

2009 EAEIE Annual Conference

**Valencia, Spain
22 – 26 June 2009**

IEEE Catalog Number: CFP0996D-PRT
ISBN: 978-1-4244-5385-6

TABLE OF CONTENTS

| | |
|---|------------|
| 1. Using Graphics: Motivating Students in a C++ Programming Introductory Course..... | 1 |
| <i>Garrido, A., Martínez-Baena, J., Rodríguez-Sánchez, R., Fdez-Valdivia, J., García, J. A.</i> | |
| 2. Interactive Smith Chart for Microwave Engineering Students..... | 7 |
| <i>Francisco Ramos</i> | |
| 3. Simulation Tools for Active Learning in Robot Control and Programming..... | 11 |
| <i>G. López-Nicolás, A. Romeo, J. J. Guerrero</i> | |
| 4. Final Year Projects in Electrical and Information Engineering: Tips for Students and Supervisors..... | 17 |
| <i>Máximo Cobos, Sandra Roger, José J. López and Alberto González</i> | |
| 5. Lighting Design Course in an Electrical Engineering Programme Using Problem-Based Learning..... | 22 |
| <i>M. M. Travassos Valdez, C. I. Faustino Agreira, C. Machado Ferreira, F. P. Maciel Barbosa</i> | |
| 6. Improving the Evaluation of Concept Maps: a Step-by-Step Analysis..... | 28 |
| <i>Carlos T. Calafate, Juan-Carlos Cano, Pietro Manzoni</i> | |
| 7. Navigation Systems Teaching Method Based on Multidisciplinary Practicals..... | 34 |
| <i>Felipe Jiménez, José Eugenio Naranjo, Óscar Gómez</i> | |
| 8. Development of Remote Laboratory Experiences in Microelectronics and Intelligent Instrumentation..... | 40 |
| <i>B. Calvo, N. Medrano, S. Celma, C. Aldea</i> | |
| 9. Proposal of a Quality Model for Educational Software..... | 46 |
| <i>I. Plaza, R. Igual, J.J. Marcuello, S. Sanchez, F. Arcega</i> | |
| 10. Semi-Virtual Lectures on Physics..... | 52 |
| <i>Cristina Periago, Arcadi Pejuan, Xavier Jaén, Xavier Bohigas</i> | |
| 11. Misconceptions about the Propagation of Sound Waves..... | 56 |
| <i>Cristina Periago, Arcadi Pejuan, Xavier Jaén, Xavier Bohigas</i> | |
| 12. Comparing Open-Source E-Learning Platforms from Adaptivity Point of View..... | 62 |
| <i>N. Ruiz Reyes, P. Vera Candeas, S. García Galán, R. Viciano, F. Cañadas, P.J. Reche</i> | |
| 13. Multinational Undergraduate Team Work: Collaborative Learning in International Teams..... | 68 |
| <i>Numo Escudeiro, Paula Escudeiro, Ana Barata</i> | |
| 14. Real-Time Software-Intensive Systems Engineering: An International Perspective..... | 73 |
| <i>Miroslav Sveda, Andrew J. Kornecki, Thomas B. Hilburn, Wojciech Grega, Jean-Marc Thiriet, Ondrej Rysavy</i> | |
| 15. Missions and Evaluation Criteria of Doctoral Studies in Electrical and Information Engineering in the Frame of European Higher Education Area..... | 79 |
| <i>Olivier Bonnaud</i> | |
| 16. A Student-Centered Learning Model Applied in an Introductory Software Engineering Course..... | 84 |
| <i>Francisco J. García Peñalvo, Sergio Bravo Martín, Miguel A. Conde González</i> | |
| 17. A Feedback from the Graduates as a Basis of Quality of Education Assessment. Casestudy Research at Lublin University of Technology..... | 90 |
| <i>Andrzej Wac-Wodarczyk, Piotr Billewicz</i> | |
| 18. Gender Comparison - the Students' Feedback on Web Course “Electricity, Electronics and Environment” for the Senior Secondary School..... | 95 |
| <i>Maarit Vesapuisto, Leena Korpinen, Timo Vekara</i> | |
| 19. Virtual Laboratories and their Implementation..... | 101 |
| <i>Josep Cuartero-Olivera, Antoni Pérez-Navarro</i> | |
| 20. Millimeter-Wave and Power Characterization for Integrated Circuits..... | 107 |
| <i>M. de Matos, E. Kerhervé, H. Lapuyade, J-B. Begueret, Y. Deval</i> | |
| 21. An Experience about Collaborative Learning in an Engineering Course Belonging to “Dependency and Equality in Personal Autonomy” Master..... | 111 |
| <i>P. Reche-López, P. Vera-Candeas, R. Mata-Campos, N. Ruiz-Reyes</i> | |
| 22. Motivating Students to Study the Basics of Electronic Engineering in the World Full of Electronics..... | 117 |
| <i>Anna Friesel</i> | |
| 23. A Supporting Plan for Freshmen at The Faculty of Computer Science of Valencia..... | 122 |
| <i>R.M. Alcover, M.J. Castro-Bleda, J.A. Ontalba-Ruipérez, E. Sanabria-Codesal, A. Terrasa, E. Vendrell</i> | |
| 24. ARaCS: Educational Software for Radio Channel Characterization with Swept-Time Delay Crosscorrelation Sounders..... | 128 |
| <i>Ana Vazquez Alejos, Manuel Garcia Sanchez, Iñigo Cuiñas, Felipe Gil Castiñeira</i> | |
| 25. From Tacit to Acknowledged Knowledge..... | 134 |
| <i>Jouni Ikonen, Harri Hämäläinen, Satu Alaoutinen, Kari Heikkinen, Jari Porras</i> | |
| 26. Multimedia Support in the Field of Interdisciplinary Education..... | 140 |

