

# **2009 IEEE Symposium on Artificial Life**

**(ALife)**

**Nashville, Tennessee, USA  
30 March – 2 April 2009**

**IEEE Catalog Number: CFP09ALI-PRT  
ISBN: 978-1-4244-2763-5**

# TABLE OF CONTENTS

## **Session ALIFE-1: Keynote Lecture 1**

*Monday, March 30, 11:00AM-12:00PM, Room: Belmont, Chair: Daniel Polani, University of Hertfordshire, UK*

### **Guided Self-Organization of Autonomous Robot Behavior**

Nihat Ay and Ralf Der

Max Planck Institute for Mathematics in the Sciences, Germany, and Santa Fe Institute, USA, Germany; Max Planck Institute for Mathematics in the Sciences, Germany

## **Session ALIFE-2: Major Transitions in Evolution**

*Monday, March 30, 12:00PM-12:50PM, Room: Belmont, Chair: Hiroki Sayama, Binghamton University - SUNY, USA*

### **Dude, Where is My Sex Gene? - Persistence of Sex over Evolutionary Time in Cellular Automata [#13] ..... 1**

Nicolas Oros and Chrystopher L. Nehaniv

University of Hertfordshire, United Kingdom

### **Mechanisms Affecting the Evolution of Evolvability [#18] ..... 9**

Gregg Vesonder

ATT Labs - Research, United States

## **Session ALIFE-3: Meaning, Information, Communication**

*Monday, March 30, 2:00PM-4:00PM, Room: Belmont, Chair: Ralf Der, University of Leipzig, Germany*

### **A Constructivist Approach to Robot Language Learning via Simulated Babbling and Holophrase Extraction [#30] ..... 13**

Joe Saunders, Caroline Lyon, Frank Foerster, Chrystopher L. Nehaniv and Kerstin Dautenhahn

University of Hertfordshire, United Kingdom

### **Exploring Empowerment as a Basis for Quantifying Sustainability [#23] ..... 21**

Jan T. Kim and Daniel Polani

University of East Anglia, United Kingdom; University of Hertfordshire, United Kingdom

### **The Impact of Communication and Memory in Hive-based Foraging Agents [#25] ..... 29**

Paul Schermerhorn and Matthias Scheutz

Indiana University, United States

**Semantic Content and Pragmatic Convention: Emergence through Individual Advantage in Spatialized Environments [#29] .....37**

Patrick Grim  
Stony Brook, State University of New York, United States

**Using Real-Time Recognition of Human-Robot Interaction Styles for Creating Adaptive Robot Behaviour in Robot-Assisted Play [#34] .....45**

Dorothee Francois, Kerstin Dautenhahn and Daniel Polani  
University of Hertfordshire, United Kingdom

**Session ALIFE-4: Keynote Lecture 2**

*Monday, March 30, 4:30PM-5:30PM, Room: Belmont, Chair: George Kampis, Eötvös University, Hungary*

**The Human Mind**

Thomas S. Ray  
University of Oklahoma, United States

**Session ALIFE-5: BioComputation and Genetic Regulatory Networks**

*Monday, March 30, 5:30PM-6:30PM, Room: Belmont, Chair: Charles Ofria, Michigan State University, USA*

**Self-Adaptive Multi-Robot Construction using Gene Regulatory Networks [#3] .....53**

Hongliang Guo, Yan Meng and Yaochu Jin  
Stevens Institute of Technology, United States; Honda Research Institute Europe, Germany

**Influence of Regulation Logic on the Easiness of Evolving Sustained Oscillation for Gene Regulatory Networks [#4] .....61**

Yaochu Jin, Yan Meng and Bernhard Sendhoff  
Honda Research Institute Europe, Germany; Stevens Institute of Technology, United States

**Session ALIFE-6: Embodiment, Behavior & Interaction**

*Tuesday, March 31, 8:30AM-10:30AM, Room: Belmont, Chair: Thomas S. Ray, University of Oklahoma, USA*

**Distinction Between Types of Motivations: Emergent Behavior with a Neural, Model-Based Reinforcement Learning System [#17] .....69**

Elshad Shirinov and Martin Butz  
University of Wuerzburg, Germany

**Developing Preferential Attention to a Speaker: A Robot Learning to Recognise its Carer [#31] .....77**

John Murray and Lola Canamero  
University of Hertfordshire, United Kingdom

**Enhancing the Architecture of Interactive Evolutionary Design for Exploring Heterogeneous Particle Swarm Dynamics: An In-Class Experiment [#20] .....85**

