

2006 9th International Conference on Electromagnetic Interference and Compatibility

(INCEMIC 2006)

**Bangalore, Karnataka, India
23-24 February 2006**

**IEEE Catalog Number: CFP06454-PRT
ISBN: 978-1-4244-5203-3**

TECHNICAL CONTENTS

Session	EMC by Design	Page No.
1.	Thermosetting Polymer Composites for EMI Shielding Applications S Sankaran* , S Dasgupta, K Ravi Sekhar and MN Jagdish Kumar ADE, Bangalore	1
2.	Spectrum Management and EMC Design Techniques of Electronics System Dr KK Jha, Defence Electronics application Laboratory, Dehradun	7
3.	An Aperture Attenuation Modeling Program to Determine Shielding Effectiveness of Printed Circuit Board Shields and other enclosures Michael J. Oliver, MAJR Products Corporation	11
4.	Reduction of Ground Bounce Noise in High Speed Printed Circuit Board LN Charyulu, B Subbarao and R Sivaramakrishnan, SAMEER, Chennai	15
5.	PCB Layout Design for EMI/EMC Compliance Prakash Chand, BN Gangopadhyay and Meenakshi Kumar, DEAL, Dehradun	19
6.	Design and evaluation of controlled impedance PCBs for high frequency applications MP James, N Achutananda, K Nageswara Rao and TS Nanjundaswamy Systems Reliability Group, ISRO Satellite Centre, Banaglore	25
7.	The Use of Modelling in EMC Design Paul Duxbury, Flomerics Ltd., Hampton Court, UK	32
8.	Post Design EMI Encounters and Remedies in Indigenously Developed Systems K Rajeshwar Rao, VV Ramasarma and K Suryanarayana, RCI, Hyderabad	37

Session	EMC in Communication Systems	Page No.
1.	Interference to Launch Vehicle Telecommand System from Hamsat Uplink – A Case Study Thomas Chacko and NK Agarwal, Avionics Entity, VSSC, Trivandrum	43
2.	NASCAP/GEO charging analysis of INSAT-4B SK Nagesh, MN Rao, SVK Shastry, NDGhatpande and TL Danabalan ISRO Satellite Centre, Bangalore	48
3.	EMI Prediction and Analysis for Experimental Payloads of Advanced Communication Technology Satellite - GSAT-4 Jeyanthi Rajesh, SVK Shastry, MR Thyagaraj, MN Rao, ND Ghatpande and TL Danabalan, EID/SIG/ISRO Satellite centre, Bangalore	53

4.	Assembly, Integration and Testing of CARTOSAT-1	60
	VK Hariharan, N Shanmuga Sundaram, KS Dayashankara, V Lakshminarayana, Anurag Kumar Shrivastava, Anju Damodaran, LN Gupta, PP Ganeshan M Velayudhan, B Venkata Rao, ND Ghatpande and TL Danabalan, Systems Integration Group, ISRO Satellite Centre, Bangalore	
5.	Performance Analysis of Spread Spectrum based Communication Systems in Interference prone Environment	67
	K Mourougayane and S Karunakaran, SAMEER, Chennai, S Shanmugavel, Anna University, Chennai	
6.	EM compliance of Narrow band input MUX filters by using EMI screened components	71
	PC Mehta , NV Shah and HS Raina, Space Applications Centre, Ahmedabad	
7.	On-orbit Data from Surface Charge Monitor Payload of GSAT-2 Spacecraft	75
	Shastri, SVK., Mishra, BN, Pramod, VB, and Renuka, R, ISRO, Bangalore	
8.	Assessment and Control of Electromagnetic Interference in CARTOSAT-1 Spacecraft	81
	V Lakshminarayana, VK Hariharan, KS Dayashankara, AK Shrivastava, ND Ghatpande and TL Danabalan, ISRO, Bangalore	
9.	Digital Beamforming Technique in MC- CDMA for Interference Suppression	86
	Dr.V Prithiviraj and L Gayathri Devi, Pondicherry Engineering College	

Session	EMC Management	Page No.
---------	-----------------------	----------

1.	Proposed Methodology of EMC Teaching through Distance Education	93
	Tarun Kumar Dey, Co-ordinator, Kancharapara Study Centre, IGNOU, West Bengal	
2.	HF propagation study for theater-wide operation	98
	Dr KK Jha, DEAL, Dehradun	
3.	EMI/EMC for Military Aircraft and its challenges	101
	AK Shukla and S Nirmala, RCMA (Aircraft), CEMILAC, Bangalore	

