

2010 IEEE 11th International Conference on Probabilistic Methods Applied to Power Systems

(PMAAPS 2010)

**Singapore
14 – 17 June 2010**

**IEEE Catalog Number: CFP10826-PRT
ISBN: 978-1-4244-5720-5**

TABLE OF CONTENTS

Control of Parallel Inverter-interfaced Distributed Generation Systems in Microgrid for Islanded Operation	1
<i>K. T. Tan, P. L. So, Y. C. Chu</i>	
Sizing of Energy Storage System for Microgrids	6
<i>S. X. Chen, H. B. Gooi</i>	
Optimal Sizing of an Islanded Microgrid Using Evolutionary Strategy	12
<i>T. Logenthiran, D. Srinivasan, A. M. Khambadkone, T. S. Raj</i>	
Estimating the Probability of Load Curtailment in Power Systems with Responsive Distributed Storage	18
<i>A. Kashyap, D. Callaway</i>	
Pricing Reliability Service Based on End-users Choice	24
<i>N. Gonzalez-Cabrera, G. Gutierrez-Alcaraz</i>	
Optimal Wind Farm Bids Under Different Balancing Market Arrangements	30
<i>K. W. Ravnaas, H. Farahmand, G. Doorman</i>	
Electricity Market Clearing Price Forecasting in a Deregulated Electricity Market	36
<i>X. Yan, N. A. Chowdhury</i>	
Coordinated Control of SSSC and SMES in Competitive Electricity Market for Load Frequency Control	42
<i>P. Bhatt, R. Roy, S. P. Ghoshal</i>	
Statistical Characterization of Electricity Price in Competitive Power Markets	48
<i>G. B. Shrestha, S. Qiao</i>	
Energy Storage Design and Optimization for Power System with Wind Feeding	54
<i>A. D. Shakib, G. Balzer</i>	
Research on Frequency Regulation of Power System Containing Wind Farm	60
<i>X. Han, Y. Cheng, Z. Wu, J. Wang</i>	
Impacts of Energy Storage on Reliability of Power Systems with WTGs	65
<i>Z. Y. Gao, P. Wang, J. Wang</i>	
Probabilistic Evaluation of the Effect of Maintenance Parameters on Reliability and Cost	71
<i>M. Ghavami, M. Kezunovic</i>	
Identifying Worst Performing Components in a Distribution System using Weibull Distribution	77
<i>V. Aravinthan, W. Jewell</i>	
Advantages of ARMA-GARCH Wind Speed Time Series Modeling	83
<i>A. Lojowska, D. Kurowicka, G. Papaefthymiou, L. Van-Der-Sluis</i>	
A Wind Speed Estimation Method Using Adaptive Kalman Filtering for a Variable Speed Stall Regulated Wind Turbine	89
<i>D. Bourlis, J. A. M. Bleijs</i>	
Estimation of Solar Power Generating Capacity	95
<i>L. P. Naing, D. Srinivasan</i>	
Hybrid Wind-diesel Stand-alone System Sizing Accounting for Fuel Price Uncertainty	101
<i>V. Carpentiero, R. Langella, A. Testa</i>	
Very Short-term Probabilistic Wind Power Forecasting based on Markov Chain Models	107
<i>A. Carpinone, R. Langella, A. Testa, M. Giorgio</i>	
Sensitivity of Economic Criteria on Selecting Transmission Upgrades in a Competitive Electricity Market	113
<i>J. Lin</i>	
Unit Commitment Considering Expected Customer Interruption Cost	120
<i>N. Liu, L. Zhang, X. Han</i>	
Generator Random Outage Model for Risk-based Monthly Maintenance Scheduling	126
<i>L. Ning, W. Wu, B. Zhang</i>	
Dynamic Active Power Support by Doubly Fed Induction Generator for Frequency Control	131
<i>P. Bhatt, R. Roy, S. P. Ghoshal</i>	
Risk Sensitivity of Failure Rate and Maintenance Expenditure	137
<i>A. Schreiner, G. Balzer, A. Precht</i>	
RCM Application for Turkish National Power Transmission System	143
<i>A. Ozdemir, E. D. Kuldasi</i>	
NaS Technology Allocation for Improving Reliability of DG-Enhanced Distribution Networks	148
<i>E. Naderi, I. Kiaei, M. R. Haghifam</i>	

