

International Conference on
Networking, Architecture, and Storage

July 29-31, 2007 Guilin, China

Sponsored by

Huazhong University of Science and Technology in cooperation with IEEE Computer Society.

Networking Architecture and Storage

International Conference on Networking,
Architecture, and Storage
2007

TABLE OF CONTENTS

SESSION 1A: Architecture

Design of NIC Based on I/O Processor For Cluster Interconnect Network 1
X. Yang, D. Wu, N. Sun

Simplified Multi-Ported Cache in High Performance Processor 7
H. Zhang, D. Fan

The Bi-Panconnectivity of the Hypercube 13
J.F. Fang, C.H. Huang, K.L. Lin, C.H. Liao, S.C. Feng

**The Implementation and Design of a Low-Power Clock Distribution
Microarchitecture** 19
R. Ji, X. Zeng, L. Chen, J. Zhang

SESSION 1B: NETWORKS I

**More Efficient Mechanism of Topology-Aware Overlay Construction in
Application-Layer Multicast** 26
J. Cui, Y. He, L. Wu

MLCC: A Multi Layered Correlative Control Mechanism for the VPN Topology 32
K. Ouyang, X. Chu, L. Dong, H. Wang, T. Cai

The Dynamic Endpoint-Based Access Control Model on VPN 39
L. Dong, S. Yu, K. Ouyang

SESSION 2A: NETWORKS II

Routing Protocols Based on Double Auction for Ad Hoc Network 47
Z. Wu, Z. Chen, L. Xu, F. Guo

**A Novel Cooperative Caching Scheme for Wireless Ad Hoc Network: Group
Caching** 54
Y.W. Ting, Y.K. Chang

**An Optimal MPLS-TE Solution to Route Selection and Redistribution on
Congested Networks** 61
C. Li, P. Li, T. Mohammed

SESSION 2B: NETWORK SECURITY I

An Improved Designated-Verifier Proxy Signature Scheme 67
J. Zhang

PKI-Based Authentication Mechanisms in Grid Systems	73
<i>S. Zhao, A. Aggarwal, R.D. Kent</i>	
Assesing Attack Threat by the Probability of Following Attacks	81
<i>Z.T. Li, J. Lei, L. Wang, D. Li,</i>	

SESSION 3A: NETWORK SECURITY II

Mitigating Denial of Capability With an Notification Mechanism	89
<i>G. Jin, J. Yang, W. Wei, Y. Dong</i>	
HKM: A Hybrid Key Mangement Scheme for Secure Mobile Multicast	97
<i>L.L. XueMing Li, Y. Cheng</i>	
Discovering Novel Multistage Attack Patterns in Alert Streams	103
<i>A.F. Zhang, Z.T. Li, D. Li, L. Wang</i>	
Safeguarding Against Sybil Attacks Via Social Networks and Multipath Routing	110
<i>C. Hota, J. Lindqvist, K. Karvonen, A.Y. Jaaski, M. C.K.J</i>	

SESSION 3B: SENSOR NETWORKS AND OTHERS

Mining Moving Patterns Based on Frequent Patterns Growth in Sensor Network	118
<i>Y. Cheng, X. Ren</i>	
An Active Region-Based Storage Mechanism in Large Wireless Sensor Networks	124
<i>X. Ge, D. Feng, L. Tian</i>	
A Novel Network Management Architecture for Self-Organizing Network	131
<i>L. Jun, Z. Shunyi, Z. Zailong, W. Pan</i>	

SESSION 4A: DISTRIBUTED COMPUTING AND SOFTWARE TESTING

A Peer-To-Peer Traffic Identification Method Using Machine Learning	137
<i>H. Liu, W. Feng, Y. Huang, X. Li</i>	
GSM-R: A Hybrid Scheduling Approach to Dynamic Load Balancing in Hierarchical Cluster of Servers	143
<i>J. Chen, G. Zhou</i>	
Software Fault Localization Based on Testing Requirement and Program Slice	150
<i>J. Sun, Z. Li, J. Ni, F. Yin</i>	

