

**44th Annual 2010 IEEE
International Carnahan
Conference on Security
Technology**

(ICCST 2010)

**San Jose, California, USA
5 – 8 October 2010**

**IEEE Catalog Number: CFP10ICR-PRT
ISBN: 978-1-4244-7403-5**

Contents

Wednesday, October 6, 2010

SESSION 1 – Opening Remarks and Keynote Addresses

Hayes Ballroom — 8:00 -10:00 a.m.

Opening Remarks for the 44th Annual IEEE ICCST

Daniel Pritchard

Welcome

City of San José

The Application of Technology to the Broad Context

Bob Day

United States Northern Command Civil Support

Gary D. Koch, Jr.

SESSION 2 – Systems and Architecture (SYST1)

Hayes Ballroom — 10:30-11:50 a.m.

The Utility of Security Standards1

Jennifer Bayuk

Next Generation Command and Control Systems Architecture7

Edwin Morton

The Security Telecommunication System of the Vatican City State17

Roberto Cusani, Fabio Garzia, Enzo Sammarco

SESSION 3a – Information Security (INFO1)

Hayes Ballroom — 13:00-14:40 p.m.

A Privacy Protection Architecture in Sharing Biometric Information for NATO Applications23

Qinghan Xiao

A Proxy-based Real-time Protection Mechanism for Social Networking Sites30

Allen Y. Chang, Sheng-Chieh Chung, You Sheng Li, Dwen-Ren Tsai

Security in Multi-Tenancy Cloud35

Amarnath Jasti, Rajeev Nagaraj, Ravi Pendse, Payal Shah

Side Channel Analysis Countermeasures Using Obfuscated Instructions42

Yong C. Kim, Daniel R. Slaman, Eric D. Trias

Data Boxes in the Czech Republic and their Security52

Jindřich Kodl, Vladimír Smejkal

SESSION 3b – Systems Engineering and Design (SYST2)

Monterey Room — 13:00-14:40 p.m.

<i>Effectiveness Evaluation for Security System Based on Risk Entropy Model and Bayesian Network Theory</i>	57
Xi Guo, Ruimin Hu	
<i>Using SysML to Model Complex Systems for Security</i>	66
Lester A. Cano	
<i>Pattern Qualifications and Examples of Next-Generation Agile System-Security Strategies</i>	71
Rick Dove	
<i>Threat-Based Definition of IA and IA-enabled Products</i>	81
Philip Campbell, Mark Schaefer, and Mayuri Shakamuri	

SESSION 4a – Information Security (INFO2)

Hayes Ballroom — 15:00-17:00 p.m.

<i>An Anti-Fraud Mechanism on IP2PSTN Telephony</i>	85
Hsia-Ling Chiang, Shih-Ming Cho, Sebastian Lai, and Chia-Hwa Liu	
<i>Network Access Control (NAC): An Open Source Analysis of Architectures and Requirements</i>	94
Gloria J. Serrao	
<i>Network Algorithms for Information Analysis Using the Titan Toolkit</i>	103
Jeffrey Baumes, William C. McLendon III, Timothy M. Shead, Andrew Wilson, and Brian Wylie	
<i>Cyber Defense Network Maneuver Commander</i>	112
Paul Beraud, Alen Cruz, Suzanne Hassell, Juan Sandoval, and Jeffrey J. Wiley	
<i>Cyber Security Analysis Testbed: Combining Real, Evaluation, and Simulation</i>	121
John Eldridge, Ron Olsburg, Vincent Urias, and Brian Van Leeuwen	
<i>High Stability Windows Programming for Real Time Control</i>	127
Bradd Lee Belasco	

SESSION 4b – X-Ray Screening and Imaging (SCAN1)

Monterey Room — 15:00-17:00 p.m.

