

2009 IEEE Radiation Effects Data Workshop

(REDW 2009)

**Quebec, Canada
20 – 24 July 2009**

**IEEE Catalog Number: CFP09422-PRT
ISBN: 978-1-4244-5093-0**

2009 REDW Table of Contents

Guide to the 2008 IEEE Radiation Effects Data Workshop Record	1
D. M. Hiemstra, MDA Corporation	
Compendium of Total Ionizing Dose Radiation Test Results from Ball Aerospace & Technologies Corp.	6
J. M. Bird, R. Davies, K. Scott, J. Evans, M. Cabanas-Holmen, T. R. Morris, Ball Aerospace & Technologies Corp.	
Compendium of Single Event Effects Radiation Test Results from Ball Aerospace & Technologies Corp.	12
J. M. Bird, R. Davies, K. Scott, J. Evans, M. Cabanas-Holmen, T. R. Morris, Ball Aerospace & Technologies Corp.	
Single Event Effects Compendium of Candidate Spacecraft Electronics for NASA	15
M. V. O'Bryan, H. S. Kim, M. J. Campola, D. Chen, M. D. Berg, MEI Technologies Inc., c/o NASA/GSFC; K. A. LaBel, J. A. Pellish, R. L. Ladbury, J.-M. Lauenstein, A. B. Sanders, C. J. Marshall, M. A. Xapsos, NASA/GSFC; S. P. Buchner, Formerly with Perot Systems Government Services, Inc.; T. R. Oldham, Perot Systems Government Services, Inc.; P. W. Marshall, Consultant; K. Kruckmeyer, National Semiconductor; M. Leftwich, M. Leftwich, Space Photonics Inc.; J. M. Benedetto, Radiation Assured Devices	
Total Ionizing Dose and Displacement Damage Compendium of Candidate Spacecraft Electronics for NASA	25
D. J. Cochran, D. Chen, H. S. Kim, M. J. Campola, M. V. O'Bryan, MEI Technologies Inc. c/o NASA/GSFC; S. P. Buchner, Formerly with Perot Systems Inc.; K. A. LaBel, R. L. Ladbury, C. Marshall, A. B. Sanders, M. A. Xapsos, NASA/GSFC; T. R. Oldham, Perot Systems Inc. c/o NASA/GSFC	
Compendium of Recent Total Ionizing Dose Test Results Conducted by the Jet Propulsion Laboratory from 2003 through 2009	32
A. J. Kenna, B. G. Rax, D. O. Thorbourn, R. D. Harris, S. S. McClure, Jet Propulsion Laboratory, California Institute of Technology	
Radiation Test Results of Candidate Spacecraft Parts for the Applied Physics Laboratory	39
A. D. Tipton, C. H. Pham, R. H. Maurer, D. R. Roth, The Johns Hopkins University Applied Physics Laboratory	
TID and SEE Characterizations of New Radiation-Hardened Bipolar Operational Amplifiers	42
G. Chaumont, B. Cornanguer, P. Briand, C. Prugne, STMicroelectronics; F. Malou, Centre National d'Etudes Spatiales	
Low Dose Rate Test Results for National Semiconductor's ELDRS-Free LM136-2.5 Bipolar Reference	47
K. Kruckmeyer, L. McGee, B. Brown, L. Miller, National Semiconductor	
Low Dose Rate Testing on Commercial Low Dropout Voltage References	51
M. T. Alvarez, J. A. Domínguez, C. Hernando, C. P. Fernández, I. Arruego, INTA	

