

ICAST 2008

Proceedings of

2nd International Conference on Advances in Space Technologies

Space in the Service of Mankind

29 – 30 November 2008, Islamabad, Pakistan

Institute of Geographical Information Systems
(IGIS)
National University of Sciences and Technology
Islamabad, Pakistan

IEEE Islamabad Section, Pakistan
IEEE/GRSS (Geoscience and Remote Sensing Society)
Chapter
IEEE/AESS (Aerospace and Electronic System Society)
Chapter

TABLE OF CONTENTS

TECHNICAL SESSION I: SPACE TECHNOLOGIES

Effect of Deploying IMT Advanced Systems on Fixed Satellite Services in the 3400 and 4200 MHZ Frequency Band in Pakistan Sana Aijaz	1
Design and Development of Attitude Control System (ACS) using COTS based Components for Small Satellites Najam Shams, Fahad Tanveer, Salim Ahmad	6
Design, Substrates Comparison and Fabrication of 8-Element High Microstrip Patch Antenna Badar Muneer, Aurangzeb Hayat Awan, Dr. Qamar ul Islam	12
Design, Fabrication & Testing of Low Noise Amplifier at KU-Band Noshawan Shoaib, Mujeeb Ahmad, Iftexhar Mahmood	18
Improving the Convergence Rate of Blind Constant Modulus Algorithm by Using Short Training Sequence S. Sajid, J. Azeem, I. Mahmood	24
Analysis of G-shape Antennas mounted on a CUBESAT H. J. Yousuf, M. M. Haider, M.K. Siddique, M. Amin	28

TECHNICAL SESSION II: AEROSPACE SYSTEMS

Dynamic Stability of Multi-Inertial System Prof. Dr. Khalid H. Qamar	33
Aero-Hydrodynamics Data Archiving System Dr. Salimuddin Zahir	38
Non-Reciprocal Magnetoplasmonic Phase Shifting Structures for Satellite Sensors Junaid Zafar, A.A.P Gibson, B.M Dillon, L.E Davis, H. Zafar	42
Design & Development of Cold Gas Propulsion System for PRSS Assad Anis	47
Study the Effect of Ozone Layer Depletion on Aircraft Design at Atmospheric Region of Pakistan M .Ayub Khan Yousuf Zai, M.Rashid Kamal Ansari	52

TECHNICAL SESSION III: COMMUNICATION SYSTEMS ENGINEERING

Sensor Network Security Issues at Network Layers Asif Habib	56
Implementation and Analysis of QPSK & 16QAM Modulator & Demodulator Adnan Zaffar	62
Performance Analysis of (63, 56) Bch Code Using Additive White Guassian Noise (Awgn) Channel On Spartan-3 FPGA Muhammad Zaeem Hassan, Makhdoom Ali Akbar, Iftexhar Mehmood	67
Speech Recognition Using Dynamic Time Warping Talal Bin Amin, Iftexhar Mahmood	72

TECHNICAL SESSION IV: GEOGRAPHICAL INFORMATION SYSTEMS

Selection of an Appropriate Classification Technique for Coastal Biomass Mapping using High and Low Resolution Dataset	78
Ms. Urooj Saeed, Khunsa Fatima, Hammad Gilani, Asim Daud, Salman Ashraf	
Assessing Readiness for National Geospatial Data Clearinghouse-A Milestone for SDI development in Pakistan	83
Asmat Ali	
Planning Water Resource Management in Pishin-Lora River Basin of Balochistan Using GIS/RS Techniques	89
Saad Saleem Bhatti, Dr. Muhammad Umar Khan Khattak, Dr. Rakhshan Roohi	
Understanding Neotectonic Induced Surface Deformation from Drainage Network Using Digital Elevation Models	96
Syed Amer Mahmood, Faisal Shahzad, Richard Gloaguen	
Estimation of Surface Runoff for Tarbela Reservoir	101
Asma Shaheen, Khunsa Fatima	
Geoinformatics For Guiding Industrial Location In Punjab Pakistan	105
Awais Piracha	

TECHNICAL SESSION V: REMOTE SENSING

Site Specific N Application and Remote Sensing of Cotton Crop	112
Javed Iqbal, John J. Read, Alex J. Thomasson, Alex J. Thomasson,	
Using Electromagnetic Formation Flying for Remote Sensing Application	116
Dr. Umair Ahsan	
Integrating Terrestrial Laser Scanning Models Into 3D Geodatabase	122
Salman Ali	
Acquisition of Reflected GPS Signals for Remote Sensing Applications	129
M Usman,	

TECHNICAL SESSION VI: IMAGE PROCESSING AND SOCIETAL BENEFITS OF SPACE TECHNOLOGIES

An Application of Fuzzy Morphology for Enhancement of Aerial Images	135
Atif bin Mansoor, Zohaib Khan, Adil Khan	
Using QNR Index as Decision Criteria for Improving Fusion Quality	141
Muhammad Murtaza Khan, Jocelyn Chanussot, Bensaid Siouar, Julien Osman	
Using Modified Mixture of Gaussians for Background Modeling in Video Surveillance	147
Humayun Shahid, Kamran Khan, Waqas Ahmed Qazi	
Student Satellite Projects – Space Education for Developing Countries	152
Adnan Mahmood	
Development of A Projection Independent Multi-Resolution Imagery Tiles Architecture for Compiling an Image Database of Pakistan	156
Khalid Amin Khan	
Fusion of High Resolution LIDAR and Aerial Images for Object Extraction	163
Salman Ali
