

# 2008 16th International Workshop on Quality of Service

Enschede, The Netherlands  
2-4 June 2008

IEEE Catalog Number:  
ISBN:

CFP08IWQ-PRT  
978-1-4244-2084-1

## Table of Contents

### **Invited Presentation: QoS Deployment Trends in Next Generation Packet Networks**

*Steven Blake, Extreme Networks, USA*

<b>Session 1: Peer-to-Peer Networks and Applications .....</b>	<b>1</b>
<b>Evolution and Enhancement of BitTorrent Network Topologies .....</b>	<b>3</b>
<i>Cameron Dale, Simon Fraser University, Canada; Jiangchuan Liu, Simon Fraser University, Canada; Joseph Peters, Simon Fraser University, Canada; and Bo Li, Hong Kong University of Science and Technology, Hong Kong</i>	
<b>Performance and Quality-of-Service Analysis of a Live P2P Video Multicast Session on the Internet .....</b>	<b>13</b>
<i>Sachin Agarwal, Deutsche Telekom A.G., Laboratories, Germany; Jatinder Pal Singh, Deutsche Telekom A.G., Laboratories, Germany; Aditya Mavlankar, Stanford University, USA; Pierpaolo Baccichet, Stanford University, USA; and Bernd Girod, Stanford University, USA</i>	
<b>Reputation-assisted Utility Maximization Algorithms for Peer-to-Peer Networks.....</b>	<b>22</b>
<i>George Iosifidis, University of Thessaly, Greece; and Iordanis Koutsopoulos, University of Thessaly, Greece</i>	
<b>Session 2: Web Systems and Service Oriented Architectures .....</b>	<b>33</b>
<b>SLA-based Service Composition in Enterprise Computing.....</b>	<b>35</b>
<i>Kaiqi Xiong, NCSU, USA; and Harry Perros, NCSU, USA</i>	
<b>A Negotiation Mechanism for Advance Resource Reservations Using the Alternate Offers Protocol .....</b>	<b>45</b>
<i>Srikumar Venugopal, University of Melbourne, Australia; Xingchen Chu, University of Melbourne, Australia; and Rajkumar Buyya, University of Melbourne, Australia</i>	
<b>Self-* overload Control for Distributed Web Systems .....</b>	<b>55</b>
<i>Novella Bartolini, University of Rome , Italy; Giancarlo Bongiovanni, University of Rome , Italy; and Simone Silvestri, University of Rome , Italy</i>	
<b>Session 3: Short Papers I .....</b>	<b>65</b>
<b>On the Speedup Required to Achieve 100% Throughput for Multicast over Crossbar Switches.....</b>	<b>67</b>
<i>Can Emre Koksal, The Ohio State University, USA</i>	
<b>Obtaining High Throughput in Networks with Tiny Buffers.....</b>	<b>72</b>
<i>Neda Beheshti, Stanford University, USA; Yashar Ganjali, University of Toronto, Canada; Ashish Goel, Stanford University, USA; and Nick McKeown, Stanford University, USA</i>	
<b>Extensible Modular Design and Implementation of Hybrid Packet Schedulers .....</b>	<b>77</b>
<i>Douglas Comer, Cisco Systems, USA; and Maxim Martynov, Cisco Systems, USA</i>	
<b>Scaling Laws for File Dissemination in P2P Networks with Random Contacts .....</b>	<b>82</b>
<i>Rudesindo Nunez-Queija, CWI, The Netherlands; and Balakrishna Prabhu, LAAS-CNRS, France</i>	

## Table of Contents

<b>Session 4: Buffer Sizing in Routers .....</b>	<b>87</b>
<b>Routers With Very Small Buffers: Anomalous Loss Performance for Mixed Real-Time and TCP Traffic .....</b>	<b>89</b>
<i>Arun Vishwanath, University of New South Wales, Australia; and Vijay Sivaraman, University of New South Wales, Australia</i>	
<b>ABS: Adaptive Buffer Sizing for Heterogeneous Networks .....</b>	<b>99</b>
<i>Yueping Zhang, NEC Laboratories America, Inc., USA; and Dmitri Loguinov, Texas A&amp;M University, USA</i>	
<b>Session 5: Congestion Control.....</b>	<b>109</b>
<b>Making a Delay-based Protocol Adaptive to Heterogeneous Environments .....</b>	<b>111</b>
<i>Kiran Kotla, Texas A&amp;M University, USA; and A. L. Narasimha Reddy, Texas A&amp;M University, USA</i>	
<b>Performance Evaluation of PCN-Based Admission Control .....</b>	<b>121</b>
<i>Michael Menth, University of Wuerzburg, Germany; and Frank Lehrieder, University of Wuerzburg, Germany</i>	
<b>Towards Experimental Evaluation of Explicit Congestion Control .....</b>	<b>132</b>
<i>Saurabh Jain, Cisco Systems, Inc., USA; Yueping Zhang, NEC Laboratories America, Inc., USA; and Dmitri Loguinov, Texas A&amp;M University, USA</i>	
<b>Session 6: Wireless and Sensor Networks .....</b>	<b>143</b>
<b>Delay Analysis of Bandwidth Request in Truncated Binary Exponential Backoff Mechanism over Error-Free/Error-Prone Channels in IEEE 802.16e.....</b>	<b>145</b>
<i>Eunju Hwang, Korea University, Korea; Kyung Jae Kim, Korea University, Korea; Andrey Lyakhov, RAS, Russia; and Bong Dae Choi, Korea University, Korea</i>	
<b>Dynamic Control of Tunable Sub-optimal Algorithms for Scheduling of Time-varying Wireless Networks.....</b>	<b>153</b>
<i>Mahdi Lotfinezhad, University of Toronto, Canada; Ben Liang, University of Toronto, Canada; and Elvino S. Sousa, University of Toronto, Canada</i>	
<b>Collaborative Target Detection in Wireless Sensor Networks with Reactive Mobility .....</b>	<b>164</b>
<i>Rui Tan, City University of Hong Kong, China; Guoliang Xing, City University of Hong Kong, China; Jianping Wang, City University of Hong Kong, China; and Hing Cheung So, City University of Hong Kong, China</i>	
<b>Achieving Energy Efficiency with Transmission Pushbacks in Sensor Networks.....</b>	<b>174</b>
<i>Sha Liu, Ohio State University, USA; Rahul Srivastava, Ohio State University, USA; Can Emre Koksal, Ohio State University, USA; and Prasun Sinha, Ohio State University, USA</i>	

