, Li Licheng</i>	
Study on Pollution Flashover Characteristics of ± 800kV DC Composite Insulators	540
<i>Luo Bing, Li Licheng, Rao Hong, Li Xiaolin</i>	
Study on Overload Capability and Its Application of HVDC Transmission System in China Southern Power Grid	545
<i>XU Aidong, WU Xiaochen, HONG Chao, JIN Xiaoming, LI Peng</i>	
Study on the Dynamic Performance of AC & DC Hybrid System in China Southern Power Grid	549
<i>Kaijian OU</i>	
Using Cross-Correlation Coefficients to Analyze Transformer Sweep Frequency Response Analysis (SFRA) Traces	553
<i>G.M. Kennedy, A.J. McGrail, J.A. Lapworth</i>	
Transformer Internal Over-Voltages Caused by Remote Energisation	559
<i>J.A. Lapworth, A.Wilson</i>	
Asset Health Reviews to Manage Remaining Life	565
<i>A. Wilson, J. A. Lapworth</i>	
On Distribution Asset Management: Development of Replacement Strategies	572
<i>Miroslav Begovic, Joshua Perkel, Nigel Hampton, Rick Hartlein</i>	
Changing the Tele-control Protocol to support Substation Based Intelligent Alarm Processing and Direct Control Staff Interaction with the Substation RTU/Gateway	579
<i>Richard Candy</i>	
A new apparatus for mitigating the hot spot problem in large power transformers using Ants algorithm	587
<i>Kouros Mousavi Takami, Jafar Mahmoudi</i>
