

2008 23rd IEEE/ACM International Conference on Automated Software Engineering

Proceedings

15-19 September 2008
L'Aquila , Italy

IEEE Catalog Number:
ISBN:

CFP08075-PRT
978-1-4244-2187-9

Table of Contents

Keynote

Swarm Verification.....	1
<i>Gerard J. Holzmann, Jet Propulsion Laboratory, California Institute of Technology; Rajeev Joshi, Jet Propulsion Laboratory, California Institute of Technology; Alex Groce, Jet Propulsion Laboratory, California Institute of Technology</i>	
Reflections on, and Predictions for, Support Systems for the Development of Programs	7
<i>Cliff Jones, Newcastle University, UK</i>	

Testing 1

Increasing Test Granularity by Aggregating Unit Tests	9
<i>Matthew Jorde, University of Nebraska, USA; Sebastian Elbaum, University of Nebraska, USA; and Matthew Dwyer, University of Nebraska, USA</i>	
Random Test Run Length and Effectiveness.....	19
<i>James Andrews, University of Western Ontario, Canada; Alex Groce, Jet Propulsion Laboratory, USA; Melissa Weston, University of Western Ontario, Canada; and Ru-Gang Xu, University of California, Los Angeles, USA</i>	
Program Analysis with Dynamic Precision Adjustment.....	29
<i>Dirk Beyer, Simon Fraser University, Canada; Thomas A. Henzinger, EPFL, Switzerland; and Gregory Theoduloz, EPFL, Switzerland</i>	

Traceability

IR-based Traceability Recovery Processes: an Empirical Comparison of "One-Shot" and Incremental Processes	39
<i>Andrea De Lucia, University of Salerno, Italy; Rocco Oliveto, University of Salerno, Italy; and Genoveffa Tortora, University of Salerno, Italy</i>	
Enabling Automated Traceability Maintenance by Recognizing Development Activities Applied to Models.....	49
<i>Patrick Mäder, Ilmenau Technical University, Germany; Orlena Gotel, Pace University, New York, USA; and Ilka Philippow, Ilmenau Technical University, Germany</i>	
Incremental Latent Semantic Indexing for Automatic Traceability Link Evolution Management.....	59
<i>Hsin-yi Jiang, Iowa State University, USA; Tien Nguyen, Iowa State University, USA; Ing-Xiang Chen, Yuan Ze University, Taiwan; Hojun Jaygarl, Iowa State University, USA; and Carl Chang, Iowa State University, USA</i>	

Verification

- Automated Verification of Multi-Agent Programs 69
Rafael H. Bordini, Durham University, UK; Louise A. Dennis, University of Liverpool, UK; Berndt Farwer, Durham University, UK; and Michael Fisher, University of Liverpool, UK
- Validating Real Time Specifications using Real Time Event Queue Modeling 79
Robert Hall, AT&T Labs Research, USA
- Automatic Inference of Frame Axioms Using Static Analysis 89
Zvonimir Rakamaric, University of British Columbia, Canada; and Alan Hu, University of British Columbia, Canada

Modelling 1

- Generating and Evaluating Choices for Fixing Inconsistencies in UML Design Models 99
Alexander Egyed, Johannes Kepler University, Austria; Emmanuel Letier, University College London, United Kingdom; and Anthony Finkelstein, University College London, United Kingdom
- Mining Scenario-Based Triggers and Effects 109
David Lo, Singapore Management University, Singapore; and Shahar Maoz, The Weizmann Institute of Science, Israel
- Refining Real-Time System Specifications through Bounded Model- and Satisfiability-Checking 119
Matteo Pradella, CNR IEIIT, Italy; Angelo Morzenti, Politecnico di Milano, Italy; and Pierluigi San Pietro, Politecnico di Milano, Italy

