2009 Mediterranean Microwave Symposium

(MMS 2009)

Tangiers, Morocco
15 – 17 November 2009

IEEE Catalog Number: CFP0946H-PRT
ISBN: 978-1-4244-4664-3

TABLE OF CONTENTS

Design and Optimization of a Two-Way Gysel Power Divider with Arbitrary Power Division and Impedance Matching 1
H. Oraizi, A. R. Sharifi

The Scattering the TEM Mode at the Junction of Perfectly Conducting and Dielectric Loaded Grooved Coaxial Waveguides 5
F. Hacivelioglu, A. Buyukaksoy, G. Uzgoren, H. Serbest

All-Optical Microwave Receiver 9
Y. Li, P. Herczfeld

Electromagnetic Scattering from Conical Horn Analysis Using Wavelet-Based Moment Method 12
M. Lashab, F. Benabdelaziz, C. Zebiri

A Novel CMOS All-Pass Tunable Phase Shifter for Phased Array Systems 16
A. Mohammadi, A. Ayatollahi, A. Abrishamifar

Design and Characterization of Microwave Fiber-Optic Links 20
S. Iezekiel

Performance Improvements for Optical Links Applying Semiconductor Optical Amplifiers 24
E. Udvary, T. Berceli

Design of a Broadband ESPAR Antenna 28
B. Alshami, H. Aboulnour, M. Dib

Comparing Accuracy for ML, MUSIC, ROOT-MUSIC and Spatially Smoothed Algorithms for 2 Users 33
M. Jalali, M. N. Moghaddasi, A. Habibzadeh

Two-Dimensional Forward-Backward Time-Stepping Approach for Tumor Detection in Dispersive Breast Tissues 38
K. A. H. Ping, T. Moriyama, T. Takenaka, T. Tanaka

Improving Ambiguity Function of Costas Signal 42
K. Kasas, H. Aboulnour, O. Kawas

Compact Internal Antenna for Multi Standard Operations in the Mobile Phone 47
M. B. Ahmed, F. Ouaai, M. Bouhorma, A. Mamouni

Investigation of Residual Stress Effects and Modeling of Spring Constant for RF MEMS Switches 54
H. U. Rahman, K. Y. Chan, R. Ramer

Slow Light for Microwave Photonics Applications 58
A. Blanco, E. Areizaga, J. A. Zubia

Novel Microwave Planar Bandpass Filter Structures with Strongly Asymmetric Characteristics 63
G. Lojewski, N. Militaru, M. G. Banciu

Improvement in the Stopband of a Microwave Lowpass Filter Utilizing Resonance Structures 67
M. Shobeyri, M. Jalilvand, M. H. V. Samiei

A Novel Model for Complex Permittivity of Glass for Propagation Modeling in Millimeter-Wave Band 71
F. Arvani, A. A. Shishegar

An 18Ghz LNA Ga FET High Gain Amplifier for WLAN 75
A. Habibzadeh, M. N. Moghaddasi, M. Jalali

Optical Single Side Band Modulator based on Dual Arm MZM and Applications 78
M. A. Violas, R. de Sousa

Surface Plasmon Polariton Propagation in Metallic Channels Analized by Spatio-Temporal FEM Model (ST-FEM) 81
L. L. Bravo-Roger, M. S. Goncalves, M. de Freitas, F. J. Arnold, H. E. Herrnandez-Figueroa

Simulation and Analysis of Performance of Indoor Meshed ZigBee Networks 85
V. Torres, F. Esparza, A. Lopez, F. Falcone

Design of a Novel Circularly Polarized Microstrip Patch Antenna Using EBG Structure 89
A. R. Eskandari, M. N. Moghaddasi, M. A. Honarvar

Analysis and Synthesis of a K-Band Microstrip Patch Antenna Array 93
M. Challal, A. Azrar, M. Dehmas, A. Recioui

Radio over Fiber Systems: Towards Low-Cost Multi-Standard and High Data Rate Wireless Applications 97
J. P. Vilcot, C. Lethien, C. Loyez, C. Sion

Laser Diodes for Microwave and Millimeter Wave Photonics 100
F. van Dijk, A. Enard, G. H. Duan, A. Accard, F. Lelarge, A. Shen, O. Parillaud, A. Akrout, G. De Valicourt, S. Ginestar, A. Ramdane

Carrier Leakage Calibration in DCT 103
S. Tedjini, S. Gaoua, R. Touhami, M. C. E. Yagoub, A. Bellaouar

Grid Computing to Improve Performance and Management of Distributed Electromagnetic Applications 107
I. J. F. Freitas, C. H. Silva-Santos, M. G. F. Hernandez, H. E. Hernandez Figueroa