SESSION 4B: STORAGE I

An Efficient SAN-Level Caching Method Based on Chunk-Aging	157
<i>J. Shu, Y. Wang, W. Xue, Y. Luo</i>	
FTRCID: A Fat-Tree Based Parallel Storage Architecture for Very Large Disk Array	165
<i>Z. Wang, K. Zhou, D. Feng, L. Zeng, J. Liu</i>	
A New Data Format and a New Error Control Scheme for Optical-Storage Systems	173
<i>W. Hu, D. Hu, C. Xie, F. Chen</i>	
iSAN: Storage Area Network Management Modeling Simulation	179
<i>R. Routray, S. Gopisetty, P. Galgali, A. Modi, S. Nadgowda</i>	

SESSION 5A: STORAGE II

Dynamics Process of Long-Running Allocation/Collection in Linear Storage Space	187
<i>C. Qiang, G.T. Jie, X.C. Sheng</i>	
A New Method of Prefetching I/O Requests	195
<i>H.Y. Li, C.S. Xie, Y. Liu</i>	
Performance Evaluation of a Load Self-Balancing Method for Heterogeneous Metadata Server Cluster Using Trace-Driven and Synthetic Workload Simulation	203
<i>B. Cai, C. Xie, G. Zhu</i>	
DiskGroup: Energy Efficient Disk Layout for RAID1 Systems	211
<i>L. Lu, P. Varman, J. Wang</i>	

SESSION 5B: SHORT PAPERS I: ARCHITECTURE AND STORAGE

M²SI: An Improved Coherency Protocol in CMP	219
<i>P. Ma, S. Chen</i>	
An Adaptive Arbitration Algorithm for SoC Bus	221
<i>H. Li, M. Zhang, W. Zheng, D. Li</i>	
The System Design and Performance Analysis of WiMAX Base Station MAC Based on Intel Network Processor	223
<i>M. Wu, C. Xie, Q. Wang</i>	
Dynamic Power Management and Dynamic Voltage Scaling in Real-Time CMP Systems	225
<i>L. Miao, Y. Qi, D. Hou, C.L. Wu, Y.H. Dai</i>	
Research and Implementation of RAID Algorithm Base on RAID Controller	227
<i>J.G. Song, X.C. Sheng, W. Bo</i>	
B+ Tree Management Method of Object Attributes for Object-Based Storage	229
<i>G. Zhou, L. Yuan, J. Chen</i>	

SESSION 6A: SHORT PAPERS II: NETWORKS

An Analytical Model for Evaluating Utilization of TCP TAHOE Using Markovian Model	231
<i>M.M. Hassani</i>	
A Sliding Window Based Security Event Correlation	233
<i>J. Hu, Y. Dong</i>	
Safety Critical Network Based on Fibre Channel	235
<i>B. Wang, Y. Wang, F. Cheng, Q. Duan</i>	
Distributed Fault Monitoring Scheme Based on Optical Power for Optical Burst Switching Network	237
<i>R. Wang, J. Chang, K. Long, X. Yang, D. Liu</i>	
A Scalable Multicast Key Management to Expel a Malicious Receiver in MARKS	239
<i>M. Xiaojing, L. Zhitang, L. Yao, Z. Jiping</i>	

SESSION 6B: SHORT PAPERS III

RH-SCSI: A Reliable HyperSCSI Protocol for Networking Storage	241
<i>G. Zhou, P. Chen</i>	
A New Method for RAID Consistency Initialization	243
<i>Z. Tan, C. Xie, J. Wan</i>	
Implementation and Performance Evaluation of an iSCSI-Based Storage Virtualization.....	245
<i>Y. Guang, Z. Jingli, L. Chao</i>	
An Object-Based Storage Controller Based on Switch Fabric	247
<i>S. He, D. Feng</i>	
Design and Implementation of an Efficient Multi-Version File System	249
<i>X.J Xiang, J.W Shu, W. Xue, W.M. Zheng</i>
