

2010 International Waterside Security Conference

(WSS 2010)

**Carrara, Italy
3 – 5 November 2010**

**IEEE Catalog Number: CFP1064L-PRT
ISBN: 978-1-4244-8894-0**

TABLE OF CONTENTS

SURVEILLANCE SENSORS

An Above-Water Testing's Result of Experimental Surveillance Radar with 64– Channels Digital Antenna Array	1
<i>Slyusar, Vadym</i>	
Utilisation of the SCANTER 5000 and 6000 Series Next Generation Solid State, Coherent, Frequency Diversity and Time Diversity Radar with Software Defined Functionality for Security Applications	5
<i>Pedersen, Jens</i>	

CONCEPTS

Port Security Framework in the EU: a Systematic Approach	13
<i>Andritsos, Fivos</i>	
Joint Maritime Evaluation of Transit Escorts Joint Feasibility Study / Quick Reaction Test	21
<i>Truver, Scott</i>	
The Positive Force of Deterrence Estimating the Quantitative Effects of Target Shifting	31
<i>Kessel, Ronald</i>	

THREATS AND RISK

Risk Models for Maritime Security, Area and Port Force Protection	36
<i>Mirshak, Ramzi</i>	
Integrated Visualization and Analysis of Threats for Marine and Coastal Regions via a Web-based GIS	44
<i>Stepnowski, Andrzej</i>	
Unmanned Systems: an Emerging Threat to Waterside Security. Bad Robots are Coming	50
<i>Patterson, Mark</i>	

SPECIAL SESSION ENVIRONMENTAL

Acoustic Propagation in Very Shallow Water	57
<i>Porter, Michael</i>	
Measured and Modeled High-Frequency Acoustic Impulse Responses in Very Shallow Water	61
<i>Nosal, Eva-Marie</i>	
Linkage of an Operational Mesoscale Model to an Urban Emergency Assessment System for Prediction of Windborne Contaminants: Applications for Waterside Security	N/A
<i>Holt, Teddy</i>	
Sonar Performance Variability in Shallow Harbours	N/A
<i>Crowe, Vance</i>	

CONCEPTS

An End-to-End Maritime Surveillance Simulator Prototype for the Assessment of System Effectiveness	64
<i>Bryan, Karna</i>	
Vital Electronics, the Key to the Developing Dynamic GIS for the Baltic or Other Maritime Environments	69
<i>Kochanski, Ted</i>	
A Port Waterside Security Systemic Analysis	77
<i>Garnier, Bernard</i>	
Evaluation of Waterside Security Processes and Systems by Modelling and Simulation	83
<i>Schmid, Jörg</i>	

FUSION

Exploitation of Maritime Domain Ontologies for Anomaly Detection and Threat Analysis	88
<i>Roy, Jean</i>	
Multiple Sensor Fusion for Effective Abnormal Behaviour Detection in Counter-Piracy Operations	96
<i>Andersson, Maria</i>	
Object-Oriented Sensor Data FUSION for Wide Maritime Surveillance	103
<i>Fischer, Yvonne</i>	
Under-Keel Vessels Inspection in Ports	N/A
<i>Garnier, Bernard</i>	

SURVEILLANCE SENSORS

Screening Maritime Shipping Containers for Weapons of Mass Destruction	109
<i>Rudzinski, Christina</i>	
The Problem of Directional Sensors and Effectors : Dwell Time and Aiming Errors	116
<i>Kessel, Ronald</i>	
Advanced Dynamic Magnetometers for Persistent Surveillance	121
<i>Baglio, Salvatore</i>	

DISTRIBUTED SYSTEMS

A Multi-agent Concept for Multi-sensor Surveillance	125
<i>Ehlers, Frank</i>	
Fused Passive Acoustic and Electric Detection of Divers	133
<i>Lennartsson, Ron K.</i>	
Design and Simulation of a Distributed Sensor Network for Passive Emitter Tracking and Coastal Surveillance	141
<i>Benvenuti, Dario</i>	

NON LETHAL RESPONSE

The Effectiveness of Dazzlers for Maritime Security	146
<i>Kessel, Ronald</i>	
Laser Light Stimuli for Maritime Warning and Repulsion: Evolving Concepts and Capabilities	152
<i>Beer, Jeremy</i>	