High Frequency Characterization of Multilayered Anisotropic Planar Circuits with Several Metallized Interfaces 111
C. Boularak, A. Khodja, R. Touhami, M. C. E. Yagoub

Vectorial Gaussian Beam Tracing Method for Millimeter Wave Propagation Modelling in a Large Scale Media 115
S. M. AlaviRad, A. Naqavi, M. Shabani, A. A. Shishegar

Modified Simplex Method Applied to Narrow Bandwidth Ridged Waveguide Filter Optimation 119
M. Yahia, J. W. Tao, H. Benzina, M. N. Abdelkrim

Micromachined Millimeter-Wave Butler Matrix with a Patch Antenna Array 123
N. A. Murad, M. J. Lancaster, Y. Wang, M. L. Ke

FDTD Study of Surface Plasmons and Perfect Tunneling of Power in Parallel-Plate Waveguides 127
O. Gonzalez, A. Grande, J. A. Pereda, A. Vegas

Efficient Parallel Computational Enviroment to Perform Electromagnetics Simluations 130
C. H. Silva-Santos, M. A. M. Miranda, H. E. Hernandez-Figueroa

Can MAC Waiting Time Improve TCP Performance over Ad-hoc Networks? 134
A. Blaise, A. Berqia

Some Considerations on Lattice Network-Based Lossless Balanced Composite Right/Left-Handed Transmission Lines 139
J. Esteban, J. E. Page, C. Camacho-Penalosa, T. M. Martin-Guerrero

Recent Development of Ultra-Wideband (UWB) Bandpass Filters Using Distributed Stud Transmission Line Structures 143
H. N. Shaman, J. S. Hong

A Novel Metamaterial SRR for Waveguide Antenna 147
M. Jalali, T. Sedghi, M. Shokri

Effects of Metal Plate to RFID Tag Antenna Parameters 151
N. Ghannay, M. B. B. Salah, F. Romdhani, A. Samet

Extraordinary Transmission Surfaces as Superstrate 154
M. Beruete, M. Navarro-Cia, F. Falcone, M. Sorolla, I. Campillo, J. E. Rodriguez-Seco, E. Perea, I. J. Nunez-Manrique

5-GHz Low Phase Noise CMOS LC-VCO with PGS Inductor Suitable for Ultra-Low Power Applications 158
A. El Oualkadi

Efficient Application of the Discrete Complex Images Method in the Analysis of Planar Guiding Structures 162
M. B. B. Salah, N. Ghannay, F. Romdhani, A. Samet

Resonant Frequency of a Microstrip Antenna on a Uniaxial Electric Superstate 167
C. Zebiri, F. Benadealziz, M. Lashab

Implementation of Effective Negative & Transmission Line in Stripline Technology 170
J. Illescas, E. Jarauta, A. Estevez, A. Marcotegui, F. Falcone

mm-Wave CMOS Mixer Design in 65nm Technology for 60 GHz Wireless Communications 173
A. El Oualkadi, K. Faitah, A. A. Ouahman

System Level Designing of FSO Link Through LED and NRZ Modulation Scheme by Using Different Filters 177
N. Ahmed, M. I. Anis

Design and Performance Analysis of OCDMA Systems using Different Filters 181
M. I. Anis, N. Ahmed

3D Time-Domain Electromagnetic/Transport Macroscopic Numerical Physical Modelling: Application to Mm-wave GaAs Photoswitch 185
A. El Moussati, C. Dalle

A Printed Reconfigurable Antenna for Communication System 189
F. Romdhani, M. Denden, A. Samet

Development of a Time-Domain Physical Electromagnetic Simulator for Microwaves Circuits 192
A. El Moussati, C. Dalle