Low Dose Rate Test Results of National Semiconductor’s ELDRS-Free Bipolar Low Dropout (LDO) Regulator, LM2941 at Dose Rates of 1 and 10 Mrad(Si)/S	59
K. Kruckmeyer, L. McGee, T. Trinh, National Semiconductor; J. Benedetto, Radiation Assured Devices	
Single Event Transient (SET) Response of National Semiconductor’s ELDRS-Free LM139 Quad Comparator	65
K. Kruckmeyer, National Semiconductor; S. P. Buchner, Global Strategies Group (North America); S. DasGupta, Vanderbilt University	
Single Event Gate Rupture Testing on 90 nm Bulk CMOS Deep Trench Oxide Capacitors	71
R. K. Lawrence, J. A. Zimmerman, J. F. Ross, BAE Systems	
SEGR/SEB Test Results on Emerging Hi-Rel Power MOSFETs.....	76
L. E. Selva, L. Z. Scheick, Jet Propulsion Laboratory-CIT; N. Ikeda, Japan Aerospace Exploration Agency	
Sensitivity to LET and Test Conditions for SEE Testing of Power MOSFETs	82
L. Scheick, L. Selva, JPL-CIT	
Single Event Effects in MEMS Accelerometers	94
C. Oudea, EADS Astrium Space Transportation; P. Poirot, R. Gaillard, Infoduc; C. Poivey, ESA/ESTEC; L. Marchand	
Radiation Prescreening of SIOS Optical Link	99
C. Poivey, J. P. Armengol, R. H. Sorensen, A. Zadeh, ESA ESTEC; J. Blasco, O. Navasquillo, S. De La Rosa, DAS Photonics	
Heavy-Ion and Total Ionizing Dose (TID) Performance of a 1 Mbit Magnetoresistive Random Access Memory (MRAM)	103
R. R. Katti, J. Lintz, L. Sundstrom, Honeywell International, Inc.; T. Marques, S. Scoppettuolo, Charles Stark Draper Laboratory; D. Martin, NSWC-Crane	
Observations from the Analysis of On-Orbit Data from DRAMs Used in Space Systems	106
J. J. Schaefer, R. S. Owen, P. M. Rutt, C. Miller, SEAKR Engineering, Inc.	
TID and SEE Response of Advanced Samsung and Micron 4G NAND Flash Memories for the NASA MMS Mission	114
T. R. Oldham, Perot Systems/NASA GSFC; M. R. Friendlich, C. M. Seidleck, H. S. Kim, M. D. Berg, MEI; A. B. Sanders, NASA GSFC; K. A. LaBel	
Soft Error Sensitivities in 90 nm Bulk CMOS SRAMs	123
R. K. Lawrence, J. F. Ross, N. F. Haddad, D. R. Albrecht, BAE Systems; R. A. Reed, Vanderbilt University	
Synergistic Effects of Total Ionizing Dose on SEU Sensitive SRAMs	127
R. Koga, P. Yu, K. Crawford, J. George, M. Zakrzewski, Aerospace	

Single Event Upset Characterization of the TMS320C6713 Digital Signal Processor Using Proton Irradiation.....	133
D. M. Hiemstra, MDA Corporation	
A Radiation Data Set for the NGC W28C0108 SONOS 128kx8 EEPROM.....	136
D. A. Adams, M. D. Fitzpatrick, E. C. Folk, N. P. Goldstein, W. L. Hand, J. J. Horner, P. B. Shea, R. D. Lewis, J. T. Smith, P. L. Peyton, J. J. Sheehy, J. A. Dame, G. L. Grant, C. N. Elliot, G. Wang, M. H. White, Northrop Grumman Corporation	
Single Event Effects Tests on the Actel RTAX2000S FPGA.....	140
J. S. George, R. Koga, M. Zakrzewski, The Aerospace Corporation	
LEON 3FT Processor Radiation Effects Data.....	148
C. Hafer, S. Griffith, J. Nagy, F. Sievert, Aeroflex Colorado Springs; S. Guertin, NASA JPL/Caltech; J. Gaisler, S. Habinc, Aeroflex Gaisler	
Two Post-Irradiation Temperature Techniques for Total Ionizing Dose.....	152
M. J. Campola, D. Chen, MEI Technologies, Inc.; K. A. LaBel, NASA-GSFC	
Development of a Large Area Neutron Beam for System Testing at TRIUMF.....	157
E. W. Blackmore, TRIUMF	
A Simplified Vacuumless Faraday Cup for the Experimental Beamline at the Francis H. Burr Proton Therapy Center.....	161
E. W. Cascio, Massachusetts General Hospital; B. Gottschalk, Harvard University	
Characterization of the ANITA Neutron Source for Accelerated SEE Testing at the Svedberg Laboratory.....	166
A. V. Prokofiev, Uppsala University; J. Blomgren, Vattenfall; M. Majerle, Nuclear Physics Institute; R. Nolte, S. Röttger, Physikalisch-Technische Bundesanstalt; S. P. Platt, X. X. Cai, University of Central Lancashire; A. N. Smirnov, V. G. Khlopin Radium Institute