<i>Effectiveness of Computer-based Training for Improving Detection of Improvised Explosive Devices</i>	134
Diana Hardmeier, Moritz Jaeger, Rebekka Schibli, and Adrian Schwaninger	
<i>Scatter Enhanced 3D X-ray Imaging for Materials Identification</i>	142
Jer Chan, Paul Evans, Simon Godber, Ian Peatfield, and Xun Wang	
<i>Can the Difficulty Level Reached in Computer-Based Training Predict Results in X-ray Image Interpretation Tests?</i>	148
Marcia Mendes, Stefan Michel, and Adrian Schwaninger	
<i>Enhanced Color Coding Scheme for Kinetic Depth Effect X-ray (KDEX) Imaging</i>	155
Jer Chan, Paul Evans, and Xun Wang	

<i>Applying Data Mining to False Alarm Reduction in an Aviation Explosives Detection System</i>	161
Todd Gable and Matthew Merzbacher	
<i>Autonomous Surveillance Robots with Sodar Detection and Autonomous Navigation</i>	165
Evaristo J. Abirl, Miguel Calvo, Sergio Cerezal, Javier Duran, Juan F. García, Alberto Izquierdo, Vicente Matellán, Francisco J. Rodriguez, and Juan J. Villacorta	

Thursday, October 7, 2010

SESSION 5a – Face Recognition and Verification (BIOM1)

Hayes Ballroom — 8:30-10:10 a.m.

<i>A Study of Users' Acceptance and Satisfaction of Biometric Systems</i>	170
Mohamad El-Abed, Romain Giot, Baptiste Hemery, and Christophe Rosenberger	
<i>Pose Estimation and Conversion to Front Viewing Facial Image Using 3D Head Model</i>	179
Jia-Guu Leu, Chang-En Pu, and Jyh-Bin Shiau	
<i>Face Segmentation: A Comparison Between Visible and Thermal Images</i>	185
Virginia Espinosa-Duró, Marcos Faundez-Zanuy, and Jiří Mekyska	
<i>Discriminative Multi-Projection Vectors: Modifying the Discriminative Common Vectors Approach for Face Verification</i>	190
Jesús B. Alonso, Marcos del Pozo-Baños, Miguel A. Ferrer, and Carlos M. Travieso	
<i>Facial Image Processing for Facial Analysis</i>	198
Moi Hoon Yap, Bashar Rajoub, Hassan Ugail, and Reyer Zwiggelaar	

SESSION 5b – Security System Design (PHYS1)

Monterey Room — 8:30-10:10 a.m.

<i>Design of a Physical Security Perimeter Fencing System</i>	205
Han Lin, Thomas Mack, and Michael Ross	
<i>Design, Implementation and Migration of Security Systems as an Extreme Project</i>	211
Carol Scharmer and David Trujillo	
<i>Constructing a Risk Dependency-based Availability Model</i>	218
Hui-An Sang and Dwen-Ren Tsai	
<i>Use of Hybrid Technologies in Highly Demand Reliability Security Systems</i>	221
David Trujillo	
<i>Video Performance for High Security Applications</i>	230
Jack C. Connell and Bradley C. Norman	

SESSION 6a – Biometrics and Evaluations (BIOM2)

Hayes Ballroom — 10:30-12:10 p.m.

<i>Examination of Fingerprint Image Quality and Performance on Force Acquisition vis-à-vis Auto-capture</i>	237
Tae Bong Lee, Stephen Elliott, Shimon Modi, and Benny Senjaya	
<i>Fingerprint Recognition Performance Evaluation for MobileID Applications</i>	243
Stephen J. Elliott, Shimon Modi, Ashwin Mohan, and Benny Senjaya	

<i>Compress Data Format for Handwritten Signature Biometrics</i>	250
Richard Guest, Michael G. Lorenz, Luis Mengibar-Pozo, and Oscar Miguel-Hurtado	
<i>An Evaluation of Human Biometric Sensor Interaction Using Hand Geometry</i>	259
Stephen J. Elliott, Eric P. Kukula, Benny Senjaya, Mark Wade, James M. Werner	
<i>Improving Security in ID Tokens Through HW/SW Co-Design</i>	266
Judith Liu-Jimenez, Oscar Miguel-Hurtado, and Raul Sanchez-Reillo	

SESSION 6b – Risk, Modeling, and Simulation (RISK)

Monterey Room — 10:30-12:10 p.m.

<i>Smart Power Grid Security: A Unified Risk Management Approach</i>	276
Partha Datta Ray, Rajgopal Harnoor, and Mariana Hentea	
<i>Risk-Based Cost-Benefit Analysis for Security Assessment Problems</i>	286
John F. Clem, John L. Darby, Katherine Dunphy-Guzman, John P. Hinton, Kim W. Mitchiner, and Gregory Wyss	
<i>Active and Latent Failure Conditions Leading to Human Error in Physical Security</i>	296
Brian Hennessey	
<i>External and Internal Influences on the Security Control Process at Airports</i>	301
Franziska Hofer, Michael Lipphardt, and Olive E. Wetter	
<i>Application of Enterprise Modeling and Analysis to the Transportation Security Administration’s Air Cargo Security Cost Estimation Project</i>	310
John Nestor, Rekha Pillai, and Ed Rao	

SESSION 7a – Biometrics and Evaluations (BIOM3)

Hayes Ballroom — 13:00-14:40 p.m.

