

American Concrete Institute

Designing Concrete Structures for Fire Safety

Session at the ACI Spring Convention 2007

ACI Special Publications Series SP-255

April 22-26, 2007
Atlanta, Georgia, USA

Printed from e-media with permission by:

Curran Associates, Inc.
57 Morehouse Lane
Red Hook, NY 12571
www.proceedings.com

ISBN: 978-1-60560-723-8

Some format issues inherent in the e-media version may also appear in this print version.

First printing, July 2008

DISCUSSION of individual papers in this symposium may be submitted in accordance with general requirements of the ACI Publication Policy to ACI headquarters at the address given below. Closing date for submission of discussion is January 2009. All discussion approved by the Technical Activities Committee along with closing remarks by the authors will be published in the May-June 2009 issue of either the *ACI Structural Journal* or *ACI Materials Journal* depending on the subject emphasis of the individual paper.

The Institute is not responsible for the statements or opinions expressed in its publications. Institute publications are not able to, nor intended to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

The papers in this volume have been reviewed under Institute publication procedures by individuals expert in the subject areas of the papers.

Table of Contents

SP-255—1 High Strength Concrete at High Temperature.....	1
L.T. Phan	
SP-255—2 Effect of Slag on the Performance of Concretes in Hydrocarbon Fire	23
M. Guerrieri, J. Sanjayan, and F. Collins	
SP-255—3 Flexural Behavior of Protected Concrete Slabs after Fire Exposure.....	46
M.A. Youssef, S.F. El-Fitiyany, and M.A. Elfeki	
SP-255—4 Fire Design of Concrete Structures According to the Eurocodes: A Review	74
L.R. Taerwe	
SP-255—5 Fire Resistance of Reinforced Concrete Columns—State-of-the-Art and Research Needs.....	95
V.K.R. Kodur and N.K. Raut	
SP-255—6 Comparisons of Fire Resistance of RC Beams from Different Codes of Practice	122
M.B. Dwaikat and V.K.R Kodur	
SP-255—7 Post-Fire Deterioration and Prestress Loss in Steel Tendons used in Post-Tensioned Slabs	143
K.J.N. MacLean, L.A. Bisby, and C.C. MacDougall	
SP-255—8 Connections on Hollow-Core Floor Systems for Enhanced Fire Performance	170
J. Chang, R.P. Dhakal, P.J. Moss, and A.H. Buchanan	
SP-255—9 Fire Resistance of Concrete Columns Containing Polypropylene and Steel Fibers	194
F. Ali and A. Nadjai	
SP-255—10 Trends in Fire Testing, Research, and Standards for Concrete.....	212
S.S. Szoke
