

# ELECTRICAL CONTACTS—2008

Proceedings of

## THE FIFTY-FOURTH IEEE HOLM CONFERENCE ON ELECTRICAL CONTACTS

Sponsored by the  
Components, Packaging, and Manufacturing Technology Society  
of the Institute of Electrical and Electronics Engineers, Inc.

IEEE Catalog Number:  
ISBN:

CFP08HLM-PRT  
978-1-4244-1901-2

# TABLE OF CONTENTS

<b>Foreward .....</b>	<b>xv</b>
<b>Ragnar Holm Scientific Achievement Award .....</b>	<b>xvi</b>
<b>Morton Antler Lecture .....</b>	<b>xviii</b>
<b>Erle Shobert Prize Paper .....</b>	<b>xix</b>
<b>The Armington Recognition Award .....</b>	<b>xxi</b>
<b>Holm Award Paper .....</b>	<b>xxii</b>
<b>High Current AC Break Arc Contact Erosion</b> John J. Shea, Eaton Corporation, USA	

## **Arc Interruption**

Chair: X. Zhou

Co-Chair: H. Czajkowski

<b>1.1</b>	<b>The Transition from to the Metallic Phase Arc After the Rupture of the Molten Metal Bridge for Contacts Opening in Air and Vacuum .....</b>	<b>1</b>
	Paul G. Slade, Consultant, USA	
<b>1.2</b>	<b>An Electrical Arc Erosion Model Valid for High Current: Vaporization and Splash Erosion .....</b>	<b>9</b>
	Frederic Pons, Georgia Institute of Technology, Atlanta, USA Mohammed Cherkaoui, Georgia Institute of Technology, Atlanta, USA	
<b>1.3</b>	<b>Melting Phenomena and Arc Ignition of Breaking Relay Contacts .....</b>	<b>15</b>
	Noboru Wakatsuki, Ishinomaki Senshu University, Japan Hiroshi Honnma, Ishinomaki Senshu University, Japan	
<b>1.4</b>	<b>Characteristics of Break Arcs Driven by External Magnetic Field in a DC42V Resistive Circuit.....</b>	<b>21</b>
	Junya Sekikawa, Faculty of Engineering, Shizuoka University, Japan Takayoshi Kubono, Faculty of Engineering, Shizuoka University, Japan	
<b>1.5</b>	<b>A Finite Volume Scheme for Modeling Arc Discharges in Low Voltage Circuit Breaking Devices.....</b>	<b>27</b>
	Bernhard Kubicek, Arsenal Research, Austria Karl A. Berger, Arsenal Research, Austria	

## **High Speed**

Chair: R. Timsit

Co-Chair: ZK Chen

<b>2.1</b>	<b>High Temperature Resistant Gold Alloys for Switching Signal Relay Contacts.....</b>	<b>35</b>
	Werner Johler, Tyco Electronics Logistics AG, Switzerland	
<b>2.2</b>	<b>Effects of Electrical Contact Failure on High Speed Digital Signal Transmission .....</b>	<b>41</b>
	Jin Chun Gao, Beijing University of Posts & Telecommunications, China Jian Zhun, Beijing University of Posts & Telecommunications, China	

<b>2.3</b>	<b>Effect of Nanosecond Electrical Discontinuities in High-Speed Digital Applications.....</b>	<b>47</b>
	Stephen B. Smith, FCI USA, Inc., USA	
	Vittal Balasubramanian, FCI USA, Inc., USA.	
	Dan Nardone, FCI USA, Inc., USA	
	Sedig S. Agili, Pennsylvania State University, USA	

