

2009 IEEE International Symposium on Electromagnetic Compatibility

(EMC 2009)

**Austin, Texas, USA
17-21 August 2009**

Pages 1-439

**IEEE Catalog Number: CFP09EMC-PRT
ISBN: 978-1-4244-4266-9**

TABLE OF CONTENTS

Impact of Photonic Crystal Power/Ground Layer Density on Power Integrity Performance of High-Speed Power Buses	1
<i>A. Ciccomancini Scogna , A. Orlandi, V. Ricchiuti, Tzong-Lin Wu</i>	
Bulk Current Injection Testing of Cable Noise Reduction Techniques, 50 kHz to 400 MHz	7
<i>Arthur T. Bradley, Richard J. Hare, Manisha Singh</i>	
Radio Approval in Japan	13
<i>Grace Lin, David Schramm</i>	
Impedance Measurements from 1- 20 MHz with up to 200 A (50 Hz) Bias-Current for the Optimization of High Power High Frequency Coils	19
<i>Ingo Schmidt, Achim Enders</i>	
Effectiveness of Shield Termination Techniques Tested with TEM Cell and Bulk Current Injection	23
<i>Arthur T. Bradley, Richard J. Hare</i>	
Common Mode Filtering Performances of Planar EBG Structures	29
<i>F. De Paulis, A. Orlandi, L. Raimondo, B. Archambeault , S. Connor</i>	
Electromagnetic Complex Cavity Characterization of a Fighter Aircraft Main Weapons Bay	34
<i>Gregory Tait, Michael Hatfield, Bradley Bernard, Manuel Rodriguez</i>	
Novel Assessment Technique for Investigating Potential Phased Array Effects of Passenger Aircraft	40
<i>Ingo Schmidt, Achim Enders, Robert Geise, Martin Schwark</i>	
Characterization and Concept for Optimization of Planar Spiral High Power High Frequency Coils	45
<i>Ingo Schmidt, Achim Enders</i>	
Electromagnetic Cavity Effects from Transmitters Inside a Launch Vehicle Fairing	50
<i>Dawn H. Trout, Parveen F. Wahid, James E. Stanley</i>	
Calibration of Double-Ridged Guide Horn Antenna Using Phase Center	55
<i>Katsushige Harima</i>	
Calculation of Radiated Emission from Chassis Connected to PCB with Screw	60
<i>Hiroki Funato, Takashi Suga</i>	
Effects of 'Can' Filter on EMI Performance of Switching Power Supplies	65
<i>Eric Chikando, Samuel Connor, Bruce Archambeault</i>	
Is Electrostatic Discharge Phenomenon A Well- Posed Problem?	70
<i>Tze-Chuen Toh</i>	
EMC Protections for High Voltage and High Power on a Wide Facility - the Mégajoule Laser	75
<i>D. Rubin De Cervens, J. C Gomme, J. Raimbourg, J. Baggio, J. L. Faure, J. P. Seaux, P. Bauer, P. Trochet</i>	
Developing a Universal Exchange Format for Near-Field Scan Data	81
<i>John Shepherd, Atsushi Nakamura, Frederic Lafon, Etienne Sicard, Mohamed Ramdani, David Pommerenke, Giorgi Muchaidze, Sebastien Serpaud</i>	
Mechanical and Electrical Characterization of Epoxy Nanocomposites for Electromagnetic Shielding Devices in Aerospace Applications	87
<i>S. Bellucci, F. Micciulla, I. Sacco, G. De Bellis, G. Rinaldi</i>	
Antenna Design and Its Application for Near Field Disturbance Measurement in Upper VHF Band	95
<i>Toshimichi Omori, Hidetoshi Sasaki, Hironori Jingu, Rene-Karl Robin</i>	
Lumped Models for Vias in Multilayered PCBs	101
<i>Gerd Heinrich, Stefan Dickmann</i>	
On the Coupling Between the Signal Layers and the Power-Bus on Multilayered PCBs	107
<i>Gerd Heinrich, Stefan Dickmann</i>	
Electrode Speed Effect on Discharge Properties in Short Gap Electrostatic Discharge	113
<i>Fangming Ruan, Dan Shi, Yougang Gao, Zeyun Song</i>	
An Investigation of the Effect of Grounding Pads on Power Bus Resonance Characteristics	118
<i>Ken Morishita, Todd Hubing, Xinbo He, Naoki Kobayashi, Takashi Harada</i>	
Electromagnetic Field Immunity Test System Applying Array Antenna Technology	123
<i>Takeshi Uchida, Chiharu Miyazaki, Naoto Oka, Koichiro Misu, Yoshihiko Konishi</i>	
3-Antenna Height-Scanning-Average Method of EMI Antenna Calibration	128
<i>Jungkuy Park, Dongchan Jeong, Hun Youn, Myoungwon Seo, Daehoon Yu, Jaeman Ryoo</i>	
Hybrid Mom/fem Modelling of Shielding Effectiveness of Loaded Rectangular Enclosures with Apertures	134
<i>Sibel Yenikaya</i>	
Analysis of Electromagnetic Resonances in The Case of a Vehicle Using Different Sets of Field Points	139
<i>Serge Tapigue, Marco Klingler, Philippe Besnier, Salah Benhassine, M'Hamed Drissi</i>	