RACalc - A Power Distribution Reliability Tool - A Student Project Towards an Open Source Reliability Software for Electrical Distribution Systems	154
<i>J. Setréus, C. Böös, R. Göransson</i>	
On the Economic Benefits of Using Condition Monitoring Systems for Maintenance Management of Wind Power Systems	160
<i>F. Besnard, J. Nilsson, L. Bertling</i>	
Overview of Power System Operational Reliability	166
<i>Y. Sun, L. Cheng, X. Ye, J. He, P. Wang</i>	
Integration of Common Cause Faults in the Operational Probabilistic Approach	172
<i>S. A. B. Almeida, R. Pestana, F. P. M. Barbosa</i>	
Sequential Short-term Reliability Evaluation Considering Repair Time Distribution	178
<i>L. Cheng, X. Ye, J. He, Y. Sun</i>	
Evaluation of Cascading Failure in Power System Based on the Operational Reliability Theory	184
<i>X. Zou, L. Cheng, Y. Sun</i>	
Simulation of SMIB Power System with Stochastic Load	190
<i>R. C. Kumaran, K. S. Swarup, T. G. Venkatesh</i>	
A Two Stage Stochastic Equilibrium Model for Electricity Markets with Forward Contracts	194
<i>D. Zhang, S. Kim</i>	
Reliability-constrained Unit Commitment Using Stochastic Mixed-integer Programming	200
<i>M. Parvania, M. Fotuhi-Firuzabad, F. Aminifar, A. Abiri-Jahromi</i>	
Multivariate Modeling of Uncharacteristic Harmonics Using Archimedean Copulas	206
<i>H. V. Haghi, M. T. Bina, M. A. Golkar</i>	
Cost of Temperature History Data Uncertainties in Short Term Electric Load Forecasting	212
<i>T. Hong, A. Pahwa, P. Wang, M. Gui, S. M. Hsiang</i>	
The Intelligent Fault Modeling of Induction Motor	218
<i>L. Y. Lin, J. C. Song, M. Q. Tian</i>	
Analysis of Impact of Generating Capacity Constraints in Mexico's Sistema Interconectado Nacional Using Equivalent Assisting Unit Approach	221
<i>L. Conde-López, M. Tlaxcalteco-Córdoba, G. Hernández-González</i>	
The Selection of Wavelet Base in Fault Diagnosis of Motor	227
<i>M. L. Tian, J. M. Yang</i>	
Optimizing Natural Gas Supply and Energy Portfolios of a Generation Company	231
<i>O. Kittithreerapronchai, P. Jirutitijaroen, S. Kim, J. Prina</i>	
Network Investment Planning for High Penetration of Wind Energy Under Demand Response Program	238
<i>A. K. Kazerooni, J. Mutale</i>	
Transmission Expansion Planning: A Discussion on Reliability and "N-1" Security Criteria	244
<i>A. M. L. Silva, L. S. Rezende, L. A. F. Manso, G. J. Anders</i>	
Probabilistic Resource Adequacy Assessment of Large Interconnected Systems - An Industry Case Study Based Upon Applicable Reliability Principles and Standards	252
<i>B. Bagen, P. Koegel, M. Couillard, K. Stradley, B. Giggee, A. Jensen, J. Iverson, G. E. Haringa</i>	
Reliability Evaluation of Bulk Power Systems Incorporating UPFC	259
<i>B. Hu, K. Xie, R. Karki</i>	
Reliability Assessment of a Wind Integrated Hydro-thermal Power System	265
<i>R. Karki, P. Hu, R. Billinton</i>	
Probabilistic Single Line-ground Fault Location in Non-Effective Grounded System	271
<i>H. Chunfang, Z. Gecheng, C. Daifeng, C. Bo</i>	
A New Method to Detect Single-phase Fault Feeder in Distribution Network by Using S-transform	277
<i>S. Hongchun, S. Shiyun, Q. Gefei, P. Shixin</i>	
Comparison of Speed and Voltage Based Critical Clearing Time of Squirrel Cage Induction Generator	283
<i>Y. J. Lin</i>	
Congestion Management for Security Oriented Power System Operation using Generation Rescheduling	287
<i>G. Yesuratnam, M. Pushpa</i>	
Application of Monte Carlo Simulation in Markov Process for Reliability Analysis	293
<i>A. Ghaderi, M. R. Haghifam, S. M. Abedi</i>	
A Realistic Maintenance Model Based on a New State Diagram	299
<i>S. K. Abeygunawardane, P. Jirutitijaroen</i>	
Analysis of the Self-excited Vibration and Dynamics Modification for Rolling Mills	304
<i>X. Xiaoyan, X. Shibo, C. Dongbing, W. Ranfeng</i>	

