# TABLE OF CONTENTS

<b>UAV Formation Maintenance in Linear and Curvilinear Trajectories .....</b>	<b>1</b>
<i>T. Abdelrahman</i>	
<b>Commercial Exploitation of Great Britain's Permanent GNSS Network.....</b>	<b>5</b>
<i>N. Ackroyd, P. Cruddace, T. Satterthwaite</i>	
<b>Wide Area Inverse DGPS Model for Improved Positioning Tracking.....</b>	<b>12</b>
<i>M. Al Nabhan, W. Ballachandran, Z. Hunaitti, A. Jallal</i>	
<b>Evaluating the Performance of NRTK GPS Positioning for Land Navigation Applications .....</b>	<b>14</b>
<i>J. Aponte, X. Meng, T. Moore, C. Hill, M. Burbidge</i>	
<b>Aspects of Technical Reliability of Navigation Systems and Human Element in Case of Collision Avoidance.....</b>	<b>23</b>
<i>Michael Baldauf, Knud Benedict Florian Motz</i>	
<b>The Loran Propagation Model: Development, Analysis, Test, and Validation .....</b>	<b>34</b>
<i>J. Blayzk, C. Bartone, F. Alder M. Narins</i>	
<b>Sharp Tools for Optimising Navigation Sensor Arrays .....</b>	<b>48</b>
<i>M. Bishop</i>	
<b>SESAR: Getting Good Value for Airlines .....</b>	<b>106</b>
<i>P. Brooker</i>	
<b>Global Positioning System Timing Criticality Assessment Preliminary Performance Results .....</b>	<b>122</b>
<i>J. Carroll</i>	
<b>A Step Towards e-Navigation.....</b>	<b>156</b>
<i>P. Dasilva, M. Pacheco, R. Batista, V. Conceicao</i>	
<b>Fusion of Inertial Sensors and OFDM Signals of Opportunity for Unassisted Navigation .....</b>	<b>164</b>
<i>J. Crosby, R. Martin, J. Raquet, M. Veth</i>	
<b>LORAN Performance in a GPS Non-Precision Approach Environment.....</b>	<b>170</b>
<i>D. Diggle, C. Bartone, M. Narins</i>	
<b>Positioning with Punctured GPS.....</b>	<b>192</b>
<i>P. Duffett-Smith, A. Pratt, T. Jost, M. Kranz</i>	
<b>Statistical Properties of Quiet Space Weather Northern Adriatic Residual GPS Ionospheric Delay.....</b>	<b>207</b>
<i>R. Filjar, J. Kasun, S. Kos, M. Sevrovic</i>	
<b>Role of Geospatial Content Syndication in Location-based Services Development .....</b>	<b>215</b>
<i>R. Filjar, L. Bušic, K. Vidovic</i>	
<b>Vision-Based Landing System for a VTOL-MAV.....</b>	<b>224</b>
<i>N. Frietsch, O. Meister, C. Schlaile, J. Seibold, G. Trommer</i>	
<b>On the Use of AIS Binary Messages for Exchanging Navigational Intentions in Encounter Situation .....</b>	<b>235</b>
<i>J. Fukuto, M. Minami, Y. Niwa</i>	
<b>Hourly Precise Point Positioning with Ambiguity Resolution.....</b>	<b>244</b>
<i>J. Geng, X. Meng, F.N. Teferle, A.H. Dodson</i>	
<b>The Development of AIS and an Aid to Navigation .....</b>	<b>251</b>
<i>Alan Grant, Phil Thompson, Nick Ward</i>	
<b>Optimising the Algorithm Design for High-Integrity Relative Navigation Using Carrier-Phase Relative GPS Integrated with INS .....</b>	<b>258</b>
<i>P. Groves, C. Offer, C. Mather, G. Pulford, I. Ashokaraj, A. Macaulay</i>	