### **Connectors I**

Chair: B. Malucci

Co-Chair: G. Drew

<b>3.1</b>	<b>Numerical Prediction of Socket Solder Joint Reliability during Shock.....</b>	<b>53</b>
	Yupeng Li, Intel Corporation, USA	
	Robert Atkinson, Intel Corporation, USA	
	Hong Xie, Intel Corporation, USA	
	Shijiang He, Intel Corporation, USA	
<b>3.2</b>	<b>Innovative, Multifunctional Contact-Spring Design.....</b>	<b>59</b>
	Stefan Jörgens, Lumberg Connect GmbH, Germany	
	Henning Taschke, Lumberg Connect GmbH, Germany	
	Peter Nevermann, Lumberg Connect GmbH, Germany	
	Thomas Benke, Lumberg Connect GmbH, Germany	
<b>3.3</b>	<b>Extension and Experimental Verification of a New 'First Contact' Method to Model Performance of Multilayer Contact Interfaces.....</b>	<b>66</b>
	Marjorie Myers, Tyco Electronics, USA	
	Michael Leidner, Tyco Electronics, Germany	
	Helge Schmidt, Tyco Electronics, Germany	
	Helmut Schlaak, Darmstadt University of Technology, Germany	
<b>3.4</b>	<b>Investigation of Relaxation Behavior for Terminals of CPU Socket Connectors .....</b>	<b>74</b>
	K.-C. Liao, National Taiwan University, Taiwan	
	Wei-Chong Chiu, Lotes Corporation, Taiwan	
<b>3.5</b>	<b>Investigating Mechanical Behavior of LGA Sockets for Design by FEA Modeling.....</b>	<b>78</b>
	Mehdi Imaninejad, Intel Corporation, USA	
	Tieyu Zheng, Intel Corporation, USA	
	Hong Xie, Intel Corporation, USA	

### **Sliding Contacts**

Chair: S. Cole

Co-Chair: E. Smith

<b>4.1</b>	<b>Commutation Arc Characteristics of a Fuel Pump Motor in Ethanol.....</b>	<b>84</b>
	Koichiro Sawa, Keio University, Japan	
	Koichi Koibuchi, Keio University, Japan	
	Tsunashi Hara, Keio University, Japan	
<b>4.2</b>	<b>Nanoindentation Studies of Contact Materials Used for Sliding Electrical Contacts.....</b>	<b>90</b>
	Christian Holzapfel, Schleifring und Apparatebau GmbH, Germany	

4.3	<b>Comparison of Brush Sliding Contact Characteristics between Structure Steel Ring &amp; Stainless Steel Ring for Large AC Motors</b> ..... 98 Noboru Morita, Nippon Institute of Technology, Japan Masami Mori, Nippon Institute of Technology, Japan Takahiro Ueno, Nippon Institute of Technology, Japan Yoshihiro Ishikawa, Toshiba Mitsubishi-Electric Industrial System Corporation, Japan
4.4	<b>Brush Sliding Contact Voltage Deviation Analysis Based on the Evaluation of Displacement Excited Vibration caused by Collector Ring Profile Distortion -for Turbine Generators &amp; Traction Motors-</b> ..... 103 Makoto Takanezawa, Nippon Institute of Technology, Japan Hiroyuki Yanagisawa, Nippon Institute of Technology, Japan Takahiro Ueno, Nippon Institute of Technology, Japan Noboru Morita, Nippon Institute of Technology, Japan Toru Otaka, Toshiba Corporation Daisuke Hiramatsu, Toshiba Corporation
4.5	<b>Low Speed Sliding Characteristics of Cu-Fe-W-Based Composite Material Contacts Containing WS<sub>2</sub></b> ..... 110 Yoshitada Watanabe, Kogakuin University, Japan Masaomi Arai, Kogakuin University, Japan Koichiro Sawa, Keio University, Japan

**Contactors/Relay Design**

Chair: J. McBride

Co-Chair: C. Leung

5.1	<b>Contact Bounce Elimination by Means of a Sensorless Closed-Loop Current Controller in DC Core Contactors</b> ..... 117 Antonio Garcia Espinosa, Universitat Politècnica de Catalunya, Spain Jordi R. Riba, Universitat Politècnica de Catalunya, Spain Jordi Cusidó, Universitat Politècnica de Catalunya, Spain Juan A. Ortega, Universitat Politècnica de Catalunya, Spain Luis Romeral Martinez, Universitat Politècnica de Catalunya, Spain
5.2	<b>Research on the Starting Points of the Combined Subsection Permanent Magnet</b> ..... 125 Huimin Liang, Harbin Institute of Technology, Harbin Engineering University, China Jun Xu, Harbin Institute of Technology, China Rongling Zhang, Harbin Institute of Technology, China Guofu Zhai, Harbin Institute of Technology, China Yanling Hao, Harbin Engineering University, China
5.3	<b>Design of Shading Coils for Minimizing the Contact Bouncing of AC Contactors</b> ..... 130 Jordi R. Riba, Universitat Politècnica de Catalunya, Spain Antonio Garcia Espinosa, Universitat Politècnica de Catalunya, Spain Jordi Cusidó, Universitat Politècnica de Catalunya, Spain Juan A Ortega, Universitat Politècnica de Catalunya, Spain Luis Romeral Martinez, Universitat Politècnica de Catalunya, Spain

