

# **2010 IEEE International Symposium on Network Coding (NetCod 2010)**

**Toronto, Ontario, Canada  
9 – 11 June 2010**

**IEEE Catalog Number: CFP1041D-PRT  
ISBN: 978-1-4244-7189-8**

## NetCod 2010 Table of Contents

### **Keynote Session I**

Optimal Network Coding for Small Alphabet Sizes..... N/A  
*Babak Hassibi*

### **Network Code Construction Session**

Function Computation over Linear Channels ..... 1  
*Lorenzo Keller, Nikhil Karamchandani and Christina Fragouli*

Collecting Coded Coupons over Overlapping Generations..... 7  
*Yao Li, Emina Soljanin and Predrag Spasojević*

Nested Two-Message Multicast over Graphs ..... 13  
*Shirin Saeedi, Christina Fragouli and Suhas Diggavi*

### **Security with Network Coding Session**

Locating Byzantine Attackers in Intra-Session Network Coding Using SpaceMac..... 19  
*Anh Le and Athina Markopoulou*

Efficient Weakly-Secure Network Coding Schemes against Wiretapping Attacks ..... 25  
*Yawen Wei, Zhen Yu and Yong Guan*

### **Optimizations with Network Coding Session**

Network Codes Resilient to Jamming and Eavesdropping ..... 31  
*Hongyi Yao, Danilo Silva, Sidharth Jaggi and Michael Langberg*

A Simple Optimization Model for Wireless Opportunistic Routing with Intra-  
Session Network Coding ..... 37  
*Fabio Soldo, Athina Markopoulou and Alberto Lopez Toledo*

Issues in Peer-to-Peer Networking: A Coding Optimization Approach ..... 43  
*Christopher S. Chang, Tracey Ho, Michelle Effros, Muriel Médard and Ben Leong*

### **Keynote Session II**

Network Coding: Beyond Throughput Benefits..... N/A  
*Christina Fragouli*

### **Throughput and Delay Analysis with Network Coding Session**

Non-Asymptotic Analysis of Network Coding Delay ..... 49  
*Maricica Nistor, Rui A. Costa, Tiago T. V. Vinhoza and João Barros*

Throughput-Delay Analysis of Random Linear Network Coding for Wireless Broadcasting ..... 55  
*B. T. Swapna, Atilla Eryilmaz and Ness B. Shroff*

An Analytical Study of Network Coding in the Presence of Real-Time Messages ..... 61  
*Marc Aoun, Paul Beekhuizen and Antonios Argyriou*

### **Network Coding in Wireless Networks Session**

The Role of Feedback in the Choice between Routing and Coding for Wireless Unicast..... 67  
*Ramakrishna Gummadi, Laurent Massoulie and Ramavarapu Sreenivas*

Network Coding-Aware Queue Management for Unicast Flows over Coded Wireless Networks.....	73
<i>Hulya Seferoglu and Athina Markopoulou</i>	
Prioritized Wireless Transmissions Using Random Linear Codes .....	79
<i>Tuan Tran and Thinh Nguyen</i>	
 <u>Network Coding in Practical Wireless Applications Session</u>	
Practical Wireless Network Coding with Constrained Decoding Buffers.....	85
<i>Yu Wang, Hancheng Lu, Peilin Hong and Kaiping Xue</i>	
 <b><u>Keynote Session III</u></b>	
Network Coding for Distributed Storage .....	N/A
<i>Alex Dimakis</i>	
 <u>Applications of Network Coding Session</u>	
A Fundamental Trade-Off between the Download Cost and Repair Bandwidth in Distributed Storage Systems .....	91
<i>Soroush Akhlaghi, Abbas Kiani and Mohammad Reza Ghanavati</i>	
A Practical Network Coding Approach for Peer-to-Peer Distributed Storage .....	97
<i>Marco Martalò, Marco Picone, Riccardo Bussandri and Michele Amoretti</i>	
Network Coding in Passive Optical Networks.....	103
<i>Konstantin Miller, Thorsten Biermann, Hagen Woesner and Holger Karl</i>	
 <u>Network Coding in Practical Networks Session</u>	
Broadcast Scheduling Based on Network Coding in Time Critical Wireless Networks.....	109
<i>Cheng Zhan and Yinlong Xu</i>	
On the Queueing Behavior of Network Coding .....	115
<i>Yuan Yuan, Kui Wu and Weijia Jia</i>	
A Network Coding Approach to IP Traceback.....	121
<i>Pegah Sattari, Minas Gjoka and Athina Markopoulou</i>