A Describing Function Method for Evaluating the Statistics of the Harmonics Scattered from a Non-Linear Device in a Mode Stirred Chamber	145
<i>Andrew C Marvin, Chen Jiaqi, Ian D Flintoft, John F Dawson</i>	
Crosstalk Statistics Via Collocation Method	151
<i>Fatou Diouf, Flavio Canavero</i>	
Decoupling Capacitor And Low Inductance Power Distribution Strategies For Achieving EMC Compliance: An Educational Approach Using MultiSim And Mathcad	157
<i>David Norte</i>	
Transient-to-Digital Converter for Protection Design in CMOS Integrated Circuits Against Electrical Fast Transient	162
<i>Cheng-Cheng Yen, Ming-Dou Ker, Chi-Sheng Liao, Tung-Yang Chen, Chih-Chung Tsai</i>	
Influence of Rise Velocity of Charge Voltage on Spark Discharge from a Metal Sphere	166
<i>Hajime Tomita</i>	
Characterization and Modelling of Parasitic Emission of a 32-bit Automotive Microcontroller Mounted on 2 Types of BGA	171
<i>Eric Rogard, Bertrand Vrignon, John Shepherd, Richard Moseley, Etienne Sicard</i>	
An Innovative Methodology for Evaluating Multi- Chip EMC in Advanced 3G Mobile Platforms	177
<i>S. Akue Boulingui, C. Dupoux, S. Baffreau, E. Sicard, N. Bouvier, B. Vrignon</i>	
Electromagnetic Penetration Studies for Three Different Aircraft	183
<i>Chriss A. Grosvenor, Robert Johnk, David Novotny, Dennis Camell, Galen Koepke, Nino Canales</i>	
Directive Wavefronts Inside a Time Reversal Electromagnetic Chamber	189
<i>Houmam Moussa, Andrea Cozza, Michel Cauterman</i>	
EMC Issues of Power Electronic Converters	195
<i>Pavel Drabek, Vaclav Kus</i>	
Parameterized Models for Crosstalk Analysis in High-Speed Interconnects	201
<i>Francesco Ferranti, Tom Dhaene, Luc Knockaert, Giulio Antonini</i>	
Potential Interference Issues Between FCC Part 15 Compliant UHF ISM Emitters and Equipment Passing Standard Immunity Testing Requirements	207
<i>David R. Novotny, Jeffrey R. Guerrieri, Daniel G. Kuester</i>	
An Analytical Study on the Relationship Between the Surface Conditions of the Rotary Slide Contacts and the Noise Waveforms	212
<i>Atsuo Mutoh, Shuichi Nitta, Reiko Koyama</i>	
A GHz Common-mode Filter Using Negative Permittivity Metamaterial on Low Temperature Co-fire Ceramic (LTCC) Substrate	218
<i>Chung-Hao Tsai, Tzong-Lin Wu</i>	
Shielding Effectiveness and Coupling of Cavity Connection Excited by UWB Pulse	222
<i>Qun Wu, Shaoqing Zhang, Lukui Jin, Yue Wang</i>	
Effect on Electric Field of Foam Block in GTEM Cell	226
<i>Ifong Wu, Shinobu Ishigami, Kaoru Gotoh, Yasushi Matsumoto</i>	
Novel Electromagnetic Field Measuring Instrument with Real-Time Visualization	231
<i>Jean Rioult, Divitha Seetharamdo, Marc Heddebaut</i>	
Electromagnetic Topology Combined with Mode Matching for the Electromagnetic Field Penetration Analysis of an Aperture Backed Cavity	237
<i>Yoon-Mi Park, Younju Lee, Joonho So, Changyul Cheon, Young-Seek Chung, Hyun-Kyo Jung</i>	
Achieving EMI Compliance with DVI and HDMI on Defense/Aerospace Platforms	243
<i>John G. Kraemer, John A. Shaw</i>	
Electrostatic Discharge Analysis of Multi Layer Ceramic Capacitors	249
<i>Cyrus Rostamzadeh, Hamidreza Dadgostar, Flavio Canavero</i>	
Shielding Effectiveness of Artificial Magnetic Screens in the VHF Band	255
<i>Rodolfo Araneo, Salvatore Celozzi, Giampiero Lovat</i>	
Examinations of Higher Order Mode Cutoff Frequencies in Symmetrical TEM Cells	261
<i>Zhong Chen</i>	
Predicting Noise Voltage from Trace Crossing Split Planes on Printed Circuit Boards	267
<i>Weifeng Pan, Samuel Connor, Bruce Archambeault</i>	
Analysis of Antenna Behavior in a Multipath Environment Generated by a Reverberation Chamber	273
<i>Andrea Cicchi, Valter Mariani Primiani, Franco Moglie</i>	
Aspects of Field Statistics Inside Nested Frequency- Stirred Reverberation Chambers	279
<i>Yuhui He, Andrew C Marvin</i>	
On the Zero Crossing of Distant Electromagnetic Fields Radiated by Lightning	285
<i>A. Shoory, F. Rachidi, M. Rubinstein, R. Moini, S. H. H. Sadeghi</i>	
Solution for the Reduction of Electromagnetic Influences from an Electric Driving System	289
<i>Petre-Marian Nicolae, Ileana-Diana Nicolae, Ioana-Gabriela Sîrbu</i>	