## Table of Contents

<b>Session 7: Mobile Networking .....</b>	<b>185</b>
<b>Transcasting: Cost-Efficient Video Multicast for Heterogeneous Mobile Terminals.....</b>	<b>187</b>
<i>Morihiko Tamai, Nara Institute of Science and Technology, Japan; Keiichi Yasumoto, Nara Institute of Science and Technology, Japan; Naoki Shibata, Shiga University, Japan; Minoru Ito, Nara Institute of Science and Technology, Japan; and Klara Nahrstedt, University of Illinois at Urbana-Champaign, USA</i>	
<b>Performance of TCP in Multi-Hop Access Networks.....</b>	<b>197</b>
<i>Yang Su, ETH Zurich, Switzerland; Peter Steenkiste, Carnegie Mellon University, USA; and Thomas Gross, ETH Zurich, Switzerland</i>	
<b>Architecture of Achieving QoS for Multiple Flows per Node in WLANs .....</b>	<b>207</b>
<i>Weihua Xi, University of Bristol, UK; Alistair Munro, University of Bristol, UK; and Michael Barton, University of Bristol, UK</i>	
<b>Session 8: Short Papers II .....</b>	<b>215</b>
<b>Stochastically Guaranteed Routing for Additive Link Metrics with Unknown Distributions .....</b>	<b>217</b>
<i>Suleyman Uludag, The University of Michigan - Flint, USA; Ziyne Elif Uludag, The University of Michigan - Flint, USA; Anthony Howell, The University of Michigan - Flint, USA; Fred Baker, Cisco Systems, Inc. , USA; and King-Shan Lui, University of Hong Kong, China</i>	
<b>Performance Evaluation of Pre-Congestion Notification.....</b>	<b>222</b>
<i>Xinyang Zhang, Cornell University, USA; and Anna Charny, Cisco Systems, Inc., USA</i>	
<b>Invited Presentation: QoS: (Still) a Grand Challenge?</b>	
<i>David Hutchison, Lancaster University, UK</i>	
<b>Session 9: Traffic Filtering, Identification and Characterization.....</b>	<b>227</b>
<b>Dynamic Balancing of Packet Filtering Workloads on Distributed Firewalls.....</b>	<b>229</b>
<i>Guanhua Yan, Los Alamos National Laboratory, USA; Songqing Chen, George Mason University, USA; and Stephan Eidenbenz, Los Alamos National Laboratory, USA</i>	
<b>Application Identification Based on Network Behavioral Profiles .....</b>	<b>239</b>
<i>Yan Hu, Chinese University of Hong Kong, China; Dah-Ming Chiu, Chinese University of Hong Kong, China; and John C. S. Lui, Chinese University of Hong Kong, China</i>	
<b>Statistics and Social Network of YouTube Videos.....</b>	<b>249</b>
<i>Xu Cheng, Simon Fraser University, Canada; Cameron Dale, Simon Fraser University, Canada; and Jiangchuan Liu, Simon Fraser University, Canada</i>	

## Table of Contents

<b>Session 10: Quality of Experience .....</b>	<b>259</b>
<b>Packet Loss in Real-Time Services: Markovian Models Generating QoE Impairments.....</b>	<b>261</b>
<i>Oliver Hohlfeld, Darmstadt University of Technology, Germany; Rüdiger Geib, T-Systems, Germany; and Gerhard Haßlinger, T-Systems, Germany</i>	
<b>TCP-ROME: A Transport-Layer Approach to Enhance Quality of Experience for Online Media Streaming .....</b>	<b>271</b>
<i>Ju-Won Park, Gwangju Institute of Science Technology, Korea; JongWon Kim, Gwangju Institute of Science Technology, Korea; and Roger Karrer, TU Berlin, Germany</i>	
<b>Session 11: End-to-End QoS Provisioning .....</b>	<b>281</b>
<b>Edge-to-Edge Bailout Forward Contracts for Single-Domain Internet Services .....</b>	<b>283</b>
<i>Weini Liu, Rensselaer Polytechnic Institute, USA; Hasan T. Karaoglu, University of Nevada, Reno, USA; Aparna Gupta, Rensselaer Polytechnic Institute, USA; Murat Yuksel, University of Nevada, Reno, USA; and Koushik Kar, Rensselaer Polytechnic Institute, USA</i>	
<b>Control Plane for End-to-End QoS Guarantee: A Theory and its Application .....</b>	<b>293</b>
<i>Zvi Rosberg, CSIRO ICT Centre, Australia</i>	
<b>Flexible QoS Route Selection with Diverse Objectives and Constraints .....</b>	<b>303</b>
<i>Anthony McAuley, Telcordia Technologies, USA; Kyriakos Manousakis, Telcordia Technologies, USA; and Latha Kant, Telcordia Technologies, USA</i>	
<b>Author Index.....</b>	<b>313</b>