<i>Intra-Modal Biometric System Using Hand-Geometry and Palmprint Texture</i>	318
Miguel A. Ferrer, Juan José Fuentes, and Carlos M. Travieso	
<i>Human Versus Biometric Detection of Texture Similarity in Left and Right Irises</i>	323
Kevin W. Bowyer, Samuel Fenker, and Stephen Lagree	
<i>Establishment of Baseline Performance for “End-to-End” Biometric System Evaluations</i>	330
Francisco J. Diez-Jimeno, Belen Fernandez-Saavedra, Rick Lazarick, and Raul Sanchez-Reillo	
<i>Signature Verification Using Local Directional Pattern (LDP)</i>	336
Jesús B. Alonso, Miguel A. Ferrer, Carlos M. Travieso, and Francisco Vargas	
<i>Analysis on the Resolution of the Different Signals in an Online Handwritten Signature Verification System Applied to Portable Devices</i>	34
Aitor Mendaza-Ormaza, Oscar Miguel-Hurtado, Raul Sánchez-Reillo, and Jaime Uriarte-Antonio	

SESSION 7b – Wireless and Communications (COMM)

Monterey Room — 13:00-14:40 p.m.

<i>Potential Uses of a Wireless Network in Physical Security Systems</i>	351
Edward Witzke	
<i>Software Defined Radio Technologies for Emergency and Professional Wide Band Communications</i> ...	357
Mateo Burgos-García, Cristina de la Morena-Álvarez-Palencia, and David Rodríguez-Aparicio	

<i>A Wireless Perimeter Protection and Intrusion Detection System</i>	364
Vibeke Libby	
<i>Classification of Audio Sources Using Neural Network Applicable in Security or Military Industry</i>	369
Petr Dostálek, Vojtěch Křesálek, and Milan Navrátil	

SESSION 8 – Detection Technologies (SENS1)

Hayes Ballroom — 15:00-16:20 p.m.

<i>Automatic Recognition of Malicious Intent Indicators</i>	375
Robert Joe Fogler, Casey Giron, Mark W. Koch, Hung D. Nguyen, and Mark L. Yee	
<i>Impact of New Technology on Bistatic Microwave Intrusion Sensors</i>	381
Shannon Cramp	
<i>Performance Investigation of Real-time Fiber Optic Perimeter Intrusion Detection System Using Event Classification</i>	387
Jim Katsifolis and Seedahmed S. Mahmoud	
<i>Unproven Screening Devices Threaten the Lives of Police and Military</i>	394
Dale W. Murray	

Friday, October 8, 2010

SESSION 9 – Detection Technologies (SENS2)

Hayes Ballroom — 8:30-9:50 a.m.

<i>Explosive Detection Equipment Program</i>	403
Melinda K. McPherson	
<i>Comparative Evaluation of Commercial Off-The-Shelf (COTS) Colorimetric Explosive Detection Equipment (EDE)</i>	407
Cristina Hoffer and Adanna Vardian	
<i>Combining FM Broadcast, Accelerometers, IEEE 892.15.4 Wireless and GPS to Secure Maritime Containers Worldwide</i>	411
André Gagnon	

SESSION 10 – Imaging and Tracking (IMAG)

Hayes Ballroom — 10:10-11:50 a.m.

<i>Active Zoom Cameras Control System Using Stereo Parallax</i>	418
Yan Gao and XiaoLin Zhang	
<i>IR Revolution 360 Infrared Panoramic Camera: The Ultimate Solution for Perimeter Security</i>	425
Vincent Leboucher	
<i>Traffic Monitoring and Event Analysis Based on 3D Video Process</i>	429
Chun-Jung Chen, Wei-Leih Hsu, and Chang-Lung Tsai	
<i>Advanced Color Image Demosaicing in Security Imaging Technology</i>	434
Petr Dostal and Milos Kilma
