

2009 ICSE Workshop on Software Engineering for Secure Systems

(SESS)

**Vancouver, British Columbia, Canada
19 May 2009**

**IEEE Catalog Number: CFP0997C-PRT
ISBN: 978-1-4244-3725-2**

Full Papers

- 1 **Reusable Security Use Cases for Mobile Grid Environments**
(David G. Rosado, Eduardo Fernández-Medina, Javier López)
- 9 **Resolving Least Privilege Violations in Software Architectures**
(Koen Buyens, Bart De Win, Wouter Joosen)
- 17 **Intrusion Detection Using Signatures Extracted from Execution Profiles**
(Marwa El-Ghali, Wes Masri)
- 25 **A Hybrid Analysis Framework for Detecting Web Application Vulnerabilities**
(Mattia Monga, Roberto Paleari, Emanuele Passerini)
- 33 **SWAP: Mitigating XSS Attacks Using a Reverse Proxy**
(Peter Wurzinger, Christian Platzer, Christian Ludl, Engin Kirda, Christopher Kruegel)
-

Position Papers

- 40 **Metamodel for Privacy Policies Within SOA**
(David S. Allison, Hany F. EL Yamany, Miriam A.M. Capretz)
- 47 **MUTEC: Mutation-Based Testing of Cross Site Scripting**
(Hossain Shahriar, Mohammad Zulkernine)
- 54 **RUP-Based Process Model for Security Requirements Engineering in Value-Added Service Development**
(Hrvoje Belani, Željka Car, Antun Carić)
- 61 **Improving Perimeter Security with Security-Oriented Program Transformations**
(Munawar Hafiz, Ralph E. Johnson)
- 68 **Generating Formal Specifications for Security-Critical Applications — A Model-Driven Approach**
(Nina Moebius, Kurt Stenzel, Wolfgang Reif)