SURVEILLANCE SENSORS

Modern Electro-Optic Imaging Systems for Maritime Surveillance Applications	155
<i>Künzner, Nicolai</i>	
Fully Automatic Video Analytics System Dedicated to Maritime Surveillance	159
<i>Bernard Arata</i>	
On Detecting Surface and Sub-Surface Bodies in Water By Virtue of Their Surface and Water Column Wakes	167
<i>Benilov, Alexander</i>	

INTEGRATED SYSTEMS

Australian Perspectives on Waterside Security	175
<i>Hallett, Mark</i>	
CuwPS: An Integrated System for the Detection, Localization, and Classification of Underwater Threats	181
<i>Percival, Aaron</i>	
Archimede. Integrated Network- Centric Harbour Protection System	188
<i>Cresta, Matteo</i>	

NON LETHAL RESPONSE

Integrating Non-Lethal Response Measures within Existing Surface Platform Security Instructions.....	192
<i>Strode, Christopher</i>	
Experimental Evaluation of a Dedicated Underwater Loudhailer for Diver Warning.....	199
<i>te Raa, Lianke</i>	
Time Reversal Acoustic Approach for Non-Lethal Swimmer Deterrent	208
<i>Sutin, Alexander</i>	

SURVEILLANCE SENSORS

Integrated Underwater Intrusion Detection System.....	213
<i>Thomas Meurling</i>	
Stevens Passive Acoustic System for Underwater Surveillance	221
<i>Sutin, Alexander</i>	
BlueView 2D and 3D Sonar Systems for Water Side Security Applications.....	N/A
<i>Griffith, Jamie</i>	

INTEGRATED SYSTEMS

The Sea-and Harbour Surveillance System.....	N/A
<i>Kremer, Klaus</i>	
Vessel Protection in Expeditionary Operations at Anchor and in Foreign Harbours	227
<i>Müller, Rolf</i>	
Network Effects Protection Tailored to Unique Naval Engagements (NEPTUNE™)	233
<i>Castellano, David</i>	

NON-LETHAL RESPONSE

Experimental Evaluation of a Dedicated Underwater Air Gun for Diver Deterrence.....	236
<i>Driessen, Frank</i>	
Concept of Using Drogue Chutes as a Ship Decelerator System.....	243
<i>Chiang, Lilian</i>	
Collateral Damage Risk: Quantifying the Water Surface Bullet Ricochet Problem.....	248
<i>Mirshak, Ramzi</i>	

SURVEILLANCE SENSORS

Ship Detection Using High Resolution Satellite Imagery and Space-Based AIS	255
<i>Hannevik, Tonje</i>	
Concurrent Use of Satellite Imaging and Passive Acoustics for Maritime Domain Awareness.....	261
<i>Bruno, Michael</i>	
Tracking Ship Traffic with Space-Based AIS: Experience Gained in First Months of Operations.....	269
<i>Olsen, Richard</i>	

INTEGRATED SYSTEMS

Towards a Passive Acoustic Underwater System for Protecting Harbours Against Intruders.....	277
<i>de Theije, Pascal</i>	
Maritime Surveillance with Integrated Systems	284
<i>Bürkle, Axel</i>	
Operational Realities of an Integrated Waterside Security System	N/A
<i>Balloch, Rob</i>	

THREATS AND RISK

Physical Modeling of Concrete Gravity Dam Vulnerability to Explosions	292
<i>Vanadit-Ellis, Wipawi</i>	
Maritime Threat Analysis – The East African Dimension	N/A
<i>King, Adrian</i>	
How to Avoid Being Attacked by Corporate Pirates – a Paper which Helps Stakeholders Differentiate Between the good, the Bad and the Ugly!	N/A
<i>Hankey, Mark</i>	

SURVEILLANCE SENSORS

Timing Synchronization of Independent Transmitting and Receiving Acoustic Devices	303
<i>Fedenczuk, Tom</i>	
Demonstration of the Advantages Offered by an Ultra- Wideband (100 – 400 kHz) Sonar System for Simultaneous Planar Imaging, Volumetric Imaging and Doppler in Harbour Surveillance Applications	307
<i>Nicolaidis, Kyriacos</i>	

