

2009 IEEE Workshop on Computational Intelligence in Vehicles and Vehicular Systems (CIVVS 2009)

**Nashville, TN, USA
30 March – 2 April 2009**

**IEEE Catalog Number: CFP09CVI-PRT
ISBN: 978-1-4244-2770-3**

TABLE OF CONTENTS

Session CIVVS-1: Advances in Vehicle Systems I

Thursday, April 2, 8:30AM-10:30AM, Room: Two Rivers, Chair: Dimitar Filev, Ford Motor Co., USA

A Self-Learning Sensor Fusion System for Object Classification [#15006] 1

Danil Prokhorov

Toyota Research Institute, United States

Towards Real-Time and Memory Efficient Predictions of Valve States in Diesel Engines [#15012] 8

Philippe Komma and Andreas Zell

University of Tuebingen, Germany

Driver Pose Estimation with 3D Time-of-Flight Sensor [#15016] 16

David Demirdjian and Chenna Varri

Toyota Research Institute, United States

Driver's Style Classification Using Jerk Analysis [#15018] 23

Yi Murphey, Robert Milton and Leonidas Kiliaris

University of Michigan-Dearborn, United States

Session CIVVS-2: Advances in Vehicle Systems II

Thursday, April 2, 11:00AM-1:00PM, Room: Two Rivers, Chair: Danil Prokhorov, Toyota Research Institute, USA

Recurrent Neural Network Training for Energy Management of a Mild Hybrid Electric Vehicle with an Ultra-Capacitor [#15024] 29

Lee Feldkamp, Mahmoud Abou-Nasr and Ilya Kolmanovsky

Ford Motor Company, United States

Multi-Sensor Area Coverage Analysis for Aspect-Dependent Targets [#15027] 37

John Hyland, Cheryl Smith and Jason Stack

Naval Surface Warfare Center-Panama City, United States

From Vehicle Stability Control to Intelligent Personal Minder: Real-time Vehicle Handling Limit Warning and Driver Style Characterization [#15020] 43

Jianbo Lu, Dimitar Filev, Kwaku Prakah-Asante and Fling Tseng

Ford Motor Company, United States

A Layered Approach To Robust Lane Detection At Night [#15013]51

Amol Borkar, Monson Hayes, Mark Smith and Sharathchandra Pankanti
Georgia Institute of Technology, United States; KTH - Swedish Royal Institute of Technology, Sweden; IBM T.J. Watson Research Center, United States

Session CIVVS-3: Applications I

Thursday, April 2, 2:00PM-4:00PM, Room: Two Rivers, Chair: Nestor Rychtyckj, Ford Motor Co., USA

Assembly Ergonomics Filters for Prevention of Injury Risk Operations at Ford Motor Company [#15007]58

Nestor Rychtyckj and Allison Stephens
Ford Motor Company, United States

3D Lidar Processing for Vehicle Safety and Environment Recognition [#15021]66

Philipp Lindner and Gerd Wanielik
Chemnitz University of Technology, Germany

FPGA Implementation of Spectral Subtraction for Automotive Speech Recognition [#15008]72

Jim Whittington, Kapeel Deo, Tristan Kleinschmidt and Michael Mason
LaTrobe University, Australia; Queensland University of Technology, Australia

Managing Uncertainty in Sound based Control for an Autonomous Helicopter [#15032]80

Benjamin N. Passow, Mario A. Gongora, Sophy Smith and Adrian A. Hopgood
Institute of Creative Technologies, De Montfort University, United Kingdom; Centre for Computational Intelligence, De Montfort University, United Kingdom

Session CIVVS-4: Applications II

Thursday, April 2, 4:30PM-6:30PM, Room: Two Rivers, Chair: Yi Murphey, University of Michigan-Dearborn, USA

Towards a Probabilistic Alert Procedure of Roadway Departure [#15004]87

Guillaume Rey, David Clair, Michel Fogli and Frederic Bernardin
LaMI, France; CETE Lyon, France

Spectral Features for the Classification of Civilian Vehicles using Acoustic Sensors [#15019]93

Shahina Kozhisseri and Marwan Bikdash
North Carolina Agricultural and Technical State University, Greensboro, United States

Detection of Mobile Machine Damage Using Accelerometer Data and Prognostic Health Monitoring Techniques [#15026]101

Anya Getman, Christopher Cooper, Gary Key, Heng Zhou and Nick Frankle
Caterpillar, Inc., United States; Frontier Technology, Inc., United States