Session	Signal Integrity	Page No.
---------	-------------------------	----------

1.	Modeling and Optimization of On-chip High Speed Interconnects	109
	B Krishna kumar and P Rajeswari , Kamaraj College of Engg. and Tech., Virudhunagar Prof. N Suresh Kumar, Mepco Schlenk Engg. College, Sivakasi	

	Page No.
2. Software for Analysing the results of a random Epidemiological survey related to Electromagnetic Radiational Hazards Sourav Mahapatra, FIEM, Kolkata. Tarun Kumar Dey, IGNOU, West Bengal	115
3. Hybrid Modeling and Optimization of VLSI Interconnects for Signal Integrity Using Neuro-Genetic Algorithm N. Suresh Kumar and G.Venkata Subramanian, Mepco Schlenk Engg.College, Sivakasi. S Raju and V Abhai Kumar, Thiagarajar College of Engg., Madurai.	120
4. Signal Integrity Analysis of Modified Interconnects Using Graded FDTD Method N Suresh Kumar and K Venkataramani, Mepco Schlenk Engg.College, Sivakasi S Raju and V Abhai Kumar, Thiagarajar College of Engg, Madurai	127
5. Design of wire mesh shield-an analytical approach and testing of its performance Soumya Biswas, Piyali Rakshit and Dr.TK Dey, IGNOU, Kanchrapara West Bengal	132
6. Study Of The Correlation Between the Simulated and the Measured Results for Signal Integrity Parameters Surjendra Goswami, LRDE, Bangalore	138

Session	Automotive EMC	Page No.
1.	Use of Expert System for EMI Measurements Programme and EMC Certification tasks of Combat Vehicles S Sathyamurthy, CVRDE, Chennai.	143
2.	Blue tooth Intercommunication system [BTICS] for Combat Vehicle Application S Sathyamurthy, K Arunmozhi and M Karthik, CVRDE, Chennai. Sumita Chandran, PG Student, ECE Dept. Sastra Deemed Uty., Thanjavur	148
3.	Automotive 600V/m Radar Pulse Test Solution ar Worldwide, rf/Microwave Instrumentation	151
4.	Comparison of “Thresholding in Reverb Chambers” for Automotive Testing Garth D’Abreu, ETS-Lindgren, Cedar Park, Texas, USA.	155

Session	EMI Case Studies	Page No.
1.	Intersystem EMI problems due to a C-band Transmitter – A case study G Mahesh and S Karunakaran, SAMEER, Chennai. VB Ukey and AP Bhagwat , SAMEER, Mumbai	161

	Page No.
2. A Case History of EMI problems of a Fire detection and Extinguisher System (FDES) S Sathyamurthy, CVRDE, Chennai	167
3. Analysis and Experimentation with Passive Cancellation of Common-Mode Noise in Buck Converter K Seshu Babu, Satish Dhawan Space Centre, SHAR, Sriharikota. Mangesh Borage, Sunil Tiwari and Swarna Kotaiah , Centre for Advanced Tech., Indore. Rakesh Saxena, Institute of Technology and Science, Indore	172
4. Convergence and Divergence between MILS and COTS Standards “COMMERCIAL OFF THE SHELF (COTS) EQUIPMENT” – AN EMC Perspective Lt Cdr Pawan Dhingra and Lt Sunil Nara, Naval EMC Centre, Mumbai	181
5. Emission Analysis & Compliance Practices of SMPS Sulekh Chand and A.Sathyanarayanan, ERTL (Noth), New Delhi	189
6. Emission Analysis & Solution of Control Panel of Elevator: A Case Study Sulekh Chand and A.Sathyanarayanan, ERTL (Noth), New Delhi	195
7. EMI/EMC case study for satcom terminal and remedial measures Virendra Kumar, DEAL, Dehradun	197
8. EMI Controlling in a Rugged Launch Computer K Rajeshwar Rao, Sandeep M Satav and VV Ramasarma, RCI, Hyderabad	200
9. EMI Hardening of Launcher Interface Unit - A Case Study J.Rajeshwar Rao, VV Ramasarma and K. Suryanarayana, RCI, Hyderabad	206
10. EMI Hardening of “FLEXI NOZZLE CONTROL SYSTEM” - A Case Study K Rajeshwar Rao, Sandeep M Satav and K Suryanarayana, RCI, Hyderabad	210
11. EMI Hardening of Signal Conditioner Packages – A Post design Case Study K Rajeshwar Rao, R Rajyalakshmi and K Suryanarayana, RCI, Hyderabad	216
12. EMI Hardening of GPS Clock – A Case Study K Rajeshwar Rao, D Ramesh and K Suryanarayana, RCI, Hyderabad	221
13. Practical Solutions to Radiated Susceptibility Problems (A Case History) Mr. Vijay Damle, Digitronics, Pune. Dr. DC Pande, LRDE, Bangalore	226
14. Hardening of BFSR to meet Military Standards Shiva S Rai, Ramesh Ilkal, T Shankar Raman and VM Sasidharan, LRDE, Bangalore	228