INTEGRATED SYSTEMS

Enhanced SISMARIS (Système d’Information et de Surveillance MARitime Etendu pour l’Identification des Comportements Suspects) Enhanced Maritime Surveillance and Information System for Abnormal Behaviour Identification	312
<i>Claisse, Stephane</i>	
Integrated underwater surveillance system	N/A
<i>Løvik, Arne</i>	

INTERAGENCY COOPERATION

Mine Warfare (MIW) Community of Interest (COI) Efforts Towards the Development of Future Data Standards to Enable a Net-Centric Capability	317
<i>Cramer, Megan</i>	
Port and Harbour Protection - Results of ITN as Lead Nation of DAT POW#2	N/A
<i>CC Ronco, Ettore</i>	

SENSOR PROCESSING

Target Detection and Tracking in Shallow Water using Maximal Length Sequences	321
<i>Jobst, William</i>	
Filtering Speckle Noise in SAS Images to Improve Detection and Identification of Seafloor Targets	326
<i>Lopera, Olga</i>	

GAMING & PLANNING

SAFE-PORT project: an Approach to Port Surveillance and Protection	330
<i>Manso, Marco</i>	
Applying Military Gaming to Secure the Waterside	339
<i>Drake, Bradley</i>	
Modeling the Response to Terrorist Port Intrusion	342
<i>Mendes, Pedro</i>	

UNMANNED VEHICLES

Harbour Protection Systems Integrating Unmanned Surface and Underwater Vehicles	N/A
<i>Caiti, Andrea</i>	

Laser Scanners for Autonomous Surface Vessels in Harbour Protection: Analysis and Experimental Results	347
<i>Pastore, Thomas</i>	
Criteria and Rule Based Obstacle Avoidance for USVs	353
<i>Tan, Aaron</i>	

SENSOR PROCESSING

Evaluation of an HF-radar Ship Detection and Tracking Algorithm by Comparison to AIS and SAR Data	359
<i>Gurgel, Klaus-Werner</i>	
Classification of Small Boats in Infrared Images for Maritime Surveillance	365
<i>Teutsch, Michael</i>	
High Frequency Radar for Coastal Marine Monitoring of Currents and Vessels	372
<i>Laws, Kenneth</i>	

INTEGRATED SYSTEMS

Robust Layer-based Boat Detection and Multi-targettracking in Maritime Environments	377
<i>Krüger, Wolfgang</i>	
Stochastic Model for Layered Defence	384
<i>Nguyen, Bao</i>	
Long Term Capability Requirements as Derived from the Long Term Requirements Study	392
<i>Brownlee, James</i>	

UNMANNED VEHICLES

The Detection and Disposal of IED Within Harbor Regions Using AUVs, Smart ROVs and Data Processing/FUSION Technology	398
<i>Reed, Scott</i>	
Contribution of Unmanned Aerial System to Waterside Security	N/A
<i>Protti, Marco</i>	
Guidance of an Unmanned Underwater Vehicle Using a Passive Acoustic Threat Detection System	405
<i>Dzielski, John</i>	

SENSOR PROCESSING

Automatic Signal Processing of Forward Looking Surveillance Sonar Data in Low Signal-to- Noise Ratio Conditions	409
<i>Maeda, Fumitaka</i>	
Sub-Bottom Synthetic Aperture Imaging Sonar System Using an AUV and an Autonomous Surface Tracking Vehicle for Searching for Buried Shells of Toxic Chemicals	416
<i>Asada, Akira</i>	

NETWORKED SYSTEMS

MaritimeManet - Mobile Ad -hoc Networking at Sea	419
<i>Laarhuis, Jan</i>	
Net Based Water Side Security Applications. From Small Solutions to Maritime Security Networks	425
<i>Müller, Rolf</i>	
Maritime Surveillance in the Intracoastal Waterway using Networked Underwater Acoustic Vector Sensors Integrated with a Regional Command Center	431
<i>Rice, Joseph</i>	
Author Index
