

2010 IEEE Avionics Fiber-Optics and Photonics Technology Conference

(AVFOP 2010)

**Denver, Colorado, USA
21 – 23 September 2010**

**IEEE Catalog Number: CFP10AVF-PRT
ISBN: 978-1-4244-5312-2**

Table of Contents

Tuesday, 21 September 2010

TuA Overview Part I

TuA1	Beyond Interconnections	1
TuA2	Space Flight Applications of Optical Fiber; 30 Years of Space Flight Success	3
TuA3	SAE Aerospace and Avionic Systems Division Update	5

TuB Overview Part II

TuB1	Open Architecture Technical and Legal Challenges	N/A
TuB2	Optical Network Security	N/A

TuC Fiber Optic Interconnects/Cabling

TuC1	Optical Fibers with Mid and High Temperature Coatings for Harsh Environment	7
TuC2	New Mechanical Splices for Single and Ribbon Fibres	9
TuC3	Integrating Polymer Optical Fibers in Civil Aircraft: Environmental Requirements and Challenges	11

TuD Avionics Architecture and Networking I

TuD1	Fiber Optics for Enabling IN-SITU Detection and Imaging Systems	13
TuD2	Rugged Optical Data Distribution Network for Avionics	15
TuD3	Power Requirements and Operation of Amplified Optical Networks for Future Aerospace Applications	17

TuE Analog/RF Photonics I

TuE1	Photonic Microwave-to-Digital Subsystems: When, Why and How	19
TuE2	System Implementation of Coherent Analog Optical Links	21

The Performance of Unbiased Balanced Photodiodes for Optical Calibration of Radio-Frequency Antenna Arrays	23
-------------------------------------------------------------------------------------------------------------------	-----------

Wednesday, 22 September 2010

WA Installation Support

WA1 Optical Performance Monitoring	N/A
WA2 Fiber Optic Test in the Life Cycle of Commercial Aircraft	27
WA3 Practical Hands-On Fiber Optic Testing & Troubleshooting for Commercial Airplanes	N/A
WA4 Fiber Optic Test & Qualification Standarda for Ruggedized Environments	29
WA5 Troubleshooting Tools for Fiber Optics Cables	31

WB Integrated Photonics

WB1 Photonic Integrated Circuits for Broadband Analog Signal Processing: Progress and Challenges	33
WB2 Silicon Based Photonics	N/A
WB3 Effects of Lithographic Roughness and Sidewall Slope on the Optical Performance of Polymer Rectangular Waveguides: Modeling	35
WB4 Methods for Modeling Multimode Waveguides with Abrupt Changes in Propagation Axis	37

WC Avionics Architecture and Networking II

WC1 Channel Separation Using WDM Technology in Military Applications	39
WC2 Multi-Channel DWDM Transmitter Using Agile Electronics	41
WC3 Dual Laser Fast Wavelength Switched Optical Transmitter	43
WC4 Architecting the WDM LAN Ecosystem	45

Thursday, 23 September 2010

ThA Analog/RF Photonics II

ThA1	RF Photonic Links	N/A
ThA2	Sampled Analog Links	47
ThA3	A Photonic Neuromorphic Computational Primitive for Complex High Bandwidth Signal Processing	49
ThA4	Performance and Simulation for Transmission of RF and Digital Signals over Optical Fibers	51

ThB Advanced Photonic Technologies

ThB1	Defining Capabilities of Si and InP Photonics	53
ThB2	Field Repair Options for Fiber Optic Cable: Fusion Splicing, Mechanical Splicing, and Field Termination	55
ThB3	Pulse Position Modulation (PPM) Fiber Optic Architectures	57
ThB4	Reliability & Failure Analysis Methodology of Optoelectronics and its Extendibility for Future Technologies	59