Ranking of Substations Based on Past Historical Performance	308
<i>G. J. Anders</i>	
Model of Capacity Demand Under Uncertain Weather	314
<i>C. J. Wanerström, J. Setréus, P. Hilber, F. Tong, L. Bertling</i>	
The Role of Risk Modelling in the Great Britain Transmission Planning and Operational Standards	319
<i>C. J. Dent, K. R. W. Bell, A. W. Richards, S. Zachary, D. Eager, G. P. Harrison, J. W. Bialek</i>	
Capacity Value of Large Tidal Barrages	325
<i>J. Radtke, S. J. Couch, C. J. Dent</i>	
Coordinating Wind and Hydro Generation to Increase the Effective Load Carrying Capability	331
<i>W. Wangdee, W. Li, R. Billinton</i>	
Impact of Remote Control Failure on Power System Restoration Time	337
<i>F. Edström, L. Söder</i>	
Parameter Estimation of Synchronous Machines Using Particle Swarm Optimization	342
<i>G. Hutchinson, B. Zahawi, D. Giaouris, K. Harmer, B. Stedall</i>	
Fast and Accurate Online Short-term Reliability Assessment	346
<i>J. He, Y. Sun, L. Cheng, X. Ye, D. S. Kirschen</i>	
Modeling Swedish Real-time Balancing Power Prices Using Nonlinear Time Series Models	352
<i>M. O. Bolin, L. Söder</i>	
Convergence Acceleration Techniques for the Stochastic Unit Commitment Problem	358
<i>X. Peng, P. Jirutitijaroen</i>	
Methodology for Risk-informed Maintenance and Reinvestment Decisions	366
<i>M. D. Catrinu, D. E. Nordgård</i>	
A New Solution for Maintenance Scheduling in Deregulated Environment Applying Genetic Algorithm and Monte-carlo Simulation	372
<i>M. Manbachi, F. Mahdloo, M. R. Haghifam</i>	
Applications of Optimization Combination Model for Medium-long Term Load Forecasting	379
<i>D. Xin-Hui, S. Peng-Fei, L. Wei-Wei, W. Juan</i>	
Regression-based Estimation of the Electricity Market Price Demand-dependent Volatility	384
<i>C. G. Quiles, H. A. Gil</i>	
Validation of a Strategic Bidding Model within the Spanish Sequential Electricity Market	390
<i>A. Ugedo, E. Lobato</i>	
Probabilistic Planning Reserve Margin Studies at the California ISO	396
<i>D. Le, A. Chowdhury</i>	
Controlling Distributed Energy Constrained Resources for Power System Ancillary Services	401
<i>A. Kashyap, D. Callaway</i>	
Evaluation of Economic Impacts of Wind Turbine and Solar Cell Generators on Power system Considering CO₂ Emission	407
<i>J. Park, K. Cho, T. Oh, J. Choi, A. A. El-Keib</i>	
Analytical Approaches to Assess Embedded Wind Generation Effects on Distribution Networks	413
<i>D. Jayaweera, S. Islam, P. Tinney</i>	
Optimal PV Panel Tilt Angle Based on Solar Radiation Prediction	419
<i>Q. Zhao, P. Wang, L. Goel</i>	
Optimum Control and Simulation for a Grid-connected Photovoltaic System	425
<i>R. Men, X. Han</i>	
Reliability Models for Wind Farms in Generation System Planning	430
<i>M. R. Haghifam, S. Soltani</i>	
Evaluation of Probabilistic Models of Wind Plant Power Output Characteristics	436
<i>H. Louie</i>	
Application of Continuous Probabilistic Networks to Leak Detection in Pipe-type Cable Installations	442
<i>J. Kolczynski, W. Tylman, G. J. Anders</i>	
Probabilistic Relational Models for Assessment of Reliability of Active Distribution Management Systems	448
<i>J. König, L. Nordström, M. Ekstedt</i>	
Prerequisites for Transformer Lifetime Modeling Towards a Better Understanding	454
<i>J. Rosenlind, P. Hilber</i>	
Investigation and Analysis of Fault Incidence in Changsha Distribution Network	458
<i>Z. Renjun, Z. Gecheng, H. Chunfang, S. Sheng</i>	
Classification of Input and Output Variables for a Bayesian Model to Analyze Animal-related Outages in Overhead Distribution Systems	463
<i>M. Gui, A. Pahwa, S. Das</i>	
Financial Risk Assessment for Distribution System Operators Regulated by Quality Regulation	469
<i>K. Alvehag, L. Söder</i>	

