2009 International Conference on Model-Based Systems Engineering
(Formerly ICSEM)

(MBSE)

Herzeliya and Haifa, Israel
2 – 5 March 2009

IEEE

IEEE Catalog Number: CFP0967B-PRT
ISBN: 978-1-4244-2967-7

Table of Contents

Model-based processes, simulation and verification

Efficient Recognition of Finite Satisfiability in UML Class Diagrams: Strengthening by Propagation of Disjoint Constraints

Azzam Maraee, Mira Balaban..... 1

OPM Model Based Simulation Environment for Systems Engineering Conceptualization Phase

Yevgeny Yaroker, Valeriya Perelman, Dov Dori..... 9

Verification of Embedded System's Specification Using Collaborative Simulation of SysML and Simulink models

Ryo Kawahara, Hiroaki Nakamura, Dolev Dotan, Andrei Kirshin, Takashi Sakairi, Shinichi Hirose, Kohichi Ono, Hiroshi Ishikawa
..... 21

Applications of model-based approaches

Scheduling Appointments via Fluids Control

Yossef Luzon, Michal Penn, Avishai Mandelbaum 29

Creating SysML Views From an OPM Model

Yariv Grobshtein, Dov Dori..... 36

Model-based approaches to organizational and business processes

Anticipatory Capacity: Leveraging Model-Based Approaches to Design Systems for Dynamic Futures

Donna H. Rhodes, Adam M. Ross 46

Achieving Flexibility in Business Process Modeling Using an Algebraic Language

Lan Xiao, Benjamin H. Y., Koo, Li Zheng..... 52

Case studies and industrial experience with model-based design

Collaborative Work with Software Models – Industrial Experience and Requirements

Lars Bendix, Pär Emanuelsson..... 60

A Generic Conceptual Model and Actual Systems of IC-Card System for Model-Based Systems Engineering
Donghun Yoon ……. 69

Practicing Modeling in Manufacturing
Hilda Tellioglu…….. 75
