

2010 Fourth International Conference on Secure Software Integration and Reliability Improvement Companion

(SSIRI-C 2010)

**Singapore
9 – 11 June 2010**

**IEEE Catalog Number: CFP1031K-PRT
ISBN: 978-1-4244-7644-2**

2010 Fourth IEEE International Conference on Secure Software Integration and Reliability Improvement Companion

SSIRI-C 2010

Table of Contents

Message from Steering Committee Chairs	viii
Message from the General Chair	ix
Message from the Program Chairs	x
Organizing Committee	xi
Program Committee	xii
Steering Committee	xv
Additional Reviewers	xvi
Keynote Abstracts	xvii

Student Doctoral Program

An Automatic Approach to Model Checking UML State Machines	1
<i>Shao Jie Zhang and Yang Liu</i>	
An Automatic Approach to Verify Sensor Network Systems	7
<i>Man Chun Zheng</i>	
An Approach to Achieving the Reliability in TV Embedded System	13
<i>Dusica Marijan, Nikola Teslic, Vukota Pekovic, and Tarkan Tekcan</i>	
Modeling and Analysis of Advanced Automotive ECU Architectures at Early Design Stages Using EMF and Model Transformation	18
<i>Christoph Lauer, Reinhard German, and Jens Pollmer</i>	

Fast Abstracts

An Efficient Method of Probabilistic Model Checking	24
<i>Songzheng Song</i>	
Constraint Checking for XML-Based Language Specification by SAT Solver	26
<i>Hao Xiao, Zheng Wang, Gegang Pu, and Bin Gu</i>	
Parallel Lexical Analyzer on the Cell Processor	28
<i>G. Umarani Srikanth</i>	

Model Checking C# Code: A Translation Approach	30
<i>Huiquan Zhu</i>	
Structured Assurance Case Methodology for Assessing Software Trustworthiness	32
<i>Elizabeth Fong, Michael Kass, Thomas Rhodes, and Frederick Boland</i>	
The Problem of Usable Binary Authentication	34
<i>Yongzheng Wu and Roland H. C. Yap</i>	
Towards Verification of a Service Orchestration Language	36
<i>Tian Huat Tan</i>	

Workshop on Model-Based Verification and Validation

Design Patterns for Integrating Variability in Timed Automata	38
<i>Ralf Mitsching, Carsten Weise, and Stefan Kowalewski</i>	
Towards Test Case Generation for Synthesizable VHDL Programs Using Model Checker	46
<i>Tolga Ayav, Tugkan Tuglular, and Fevzi Belli</i>	
Modeling Efficient Multi-chained Stream Signature Protocol Using Communicating Sequential Processes	54
<i>Ahmet Koltuksuz, Murat Ozkan, and Burcu Kulahcioglu</i>	
Event- and Coverage-Based Testing of Web Services	62
<i>André Takeshi Endo, Michael Linschulte, Adenilso da Silva Simão, and Simone do Rocio Senger de Souza</i>	
Generalized Partial Test Case Generation Method	70
<i>Lehilton Leis Chaves Pedrosa and Arnaldo Vieira Moura</i>	
Are Longer Test Sequences Always Better? - A Reliability Theoretical Analysis	78
<i>Fevzi Belli, Nevin Güler, and Michael Linschulte</i>	
Utilization of Timed Automata as a Verification Tool for Security Protocols	86
<i>Ahmet Koltuksuz, Burcu Kulahcioglu, and Murat Ozkan</i>	

Workshop on Model Checking Secure and Reliable Systems

Classification of Static Analysis-Based Buffer Overflow Detectors	94
<i>Hossain Shahriar and Mohammad Zulkernine</i>	
Formal Analysis for Stateflow Diagrams	102
<i>Chunqing Chen</i>	
Job-Shop Scheduling Problems Using Timed Planning	110
<i>Xian Zhang</i>	
Quantitative Evaluation of Related Web-Based Vulnerabilities	118
<i>Deepak Subramanian, Ha Thanh Le, Peter Kok Keong Loh, and Annamalai Benjamin Premkumar</i>	
Using Multi Decision Diagram in Model Checking	126
<i>Nguyen Truong Khanh and Quan Thanh Tho</i>	
Analysing System Failure Behaviours with PRISM	130
<i>Xiaocheng Ge, Richard F. Paige, and John A. McDermid</i>	

Yet Another Model Checker for PROMELA - The Transformation Approach	137
<i>WenDi Zhao</i>	
Modeling and Verification of Transmission Protocols: A Case Study on CSMA/CD Protocol	143
<i>Ling Shi and Yan Liu</i>	
MAFSE: A Model-Based Framework for Software Verification	150
<i>Tho T. Quan, Duc L. N. Hoang, Binh T. Nguyen, An N. Nguyen, Quan D. Tran, Phung H. Nguyen, Thang H. Bui, Anh T. Do, Linh V. Huynh, Nam T. Doan, Nguyen T. Huynh, Thien D. Nguyen, Tam T. Nguyen, and Vu H. Nguyen</i>	
Modeling and Verifying Security Protocols Using PAT Approach	157
<i>Luu Anh Tuan</i>	
Author Index	165