Design Methodology for Designing Second Order Microstrip Dual-Mode Filters 196
A. A. Rabeea, F. Barlow, A. Elshabini
Multi-Stage PIC Receiver with Decision Thresholds over Rayleigh Fading Channel 201
M. Moussaoui, M. Zaizouni, J. M. Rouvaen
Electromagnetic Imaging Using Closed-form Radiating and Non-radiating Currents 206
G. L. Gragnani
Planar Horn Antenna: Application of Periodic Stacked Subwavelength Hole Array with Metamaterials Properties 212
M. A. A. Abessolo, M. Aznabet, A. Alilouch, O. Mrabet, M. Essaaidi, M. Beruete, M. Navarro-Cia, F. Falcone, M. Sorolla, N. Aknin, M. El Moussaoui
A Machine Learning Algorithm for GPR Sub-Surface Prospection 215
S. Caorsi, M. Stasolla
The Design of A Compact Sharp Microstrip X-band 220
O. Harfoush, K. Yazbek
Diplexer Design for Switched Frequency Diversity Applications in Wireless Communications Systems 225
O. Harfoush, K. Yazbek, A. Alkhoder
Improving Quality of Service (QoS) in Multi-Protocol Label Switching Module 228
A. Jamali, N. Naja, D. El Ouadghiri, R. Benaini
Dual-Band Rectangular Dielectric Resonator Antenna for ISM and 4 GHz Bands Applications 232
A. Jaoujal, N. Aknin, A. El Moussaoui
Microwave Imaging of Artificially Induced Magnetic Anomalies: A Feasibility Study 235
I. Catapano, L. De Donato, F. Soldovieri, L. Crocco
Estimation of the Permittivity of Dielectrics from the Scattering Responses of TEM Waveguides 240
I. A. Maio, P. Savi, F. Marino
Integrated Full-Waveform Analysis of Ground Penetrating Radar and Electromagnetic Induction Data for Non-Invasive Reconstruction of Multilayered Media 246
F. Andre, D. Moghadas, C. Patriarca, E. Slob, H. Vereecken, S. Lambot
On the Ranging Performance in an Underground Mine Using an Ultra-Wideband Fast Acquisition System 251
Y. Salih-Alj, C. Despins, S. Affes
New Approach: WCIP and FDTLM Hybridization 257
A. Zugari, M. Khalladi, M. I. Yaich, N. Raveu, H. Baudrand
A Compact T-Shaped Antenna For Dual-Band WLAN Communications 261
M. Harmouzi, M. B. Ahmed, M. Essaaidi, M. Bouhorma
Turbo Packet Combining for Broadband MIMO Relay Communication 264
T. Ait-Idir, H. Chafnaji, H. Yanikomeroglu, S. Saoudi
Study and Proposal of a Mapping between the Classes of 3G Services and DiffServ Model for IP/MPLS Transport Network 268
M. Jaifar, M. Moussaoui
Cell Cacpacity Improvement by Using a Resources Liberation Mechanism in Uplink Direction 273
F. T. Alami, N. Aknin, A. El Moussaoui
Location-based Services Provisioning Using WSN 276
H. Harroud, A. Berrado, M. Boulmalf, A. Karmouch
A Flat Gain Low Noise Amplifier for 1.8 to 4 GHz Wide Band Wireless Receivers 281
M. Meloui, I. Akhchaf, H. Setti, M. Charif, M. Essaaidi
Wave Propagation Properties in Stacked SRR/CSRR Metasurfaces at Microwave Frequencies 284
M. Aznabet, O. El Mrabet, M. Navarro, M. Beruete, F. Falcone, M. Essaaidi, M. Sorolla
Circularly Polarized Microstrip Patch Antenna Gain Improvement Using New Left-Handed Metamaterial Structure 288
I. B. Issa, R. Rian, M. Essaaidi
Perturbation Method Based On Resonant Type Metamaterial Transmission Lines For Dual-Band Matching Networks 291
F. Paredes, G. Zamora, J. Bonache
On the Ranging Performance in an Underground Mine Using Ultra-Wideband Fast Acquisition System 295
Y. S. Alj, C. Despins, S. Affes
Detection and Dissipation of Road Traffic Congestion Using Vehicular Communication 301
A. Lakas, M. Cheqfah
The Scalability of The Hybrid Protocol in Wireless Mesh Network 802.11s 307
B. Nassereddine, A. Maach, S. Bennani
A Flat Gain Low Noise Amplifier For 1.8 to 4GHz Wide Band Wireless Receivers 314
M. Meloui, I. Akhchaf, H. Setti, M. Charif, M. Essaaidi

Optimizing the Communication Paths in Optimal Wireless Sensor Network Deployment 317
A. Tahiri, E. Egea-Lopez, J. Vales-Alonso, J. Garcia-Haro, M. Essaaidi
Services Provisioning in Ubiquitous Mobile Wireless Environments 322
H. Harroud, A. Berrado, M. Boulmalf, A. Karmouch
A Compact Rectangular UWB Dielectric Resonator Antenna 327
M. Aoutoul, M. Essaaidi, O. El-mrabet, A. El Moussaoui
Simulation and Analysis of Performance of LTE in Indoor Environments 332
V. Torres, F. Esparza, F. Falcone
Quality of Service in MAQAME Architecture 337
R. Zoubairi, Z. Jarir, M. Erradi
Fast Convergence Mechanisms and Features Deployment Within Operator Backbone Infrastructures 341
A. Ala, M. Essaaidi, D. El Ouadghiri
ANFIS Method for Forecasting Internet Traffic Time Series 346
S. Chabaa, A. Zeroual, J. Antari
A Novel Compact Multiband Planar Antenna for Wireless and Mobile Handsets 350
N. Ghouddane, M. Essaaidi
Author Index