Session	EMC Standards and Regulations	Page No.
1.	Strategic Approach to EMC Test Laboratory Accreditation in Compliance with ISO/IEC 17025 Standard Deepak Kumar, SAMEER, Chennai	233

	Page No.
2. Directive 2004/104/EC vs 95/54/EC Dipl.-Ing.(FH) Dieter Fröhlich, Emitel AG	237
3. Developments in the field of avionics testing equipment Nicholas Wright and Martin Lutz, EMC Partner AG	242

Session	EMC in Power Systems	Page No.
1.	Detuned Filters for Controlled HVDC Power Supplies Manmath Kumar Badapanda, Pundalik R.Hannurkar and Swarna Kotaiah, Centre for Advanced Technology, Indore	251
2.	Design Techniques and Methodologies for effective Electromagnetic Cleanliness in Spacecraft Power System YL Madhusudan, HR Nagendra and TS Nanjundaswamy, ISRO, Bangalore	258
3.	Synthesis and characterization of a Manganite used in Lithium Batteries Dr. SV Salvi, Birla College, Mumbai. Veena H Joshi, Bhavan's Hazarimal Somani college, Mumbai. Pushpinder Bhatia, Gurunanak Khalsa College, Mumbai Dr. MM Khandpekar, Birla College, Mumbai	270
4.	Emission control in UPS system - A Systematic approach to achieve EMI Compliance R Yegneswari, R Ganesan and R Sivaramakrishnan, SAMEER, Chennai	274
5.	Coupling of High Voltage AC Power Line Fields to Metallic Pipelines Abhishek Gupta and M Joy Thomas, IISc, Bangalore	278
6.	Solution to Control Radiated Emissions from SMPS – A Case Study Vijay Damle, Digitronics, Pune. Dr.DC Pande, LRDE, Bangalore	284

Session	EMC Test and Measurement Techniques	Page No.
1.	Conducted Susceptibility to Audio Frequencies-Test methods for Military and Aerospace Equipment MIL 461E, DO-160E Mark Rietz, Technical Informatics, EM TEST AG, Switzerland Siegfried Klezar, The Federal Institute of Technology of Switzerland	287
2.	Electro-Magnetic Compatibility for Electro-Optic Sensors LV Prasad and CA Kumar, ISRO, Bangalore	291
3.	Experimental Analysis of Conducted Electromagnetic Interference Measurement Variations KN Sakthivel, SAMEER-Kolkata Centre	297

	Page No.
4. EMC Testing on Airborne Equipment Wg.Cdr. Dharmvir Singh, CEMILAC, Bangalore	301
5. State-of-the-art 10m EMI/EMC chamber at SAMEER, Chennai Vincent KEYSER, Technical International Sales Manager, SIEPEL, France	307
6. Measurement of Uncertainty in Electrical Fast Transient Test G Vincentraj, G Mahesh and R Sivaramakrishnan, SAMEER, Chennai	312
7. Automation of Intersystem Electromagnetic Susceptibility Testing on Fighter Aircrafts T Parthasarathy, Aravind M Kamath, Ashwin S Rao and Amit S Tadmok, ADE, Bangalore	317
8. Application of GTEM Cell in Calibration of Electric Field Monitoring System KR Suresh, Sandhya Shah, B Sunitha, BR Nalini, BEL, Bangalore	321
9. A Low Cost Emission Measurement System for VDUs as per MPR II Sandeep M. Satav and Vivek Agarwal, IIT, Mumbai	325
10. Estimation of Radiated Emission from Electrical Fast Transient Simulator LN Charyulu, B Subbarao, J Thomas Vethamoni and R Sivaramakrishnan, SAMEER, Chennai	332
11. Analysis of Repeatability in Conducted Emission Measurements L Sathesh Kumar, R Yegneswari, B Subbarao and R Sivaramakrishnan, SAMEER, Chennai.	337
12. Design of Low cost Common and Differential Mode Noise Diagnostic Circuit AA Ramesh, B Subbarao and R Sivaramakrishnan, SAMEER, Chennai	343
13. Automation of EMC Tests - Software development and System integration approach K Mourougayane, S Karunakaran, P Satheesan and PK Sivakumar, SAMEER, Chennai	349

