

**2009 7th IEEE European  
Conference on Web Services  
(ECOWS 2009)**

**Eindhoven, Netherlands  
9-11 November 2009**

**IEEE Catalog Number: CFP09ECW-PRT  
ISBN: 978-1-4244-5211-8**

# 2009 Seventh IEEE European Conference on Web Services

## ECOWS 2009

### Table of Contents

#### Preface

---

#### Invited Talk

Resource Space Management Systems .....	3
<i>Marcos Baez and Fabio Casati</i>	

#### Service Discovery and Evaluation

Service-Based Semantic Search in P2P Systems .....	7
<i>Devis Bianchini, Valeria De Antonellis, and Michele Melchiori</i>	
Relevance Judgments for Web Services Retrieval - A Methodology and Test Collection for SWS Discovery Evaluation .....	17
<i>Ulrich Küster and Birgitta König-Ries</i>	
Advanced Non-functional Property Evaluation of Web Services .....	27
<i>Pei Li, Marco Comerio, Andrea Maurino, and Flavio De Paoli</i>	

#### Service Composition

An Evolutionary Algorithm for Automatic Composition of Information-gathering Web Services in Mashups .....	39
<i>Thomas Fischer, Fedor Bakalov, Birgitta König-Ries, Andreas Nauertz, and Martin Welsch</i>	
A Framework for Automated Creation and Deployment of Consolidated Charging Schemes for Service Compositions .....	49
<i>Lei Xu and Brendan Jennings</i>	
Semantic Web Services Discovery and Composition: Paths Along Workflows .....	58
<i>Cássio Vinicius Serafim Prazeres, Cesar Augusto Camillo Teixeira, and Maria da Graça Campos Pimentel</i>	
A Framework for the Evaluation of Semantics-Based Service Composition Approaches .....	66
<i>Eduardo Silva, Luís Ferreira Pires, and Marten van Sinderen</i>	
Negotiating Robustness in Semantic Web Service Composition .....	75
<i>Freddy Lécué, Usman Wajid, and Nikolay Mehandjiev</i>	

## Service Verification and Testing

On More Predictable Implementations of Reliable Workflows in Service-oriented Architectures .....	87
<i>Andreas Both and Wolf Zimmermann</i>	
GAmEra: An Automatic Mutant Generation System for WS-BPEL Compositions .....	97
<i>Juan José Domínguez-Jiménez, Antonia Estero-Botaro, Antonio García-Domínguez, and Inmaculada Medina-Bulo</i>	

## Service Validation and Simulation

A System Dynamics Approach to Web Service Capacity Management .....	109
<i>Elena Orta, Mercedes Ruiz, and Miguel Toro</i>	
Message Correlation in Web Services Choreographies: A 4-phase Validation Method .....	118
<i>Gregory Van Seghbroeck, Bruno Volckaert, Filip De Turck, and Bart Dhoedt</i>	

## Service Monitoring

A Model-Based Approach to Fault Diagnosis in Service Oriented Architectures .....	129
<i>Mohammed Alodib and Behzad Bordbar</i>	
Run-time Verification of Behavioural Conformance for Conversational Web Services .....	139
<i>Dimitris Dranidis, Ervin Ramollari, and Dimitrios Kourtesis</i>	
Specifying and Monitoring Temporal Properties in Web Services Compositions .....	148
<i>Slim Kallel, Anis Charfi, Tom Dinkelaker, Mira Mezini, and Mohamed Jmaiel</i>	

## Service Adaptation and Cooperation

A Model and Algorithm for Self-Adaptation in Service-oriented Systems .....	161
<i>Christoph Dorn, Daniel Schall, and Schahram Dustdar</i>	
Indirect Reciprocity in Policy-Based Helping Experiments .....	171
<i>Christian von der Weth, Klemens Böhm, Thorben Burghardt, Christian Hütter, and Jing Zhi Yue</i>	

## Service Infrastructure

Session-Based SOAP Transmission and Processing .....	183
<i>Nils Gruschka and Luigi Lo Iacono</i>	
Remote Batch Invocation for Web Services: Document-Oriented Web Services with Object-Oriented Interfaces .....	190
<i>Ali Ibrahim, Marc Fisher II, William R. Cook, and Eli Tilevich</i>	
An Analysis of Windows Workflow's Control-Flow Expressiveness .....	200
<i>Marco Zapletal, Wil M.P. van der Aalst, Nick Russell, Philipp Liegl, and Hannes Werthner</i>	

## Author Index
