

2011 Fifth Latin-American Symposium on Dependable Computing Workshops

(LADC-W 2011)

**Sao Jose dos Campos, SP, Brazil
25 – 29 April 2011**

**IEEE Catalog Number: CFP1194N-PRT
ISBN: 978-1-4577-0194-8**

Fifth Latin-American Symposium on Dependable Computing Workshops

LADCW 2011

Table of Contents

Foreword.....	vii
Message from the First EHCoS Workshop	
General and Program Committee Chairs.....	ix
Message from the First RACI Workshop	
Chairs.....	x
Message from the Industrial Track Chairs.....	xi
First EHCoS Workshop Committees.....	xii
First RACI Workshop Committees.....	xiii
Industrial Track Organizing Committee.....	xiv

First Workshop on Exception Handling in Contemporary Software Systems (EHCoS)

eFlowMining: An Exception-Flow Analysis Tool for .NET Applications	1
<i>Israel Garcia and Nélio Cacho</i>	
Preserving the Exception Handling Design Rules in Software Product Line Context: A Practical Approach	9
<i>Ricardo J. Sales Júnior and Roberta Coelho</i>	
Analyzing Exceptional Interfaces on Evolving Frameworks	17
<i>Eiji Adachi Barbosa and Alessandro Garcia</i>	
Towards Agile Testing of Exceptional Behavior	21
<i>Rafael Di Bernardo, Fernando Castor, and Sérgio Soares</i>	
Towards the Definition of a Context-Aware Exception Handling Mechanism	25
<i>Delano Medeiros Beder and Regina Borges de Araújo</i>	
WSCA-DRIP: An Infrastructure to Web Service Composition Actions	29
<i>Renato de Jesus Manzoni, Amanda Nascimento, and Cecília Mary F. Rubira</i>	

First Workshop on Resilience Assessment of Critical Infrastructures (RACI)

A Model-Based Approach for Robustness Test Generation	33
<i>Thaise Yano, Eliane Martins, and Fabiano Luis de Sousa</i>	
Resilience Assessment of Critical Infrastructures: From Accidental to Malicious Threats	35
<i>Mohamed Kaâniche</i>	
Challenges in Safety Assessment of Complex Critical Infrastructures	37
<i>João Batista Camargo Jr. and Lucio F. Vismari</i>	
Evaluating Resilience of Multiple Infrastructures: Some Initial Challenges	39
<i>Robin E. Bloomfield</i>	

Industrial Track

WSRTesting: Hands-On Solution to Improve Web Services Robustness Testing	41
<i>G. Carrozza, A. Napolitano, N. Laranjeiro, and M. Viera</i>	
A Practical Formal Approach for Requirements Validation and Verification of Dependable Systems	47
<i>Miriam C. Bergue Alves, Doron Drusinsky, and Man-Tak Shing</i>	
Qualification and Selection of Off-the-Shelf Components for Safety Critical Systems: A Systematic Approach	52
<i>Christian Esposito, Domenico Cotroneo, Ricardo Barbosa, and Nuno Silva</i>	
Dependability Issues of INPE's ESA/CCSDS Telecommand/Telemetry Subsystem	58
<i>Eduardo Augusto Bezerra, Luciano Rigelo Azevedo, and Eurides Michel da Silva</i>	
Author Index	64