| | | |
|--|--|------------|
| | <i>Vladana Djordjevic, Vaclav Gerla, Michal Huptych, Lenka Lhotska, Vladimir Krajca</i> | |
| 27. A Platform Designed to Motivate the Autonomous Learning about Computer Architectures..... | | 146 |
| | <i>S. García-Galán, J. E. Muñoz-Expósito, R. Viciano Abad, A. J. Yuste, N. Ruiz-Reyes, P. Vera Candéas</i> | |
| 28. Identification and Control of a Variable-Speed Drive: An Interdisciplinary Teaching Approach..... | | 150 |
| | <i>Serge Bouter, Rachid Malti, Camille Armand</i> | |
| 29. Multidisciplinary and International Projects..... | | 156 |
| | <i>Manuel Fernández, Divina Gracia, Houcine Hassan, Enrique Ballester</i> | |
| 30. Real, Virtual, Simulated and Remote Experiments for Electrical Engineering Education..... | | 160 |
| | <i>Dorin Popescu, Dan Selisteanu, Qinghao Meng, Livia Carmen Popescu</i> | |
| 31. Tailoring Project-Based Learning for a Communications Engineering Course..... | | 166 |
| | <i>José A. López-Salcedo, Gonzalo Seco-Granados</i> | |
| 32. Adaptive Integral Assessment Package for the A2UN@ Project..... | | 171 |
| | <i>Beatriz E. Florián G., Silvia M. Baldiris, Ramón Fabregat Gesa</i> | |
| 33. CHARLIE: An AIML-Based Chatterbot which Works as an Interface among INES and Humans..... | | 177 |
| | <i>Fernando A. Mikic, Juan C. Burguillo, Martín Llamas, Daniel A. Rodríguez, Eduardo Rodríguez</i> | |
| 34. The Nanoelectronics Training Roadmap of EuroTraining..... | | 183 |
| | <i>Zsolt Illyefalvi-Vitéz, Hervé Fanet</i> | |
| 35. Creating Interactive Learning Objects with Web Services..... | | 189 |
| | <i>Tarmo Robal, Ahto Kalja</i> | |
| 36. Methodology for Creation of Multidisciplinary, Transatlantic Engineering Program in Information Technology..... | | 195 |
| | <i>Wojciech Grega, Tom Hilburn, Andrew J. Kornecki, Ondrej Rysavy, Miroslav Sveda, Jean-Marc Thiriet</i> | |
| 37. 3D Animations Used for Teaching..... | | 200 |
| | <i>F. M. Gómez-Campos, S. Rodríguez-Bolívar, A. Luque-Rodríguez, J. A. López-Villanueva, J. A. Jiménez-Tejada, P. Lara-Bullejos, J. E. Carceller</i> | |
| 38. Designing Context-Aware Adaptive Units of Learning Based on IMS-LD Standard..... | | 205 |
| | <i>Sergio Gómez, David Huerva, Carolina Mejía, Silvia Baldiris, Ramón Fabregat</i> | |
| 39. Providing Self-learning to Students of Highly Attended Electronics Courses through the Remote Access to a Microelectronics Laboratory..... | | 211 |
| | <i>Marisa López-Vallejo, Ángel Fernández Herrero, Pablo Ituero and Gabriel Caffarena</i> | |
| 40. Accurate Knowledge Evaluation by Deep Datamining in Telecommunication Engineering Studies..... | | 217 |
| | <i>Roberto Llorente, Maria Morant</i> | |
| 41. A Playful Approach for Learning Intelligent Systems in Engineering..... | | 223 |