Multiwall Carbon Nanotube Vias: An Effective TL Model for EMC Oriented Analysis	295
<i>M. S. Sarto, A. Tamburrano</i>	
The Time Domain Response of BCI Transformers	301
<i>James McLean, Robert Sutton</i>	
Reduction of In-Band Intermodulation Products Caused by Adjacent Channel Signals Via The Design Of Linear Out-Of-Band Behavior	307
<i>Ilteris Demirkiran, Donald D. Weiner, Andrew Drozd, Irina Kasperovich</i>	
Hybrid Simulation Method to Analyse Anti-jamming Receiver	313
<i>Xiaomu He, Wenqing Chen, Jiantao Li, Qinhua Mo, Chaoxian Zhao, Feng Bian</i>	
Improved Technique for Extracting Parameters of Low-Loss Dielectrics on Printed Circuit Boards	317
<i>Amendra Koul, Praveen K. R. Anmula, Marina Y. Koledintseva, James L. Drewniak, Scott Hinaga</i>	
FDTD Analysis of Site Free Space VSWR in Test Site Used for Disturbance Measurement above 1 GHz	323
<i>Nobuo Kuwabara, Masataka Midori, Masato Kawabata</i>	
Analytical Modeling for Crosstalk Noise Induced by Process Variations Among CNT-based Interconnects	329
<i>Peng Sun, Rong Luo</i>	
Ultra-Wideband and Compact Novel Compline Filters	334
<i>Baharak Mohajer-Iravani, Mahmoud A. El Sabbagh</i>	
Bandwidth Improvement of Multilayer Common Mode Filter by Time Domain Method	338
<i>Bin-Chyi Tseng, Li-Chun Liao, Jia-Yan Ling</i>	
The Electromagnetic (EM) Characterization of the Radiated Environment in the 2.4 GHz Band	343
<i>Guo Lin, Xiao Li, Li Wei</i>	
Radiation Characteristics of Short Unterminated Transmission Lines	350
<i>Dheena Moongilan</i>	
Effect of the Mutual Inductances Among Grounding Conductors on the Transient Performance of Grounding Grids	356
<i>Bo Zhang, Jinliang He, Rong Zeng, Jun Hu, Zhanqing Yu</i>	
Source-Stirring and Mechanical-Stirring Reverberation Chamber Measurement Comparison for 900MHz and 1800MHz	361
<i>Jakkrit Kunthong, Charles F. Bunting</i>	
EM Radiation from Interconnected Surface-Microstrip Line Structures by a Coaxial Cable	365
<i>Jakkrit Kunthong, Charles F. Bunting</i>	
Far Field Radiated Emission Prediction from Magnetic Near Field Magnitude-Only Measurements of PCBs by Genetic Algorithm	371
<i>Hongmei Fan</i>	
On the Signal Processing for an Exposure Assessment of Superimposed Magnetic Fields	375
<i>Ch. Rueckerl, K. Fr. Eichhorn, H. Bauer</i>	
Characterization of the Electromagnetic Environment in a Hospital and Propagation Study	379
<i>Nickolas J. Lasorte, W. Justin Barnes, Hazem H. Refai</i>	
Quantifying Stirred and Unstirred Components in Reverberation Chamber with Appropriate Statistics	385
<i>G. Leriche, E. Amador, P. Besnier, C. Lemoine</i>	
On the Quantification of the State-of-the-Art Models for Skin-Effect in Conductors, Including Those with Non-Rectangular Cross-Sections	390
<i>Brian Curran, Ivan Ndip, Stephan Guttowski, Herbert Reichl</i>	
Numerical and Experimental Investigation of Unstirred Frequencies in Reverberation Chambers	396
<i>Valter Mariani Primiani, Franco Moglie, Vittorio Paoletta</i>	
Interference Voltage and Interference Threshold in Pacemakers with Unipolar and Bipolar Electrodes	401
<i>Sven Hille, Karl Friedrich Eichhorn, Karl-Heinz Gonschorek</i>	
Calibration of Electric-Field Probe Using Open-Ended Waveguides	407
<i>Shinobu Ishigami, Ifong Wu, Ken-Ichi Sato, Kaoru Gotoh, Yasushi Matsumoto</i>	
HEMP Field Coupling With Buried Power Distribution Cables	412
<i>K. Sunitha, M. Joy Thomas</i>	
A Flexible EMI Measurement Sheet to Measure Electric and Magnetic Fields Separately with Distributed Antennas and LSI's	418
<i>Naoki Masunaga, Koichi Ishida, Zhiwei Zhou, Tadashi Yasufuku, Tsuyoshi Sekitani, Takao Someya, Makoto Takamiya, Takayasui Sakurai</i>	
Electromagnetic Field Coupling into Cardiac Pacemaker Systems - Numerical Simulation Using Body Models With Dispersive Dielectric Tissues	423
<i>Stefan Schenke, Lars-Ole Fichte, Florian Sutter, Markus Clemens, Stefan Dickmann</i>	