Debugging

- Evaluating Models for Model-Based Debugging 128
Wolfgang Mayer, University of South Australia, Australia; and Markus Stumptner, University of South Australia, Australia
- Error Reporting Logic 138
Ciera Jaspán, Carnegie Mellon University, USA; Trisha Quan, Carnegie Mellon University, USA; and Jonathan Aldrich, Carnegie Mellon University, USA
- Efficient Monitoring of Parametric Context-Free Patterns 148
Patrick Meredith, University of Illinois Urbana-Champaign, United States; Feng Chen, University of Illinois Urbana-Champaign, United States; Dongyun Jin, University of Illinois Urbana-Champaign, United States; and Grigore Rosu, University of Illinois Urbana-Champaign, United States

Component-based Systems

- A Framework for Dynamic Service Discovery..... 158
Andrea Zisman, City University, UK; George Spanoudakis, City University, UK; and James Dooley, City University, UK
- A Methodology and Framework for Creating Domain-Specific Development Infrastructures... 168
George Edwards, University of Southern California, USA; and Nenad Medvidovic, University of Southern California, USA
- Connecting Programming Environments to Support Ad-Hoc Collaboration 178
Rajesh Hegde, Microsoft Research, Redmond, USA; and Prasun Dewan, University of North Carolina, Chapel Hill, USA

Experience Reports

- Reducing False Positives by Combining Abstract Interpretation and Bounded Model Checking 188
Hendrik Post, University of Karlsruhe, Germany; Carsten Sinz, University of Karlsruhe, Germany; Alexer Kaiser, University of Tuebingen, Germany; and Thomas Gorges, Robert Bosch GmbH Chassis Systems Control, Germany
- Unit Testing of Flash Memory Device Driver through a SAT-based Model Checker 198
Moonzoo Kim, KAIST, South Korea; Yunho Kim, KAIST, South Korea; and Hotae Kim, Samsung Electronics, South Korea
- Effort Estimation in Capturing Architectural Knowledge 208
Rafael Capilla, Universidad Rey Juan Carlos, Spain; Francisco Nava, Universidad Rey Juan Carlos, Spain; and Carlos Carrillo, Universidad Politecnica de Madrid, Spain

Testing 2

- Test-suite Augmentation for Evolving Software 218
Raul Santelices, Georgia Institute of Technology, USA; Pavan Kumar Chittimalli, TCS Ltd, India; Taweessup Apiwattanapong, NECTEC, Thailand; Alessandro Orso, Georgia Institute of Technology, USA; and Mary Jean Harrold, Georgia Institute of Technology, USA
- Reducing the Cost of Path Property Monitoring Through Sampling..... 228
Matthew Dwyer, University of Nebraska - Lincoln, USA; Madeline Diep, University of Nebraska - Lincoln, USA; and Sebastian Elbaum, University of Nebraska - Lincoln, USA
- Query-aware Test Generation Using a Relational Constraint Solver 238
Shadi Abdul Khalek, University of Texas at Austin, USA; Bassem Elkarablieh, University of Texas at Austin, USA; Yai O. Laleye, University of Texas at Austin, USA; and Sarfraz Khurshid, University of Texas at Austin, USA

Modelling 2

Inferring Finite-State Models with Temporal Constraints	248
<i>Neil Walkinshaw, The University of Sheffield, United Kingdom; and Kirill Bogdanov, The University of Sheffield, United Kingdom</i>	
Type-checking Software Product Lines - A Formal Approach	258
<i>Christian Kästner, University of Magdeburg, Germany; and Sven Apel, University of Passau, Germany</i>	

Requirements & Evolution

Using Simulation to Investigate Requirements Prioritization Strategies	268
<i>Daniel Port, University of Hawaii, USA; Alexy Olkov, University of Hawaii, USA; and Tim Menzies, West Virginia University, USA</i>	
Automated Aspect Recommendation through Clustering-Based Fan-in Analysis	278
<i>Danfeng Zhang, Key laboratory of High Confidence Software Technologies (Ministry of Education), P.R. China; Yao Guo, Key laboratory of High Confidence Software Technologies (Ministry of Education), P.R. China; and Xiangqun Chen, Key laboratory of High Con</i>	