| | <i>Carlos A. Iglesias, Mercedes Garijo, Francisco Santiago</i> | |
| 42. An Approach for Teaching Software Engineering through Reverse Engineering..... | | 227 |
| | <i>Cristóbal Costa-Soria, Manuel Llavador, María del Carmen Penadés</i> | |
| 43. Mixing Collaborative Learning Techniques for Practice Evaluation in Networking..... | | 233 |
| | <i>Miguel Garcia, Hugo Coll, Miguel Edo, Jaime Lloret</i> | |
| 44. Interdisciplinary Projects in Teaching “Microprocessor Systems”..... | | 239 |
| | <i>Nina Bencheva, Nikolay Kostadinov, Yoana Ruseva</i> | |
| 45. Development and Test of an Antenna Simulator for Transmitter-Receiver Radio P/PRC525..... | | 243 |
| | <i>Ángelo Silva, A. J. Serralheiro, Maria João Martins, Moisés S. Piedade</i> | |
| 46. Application in Optical Communications Courses of Tools for the Visualization and Numerical Calculation of Guided Waves and Dispersion Effects in Step-Index Fibres..... | | 247 |
| | <i>Samuel Ver Hoeye</i> | |
| 47. Learning Content Production with XML and Java..... | | 251 |
| | <i>Alberto González Téllez</i> | |
| 48. A Sectoral Qualification Framework for Engineers and Computer Scientists..... | | 256 |
| | <i>Michael H.W. Hoffmann, Jürgen Grünberg, Manfred Hampe, Hans-Ulrich Heiß, Gerhard Müller, Heike Schmitt</i> | |
| 49. Outcome Analysis of Bachelor and Master Curricula in Electrical Engineering and Computing..... | | 261 |
| | <i>Hans-Ulrich Heiss, Cornelia Raue</i> | |
| 50. Curricula Design Flow with Embedded Accreditation..... | | 266 |
| | <i>Dante Del Corso, Muzio Gola, Maurizio Rebaudengo</i> | |
| 51. Cooperation with IT Companies at Cherkasy State Technological University..... | | 271 |
| | <i>Hryhoriy Zaspá, Olena Danchenko</i> | |
| 52. The Effect of Time and Place Dependence When Utilizing Video Lectures..... | | 274 |
| | <i>Ismo Hakala, Sanna Laine, Mikko Myllymäki, Jari Penttilä</i> | |
| 53. Teaching Research in the Laboratory Using Diagnosis Environment for Digital Systems..... | | 280 |
| | <i>Sergei Kostin, Raimund Ubar, Jaan Raik, Margit Aarna, Marina Brik, H.-D. Wuttke</i> | |
| 54. Software Tool for the Understanding of Parametric Oscillations..... | | 284 |
| | <i>Franco Ramirez, Almudena Suárez, Sergio Sancho</i> | |
| 55. EIE Education Restructuring Due to Social Changes..... | | 288 |
| | <i>Jaromír Hrad</i> | |
| 56. Virtual and Remote Laboratory of the Ball and Beam System..... | | 291 |

José Luis Díez, Marina Vallés, Ángel Valera

57. Results and Dissemination of the EIE-Surveyor Thematic Network.....297

*J.M. Thiriet, A. E. Ward, M. J. Martins, D. Deniz, D. Pasquet, M. Hoffmann, H. Fremont,
H. Yahoui, O. Bonnaud, M. Robert, J. Barsics, J.V. Benlloch-Dualde*
