TABLE OF CONTENTS

CHEESEMAN AWARD - EUROPEAN ROTORCRAFT FORUM PAPER

- An Evaluation of Active Control of Structural Response as a Means of Reducing Helicopter Vibration.....3
-A.E. Staple, Westland Helicopters Ltd.

DYNAMICS I

- Test and Evaluation of Fuselage Vibration Utilizing Active Control of Structural Response (ACSR) Optimized to ADS-27.....21
-W.A. Welsh, and P.C. Von Hardenberg, P.W. Von Hardenberg, Sikorsky Aircraft Div., UTC, and A.E. Staple, Westland Helicopters Ltd.
- An Experimental and Analytical Investigation of Dynamic Stall Effects on Isolated Rotor Flap-Lag Stability.....39
-D. Barwey, G.H. Gaonkar, Florida Atlantic University and R.A. Ormiston, Aeroflightdynamics Directorate, U.S. Army AVSCOM
- Development of UMARC (University of Maryland Advanced Rotorcraft Code)55
-G.S. Bir, I. Chopra, The University of Maryland and K. Nguyen, NASA Ames Research Center
- On Chaos Methods Applied to Higher Harmonic Control.....79
-M.M. Sarigul-Klijn, U.S. Navy, R. Kolar, E.R. Wood, Naval Postgraduate School, F.K. Straub, McDonnell Douglas Helicopter Co.
- Frequency-Response Method for Rotorcraft System Identification with Applications to the BO-105 Helicopter.....99
-M.B. Tischler, Aeroflightdynamics Directorate, U.S. Army AVSCOM and M.G. Cauffman, Sterling Federal Systems, Inc.
- Finite Element Model Reduction Application to Parametric Studies and Optimization of Rotorcraft Structures.....139
-M. Hashemi-kia and M. Toossi, McDonnell Douglas Helicopter Co.

AIRCRAFT DESIGN I

- Preliminary Assessment of a Supersonic STVOL Flight Research and Demonstration Aircraft.....157
-J.J. Samuels and G.A. Payne, NASA Ames Research Center
- Numerical Simulation of Powered-Lift Flows.....165
-W.R. VanDalsem, K. Chawla, M.H. Smith, NASA Ames Research Center and P. Abeloff, University of Colorado
- V/STOL Concepts for Special Operations.....183
-A.D. Disselkoen, U.S. Air Force

Trail Rotor V/STOL Aircraft, Features and Applications.....193
-K.W. Sambell, D.S. JanakiRam, and L.J. Silverthorn, McDonnell
Douglas Helicopter Co.

PROPULSION

Advanced Methods of Helicopter Propulsion System Integration/Air
Management System Design.....213
-K.E. Boyd and E. Murgia, McDonnell Douglas Helicopter Co.

Advanced Rotorcraft Transmission Program.....227
-R.C. Bill, Propulsion Directorate, U.S. Army AVSCOM

Diagnostic Systems Research Applicable to Helicopter
Transmissions.....239
-H.J. Rose, Boeing Helicopters

Modeling of Helicopter Transmissions for Vibration and Noise
Prediction.....249
-M. Meyyappa, M. Toossi, and M. Hashemi-kia, McDonnell Douglas
Helicopter Co.

Passive Infrared Ice Detection for Helicopter Applications.....261
-A.L. Dershowitz and R.J. Hansman, Jr., Massachusetts Institute
of Technology

Icing Tests of a Model Main Rotor.....267
-T.H. Bond, NASA Lewis Research Center, R.J. Flemming, Sikorsky
Aircraft Div., UTC, and R.K. Britton, Sverdrup Technology, Inc.

AVIONICS

Advanced Helicopter Avionics.....285
-A. Raz, Elbit Computers Ltd.

Increasing Helicopter Survivability Through Information
Fusion.....289
-J. Dasaro, Aviation Research and Development Activity, U.S.
Army AVSCOM

Manned Simulation Study Results Concerning Design Parameters for
an Effective Helicopter Obstacle Avoidance System (OASYS).....295
-P.H. Cerchie, B. Shipley, R.B. Aust, and J.W. Wasson, McDonnell
Douglas Helicopter Co., and D. Reago, U.S. Army CNVEO

CGAD Technical Data System.....305
-D.R. Nelson, Rockwell International

Flight Data Acquisition Methodology for Validation of Passive
Ranging Algorithms for Obstacle Avoidance.....311
-P.N. Smith, NASA Ames Research Center

ACOUSTICS

- Can Shock Waves on Helicopter Rotors Generate Noise? A Study of
Quadrupole Source.....323
-F. Farassat, NASA Langley Research Center, and H. Tadghighi,
McDonnell Douglas Helicopter Co.
- The Acoustic Results of a United Technologies Scale Model Helicopter
Rotor Tested at DNW.....347
-S.R. Liu, Aeroflightdynamics Directorate, U.S. Army AVSCOM,
and M.A. Marcolini, NASA Langley Research Center
- Prediction of Blade-Vortex Interaction Noise Using Airloads
Generated by a Finite-Difference Technique.....367
-H. Tadghighi, A.A. Hassan, and B. Charles, McDonnell Douglas
Helicopter Co.
- Three-Dimensional Shock Fitting for Transonic Rotor Acoustics..379
-V.L. Wells, T.E. Vincent, Arizona State University, and J.W.
Rutherford, McDonnell Douglas Helicopter Co.