Analytical Modeling of Power Distribution Network with Embedded Electromagnetic Bandgap Structure.....	427
<i>Chulsoon Hwang, Jaemin Kim, Yujeong Shim, Joungho Kim</i>	
A Realtime Time-domain EMI Measurement System for Measurements Above 1 GHz.....	432
<i>Stephan Braun, Christian Hoffmann, Arnd Frech, Peter Russer</i>	
Impulsive Noise Measurement Methodologies for APD Determination in M2M Environments.....	436
<i>José Chilo, Carl Karlsson, Per Ångskog, Peter Stenumgaard</i>	
A Method to Decrease Computation Time of FDTD Calculations for Low Frequency Excitations.....	440
<i>Emmanuel Perrin, Christophe Guiffaut, Fabrice Tristant, Alain Reineix</i>	
Study on the Electromagnetic Influence of DC Bias on the Power Transformer.....	445
<i>Yinghui Chen, Tiebing Lu, Lin Li, Zhibin Zhao</i>	
EMI Disruptive Effect on Wireless Industrial Communication Systems in a Paper Plant.....	449
<i>José Chilo, Carl Karlsson, Per Ångskog, Peter Stenumgaard</i>	
Automated Measurement of Intermittent Signals Using a Time-domain EMI Measurement System.....	453
<i>Hassan Hani Slim, Stephan Braun, Engin Gülten, Arnd Frech, Peter Russer</i>	
On-Site EMC Testing and Interference Prevention.....	457
<i>Thorsten Schrader, Klaus Münter, Christian Jastrow, Ahmad Daneschnejad, Thomas Kleine-Ostmann</i>	
Time-Domain EMI Measurements in the Presence of Ambient Noise.....	462
<i>Arnd Frech, Stephan Braun, Peter Russer</i>	
A Multi-Fidelity Modelling Approach for Cosite Interference Analysis.....	466
<i>Fred German , Matthew Young , Mathew C. Miller</i>	
Why Increasing Immunity Test Levels is Not Sufficient for High-Reliability and Critical Equipment.....	472
<i>Keith Armstrong</i>	
EMI Prediction in Switched Power Supplies by Fullwave and Non-linear Circuit Co-simulation.....	478
<i>Ankit Bhargava, David Pommerenke, Keong Kam, Xin Chang, Federico Centola, Cheung-Wei Lam, Robert Steinfeld</i>	
Exposure Assessment of a Distributed Antenna System.....	484
<i>Ola H. Darwish, Linda Dawson, Ian D Flintoft, Andrew C Marvin</i>	
Differential Mode Noise on the PCB's Signal Traces Converted from External Common Mode Noise.....	490
<i>Naoto Oka, Takefumi Kumamoto, Koichiro Misu, Shuichi Nitta</i>	
SAR Numerical Analysis of the Whole Human Body Exposed to a Random Field.....	495
<i>Roberto De Leo, Valter Mariani Primiani , Franco Moglie, Anna Pia Pastore</i>	
Optical Scanning Probe System for Electromagnetic Near Field Measurements.....	501
<i>Masanori Takahashi, Katsumi Kawasaki, Hiroyuki Ohba, Tomokazu Ikenaga, Hiroyasu Ota, Tatsuru Orikasa, Nobuyasu Adachi, Kazushi Ishiyama, Ken Ichi Arai</i>	
EMC Guideline for Synchronous Buck Converter Design.....	507
<i>Keong Kam, David Pommerenke, Federico Centola, Cheung-Wei Lam, Robert Steinfeld</i>	
Recent Improvements to Dual Ridge Waveguide Horn Antennas: The 200MHz to 2000MHz and 18GHz to 40GHz models.....	513
<i>Vicente Rodriguez</i>	
Assessment of the Power Balance Method for E field Calculations in Complex Cavities.....	517
<i>André Schaffar, Yannick Herlem</i>	
Analysis of the Propagation of Electromagnetic Disturbances Inside Integrated Circuits Using Direct Power Injection and Near-Field Scanning.....	522
<i>Ali Alaeldine, Lakhdar Bouchelouk, Richard Perdriau, Mohamed Ramdani</i>	
Efficient Wide-Band Interpolation of MoM-derived Frequency Responses Using Stoer-Bulirsch Algorithm.....	527
<i>Andrzej Karwowski</i>	
Predicting Multimode Chassis Resonance of Single or Nested Rectangular Computer Enclosures.....	531
<i>Todd W. Steigerwald</i>	
Fast Memory-Efficient Full-Wave 3D Simulation of Power Planes.....	537
<i>T. V. Narayanan , Krishna Srinivasan, Madhavan Swaminathan</i>	
Comparison of Shielding Effectiveness Approximations to Measurements for Perforated Shields.....	543
<i>Jeffrey C. Hailey</i>	
A Novel (Non Sinusoidal) Signal Delay and Attenuation Measurement of Long RF Cables with Variable Insertion Loss.....	547
<i>Michael Royer, Robert Flake</i>	
Design of Composite Materials Using a Genetic Algorithm.....	553
<i>Heng Yang, Jianxiang Shen, Ji Chen, Chris Fuller</i>	
Measurement of Dielectric Properties of Carbon Nanotube Networks Used to Build Planar Transmission Lines.....	557
<i>Mahmoud A. El Sabbagh, Samir M. El-Ghazaly</i>	