Testing 3

Predictive Typestate Checking of Multithreaded Java Programs	288
<i>Pallavi Joshi, UC Berkeley, USA; and Koushik Sen, UC Berkeley, USA</i>	
Improving Structural Testing of Object-Oriented Programs via Integrating Evolutionary Testing and Symbolic Execution	297
<i>Kobi Inkumsah, North Carolina State University, USA; and Tao Xie, North Carolina State University, USA</i>	
Automatic Debugging of Concurrent Programs Through Active Sampling of Low Dimensional Random Projections	307
<i>Elad Yom-Tov, IBM Research, Israel; Rachel Tzoref, IBM Research, Israel; Shmuel Ur, IBM Research, Israel; and Shlomo Hoory, IBM Research, Israel</i>	

Maintenance

How Program History Can Improve Code Completion	317
<i>Romain Robbes, Università della Svizzera Italiana, Switzerland; and Michele Lanza, Università della Svizzera Italiana, Switzerland</i>	
SpotWeb: Detecting Framework Hotspots and Coldspots via Mining Open Source Code on the Web	327
<i>Suresh Thummalapenta, North Carolina State University, USA; and Tao Xie, North Carolina State University, USA</i>	
Generic Patch Inference	337
<i>Jesper Andersen, University of Copenhagen, Denmark; and Julia Lawall, University of Copenhagen, Denmark</i>	

Doctoral Symposium

Configuration Lifting: Verification meets Software Configuration.....	347
<i>Hendrik Post, University of Karlsruhe, Germany; and Carsten Sinz, University of Karlsruhe, Germany</i>	
Product Line Tools Are Product Lines Too: Lessons Learned from Developing a Tool Suite ...	351
<i>Paul Grünbacher, Johannes Kepler University Linz, Austria; Rick Rabiser, Christian Doppler Laboratory for Automated Software Engineering, Austria; and Deepak Dhungana, Christian Doppler Laboratory for Automated Software Engineering, Austria</i>	
A Specification Language for Static Analysis of Student Exercises	355
<i>Carsten Köllmann, T-Systems, Germany; and Michael Goedicke, University of Duisburg-Essen, Germany</i>	
A Case Study on the Automatic Composition of Network Application Mashups.....	359
<i>Maxim Shevertalov, Drexel University, USA; and Spiros Mancoridis, Drexel University, USA</i>	
Predicting Effectiveness of Automatic Testing Tools	363
<i>Brett Daniel, University of Illinois at Urbana-Champaign, United States; and Marat Boshernitsan, Coverity, Inc., United States</i>	
Distributed Constraints Maintenance in Collaborative UML Modeling Environments	367
<i>Haiheng Shen, Nanyang Technological University, Singapore; Siyuan Liu, Nanyang Technological University, Singapore; Steven Xia, Nanyang Technological University, Singapore; and Chengzheng Sun, Nanyang Technological University, Singapore</i>	
Software Cost Estimation using Fuzzy Decision Trees	371
<i>Efi Papatheocharous, University of Cyprus, Cyprus; and Andreas Andreou, University of Cyprus, Cyprus</i>	
Rhizome: A Feature Modeling and Generation Platform	375
<i>Guozheng Ge, Univ. of California, Santa Cruz, USA; and Emmet James Whitehead, Jr., Univ. of California, Santa Cruz, USA</i>	
Combining the Analysis of Spatial Layout and Text to Support Design Exploration	379
<i>J. Michael Moore, Texas A&M University, USA; and Frank Shipman, Texas A&M University, USA</i>	
Using Cluster Analysis to Improve the Design of Component Interfaces	383
<i>Rahmat Adnan, Delft University of Technology, The Netherlands; Graaf Bas, Delft University of Technology, The Netherlands; Arie van Deursen, Delft University of Technology, The Netherlands; and Joost Zonneveld, ASML, The Netherlands</i>	
Augmenting Counterexample-Guided Abstraction Refinement with Proof Templates	387
<i>Thomas E. Hart, University of Toronto, Canada; Kelvin Ku, University of Toronto, Canada; Arie Gurfinkel, Carnegie Mellon University, United States; Marsha Chechik, University of Toronto, Canada; and David Lie, University of Toronto, Canada</i>	

