2010 8th Asian-Pacific Symposium on Information and Telecommunication Technologies

(APSITT 2010)

Kuching, Malaysia
15 – 18 June 2010

IEEE

IEEE Catalog Number: CFP1005A-PRT
ISBN: 978-1-4244-6413-5

TABLE OF CONTENTS

Evaluations of Strategies for VCHS-type Queuing Systems 1
S. Nogami, S. Shimizu

Mobile Multiple Polling to Allow High-bit-rate Packet Transfer for Fast Terminals 7
T. Yamada, P. T. Hoa

Dynamic IP-VPN Architecture with Secure IPsec Tunnels 13
K. Ishimura, T. Tamura, S. Mizuno, H. Sato, T. Motono

Extracting User Posting Behavior Using HTTP Flow 18
R. Sakurada, T. Moriya, J. Akahani

IPsec-GW Redundancy Method with High Reliability 24
A. Kuboniwa, T. Tamura, Y. Huruta, Y. Wada, H. Satou, T. Motono

Anonymous Communications with Cyclical Routes 29
M. Okamoto

Evaluation of Diffusion Approximation for the G/G/1 Queuing Model 33
Y. Nonaka, S. Nogami

Seamless Vertical Handover Management for VoIP Over Intermingled IEEE 802.11g and IEEE 802.16e 39
M. Niswar, S. Kashihara, Y. Taenaka, K. Tsukamoto

Study on the Relationship Among Multiple Websites Using Access Log Analysis 45
D. Waki, S. Nogami

Compact Fan-out Adaptor for Optical Component Packaging by a New Jacket Removing System with a CO_2 Laser 51
Y. Katsuyama, K. Ikushima, R. Sougen, O. Koyama, M. Yamada

Study on Congestion Reducing in the Theme Park 57
Y. Ohtani, S. Sawada, S. Nogami

An Ontology Construction Algorithm for Network Robot Control Services 63
K. Matsuoka, M. Shimokura, T. Ohta, K. Takami

Power Aware Routing and Clustering Scheme for Wireless Sensor Networks 69
S. Momma, T. Mikoshi, T. Takenaka

Lightpath Route Management System for IP-over-CWDM Networks with ROADMs 75
R. Zahilah, Y. Ogino, S. Nishiuma, M. Nooruzzaman, O. Koyama, Y. Katsuyama

Effect of Web-based healthcare System on Behavior Modification 81
K. Fujimura, M. Shiraishi, Y. Maeda, M. Itoh

Multi-lobe Directional Transmission for Network Coding in Multi-rate Ad Hoc Networks 87
T. Furukawa, M. Bandai, H. Yomo, S. Obana, T. Watanabe

Determining Threshold Values for Monitoring Percentile of Packet Transfer Delay 92
T. Okuyama, K. Ori

Dynamic Scaling Method of uTupleSpace Data-sharing Mechanism for Wide Area Ubiquitous Network 98
Y. Arakawa, K. Kashiwagi, T. Nakamura, M. Nakamura, M. Matsuo

Implementation of Packet Transport System Using MPLS-TP Technologies 104
T. Oishi, M. Takase, K. Sakamoto, H. Endo

DoS Attack Countermeasures in NGN Using Private Security Policy 110
Y. Okada, Y. Nishikawa, N. Sato

Proposal of a Zone Disjoint Multi-path Routing for Ad Hoc Networks 116
K. Aburada, N. Okazaki, M. Park

Efficiently Indexing with Offset Bitmaps for Huge Sets of Slightly Disordered Sensor Data 120
T. Yamazaki, T. Inoue, H. Sato, N. Takahashi, J. Takagi, M. Minami

The Effect of Headset and Earphone on Reducing Electromagnetic Radiation from Mobile Phone Towards Human Head 126
D. A. A. Mat, F. Kho, A. Joseph, K. Kipli, S. Sahrani, K. Lias, A. Syaheda, W. Marzuki

Design of User-oriented Contents Communicator on Personal Communication Platform (PCPF) 132
O. Mizuno, Y. Tomita, Y. Tada, K. Fukami, M. Shimomura, K. Takahashi

Design and Development of Cost-effective Automatic Location Identification for Campus Monitoring 138
W. A. W. Z. Abidin, A. K. Othman, K. H. Ping, T. Masri, N. Zamhari