Block Latency Insertion Method (Block-LIM) for Fast Transient Simulation of Tightly Coupled Transmission Lines	563
<i>Tadatoshi Sekine, Hideki Asai</i>	
Electromagnetic Field Measurement Using Circular Wire Scatterers	568
<i>Takehiro Morioka</i>	
Searching for the Elusive Correction Factor Between 3m and 10m Radiated Emission Tests	573
<i>Ed Blankenship, David Arnett, Sidney Chan</i>	
Relevant Parameters of SPICE3 MOSFET Model for EMC Analysis	579
<i>Jaleddine Ben Hadj Slama, Slim Hrigua, François Costa, Bertrand Revol, Cyrille Gautier</i>	
A Novel Method of Mitigating EMI on Implantable Medical Devices: Experimental Validation for UHF RFID Reader/Writers	584
<i>Yoshifumi Kawamura, Shunichi Futatsumori, Takashi Hikage, Toshio Nojima, Ben Koike, Hiroshi Fujimoto, Takeshi Toyoshima</i>	
A Near Field 3-Antenna Method for Short Monopole Antennas in Low Frequency Bands	590
<i>Masanori Ishii, Yozo Shimada</i>	
Measurement of Electromagnetic Parameters and FDTD Modeling of Ferrite Cores	594
<i>Jianfeng Xu, Marina Y. Koledintseva, Yongxue He, Richard E. Dubroff, James L. Drewniak, Bill Matlin, Andrea Orlando</i>	
Relationship Between Connector Contact Points and Common-Mode Current on a Coaxial Transmission Line	600
<i>Yu-Ichi Hayashi, Takaaki Mizuki, Hideaki Sone</i>	
A Novel Interconnected Patch-Ring (IPR) Structure for Noise Isolation	604
<i>Ivan Ndip, Stephan Guttowski, Herbert Reichl</i>	
Using a Single-Ended TRL Calibration Pattern to De-Embed Coupled Transmission Lines	610
<i>Jianmin Zhang, Qinghua B. Chen, Zhiqiang Qiu, James L. Drewniak, Antonio Orlandi</i>	
Impedance of an Infinitely Large Parallel-Plane Pair and Its Applications in Engineering Modeling	616
<i>Arun Reddy Chada, Yaojiang Zhang, Gang Feng, James L. Drewniak, Jun Fan</i>	
Developing an SI Tool Set for Engineering Design Discovery, Physical Insight, and Education	621
<i>Amendra Koul, Andrew Conrad, Russell Jackson, Alex Packard, Jianjian Song, Edward Wheeler, James L. Drewniak</i>	
Investigation of Mixed-Mode Input Impedance of Multi-Layer Differential Vias for Impedance Matching with Traces	627
<i>Hanfeng Wang, Wheling Cheng, Jianmin Zhang, John Fisher, Lin Zhu, James L. Drewniak, Jun Fan</i>	
Design of Impedance Matching Couplers for Power Line Communications	632