Operation Risk on-line Pre-evaluation for Wind Power Integrated System	475
<i>L. Tang, H. Shu, J. Yu</i>	
Research on the Index System to Evaluate Power System Steady State Security with UPFC	480
<i>L. Li, Z. Lu, A. Qiu</i>	
Stability Reserve in Stochastic Linear Systems with Applications to Power Systems.....	485
<i>H. Verdejo, L. Vargas, W. Kliemann</i>	
The Rough Set Theory Applied to a Set of the New Severity Indices.....	491
<i>C. I. F. Agreira, C. M. M. Ferreira, F. P. M. Barbosa</i>	
Unreliability Tracing Technique for System Components Based on the Fault Tree Analysis	497
<i>K. Cao, K. Xie, B. Hu</i>	
Web Based Online Realtime Information System for Reliability of Electrical Energy Supply Including WTG	503
<i>J. Park, K. Cho, T. Song, J. Choi, J. Mitra, M. Shahidehpour</i>	
Probabilistic Assessment of Voltage Stability in Composite Generation and Transmission Systems.....	508
<i>A. B. Rodrigues, R. B. Prada, M. G. Silva</i>	
Generators Maintenance Scheduling of Generation Companies in Korea Considering Uncertainties	514
<i>J. Choi, J. Park, U. Baek, B. Ku, J. Cha</i>	
Composite System Reliability Analysis Using particle Swarm Optimization	520
<i>J. Mitra, X. Xu</i>	
Distribution System Adequacy Assessment with Consideration of Stochastic Distributed Generation	525
<i>M. R. Haghifam, A. Hadian</i>	
Reliability Evaluation of Automated Radial Distribution System.....	530
<i>E. V. Sagar, P. V. N. Prasad</i>	
Probabilistic Interpretation of Customer Interruption Cost (CIC) Applied to South African Systems	536
<i>R. Herman, T. Gaunt</i>	
Evaluation of the Failure Rates of Transmission Lines During Hurricanes Using a Neuro-fuzzy System.....	541
<i>Y. Liu, C. Singh</i>	
Application of Common Cause Analysis for Assessment of Reliability of Power Systems.....	547
<i>M. Čepin</i>	
Probabilistic Reliability Calculation of Transmission Networks - Concept and Case Study for a Countrywide System.....	553
<i>M. Schwan, A. Ettinger, W. Gawlik</i>	
The Value of Accurate Forecasts and a Probabilistic Method for Robust Scheduling of Residential Distributed Energy Resources	559
<i>M. A. A. Pedrasa, T. D. Spooner, I. F. MacGill</i>	
Effects of Demand Side Management on Bulk System Adequacy Evaluation.....	565
<i>D. Huang, R. Billinton, W. Wangdee</i>	
Probabilistic Approach in Sizing Distribution Transformers.....	571
<i>S. Kannan, M. T. Au</i>	
Fuzzy Evaluation of Power Supplying Capability of Kunming City Grid Considering Entropy Weighting	576
<i>S. Hongchun, S. Shiyun, Q. Gefei, L. Zongbin, H. Zejiang</i>	
Automation and Reliability Improvement for Distribution Feeder.....	581
<i>N. H. Viet, N. Van-Ban</i>	
Research on Power Frequency Transient Over-voltage in 1000kV UHV Transmission Line from Jincheng to Jingzhou via Nanyang.....	587
<i>X. H. Du, K. Zhang, H. M. Hu, J. T. Yang</i>	
Improved Bisection Searching Technique for Voltage Collapse Analysis in Reliability Evaluation	593
<i>W. Qin, P. Wang, C. Kang</i>	
Starting up Rapid-start Units for Energy and Reserve Contributions.....	598
<i>G. K. Toh, H. B. Gooi</i>	
Generator Maintenance Scheduling with Hybrid Evolutionary Algorithm	604
<i>D. Srinivasan, K. C. Aik, I. M. Malik</i>	
One Realization Method for Remote Control of Hydraulic Support of the Electro-hydraulic in Coal Mine face	610
<i>M. Q. Tian, Y. B. Sun, H. Y. Chen</i>	
Particle Swarm Optimization for Unit Commitment Problem.....	614
<i>T. Logenthiran, D. Srinivasan</i>	
Reactive Power Impact on Reliability of 220kV Taiyuan Power System.....	620
<i>W. Qin, P. Wang, J. Song, Z. Wang</i>	

