Keynote Address	
• Web Services in a Global Bank — An Enterprise Architecture Perspective	1
Carl Worms (<i>Private Banking IT, Credit Suisse AG</i>)	
Session 1: Web Systems Analysis and Evolution	
• Web Applications Design Evolution with UWA	3
Mario Luca Bernardi (<i>University of Sannio</i>), Marta Cimitile, Damiano Distanti (<i>Unitelma Sapienza University</i>), Francesco Mazzone (<i>University of Sannio</i>)	
• Matching Demand and Offer in On-line Provision: A Longitudinal Study of Monster.com	13
Andrea Capiluppi, Andres Baravalle (<i>University of East London</i>)	
• Extending Web Content Management Systems Navigation Capabilities with Semantic Navigation Maps	23
Damiano Distanti (<i>Unitelma Sapienza University</i>), Michele Risi (<i>University of Salerno</i>), Giuseppe Scanniello (<i>University of Basilicata</i>)	
• Regular Expressions on the Web	29
Renáta Hodován, Zoltán Herczeg, Ákos Kiss (<i>University of Szeged</i>)	
Session 2: Composing and Modeling Web Services and Applications	
• Self-Adaptive Management of Web Processes	33
Marina Polese, Giancarlo Tretola, Eugenio Zimeo (<i>University of Sannio</i>)	
• Introducing Haptic Interactions in Web Application Modeling	43
Sara Comai, Davide Mazza (<i>Politecnico di Milano</i>)	
• An Approach for Mining Web Service Composition Patterns from Execution Logs	53
Ran Tang, Ying Zou (<i>Queen's University</i>)	
Session 3: Web Systems Testing and Security	
• Techniques and Tools for Rich Internet Applications Testing	63
Domenico Amalfitano, Anna Rita Fasolino, Porfirio Tramontana (<i>University of Naples Federico II</i>)	
• Investigation and Analysis of Malware on Websites	73
Takeshi Yagi, Naoto Tanimoto, Takeo Hariu Mitsutaka Itoh (<i>NTT Corporation</i>)	
• A Cluster Grids Based Platform for Digital Copyright Protection	83
Franco Frattolillo, Federica Landolfi (<i>University of Sannio</i>)	
• Multilingual Web Sites: Internationalized Domain Name Homograph Attacks	89
Johnny Al Helou, Scott Tilley (<i>Florida Institute of Technology</i>)	
Session 4: Web Systems Quality	
• Multi-Level Evaluation of Web Site Navigability	93
Stephane Vaucher Houari Sahraoui (<i>Université de Montréal</i>)	
• A Performance Engineering Method for Web Applications	101
Marin Litoiu (<i>York University</i>)	

• Measuring Web Service Interfaces	111
Harry M. Sneed (<i>ANECON GmbH</i>)	
• The Lively Dock: Web Applications as Live Thumbnails	117
Jan Miettinen, Tommi Mikkonen, Antero Taivalsaari (<i>Tampere University of Technology</i>)	
Special Session	
• Research Directions in Web Systems Evolution IV: Migrating to the Cloud	121
Holger Kienle (<i>University of Victoria, Canada & Mälardalen University, Sweden</i>), Giuseppe Di Lucca (<i>RCOST, University of Sannio</i>), Scott Tilley (<i>Florida Institute of Technology</i>)