Session	Transient Phenomena	Page No.
1.	Study of the Induced Voltage on an Overhead Line due to Lightning Discharge Arun Gayen, Anirban Dhar and BN Das, IIT, Kharagpur DR Poddar, Jadavpur University, Kolkata	353
2.	A Simplified approach to understanding of the phenomenon of cloud to ground lightning and modeling of return stroke current Arun Gayen, Anirban Dhar and BN Das, IIT, Kharagpur DR Poddar, Jadavpur University, Kolkata	358

3.	Estimation of Lightning Induced Electromagnetic Fields Satyajit Chakrabarti and Dipankar Dan, SAMEER, Kolkata	363
4.	Hardening of I/O Ports to the EMP Susceptibility requirements of Mil Std 461E Oren Hartal, EMC Consultant, 20 Zipornim Street, Kiryat Tiv'on, Israel	366
5.	Propagation of Lightning Electromagnetic Pulse (LEMP) through Ionosphere Anirban Dhar and BN Das, IIT, Karagpur	370
6.	Protection Against Secondary ESD Effects U Venugopal, MC Narasimhulu and K Satyanarayana, ISRO, Bangalore	374
7.	The Continuing Challenge of Spacecraft ESD VK Hariharan, MN Rao, SVK Shastry, ND Ghatpande, TL Danabalan and VR Katti, ISRO, Bangalore Prof. Ajay Chakrabarty, IIT, Kharagpur	382
8.	EMP Generation Mechanism and its Destructive Effect on C3I Network Dr. KK Jha, DEAL, Dehradun	389
9.	Transient Electric Field Distribution within the Working Volume of an NEMP Simulator M Joy Thomas and K Sunitha, IISc, Bangalore	396
10.	Lightning Induced Voltage on a Rocket and its Exhaust Plume SK Nayak and M Joy Thomas, IISc, Bangalore	402
11.	The phenomenon of Notch in an NEMP Simulator and its Reduction M Joy Thomas and K Sunitha, IISc, Bangalore	410
12.	EMI Issues in UWB Systems B Sreedevi, DERL, Hyderabad	417
13.	Application of Ni substituted Li-Zn-Mn Ferrite for the suppression of transients NC Joshi., A Satyanarayanan and Sulekh.Chand, Electronics Regional Test laboratory (North), New Delhi Anjali Verma, IIT, New Delhi. Nitendar Kumar, SSPL, New Delhi SS Islam, Department of Applied Sciences & Humanities, New Delhi	426
14.	Design and Developement of a Pulsed Power System for a Vircator Based HPM Source D Senthil Kumar and M Joy Thomas, IISc, Bangalore	433

Session	Biological Effects	Page No.
1.	Effect of EMI on human nervous system: An analytical study Sumanta Mukherjee and TK Dey, Kanchrapara Study Center, IGNOU, West Bengal	439
2.	Childhood Leukemia and CNS Sanctuary Therapy Dr. Ram L Yadava, Assistant Professor, Vellore Institute of Technology, Vellore	443
3.	Biological Hazards – An Overview Dr.SR Ramaswamy, College of Engineering & Technology, Hyderabad VS Tanwar, Cogent EMR Solutions Pvt.Ltd., New Delhi	445
4.	Exposure Limits for Non-Ionizing Radiation Dhiraj Kumar Singh, LRDE, Bangalore.	447
5.	“ELECTRO MAGNETIC RADIATION: Legislative and Judicial Intent” Sushil K Tekriwal and Mihir Choudhary, Advocates, Supreme Court Of India	451
6.	Living Dangerously in Indian Cities: an RF Radiation Pollution Perspective VS Tanwar, Cogent EMR Solutions, New Delhi	458