Power Distribution System Reliability Evaluation by D-S Evidence Inference and Bayesian Network Method	626
<i>S. Zhao, H. Wang, D. Cheng</i>	
Considering the Rare Events in Construction of the Bayesian Network Associated with Power Systems	631
<i>A. Ebrahimi, T. Daemi</i>	
Modern Computing Environment for Power System Reliability Assessment	636
<i>M. A. Rosa, V. Miranda, L. Carvalho, A. M. L. Silva</i>	
Uncertainties on Power Systems. Probabilistic Approach and Conic Approximation	644
<i>R. Zorghi, W. Van-Ackooij, A. Gorge</i>	
A Market-based Generation Expansion Planning in Deregulated Environment Based on Distributed Generations Development	649
<i>A. H. Parsaeifard, M. Manbachi, M. B. A. Kopyai, M. R. Haghijam</i>	
Probabilistic Transient Stability Assessment Based on Distributed DSA Computation Tool	657
<i>X. Zhao, J. Zhou</i>	
A Probabilistic Planning Approach to Single Circuit Supply Systems	663
<i>W. Li, W. Wangdee, P. Choudhury</i>	
Reliability Assessment of Time-dependent Systems via Quasi-Sequential Monte Carlo Simulation	669
<i>A. M. L. Silva, R. A. González-Fernández, W. S. Sales, L. A. F. Manso</i>	
Non-sequential Simulation Methods for Reliability Analysis of Power Systems with Photovoltaic Generation	675
<i>Z. Shu, P. Jirutitijaroen</i>	
Application Study of Distributed Generation - Its Impact on Reliability of a Vattenfall's Distribution System	682
<i>Y. He, E. Eriksson, A. Holm</i>	
Reliability Evaluation of Restructured Power Systems with Wind Farms Using Equivalent Multi-state Models	688
<i>A. Mehrtash, P. Wang, L. Goel</i>	
Optimal Sizing of a Hybrid Power System Considering Wind Power Uncertainty Using PSO-embedded Stochastic Simulation	694
<i>H. V. Haghi, S. M. Hakimi, S. M. M. Tafreshi</i>	
Impact of CT Saturation on Phasor Measurement Algorithms: Uncertainty and Sensitivity Study	700
<i>M. N. Ibrahim, R. Zivanovic</i>	
Resolution Enhancement of Input Parameters in a Demand Side Management Model	706
<i>P. Imbert, G. Kariniotakis, P. Blanc, F. P. Neirac</i>	
A Novel Fuzzy Approach to Handle Parameter Uncertainties in Bifurcation Analysis for Identification of Critical Busbars	713
<i>P. K. Satpathy, R. P. Panda, B. D. Biswal</i>	
Uncertainty Analysis for Wind Energy Production with Dynamic Power Curves	717
<i>T. Jin, Z. Tian</i>	