An Assume Guarantee Verification Methodology for Aspect-Oriented Programming.....	391
<i>Mustafa Ispir, Middle East Technical University, Turkey; and Aysu Betin Can, Middle East Technical University, Turkey</i>	
Living with the Law: Can Automation give us Moore with Less?	395
<i>Celina Gibbs, University of Victoria, Canada; Jennifer Baldwin, University of Victoria, Canada; Nieraj Singh, IBM, Canada; Maja D'Hondt, IMEC, Belgium; and Yvonne Coady, University of Victoria, Canada</i>	
VCR: Virtual Capture and Replay for Performance Testing	399
<i>Antonia Bertolino, ISTI-CNR, Italy; Guglielmo De Angelis, ISTI-CNR, Italy; and Antonino Sabetta, ISTI-CNR, Italy</i>	
A Case for Automatic Exception Handling	403
<i>Bruno Cabral, University of Coimbra, Portugal; and Paulo Marques, University of Coimbra, Portugal</i>	
DiffGen: Automated Regression Unit-Test Generation.....	407
<i>Kunal Taneja, North Carolina State University, USA; and Tao Xie, North Carolina State University, USA</i>	
An Automated Test Code Generation Method for Web Applications using Activity Oriented Approach.....	411
<i>David Turner, California State University San Bernardino, U.S.A.; Moonju Park, University of Incheon, South Korea; Jaehwan Kim, University of Incheon, South Korea; and Jinseok Chae, University of Incheon, South Korea</i>	
The Consistency of Web Conversations	415
<i>Jeffrey Fischer, University of California, Los Angeles, USA; Rupak Majumdar, University of California, Los Angeles, USA; and Francesco Sorrentino, University of Salerno, Italy</i>	
Testing Peers' Volatility	419
<i>Eduardo Cunha de Almeida, Université de Nantes, France; Gerson Sunyé, Université de Nantes, France; Yves Le Traon, Université de Nantes, France; and Patrick Valduriez, INRIA and Université de Nantes, France</i>	
Automated Continuous Integration of Component-Based Software: an Industrial Experience ..	423
<i>Seojin Kim, Samsung electronics, Korea; Sungjin Park, Samsung electronics, Korea; Jeonghyun Yun, Samsung electronics, Korea; and Younghoo Lee, Samsung electronics, Korea</i>	
A Two-Step Approach for Modelling Flexibility in Software Processes	427
<i>Ricardo Martinho, School of Technology and Management, Polytechnic Institute of Leiria, Portugal; João Varajão, University of Trás-os-Montes e Alto Douro, Portugal; and Dulce Domingos, Faculty of Sciences, University of Lisboa, Portugal</i>	
A Generic Approach for Class Model Normalization	431
<i>Jean-Rémy Falleri, LIRMM, France; Marianne Huchard, LIRMM, France; and Clémentine Nebut, LIRMM, France</i>	
XE (eXtreme Editor) - Bridging the Aspect-Oriented Programming Usability Gap	435
<i>Wiwat Ruengmee, Department of Informatics, Donald Bren School of Information and Computer Sciences, University of California, Irvine, USA; Roberto Silva Filho, Department of Informatics, Donald Bren School of Information and Computer Sciences, University</i>	