## **Low Current Switching/MEMS**

Chair: K. Sawa

Co-Chair: R. Martens

- 6.1 A Nanoindenter Based Method for Studying MEMS Contact Switch Microcontacts..... 137**  
Kevin W. Gilbert, Air Force Institute of Technology, USA  
Shankar Mall, Air Force Institute of Technology, USA  
Kevin D. Leedy, Air Force Research Laboratory, USA  
Bryan Crawford, Agilent Technologies, USA
- 6.2 Electrical Contact Reliability in a Magnetic MEMS Switch..... 145**  
Maxime Vincent, Schneider Electric Industries, France  
Laurent Chiesi, Schneider Electric Industries, France  
Jean-Christophe Fourrier, Schneider Electric Industries, France  
Amalia Garnier, Schneider Electric Industries, France  
Benoît Grappe, Schneider Electric Industries, France  
Christophe Lapiere, Schneider Electric Industries, France  
Caroline Coutier, Schneider Electric Industries, France  
Alfredo Samperio, Schneider Electric Industries, France  
Sylvain Paineau, Schneider Electric Industries, France  
Frédéric Houzé, Laboratoire de Génie Électrique de Paris, France  
Sophie Noël, Laboratoire de Génie Électrique de Paris, France
- 6.3 Research on Arc Burning and Contact Bounce of DC Relays  
by High Speed Photograph Method ..... 151**  
Chunyan Zang, Huazhong University of Science and Technology, China  
Junjia He, Huazhong University of Science and Technology, China  
Bin Huang, Huazhong University of Science and Technology, China  
Yi Tao, Huazhong University of Science and Technology, China  
Hanming Zhang, Huazhong University of Science and Technology, China  
Chengyan Liu, G&A Technologies Co., Ltd, China  
Lizhong Wang, G&A Technologies Co., Ltd, China  
Fubiao Luo, G&A Technologies Co., Ltd, China  
Li Cui, G&A Technologies Co., Ltd, China
- 6.4 Influence of Characteristic Parameters on Contact Bounce in Reed Systems of Relays..... 156**  
Jun Xiong, Huazhong University of Science and Technology, P.R.China  
Junjia He, Huazhong University of Science and Technology, P.R.China  
Chunyan Zang, Huazhong University of Science and Technology, P.R.China  
Chengyan Liu, G&A Technologies Co., Ltd, P.R. China  
Lizhong Wang, G&A Technologies Co., Ltd, P.R.China

## **Connectors II**

Chair: G. Flowers

Co-Chair: B. Rickett

- 7.1 Contact Properties of Tubular Crimp Connections: Elementary Considerations..... 161**  
Roland S. Timsit, Timron Scientific Consulting Inc., Canada

<b>7.2</b>	<b>A Multi-Physics Finite Element Model of an Electrical Connector Considering Rough Surface Contact.....</b>	<b>168</b>
	Santosh V. Angadi, Auburn University, USA W. Everett Wilson, Auburn University, USA Robert L. Jackson, Auburn University, USA George T. Flowers, Auburn University, USA Bretton I. Rickett, Molex Inc., USA	
<b>7.3</b>	<b>3-Dimensional Numerical Simulation of Open-Barrel Crimping Process .....</b>	<b>178</b>
	Dmitry V. Zhmurkin, Tyco Electronics, USA Ned E. Corman, Tyco Electronics, USA Charles D. Copper, Tyco Electronics, USA Robert D. Hilty, Tyco Electronics, USA	
<b>7.4</b>	<b>The Electrical Contact Resistance of Two Rough Surfaces with Varying Phase Conductivity .....</b>	<b>185</b>
	Daniel J. Dickrell III, University of Florida, USA W.G. Sawyer, University of Florida, USA	
<b>7.5</b>	<b>Electrical Contact Resistance Considering Multi-Scale Roughness.....</b>	<b>190</b>
	W. Everett Wilson, Auburn University, USA Santosh V. Angadi, Auburn University, USA Robert L. Jackson, Auburn University, USA	

