

2010 IEEE/OES US/EU Baltic International Symposium

(BAL TIC 2010)

**Riga, Latvia
24 – 27 August 2010**

**IEEE Catalog Number: CFP10AME-PRT
ISBN: 978-1-4244-9226-8**

TABLE OF CONTENTS

Geologic Characteristics in the Vicinity of the Deepwater Horizon Oil Spill	1
<i>T. McGee</i>	
Use of Earth Observation Data and Numerical Modeling in the Development of Marine Downstream Services in Estonia	5
<i>U. Raudsepp, R. Uiboupin, L. Sipelgas, P. Lagemaa, T. Kouts, U. Lips</i>	
Coastal Radar WERA, a Tool for Search and Rescue and Oil Spill Management	15
<i>M. Valentin, T. Helzel, V. Mariette, N. Thomas</i>	
Operational Observations Methods During Offshore Sand Mining - Case Study in Tallinn Bay, The Southern Gulf of Finland	18
<i>G. Haran, U. Raudsepp, V. Alari, R. Uiboupin, L. Sipelgas, A. Ern</i>	
Validation of MERIS Chlorophyll α Products in the Lithuanian Baltic Sea Case 2 Coastal Waters	28
<i>D. Vaiciute, I. Olenina, R. Kavolyte, I. Dailidiene, R. Pilkaityte</i>	
Comparison of Current Simulations by the State-of-the-Art Operational Models in the Gulf of Finland with ADCP Measurements	29
<i>P. Lagemaa, I. Suhhova, M. Nomm, J. Pavelson, J. Elken</i>	
Comparison of Operational Ice Charts with Satellite Based Ice Concentration Products in the Baltic Sea	39
<i>R. Uiboupin, L. Axell, U. Raudsepp, L. Sipelgas</i>	
Wind and Wind Waves Regime Climatological Changes at the SE Baltic Sea Coast	46
<i>L. Kelpsaite, I. Dailidiene</i>	
Dominant Zoobenthic Species in the Northwestern Coastal Sea of Estonia - Potential Role of Abiotic Stresses	47
<i>N. Kolesova, U. Raudsepp, V. Alari</i>	
The Gulf of Riga as a Resource for Wind Energy - A Project Description	54
<i>U. Raudsepp, R. Uiboupin, U. Bethers, J. Aigars, A. Kuresoo, A. Kull, I. Jussi, A. Aunins, L. Sipelgas, L. Luigujoje, A. Stipniece</i>	
Smart Management of the Baltic Sea Fishery System: Myth or Reality?	58
<i>R. Aps, M. Fetissov, H. Lassen</i>	
Modeling the Response of the Gulf of Finland Ecosystem to Changing Climate	66
<i>G. Lessin, A. Stips</i>	
Yet Another Assessment of Climate Change in the Baltic Sea Area: Breakpoints in Climate Time Series	74
<i>A.K. Stips, M. Lilover</i>	
Analysis of Temporal Variability of Measured and Modeled Vertical Distributions of Salinity and Temperature in the Gulf of Finland During 10-year Period	82
<i>J. Passenko, G. Lessin, U. Raudsepp, I. Maljutenko, T. Neumann, J. Laanemets</i>	
Long-term High-resolution Hydrodynamical Model Simulation in the Gulf of Finland	89
<i>I. Maljutenko, J. Laanemets, U. Raudsepp</i>	
Seatrack Web, the HELCOM Tool for Oil Spill Prediction and Identification of Illegal Polluters	95
<i>C. Ambjorn</i>	
Modelling of Baltic Sea Inflow Events and Deep Water Currents	97
<i>S. Miladinova, A. Stips</i>	
Remote Sensing of the Impact of Accelerated Local Sea Level Rise on Wetlands	103
<i>R. Field, K. Philipp, V. Klemas, J. Young</i>	
Simple Model Calculations of the Ice Thickness for Complementing Satellite Remote Sensing of Ice Extent	115
<i>E. Soosaar, L. Sipelgas, U. Raudsepp</i>	
Development of Microstructure Measurements Meeting the Baltic Sea Conditions	123
<i>A.G. Ostrovskii, V.T. Paka, S.A. Shchuka, A.G. Zatsepin, V.V. Zhmur, V.I. Baranov, A.O. Korzh, A.A. Kondrashov, A.P. Podufalov, D.A. Shvov, V.A. Soloviev</i>	
Use of Lightweight On-line GPS Drifters for Surface Current and Ice Drift Observations	130
<i>T. Kouts, S. Verjovkina, P. Lagemaa, U. Raudsepp</i>	
Current Measurements Under Ice	140
<i>A.J. Williams III</i>	
Sea Ice Monitoring in the Baltic Sea Using Dual-Pol C and L Band SAR Data	146
<i>R. Uiboupin, L. Sipelgas</i>	

Leads as Natural Fairways in the Gulf of Finland	147
<i>O. Parn, J. Haapala, L. Sipelgas</i>	
Advancing Coastal Upwelling Observations with Use of SAR Data: Case Study from SE Baltic	153
<i>I. Kozlov, I. Dailidiene, V. Kudryavtsev</i>	
Why Today's Systems Theory Can't Cope with Global Environmental or Marine Systems Catastrophes and Crises	154
<i>R. Jasinevicius</i>	
SAR Imagery and Seatrack Web as Decision Making Tools for Illegal Oil Spill Combating - A Case Study	161
<i>S. Anderson, R. Uiboupin, S. Verjovkina, U. Raudsepp</i>	
Validation of Seatrack Web using Surface Drifters in the Gulf of Finland and Baltic Proper	166
<i>S. Verjovkina, U. Raudsepp, T. Kouts, K. Vahter</i>	
High-resolution Monitoring of Environmental State Variables in the Surface Layer of the Gulf of Finland (During a Dynamic Spring Bloom in March-May 2010)	173
<i>V. Kikas, N. Norit, A. Meerits, N. Kuvaldina, I. Lips, U. Lips</i>	
Ambient Sea Noise as the Indicator of Dynamic Physical Processes at the Sea Surface	181
<i>Z. Klusek, B. Swerpel, A. Dragan, J. Szczucka</i>	
Comparison of ADV Measured Near-Bed Orbital Speed and Latter Derived From Wave Gauge Measurements at Intermediate Water Depths	182
<i>V. Alari, U. Raudsepp, A. Erm</i>	
Near Bottom Velocity and Turbidity Measurements in Coastal Waters of NW Estonia	188
<i>A. Erm, V. Alari, F. Buschmann, T. Kouts, U. Raudsepp, K. Loitjarv</i>	
Measurements of Turbulence in the Denmark Strait Overflow	195
<i>V.T. Paka, V.M. Zhurbas</i>	
Sedimentary Fluxes in the Marine-lagoon (Baltic Sea-Curonian Lagoon) Connection	199
<i>S. Gulbinskas, E. Trimonis, I. Mineviciute</i>	
Assessment of Sediment Contamination in Klaipeda Port Area Using Long-term Monitoring Data	204
<i>S. Suzdalev, S. Gulbinskas</i>