<i>Rodolfo Araneo, Salvatore Celozzi, Giampiero Lovat</i>	
Transient UWB Antenna Characterization in GTEM Cells	638
<i>Holger Thye, Sebastian Sczyslo, Gunnar Armbrecht, Sven Dortmund, Heyno Garbe</i>	
Equivalent Mixed-Mode Characteristic Impedances for Differential Signal Vias	644
<i>Siming Pan, Jun Fan</i>	
Conducted EMI Simulation of Switched Mode Power Supply	650
<i>Hongyu Li, David Pommerenke, Weifeng Pan, Shuai Xu, Huasheng Ren, Fantao Meng, Xinghai Zhang</i>	
Active Probes for Creating H-Field Probes for Flat Frequency Response	656
<i>Surbhi Mittal, Ji Zhang, David Pommerenke, James L. Drewniak, Kuijeng Hu, Xiaopeng Dong</i>	
A Measurement Technique for ESD Current Spreading on A PCB using Near Field Scanning	662
<i>Wei Huang, David Pommerenke, Jiang Xiao, Dazhao Liu, Jin Min, Giorgi Muchaidze, Soonjae Kwon, Ki Hyuk Kim</i>	
Investigation of Crosstalk Among Vias	668
<i>Songping Wu, Jun Fan</i>	
On the Role of Essential Higher Order Modes in a GTEM Cell	673
<i>David Pouchè, Gerhard Monich</i>	
Frequency-Dependent Via Inductances for Accurate Power Distribution Network Modeling	678
<i>Liehui Ren, Jinguok Kim, Gang Feng, Bruce Archambeault, James L. Knighten, James Drewniak, Jun Fan</i>	
Full Wave Model for Simulating a Noiseken ESD Generator	684
<i>Dazhao Liu, Argha Nandy, David Pommerenke, Soon Jae Kwon, Ki Hyuk Kim</i>	
Real World ASD Interference Case Study with Modeled Solutions	691
<i>Kermit O. Phipps, Philip F. Keebler, Robert F. Arritt</i>	
Finding Return Current Paths Via Synchronized Measurements in a Multiphase DCDC Buck Converters	697
<i>Peng Shao, Frank Chang, Chris Reade, Ponniah Ilavarasan, David Pommerenke</i>	
EM Emission of Differential Signals Across Connected Printed Circuit Boards in the GHz Range	702
<i>Xiaomin Duan, Bruce Archambeault, Heinz-Dietrich Bruens, Christian Schuster</i>	
Time-Domain Pulsed Measurements of the NASA Space Power Facility	708
<i>Robert T. Johnk, John D. Ewan, Paul McKenna, Ronald L. Carey, Nicholas Deminco, Kurt A. Shalkhauser</i>	

Calibration of a Numerically Modeled Reverberation Chamber	714
<i>Vignesh Rajamani, Charles F. Bunting, James C. West</i>	
The Present Status of the International Automotive EMC Standards	719
<i>Poul Andersen</i>	
Time Domain Measurements in Automotive Applications	724