Development of the Experimental Platform for Evaluating HMI in Copperative Collision Warning System 143
K. T. Hong, T. Ideguchi, T. XueJun, T. Okuda

Congestion Removing Performance in IP-over-CWDM Networks with Stackable ROADMs 147
M. Nooruzzaman, Y. Izumi, N. T. T. Thuy, R. Zahilah, O. Koyama, Y. Katsuyama
A Common Key Generation Technique Based on Similarity of Received Signal Strength for Secure Wireless Face-to-face Communication 153
T. Honda, A. Noda, Y. Arakawa, S. Tagashira, T. Kitasuka, T. K. N. Tsumura, A. Fukuda
Resonant Coupler Based on Mach-zehnder Configuration 159
N. Zamhari, A. S. M. Supa't, W. A. W. Z. Abidin, A. K. Othman, K. Kipli
Performance Evaluation for Network Set up and Nodes Discovery Protocol in Underwater Grid Topology Networks 164
A. K. Othman, W. A. W. Z. Abidin, H. Zen, K. H. Ping, N. Zamhari
A Path-based Traffic Control Method for Green Networks 170
A. Yamada, S. Imai, M. Kakemizu
Some Characteristics of Bursty Packet Loss in M/G/1/*K* Queues 175
A. Inoie
Symbolic Device for Short-range Wireless Pairwise Communication 181
Y. Tanaka, A. Noda, Y. Arakawa, S. Tagashira, T. Kitasuka, T. Kitaguchi, N. Tsumura, A. Fukuda
Robustness of the Internet at the AS Level by DDoS Attack 187
Y. Ono, Y. Hayashi
Application of Graph Theory to Clustering in Delay Space 192
M. Zhanikeev, Y. Tanaka
New Architecture for a VPN On-demand Interconnection System 198
T. Koyama, S. Karasawa, Y. Kikuchi, K. Kishi, S. Iwamura
Accuracy Evaluation and Inaccuracy Screening in PC-based Delay Variation Measurements 204
G. Kawaguti, K. Ori, H. Nojiri
Gateway Architecture for Zigbee Sensor Network for Remote Control Over IP Network 210
P. Qiu, Y. Zhao, U. Heo, D. Zhang, J. Choi
Ultra High Speed Calculation Method for Link Bandwidth Design Considering Failures 214
R. Sugiyama, T. Takeda, H. Kojima, I. Inoue, K. Shiomoto
Validating Packet Origin Using External Route Information 220
M. Saito, K. Ishibashi
A Statistical Analysis Method for Detecting Mass Call Spam in SIP-based VoIP Service 226
J. Heo, T. Kusumoto, E. Y. Chen, M. Itoh
AS-friendly Peer Selection Algorithms without AS Topology Information in P2P Live Streaming 232
Y. Fukushima, Y. Tao, K. Inada, T. Yokohira
White Space Devices, Future of Content Based Services 238
G. Singh
Studies on C_n^2 and its Effects on Free Space Optical Communication Systems 243
P. Liu, K. Kazaura, K. Wakamori, M. Matsumoto
Optimization of Perational Conditions for Air-conditioning Systems with Aisle Capping Method 249
T. Kinoshita, T. Kimura, K. Muroya, H. Tanaka, M. Youro, J. Urata
A Comprehensive Overview of Vehicular Ad Hoc Network Evaluation Alternatives 255
Z. Movahedi, R. Langar, G. Pujolle
A Novel Scheme Based on Dropped-packet Information to Restrict Pulsing Denial-of-service Attacks 260
Y. Iwanari, T. Asaka, T. Takahashi
Recognition Method of Behavioral Pattern by Sequential Learning for Life Logs 266
S. Kondoh, T. Moriya, J. Akahani
Trial of Wireless Sensor Network to Collect Field Data 272
M. W. Kim, K. S. Kim
Enhanced Compression Scheme for High Latency Networks to Improve Quality of Service of Real-time Applications 278
L. S. Tan, S. P. Lau, C. E. Tan
Organization Structure Analysis Based on an Affiliation Network, and Verification of its Effectiveness 284
T. Kitahara, N. Yoshikai
Finding Optimal Energy-saving Operations in Home Network System Based on Effects Between Appliances and Environment 290
T. Okamura, M. Nakamura, H. Igaki
Performance Analysis of Optical Atmospheric Turbo-coded 2.D CDMA Systems with PPM Signaling 296
T. A. Luu, N. T. Dang, A. T. Pham
Enhanced QoS Based Routing in IPv6 Ad Hoc Network 302
W. Y. Tai, C. T. Eng, S. P. Lau

