### CEC 2010 Long Paper Sessions

#### Session 1: E-Commerce and Enterprise Architectures

A Flexible Schedule Reservation Scheme for Real-Time Service-Oriented Architecture .....	1
<i>Weiran Nie, Mark Panahi, and Kwei-Jay Lin</i>	
A Scalable Interoperability Architecture for Certified Mail Systems .....	9
<i>Arne Tauber and Thomas Rössler</i>	
Looking into a REST-Based Universal API for Database-as-a-Service Systems .....	17
<i>Till Haselmann, Gunnar Thies, and Gottfried Vossen</i>	

#### Session 2: E-Commerce Economics

Tâtonnement Mechanisms for Combinatorial Exchanges .....	25
<i>Shantanu Biswas and Y. Narahari</i>	
Enhancing Continuous Double Auction for Handling Homogeneous Goods in Online Auctions .....	32
<i>Huiye Ma, Wenyan Hu, and Ho-fung Leung</i>	
A Manageable Small World for Collaborative Enterprises Social Network .....	40
<i>Shaohua Liu, Yinglong Ma, Tianlu Mao, Junsheng Yu, Siyu Liu, and Xiaodong Chen</i>	

### **Session 3: Business Process Management**

Design-Time Process Optimization through Optimization Patterns and Process Model Matching .....	48
<i>Florian Niedermann, Sylvia Radeschütz, and Bernhard Mitschang</i>	
Advanced Migration Strategies for Adaptive Process Management Systems .....	56
<i>Stefanie Rinderle-Ma and Manfred Reichert</i>	
Towards Executing ebBP-Reg B2Bi Choreographies .....	64
<i>Andreas Schönberger and Guido Wirtz</i>	

### **Session 4: Models in E-Commerce and Enterprise Computing**

A Document Model Management Framework Based on Core Components .....	72
<i>Michael Strommer, Christian Pichler, and Philipp Liegl</i>	
An MDE Approach to Design Enterprise Architecture Viewpoints .....	80
<i>Carlos Peña and Jorge Villalobos</i>	
On Model Checker Based Testing of Electronic Contracting Systems .....	88
<i>Abubkr Abdelsadiq, Carlos Molina-Jimenez, and Santosh Shrivastava</i>	

### **Session 5: Decision Support in E-Commerce**

Mobile Product Browsing Using Bayesian Retrieval .....	96
<i>Christoph Lofi, Christian Nieke, and Wolf-Tilo Balke</i>	
Strategic Provider Selection in a Policy-Based Helping Scenario .....	104
<i>Christian Hütter, Jing Zhi Yue, Christian von der Weth, and Klemens Böhm</i>	
Impacts of Decoy Effects on the Decision Making Ability .....	112
<i>Erich Christian Teppan, Gerhard Friedrich, and Alexander Felfernig</i>	

### **Session 6: Security and Trust**

Tackling Compliance Deficits of Data-Protection Law with User Collaboration - A Feasibility Demonstration with Human Participants .....	120
<i>Thorben Burghardt, Erik Buchmann, Klemens Böhm, Jürgen Kühling, Simon Bohnen, and Anastasios Sivridis</i>	
On Evolving Organizational Models without Losing Control on Authorization Constraints in Web Service Orchestrations .....	128
<i>Stefanie Rinderle-Ma and Maria Leitner</i>	
Privacy-Preserving Outsourced Profiling .....	136
<i>Debmalya Biswas, Stephan Haller, and Florian Kerschbaum</i>	

### **CEC 2010 Short Paper Sessions**

## **Session 7: Economic Issues**

Customers' Preferences for Infrastructure Cloud Services .....	144
<i>Arun Anandasivam, Philipp Best, and Simon See</i>	
Enabling Cloud Service Reservation with Derivatives and Yield Management .....	150
<i>Thomas Meinel, Arun Anandasivam, and Michiaki Tatsubori</i>	
Effects of Evaluation Information Disclosure in E-Commerce Systems .....	156
<i>Koki Murakata and Tokuro Matsuo</i>	

## **Session 8: IT Issues in E-Commerce and Enterprise Computing**

Managing the Quality of Modular Services — A Process-Oriented Aggregation of Expected Service Levels Based on Probability Distributions .....	162
<i>Clemens van Dinther, Rico Knapper, Benjamin Blau, Tobias Conte, and Arun Anandasivam</i>	
Managing Workload Importance in Enterprise DBMSs .....	168
<i>Baoning Niu, Yayan Xue, Patrick Martin, and Wendy Powley</i>	

## **Session 9: Knowledge Management**

Ontology-Enabled Knowledge Management in Environmental Regulations and Incentive Policies: The ERIPAD System .....	174
<i>Seog-Chan Oh, Xiang Zhao, Stephan R. Biller, Kisup Lee, Ho-Im Jung, Mye Sohn, and Heesang Lee</i>	
Interactive Visual Analysis of Hierarchical Enterprise Data .....	180
<i>Yu-Hsuan Chan, Kimberly Keeton, and Kwan-Liu Ma</i>	
Sign-Based Semantics-Enriched Social Computing .....	188
<i>Jingzhi Guo</i>	

## **Session 10: Privacy and Trust**

TagPay: A Payment Atomic RFID Ownership Transfer Protocol .....	196
<i>Himanshu Pagey and Kien A. Hua</i>	
Privacy in Service Oriented Architectures: SOA Boundary Identity Masking for Enterprises .....	204
<i>B. Liver, R. Di Paolo, and K. Tice</i>	
Mining and Composition of Emergent Collectives in Mixed Service-Oriented Systems .....	212
<i>Daniel Schall and Florian Skopik</i>	

<b>Author Index</b> .....	220