Hiroki Sayama, Shelley Dionne, Craig Laramée and David Wilson  
Binghamton University, State University of New York, United States

**Cockroaches, Drunkards, and Climbers: Modeling the Evolution of Simple Movement Strategies Using Digital Organisms [#21] .....92**

Wesley Elsberry, Laura Grabowski, Charles Ofria and Robert Pennock  
Michigan State University, United States

**Applying Digital Evolution to the Design of Self-Adaptive Software [#16] .....100**

Benjamin E. Beckmann, Laura Grabowski, Philip K. McKinley and Charles Ofria  
Michigan State University, United States

**Session ALIFE-7: Keynote Lecture 3**

*Tuesday, March 31, 11:00AM-12:00PM, Room: Belmont, Chair: Chrystopher L. Nehaniv, University of Hertfordshire, UK*

**A Model of Embodied Computation for Artificial Morphogenesis**

Bruce J. MacLennan  
University of Tennessee at Knoxville, United States

**Session ALIFE-8: Evolution and Development (Evo-Devo)**

*Tuesday, March 31, 12:00PM-1:00PM, Room: Belmont, Chair: Chrystopher L. Nehaniv, University of Hertfordshire, UK*

**On the Properties of Artificial Development and Its Use in Evolvable Hardware [#28] .....108**

Tuze Kuyucu, Martin Trefzer, Julian Miller and Andy Tyrrell  
University of York, United Kingdom

**Evolution of Bilateral Symmetry in Agents Controlled by Spiking Neural Networks [#10] .....116**

Nicolas Oros, Volker Steuber, Neil Davey, Lola Canamero and Rod Adams  
University of Hertfordshire, United Kingdom

**Session ALIFE-9: Evolution and Ecology (Generalized Evo-Eco)**

*Tuesday, March 31, 2:00PM-4:00PM, Room: Belmont, Chair: Bruce MacLennan, University of Tennessee at Knoxville, USA*

**Ecological Approaches to Diversity Maintenance in Evolutionary Algorithms [#19] .....124**

Sherry Goings and Charles Ofria  
Michigan State University, United States

**Emergence and Analysis of Complex Food Webs in an Individual-based Artificial Ecology [#14] ..... 131**

Walter de Back and George Kampis  
Collegium Budapest (Institute for Advanced Study), Hungary

**On the Value of Simple Stoichiometry to ALife Simulations using EcoSim [#5] ..... 139**

Matthew Conforth and Yan Meng  
Stevens Institute of Technology, United States

**Biomimetic Evolutionary Analysis: Robotically-Simulated Vertebrates in a Predator-Prey Ecology [#8] .147**

Nicole Doorly, Kira Irving, Gianna McArthur, Keon Combie, Virginia Engel, Hassan Sakhtah, Elise Stickles, Hannah Rosenblum, Andres Gutierrez, Robert Root, Chun Wai Liew, and John H. Long, Jr.  
Case Western University, United States; Stanford University, United States; Memorial Sloan-Kettering Cancer Center, United States; Howard University, United States; University of Washington, United States

**Peak Analysis for Characterizing Evolutionary Behavior [#26] ..... 155**

Jeffrey Pfaffmann  
Lafayette College, United States

**Session ALIFE-10: Multicellularity and Swarms**

*Tuesday, March 31, 4:30PM-6:30PM, Room: Belmont, Chair: Daniel Polani, University of Hertfordshire, UK*

**An Artificial T cell Immune System for predicting MHC-II binding peptides [#6] ..... 163**

Carsten Henneges, Stefan Huster and Andreas Zell  
University of Tuebingen, Germany

**Cultural Transmission in Robotic Swarms through RFID Cards [#27] ..... 171**

Joshua Brandoff and Hiroki Sayama  
Binghamton University, State University of New York, United States

**The role of lateral inhibition in the sensory processing in a simulated spiking neural controller for a robot [#15] ..... 179**

David Bowes, Rod Adams, Lola Canamero, Volker Steuber and Neil Davey  
University of Hertfordshire, United Kingdom

**Evolving Cooperative Pheromone Usage in Digital Organisms [#24] ..... 184**

Brian D. Connelly, Philip K. McKinley and Benjamin E. Beckmann  
Michigan State University, United States

**AUTHOR INDEX**