Reliability Evaluation for Main Connection Taking Account for Switching Operations	723
<i>Y. Wang, X. Han, Z. Guo, Y. Ding</i>	
Reliability Assessment of Power System Containing Wind Farm Based on Steady-state Power Flow	728
<i>X. Han, M. Mu, W. Qin</i>	
Assessing the Effect of Maintenance on High-voltage Circuit Breaker Reliability	733
<i>T. Krontiris, G. Balzer</i>	
Object Oriented Model for Composite Reliability Evaluation Including Time Varying Load and Wind Generation	739
<i>J. A. S. Dias, C. L. T. Borges</i>	
Probabilistic Identification of Turbines Facing High and Low Wind Speeds in a Wind Farm	745
<i>M. Ali, I. S. Ilie, J. V. Milanović, G. Chicco</i>	
Generation Investment Evaluation under Uncertainty in a Competitive Environment	751
<i>N. Y. Dahlan, D. S. Kirschen, M. A. Ortega-Vazquez</i>	
A Probabilistic Approach for Multiobjective Optimal Allocation of Capacitors in Distribution Systems Based on Genetic Algorithms	757
<i>G. Carpinelli, D. Proto, C. Noce, A. Russo, P. Varilone</i>	
Reliability Evaluation of Integrated Wind/Diesel/Storage Systems for Remote Locations	763
<i>W. Y. Li, B. Bagen</i>	
Interruptible Load Contracts Implementation in Stochastic Security Constrained Unit Commitment	768
<i>M. Bozorg, E. Hajipour, S. H. Hosseini</i>	
Probabilistic Reliability Evaluation of Composite Power Systems Including Wind Turbine Generators	774
<i>J. Choi, J. Park, K. Cho, T. Oh, M. Shahidepour</i>	

The Impact of Climate Change on New Zealand's Electricity Demand	780
<i>G. H. Chen, T. T. Lie</i>	
Wind Power Planning and Operating Capacity Credit Assessment	786
<i>R. Billinton, D. Huang, B. Karki</i>	

ADDITIONAL PAPERS:

Self-organized Criticality in Time Series of Fault in Puyang Power Grid	792
<i>C. Daifeng, Y. Jun, W. L. Chan</i>	
Application of Bayesian Networks for Maintenance and Risk Modelling	796
<i>K. Sand, J. Aupied, F. Spruyt</i>	
Impact of the German Incentive Regulation for Cost Analysis Based on Ageing Models for 110-kV Circuit-breakers	802
<i>L. Asgariéh, G. Balzer, A. J. Gual</i>	
An Asset Management Approach to Momentary Failure Risk Analysis on MV Overhead Lines	808
<i>M. R. Haghijam, E. Akhavan-Rezai, A. Fereidunian</i>	
Evaluation of Loss of Load Probability for Power Systems Using Intelligent Search Based State Space Pruning	814
<i>R. C. Green, Z. Wang, L. Wang, M. Alam, C. Singh</i>