Rapid: Identifying Bug Signatures to Support Debugging Activities.....	439
<i>Hwa-You Hsu, Georgia Institute of Technology, USA; James A. Jones, Georgia Institute of Technology, USA; and Alessandro Orso, Georgia Institute of Technology, USA</i>	
Heuristics for Scalable Dynamic Test Generation.....	443
<i>Jacob Burnim, UC Berkeley, USA; and Koushik Sen, UC Berkeley, USA</i>	
Managing Models through Macromodeling	447
<i>Rick Salay, University of Toronto, Canada; John Mylopoulos, University of Toronto, Canada; and Steve Easterbrook, University of Toronto, Canada</i>	
Cleman: Comprehensive Clone Group Evolution Management.....	451
<i>Tung Nguyen, Iowa State University, USA; Hoan Nguyen, Iowa State University, USA; Nam Pham, Iowa State University, USA; Jafar Al-Kofahi, Iowa State University, USA; and Tien Nguyen, Iowa State University, USA</i>	
Composition of Qualitative Adaptation Policies	455
<i>Franck Chauvel, Valoria, Université de Bretagne Sud, France; Olivier Barais, IRISA/INRIA & Université de Rennes 1, France; Isabelle Borne, Valoria, Université de Bretagne Sud, France; and Jean-Marc Jézéquel, IRISA/INRIA & Université de Rennes 1, France</i>	
A System for Supporting Development of Large Scaled Rich Internet Applications	459
<i>Hiroaki Fukuda, Keio University, Japan; and Yoshikazu Yamamoto, Keio University, Japan</i>	
Discovering Patterns of Change Types.....	463
<i>Beat Fluri, University of Zurich, Switzerland; Emanuel Giger, University of Zurich, Switzerland; and Harald Gall, University of Zurich, Switzerland</i>	
Model-driven Development of Mobile Personal Health Care Applications.....	467
<i>Abizer Khambati, University of Auckland, New Zealand; John Grundy, University of Auckland, New Zealand; James Warren, University of Auckland, New Zealand; and John Hosking, University of Auckland, New Zealand</i>	
Enforcing Structural Regularities in Source Code using Intensive.....	471
<i>Johan Brichau, Université catholique de Louvain, Belgium; Kim Mens, Université catholique de Louvain, Belgium; and Andy Kellens, Vrije Universiteit Brussel, Belgium</i>	
QuARS Express - A Tool Demonstration.....	473
<i>Antonio Bucchiarone, ISTI-CNR of Pisa, Italy; Stefania Gnesi, ISTI-CNR of Pisa, Italy; Giuseppe Lami, ISTI-CNR of Pisa, Italy; Gianluca Trentanni, ISTI-CNR of Pisa, Italy; and Alessandro Fantechi, Università degli studi di Firenze, Italy</i>	
MTSA: The Modal Transition System Analyser	475
<i>Nicolas D'Ippolito, Imperial College London, United Kingdom; Dario Fischbein, Imperial College London, United Kingdom; Marsha Chechik, University of Toronto, Canada; and Sebastian Uchitel, Imperial College London, United Kingdom</i>	
MaramaEML: An Integrated Multi-View Business Process Modelling Environment with Tree-Overlays, Zoomable Interfaces and Code Generation.....	477
<i>Lei Li, University of Auckland, New Zealand; John Hosking, University of Auckland, New Zealand; and John Grundy, University of Auckland, New Zealand</i>	