Mashing up Multiple Logs in Home Network System for Promoting Energy-saving Behavior 307
H. Igaki, H. Seto, M. Fukuda, M. Nakamura
Efficient RFID Tag Placement Framework for in Building Navigation System for the Blind 313
W. S. Mooi, C. T. Eng, N. H. B. N. Zulkifli
A Survey on Utilization of Data Mining for Childhood Obesity Prediction 319
M. H. B. H. Adnan, W. Husain, F. Damanhoori
A Neural Network Approach Towards Reinforcing Smart Home Security 325
C. C. Teoh, C. T. Eng
Efficient Load Balancing for Bursty Demand in Web Based Application Services via Domain Name Services 330
M. L. Chin, C. T. Eng, M. I. Bandan
A Method for Controlling Search in a Pure P2P File Sharing Network 334
H. Nakazawa, M. Yoshida, S. Ohzahata, A. Nakao, K. Kawashima
IP Multicast Traffic Monitoring System with IPFIX/PSAMP 340
S. Kashima, A. Kobayashi
A Wavelet-based Anomaly Detection for Outbound Network Traffic 346
K. Limthong, P. Watanapongse, K. Fukuda
Applying Device Discovery Methods for Home Network Management 352
T. Tanaka, S. Moriwaki, K. Ooto
Measuring P2P Network Topology Through Geo-location-aware Distributed Crawlers 358
P. Putra, A. Nakao
A Modeling Method of Access Network for Resource Reservation and Admission Control of NGN 364
K. Tanida, H. Nakamura
A Case Study of Identity Federation Single Sign on Service and Issues of its Operations 369
K. Horikawa, K. I. Shimada, K. Yabe, K. Moriyasu, H. Suzuki
Performance Evaluation of iSCSI-APT (iSCSI with Automatic Parallelism Tuning) on SINET3 with Layer-1 Bandwidth on Demand Service 375
H. Ohsaki, J. Kittananun, F. Inoue, Y. Nomoto, M. Imase
Proxy-based Multicast Congestion Control for Ad Hoc Networks 381
Y. Yamamoto, H. Itsumi, M. Yamamoto
Multi-class Scheduling Technique Using Dual Threshold 387
A. A. A. Rahman, K. Seman, K. Saadan
Inferring Success of Online Development Communities: Application of Graph Entropy for Quantifying Leaders' Involvement 392
S. Tsugawa, H. Ohsaki, M. Imase
Dynamic IP-VPN Architecture for Cloud Computing 398
H. Hata, Y. Kamizuru, A. Honda, T. Hashimoto, K. Shimizu, H. Yao
A Study on the Requirements of Accountable Cloud Services and Log Management 403
S. Nakahara, H. Ishimoto
Enhanced TERAKOYA Learning System Providing Multi-point Remote Interactive Lessons 409
Y. Nishiuchi, N. Matsuuchi, T. Mendori, K. Shimamura
A Transmission Range Adjustment Algorithm to Avoid Energy Holes in Wireless Sensor Networks 413
V. Tran-Quang, T. Miyoshi
Ad Hoc Network Service with Relay Reward and its Routing Performance 419
T. Fujii, K. Yamori, Y. Tanaka
Failure Prediction Method for Network Management System by using Bayesian Network and Shared Database 425
E. Harahap, W. Sakamoto, H. Nishi
A LIVE Image Transmission System for Dome Theaters 431
K. Kaneko, N. Ohta
Evaluation of a Server-based Traffic Engineering Architecture Suitable for Large-scale MPLS Networks 437
K. Matsui, M. Kaneda, K. Matsuda
Evaluation of a Wake-up Wireless Module with Bloom-filter-based ID Matching 443
S. Ishida, T. Takiguchi, S. Saruwatari, M. Minami, H. Morikawa