<b>Far East Radio-navigation Service (FERNS) Update .....</b>	<b>271</b>
<i>S.G. Gug, T. Ikeda, P. Williams, T.G. Jeong</i>	
<b>Standardisation of Buoy Arrangements in the Korean Navigational Fairway.....</b>	<b>282</b>
<i>S.G. Gug, M. Bransby, J.H. Yun, T.G. Jeong, E.B. Lee</i>	
<b>GNSS User Requirements in Emergency Management.....</b>	<b>289</b>
<i>C. Dixon, R. Haas</i>	
<b>The New Radar Standard – Changes for the Mariner.....</b>	<b>300</b>
<i>D. Hannah</i>	
<b>Next Generation LF Transmitter Technology for (e)LORAN Systems.....</b>	<b>306</b>
<i>T. Hardy</i>	
<b>The Role of Satellite Navigation in Improving the Safety and Security of Elderly and Disabled People.....</b>	<b>323</b>
<i>Z. Hunaiti</i>	
<b>Developing User Needs for S-Mode.....</b>	<b>324</b>
<i>E. Jacobson, M. Lutzhoft</i>	
<b>Proposed Satellite Service for Ice-Edge and Storm Warning Using GNSS .....</b>	<b>329</b>
<i>M. Unwin, P. Jales, C. Underwood</i>	
<b>Accufix System Enhancements for eLoran.....</b>	<b>339</b>
<i>E. Johannessen, P. Johannessen, A. Grebnev</i>	
<b>Test and Evaluation of a New eLoran Transmitter.....</b>	<b>347</b>
<i>G. Johnson, M. Wiggins, K. Dykstra, P. Swaszek, R. Hartnett</i>	
<b>Galileo AltBOC E5 Signal Characteristics for Optimal Tracking Algorithms.....</b>	<b>356</b>
<i>P. Kacmarik, P. Kovar, F. Vejrazka</i>	
<b>Weak Signal and Multipath Analysis Using GNSScope: A Toolbox for End-to-End Modelling, Simulation and Analysis of GNSS .....</b>	<b>365</b>
<i>R. Kazazoglu, A. Ucar, E. Cetin, I. Kale</i>	
<b>OFDM Signal Navigation .....</b>	<b>371</b>
<i>P. Kovar, F. Vejrazka, P. Kacmarik, M. Eska</i>	
<b>Impact of Extended Coherent Integration Times on Weak Signal RTK in an Ultra-Tight Receiver .....</b>	<b>376</b>
<i>C. O'Driscoll, M. Petovello, G. Lapchappelle</i>	
<b>eLoran and Amateur Radio - A Study in Coexistence.....</b>	<b>387</b>
<i>P. Williams, D. Last, N. Ward</i>	
<b>Characterization of P-static for Antenna and Receiver Design Standards.....</b>	<b>394</b>
<i>R. Lilley, R. Erikson</i>	
<b>Improving Loran Coverage with Low Power Transmitters.....</b>	<b>410</b>
<i>B. Peterson, S. Lo, T. Hardy, P. Enge</i>	
<b>Loran Coverage Availability Simulation Tool.....</b>	<b>420</b>
<i>B. Peterson, S. Lo, G. Boyce, P. Enge</i>	
<b>Nonlinear SAR/INS Integration using Sigma-Point Kalman Filter.....</b>	<b>432</b>
<i>A. Maier, S. Kiesel, G. Trommer</i>	
<b>GNSS - eLoran Combined Receiver Benefits for the Mass Market.....</b>	<b>438</b>
<i>P. Mattos</i>	
<b>Software-in-the-Loop Simulation for Small Autonomous VTOL-UAV with Teaming Capability.....</b>	<b>442</b>
<i>O. Meister, n. Frietsch, J. Seibold, G. Trommer</i>	
<b>Preliminary Results of Helicopter Navigation Trials with Network RTK GNSS Positioning.....</b>	<b>449</b>
<i>X. Meng, L. Yang, T. Marmont, C. Hill, S. Ince, J. Aptone</i>	

<b>Failure Modes and Effects Analysis (FMEA) of GNSS Aviation Applications</b> .....	455
<i>C. Milner, W. Ochieng</i>	
<b>A Prototype Positioning System based on Digital Audio Broadcast Signals</b> .....	470
<i>D. Palmer, T. Moore, C. Hill</i>	
<b>Error Mechanisms in Indoor Positioning Systems without Support from GNSS</b> .....	477
<i>W. Michalson, A. Navalekar, H. Prikh</i>	
<b>The Impact of New Signals on Precise Marine Navigation - Initial Results from an Experiment in Harwich Harbour</b> .....	486
<i>A. Parkins, A. Grant, P. Cross</i>	
<b>RTS/CTS Mechanism with 802.11 for Indoor Location</b> .....	500
<i>J. Prieto, A. Bahillo, S. Mazuelas, J. Blas, P. Fernández, R. M. Lorenzo</i>	
<b>Cooperative Localization Algorithms for Improved Road Navigation</b> .....	506
<i>Eric Richter, Marcus Obst, Veit Leonhardt, Robin Schubert, Norman Mattern, Gerd Wanielik</i>	
<b>Group Repetition Interval Selection for eLoran</b> .....	511
<i>Jan Šafář, Paul Williams, Seung Gi Gug</i>	
<b>The Next Generation LF Transmitter and its Impact on Loran, eLoran, and Tactical (e)Loran Systems</b> .....	524
<i>C. Schue III</i>	
<b>Terrain Moisture and Stream Level for Integrated Reflected GPS System using Reflectivity and Elevation Map</b> .....	544
<i>L.C. Shen, J.C. Juang, C.C. Chang</i>	
<b>Loran of the Future – On-Air Tests of Some Possible Changes</b> .....	555
<i>P. Swaszek, R. Hartnett, G. Johnson, R. Shalaev, C. Oates</i>	
<b>CADRE – Avoiding Congestion with Satnav Systems</b> .....	574
<i>T. Thornton, P. Beullens, R. Proud</i>	
<b>Present Status and Future Developments of the Russian Radionavigation System Chayka and Joint Chayka/Loran-C Radionavigation Chains</b> .....	583
<i>V. Bass, P. Efremov, S. Zarubin, V. Tsarev, A. Choglokov</i>	
<b>Validation of EGNOS Helicopter Approach Procedures to North Sea Oil Platforms</b> .....	588
<i>J. Valner, S.J. Leighton</i>	
<b>Adaptive Kalman Filters for Orbit Estimation of Navigation Satellites for DGPS Applications</b> .....	595
<i>Dr. Ranjan Vepa, Amzari Zahir</i>	
<b>The Implementation of e-Navigation</b> .....	609
<i>N. Ward, S. Basker</i>	
<b>Reliable GPS: Interference, Jamming and the Case for eLoran</b> .....	613
<i>P. Williams, A. Grant, N. Ward, S. Basker</i>	
<b>A Coning Compensation Algorithm with Pure Filtered Angle Rate Input</b> .....	625
<i>Q. Zeng, J. Liu, A. Kemp, W. Zhao</i>	
<b>Realization of an Adaptive Hybrid Low-cost GPS/INS Integrated Navigation System with Switched Position-Domain and Range-Domain Filtering Strategy</b> .....	632
<i>J. Zhou, S. Knedlik, Z. Dai, E. Edwan, O. Loffeld</i>