Session	EM And Antennas	Page No.
1.	A Revisit of the Reference Antenna Gain Measurement Method Dr.Krishnasamy T Selvan , School of Electrical and Electronic Engineering, University of Nottingham, Malaysia Campus	467
2.	RF Interference Suppression in transmitting stations Iftexhar Alam, Institute of Armament Technology ,Girinagar AA Ghatol , Dr.Babasaheb Ambedkar University ,Lonere	471
3.	Neural Network Approach to Diagnose Phase Shifter Faults in Antenna Arrays D Vakula, Kakatiya Institute of Technology & Science, Warangal Dr. NVSN Sarma, National Institute of Technology, Warangal	475
4.	EMI Analysis of Multiple Diaphragms in Rectangular Wave-guide for switching applications Amitabha Bhattacharya, Indian School of Mines, Dhanbad	479
5.	Antenna for Transient Pulse Monitor Subsystem PK Mishra, MN Rao, SVK Shastry and ND Ghatpande, ISRO, Bangalore	482
6.	STUB Loaded Microstrip Reflect Array N Lenin and Dr. P Hanumantha Rao, SAMEER, Chennai	486
7.	Estimation of EMI from wave-guide joints and Analysis of thick rectangular Wave-guide as EMI Sensors Sushrut Das, Ajay Chakrabarthy and Ashmi Chakraborty, IIT Kharagpur	490

8.	Analysis of Corrugated Wave-guides by Coupled Integral Equation Technique and other Numerical Techniques	497
	V Latha Christie & Lalit Kumar, MTRDC, Bangalore. N Balakrishnan, IISc, Bangalore	
9.	Measurement of circular wave by Two-port Probe	503
	Paramesha and Ajay Chakrabarty, IIT, Kharagpur	
10.	Sector Beam from Slot Array	507
	YV Naryana, Neerukonda Institute Of Technology and Sciences, Sangivalasa GSN Raju, AU College of Engineering, Visakhapatnam	
11.	RF Interference Supression using Array Beamforming	511
	Iftexhar Alam, Naval Wing, Institute of Armament Technology, Pune Dr. AA Ghatol, Dr. Dhabasaheb Ambedkar University, Lonere, Dist Raigad	
12.	Estimation of Antenna Factor of Reduced-height Loaded Wire Antennas	515
	Saswati Gosh, YK Singh and Ajay Chakrabarty, IIT Kharagpur	
13.	Influence of Standard phase distributions on array radiation patterns	522
	N Balasubrahmanyam, GVP College of Engineering, Visakhapatnam GSN Raju, AU College of Engineering, Visakhapatnam	
14.	Comparative Studies on the effect of analog and digital phase shifters on the scanned sum patterns	526
	J Babu and GSN Raju, Asst.Prof., AU College of Engineering, Visakhapatnam	
15.	Comparative Studies on the radiation patterns of the line source and discrete arrays	530
	KVSN Raju, SRKR Eng. College, Bhimavaram GSN Raju, AU College of Engineering, Visakhapatnam	
16.	Admittance Characteristics of a new waveguide junction	534
	K Chandra Bhushana Rao, Raghu Engineering College, Visakhapatnam GSN Raju and G Krishnam Raju, AU College of Engineering, Visakhapatnam	
17.	Antenna Calibration in Anechoic Chamber	541
	Sulekh Chand, Electronics Regional Test Laboratory (N), New Delhi	
18.	Investigations on the Array of I-Slots	545
	A.Mallikarjuna Prasad and K.Padma Raju, JNTU College of Engineering, Kakinada GSN Raju, AU College of Engineering, Visakhapatnam	
19.	Studies on Mutual Coupling between Radiating Elements	549
	P Mallikarjuna Rao and GSN Raju, AU College of Enginnering, Visakhapatnam	
20.	Influence of Dipole length on radiation characteristics	552
	B Sada siva Rao and R Ramana Reddy, AU College of engineering, Visakhapatnam	

	Page No.
21. Simulation of Electric Fields Using Symmetrically Placed Charges	556
GS Punekar, NIT, Surathkal, N.K Kishore, IIT Kharagpur HSY Shastri, NIT, Srinivasnagar	
22. Artificial Neural Network Modeling of Microwave Filters	561
Dr. S Raghavan and C Ilango, NIT, Tiruchirapalli	
Author Index	565