**Reliability/Safety**

Chair: H. Czajkowski  
Co-Chair: E. Taylor

<b>8.1</b>	<b>Methods of Early Short-Circuit Detection for Low-Voltage Systems.....</b>	<b>198</b>
	Timo Mützel, TU Ilmenau, Germany Frank Berger, TU Ilmenau, Germany Michael Anheuser, Siemens AG, Germany	
<b>8.2</b>	<b>Thermal Model of Electrical Contacts Based on Experimental Data .....</b>	<b>205</b>
	Bella H. Chudnovsky, Schneider Electric/Square D, USA Albert Livshitz, Schneider Electric/Square D, USA Boris A. Chudnovsky, Xavier University, USA	
<b>8.3</b>	<b>Glowing Connection Experiments with Alternating Currents below 1 Arms.....</b>	<b>212</b>
	Joe Urbas, University of North Carolina at Charlotte, USA	
<b>8.4</b>	<b>Comparing 240 Vrms to 120 Vrms Series Arcing Faults in Residential Wire .....</b>	<b>218</b>
	John J. Shea, Eaton Corporation, USA	

**Connectors III**

Chair: T. Schoepf  
Co-Chair: B. Rickett

<b>9.1</b>	<b>A Method for Power Rating Contacts using Voltage Drop.....</b>	<b>225</b>
	Robert D. Malucci, RD Malucci Consulting, USA Frank R. Ruffino, Molex Inc, USA	

<b>9.2</b>	<b>Auger Electron Spectroscopic (AES) Measurements on High Aspect Ratio Tin Whiskers .....</b>	<b>232</b>
	Chad L. Rodekohr, Auburn University/CAVE, USA	
	George T. Flowers, Auburn University/CAVE, USA	
	Jeffery C. Suhling, Auburn University/CAVE, USA	
	Michael J. Bozack, Auburn University/CAVE, USA	
<b>9.3</b>	<b>Wear Patterns and Lifetime of Electric Contacts .....</b>	<b>238</b>
	Jian Song, University of Applied Sciences, Germany	
	Christian Koch, University of Applied Sciences, Germany	
<b>9.4</b>	<b>Influence of Substrate Surface Roughness on Tin Whisker Growth .....</b>	<b>245</b>
	Chad L. Rodekohr, Auburn University/CAVE, USA	
	George T. Flowers, Auburn University/CAVE, USA	
	Jeffery C. Suhling, Auburn University/CAVE, USA	
	Michael J. Bozack, Auburn University/CAVE, USA	
<b>9.5</b>	<b>Influence of Grafting Properties of Organic Thin Films for Low Level Electrical Contacts Protection .....</b>	<b>249</b>
	Sophie Noël, LGEP/Supélec, France	
	David Alamarguy, LGEP/Supélec, France	
	Alessandro Benedetto, CEA, France	
	Pascal Viel, CEA, France	
	Mirela Balog, CIMMA/CNRS, France	
 <b>Power Connectors</b>		
Chair: P. Slade		
Co-Chair: B. Chudnovsky		
<b>10.1</b>	<b>Aluminum Foam Transition Washer for Power Connections .....</b>	<b>258</b>
	Milenko Braunovic, MB Interface, Canada	
	Daniel Gagnon, Hydro Quebec IREQ, Canada	
<b>10.2</b>	<b>Visualisation of the Contact Area for Different Contact Forces using X-Ray Computer Tomography.....</b>	<b>263</b>
	Antonios V. Lalechos, University of Southampton, United Kingdom	
	Jonathan Swingler, University of Southampton, United Kingdom	
	Jolyon Crane, PG Drives Technology, United Kingdom	
<b>10.3</b>	<b>Nanoindentation Study of Intermetallic Phases in Al-Cu Bimetallic System.....</b>	<b>270</b>
	Milenko Braunovic, MB Interface, Canada	
	Lisa Rodrigue, Hydro Quebec IREQ, Canada	
	Daniel Gagnon, Hydro Quebec IREQ, Canada	