PtYasm: Software Model Checking with Proof Templates	479
<i>Thomas E. Hart, University of Toronto, Canada; Kelvin Ku, University of Toronto, Canada; Arie Gurfinkel, Carnegie Mellon University, United States; Marsha Chechik, University of Toronto, Canada; and David Lie, University of Toronto, Canada</i>	
Semi-Automating Pragmatic Reuse Tasks.....	481
<i>Reid Holmes, University of Calgary, Canada; and Robert J. Walker, University of Calgary, Canada</i>	
DUALLY: a framework for Architectural Languages and Tools Interoperability	483
<i>Patrizio Pelliccione, University of L'Aquila, Italy; Ivano Malavolta, University of L'Aquila, Italy; and Henry Muccini, University of L'Aquila, Italy</i>	
Automated Mapping from Goal Models to Self-Adaptive Systems	485
<i>Mirko Morandini, FBK-IRST Trento, Italy; Loris Penserini, Universiteit Utrecht, Netherlands; and Anna Perini, FBK-IRST Trento, Italy</i>	
ADDSS: Architecture Design Decision Support System Tool.....	487
<i>Rafael Capilla, Universidad Rey Juan Carlos, Spain; Francisco Nava, Universidad Rey Juan Carlos, Spain; Jesus Montes, Universidad Rey Juan Carlos, Spain; and Carlos Carrillo, Universidad Politecnica de Madrid, Spain</i>	
APPAREIL: A Tool for Building Automated Program Translators Using Annotated Grammars.....	489
<i>Diego ORDONEZ CAMACHO, Universite catholique de Louvain, Belgium; and Kim Mens, Universite catholique de Louvain, Belgium</i>	
Rapid Model-Driven Prototyping and Verification of High-Integrity Real-Time Systems.....	491
<i>Matteo Bordin, AdaCore, France; Marco Panunzio, University of Padua, Italy; and Stefano Puri, Intecs, Italy</i>	
Save-IDE - An Integrated Development Environment for Building Predictable Component-Based Embedded Systems	493
<i>Séverine Sentilles, Mälardalen University, Sweden; John Håkansson, Uppsala University, Sweden; Paul Pettersson, Mälardalen University, Sweden; and Ivica Crnkovic, Mälardalen University, Sweden</i>	
The Clem Toolkit.....	495
<i>Annie Ressouche, INRIA, FRANCE; and Daniel Gaffé, Nice University & CNRS, FRANCE</i>	
Tool Support for Parametric Analysis of Large Software Simulation Systems.....	497
<i>Johann Schumann, RIACS/NASA Ames, USA; Karen Gundy-Burlet, NASA Ames, USA; Corina Pasareanu, QSS Inc./NASA Ames, USA; Tim Menzies, West Virginia University, USA; and Tony Barrett, JPL, CalTech, USA</i>	
ReqsCov: A Tool for Measuring Test-Adequacy Over Requirements	499
<i>Matt Staats, University of Minnesota, United States of America; Weijia Deng, University of Minnesota, United States of America; Ajitha Rajan, University of Minnesota, United States of America; Mats Heimdahl, University of Minnesota, United States of America</i>	
AspectM: UML-based Extensible AOM Language.....	501
<i>Naoyasu Ubayashi, Kyushu Institute of Technology, Japan; Genya Otsubo, Kyushu Institute of Technology, Japan; Kazuhide Noda, Kyushu Institute of Technology, Japan; Jun Yoshida, Kyushu Institute of Technology, Japan; and Tetsuo Tamai, University of Tokyo,</i>	

Tools for Traceability in Secure Software Development.....	503
<i>Yijun Yu, The Open University, United Kingdom; Jan Jürjens, The Open University, United Kingdom; and Jörg Schreck, Telef 'onica O2, Germany</i>	
Unifying Analysis Tools with Rosetta.....	505
<i>Nicolas Frisby, University of Kansas, United States</i>	
Model-Driven Development of Mobile Applications.....	509
<i>Florence Balagtas-Fernandez, University of Munich, Germany; and Heinrich Hussmann, University of Munich, Germany</i>	
Automated Web Performance Analysis.....	513
<i>Martin Pinzger, University of Linz, Austria</i>	
Automatic Test Generation for LUSTRE/SCADE programs.....	517
<i>Virginia Papailiopoulos, University of Grenoble 1, France</i>	
Feature Interaction Detection in the Automotive Domain.....	521
<i>Alma Juarez Dominguez, University of Waterloo, Canada</i>	
Towards Good Enough Testing: A Cognitive-Oriented Approach Applied to Infotainment Systems.....	525
<i>Asem Eltaher, University of Braunschweig, Germany</i>	

ASE 2008 Workshops contents

ARAMIS 2008- The First International Workshop on Automated Engineering of Autonomic and Run-Time Evolving Systems	529
<i>Eda Marchetti, ISTI -CNR, Italy</i>	
First International Workshop on Social Software Engineering and Applications (SoSEA 2008).....	531
<i>Eda Marchetti, ISTI -CNR, Italy</i>	
4th International ERCIM Workshop on Software Evolution and Evolvability (Evol'08).....	533
<i>Eda Marchetti, ISTI -CNR, Italy</i>	
Author Index	follows page 534