## **Fretting**

Chair: E. Smith

Co-Chair: D. Gagnon

- 11.1 Modeling and Analysis of a Blade/Receptacle Pair for the Prediction of Vibration-Induced Fretting Degradation ..... 276**  
Chen Chen, Auburn University, USA  
George Flowers, Auburn University, USA  
Michael Bozack, Auburn University, USA  
Jeffrey Suhling, Auburn University, USA  
Bretton Rickett, Molex, Inc., USA  
Robert Malucci, Molex, Inc., USA  
Charlie Manlapaz, Molex, Inc., USA
- 11.2 Degradation Phenomenon of Electrical Contacts by 3-D Oscillating Mechanism: 3-D Oscillating Mechanism for Trial ..... 284**  
Shin-ichi Wada, TMC System Co., Ltd., Japan  
Koichiro Sawa, Keio University, Japan
- 11.3 Microscopy Study of Fretting Corrosion Caused by the Tin Plating Thickness..... 294**  
Tetsuya Ito, AutoNetworks Technologies, Ltd., Japan  
Shigeru Sawada, AutoNetworks Technologies, Ltd., Japan  
Yasuhiro Hattori, AutoNetworks Technologies, Ltd., Japan  
Yasushi Saitoh, Mie University, Japan  
Terutaka Tamai, Mie University, Japan  
Kazuo Iida, Mie University, Japan

## **Contact Materials**

Chair: J. Witter

Co-Chair: P. Wingert

- 12.1 Arc Affected Surface Composition Changes in Silver Tin Oxide Contacts ..... 301**  
Eric Streicher, AMI Doduco, USA  
Chi Leung, AMI Doduco, USA  
Dennis Fitzgerald, AMI Doduco, USA
- 12.2 Inlay Clad Metal for High Temperature Connector Applications ..... 308**  
Lichun Leigh Chen, Technical Materials, Inc., USA  
Barry Njoes, Technical Materials, Inc., USA  
David W. M. Williams, Technical Materials, Inc., USA
- 12.3 Investigation of Material Transfer by 3D Precision Alignment of Topographical Data of Electrical Contact Surfaces ..... 313**  
Martin Reichart, AC<sup>2</sup>T research GmbH, Austria  
Clemens Schrank, AC<sup>2</sup>T research GmbH, Austria  
Georg Vorlauffer, AC<sup>2</sup>T research GmbH, Austria
- 12.4 Quenching Characteristics of YBCO Bulk Contacts ..... 319**  
Koichiro Sawa, Keio University, Japan  
Katsuya Fukuda, Keio University, Japan  
Kuniyasu Ogawa, Keio University, Japan  
Masaru Tomita, Railway Technical Research Institute, Japan  
Masato Murakami, Shibaura Institute of Technology, Japan  
Naomichi Sakai, Superconductivity Research Laboratory, Japan  
Izumi Hirabayashi, Superconductivity Research Laboratory, Japan

<b>12.5</b>	<b>An Experimental Investigation of the Contact Area Between a Glass Plane and Both Metallic and Carbon-Nano-Tube Electrical Contacts .....</b>	<b>325</b>
	John McBride, University of Southampton, UK Kevin Cross, TaiCaan Technologies Ltd., UK	

**Fundamentals**

Chair: M. Braunovic

Co-Chair: J. Shea

<b>13.1</b>	<b>Constriction Resistance of Thin-Film Contacts .....</b>	<b>332</b>
	Roland Timsit, Timron Scientific Consulting Inc., Canada	

<b>13.2</b>	<b>Peculiarities in Characteristics Between Contact Trace and Contact Resistance of Tin Plated Contacts .....</b>	<b>337</b>
	Terutaka Tamai, Mie University, Japan Yasushi Saitoh, Mie University, Japan Shigeru Sawada, AutoNetworks Technologies, Ltd, Japan Yasuhiro Hattori, AutoNetworks Technologies, Ltd, Japan	

<b>13.3</b>	<b>Analysis of Contact Resistance Data with Weibull Distribution Function .....</b>	<b>344</b>
	Makoto Hasegawa, Chitose Institute of Science & Technology, Japan Yuta Yanagitani, Chitose Institute of Science & Technology, Japan	

<b>Author Index .....</b>	<b>follows page 349</b>
---------------------------	-------------------------