DYNAMICS II

- Validation of a New General Aerospatale Aeroelastic Rotor Model
Through the Wind Tunnel and Flight Tests Data.....389
-M. Allongue and T. Krynski, Aerospatale Helicopter Division
- A Modal-Based Procedure for Efficiently Predicting Low Vibration
Rotor Designs.....403
-W.H. Weller and M.W. Davis, United Technologies Research Center
- Application of Nonlinear Programming Techniques to Dynamic
Correlation and Design of Helicopter Structures.....417
-T.L.C. Chen, W.J. Twomey, and S. Pizzolato, Sikorsky Aircraft
Div., UTC
- Nonlinear Coupled Rotor-Fuselage Helicopter Vibration Studies with
Higher Harmonic Control.....429
-P.P. Friedmann, C. Venkatesan, and I. Papavassiliou, University
of California, Los Angeles
- Hingeless Rotor Blade Stability Using a Coupled Aeroelastic Analysis
with Refined Aerodynamic Modeling.....447
-M.S. Torok and I.Chopra, University of Maryland
- An Enhanced Integrated Aerodynamic Load/Dynamic Approach to Optimum
Rotor Blade Design.....459
-A. Chattopadhyay, Analytical Services & Materials Inc. and Y.D.
Chiu, Lockheed Engineering & Sciences Co.

AIRCRAFT DESIGN II

Status of Integrated Multidisciplinary Rotorcraft Optimization Research at the Langley Research Center.....	471
-W.R. Mantay, Aerostructures Directorate, U.S. Army AVSCOM, and H.M. Adelman, NASA Langley Research Center	
MBB's BO 108 Design and Development.....	483
-H.B. Huber and C. Schick, MBB	
The Franco-German Tiger Program, A Development Status.....	497
-K. Schymanietz, MBB and M. Torres, Aerospatiale Helicopter Division	
Integrated Design Environment-Aircraft (IDEA).....	509
-S.A. Meyer, McDonnell Douglas Helicopter Co.	
Advanced Cargo Aircraft Size Optimization.....	523
-C.P. Van Buiten, Sikorsky Aircraft Div., UTC	
Advanced Rotorcraft V/STOL-Rotary Wing with Airplane Qualities.....	535
-J.J. Schneider and J.B. Wilkerson, Boeing Helicopters	
Tailboom Design of the 520N NOTAR Helicopter.....	549
-C.S. Rao, McDonnell Douglas Helicopter Co.	
Tiltrotor Aerodynamic Blade Design by Numerical Optimization Method.....	557
-J. Liu, D.J. Paisley, Boeing Helicopters, and J. Hirsh, Boeing Computer Services	
PRODUCT SUPPORT	
Aging Army Aircraft.....	571
-L. Neri, U.S. Army Aviation Systems Command	
Maintenance Training in Support of the Army's Aging Helicopter Fleet.....	581
-T.M. Walker, U.S. Army Aviation Logistics School	
Material Support Issues for Aging Rotary Wing Aircraft.....	591
-S.L. Ritchey, Naval Aviation Depot	
The V-22 Osprey Logistics Program Preparing for the Future.....	597
-H.E. Wheeler, Boeing Helicopters	
ADDSS/EDRAS: Influencing Preliminary Design for Enhanced Supportability.....	605
-R. Beggs, Boeing Helicopters	

A Management Approach to Minimize the Impact of Aircraft Operations and Maintenance on the Environment.....613
-M.E. O'Mealy, T.S. Shillito, and D.J. Asiello, Naval Air Systems Command

CREW STATIONS AND HUMAN FACTORS

The Role of Mission/Task Analysis in Reducing Weapon System Costs and Risks.....619
-T.B. Aldrich and B.E. Hamilton, Sikorsky Aircraft Div., UTC, and S.M. Szabo, CAE-Link Corporation

A Synthesis of MicroSAINT Computer Simulation and McCracken-Aldrich Workload Estimates to Predict the Impact of Automatic Target Handoff System Avionics Integration on AH-64A Operator Performance.....631
-D.L. Hardin and T.W. Olsson, Rockwell International, and S.M. Szabo CAE-Link Corporation

Using HyperCard(R) in Crewstation Design: Beyond Rapid Prototyping.....645
-P.A. Casper, Sikorsky Aircraft Div., UTC

Helicopter Crew Station Design Using a Computerized Human Model.....649
-A.O. Bolukbasi and C.M. Bertone, McDonnell Douglas Helicopter Co.

Computer Aided Reflection Analysis.....655
-R.M. Beggs, Boeing Helicopters, and J. Sawaya, Boeing Computer Services

Oculometer-Developments Display Controls.....663
-C.C. Smyth and M.E. Dominessy, U.S. Army Human Engineering Laboratory

Night Vision Goggle Compatibility with Color Displays in Army Aircraft: A Discussion of Issues.....667
-T.W. Dennison, Sikorsky Aircraft Div. UTC

STRUCTURES & MATERIALS I

Structural Evaluation of Composite Fuselage Structure Fabricated Using a THERM-X (sm) Process.....671
-C. Kassapoglou, A.J. DiNicola, and J.C. Chou, Sikorsky Aircraft Div., UTC

Damage Resistance of Graphite/Epoxy Sandwich Panels Under Low Speed Impacts.....683
-P.H. Wilson Tsang and J. Dugundji, Massachusetts Institute of Technology

Static Testing of V-22 Airframe Structure.....	695
-W.J. Kesack and G.N. Bachman, Boeing Helicopters	
The Effect of the Fracture Process of the Strength of Composite Laminates.....	703
-C.W. Rogers, E.W. Lee, and D.A. Crane, Bell Helicopter Textron Inc.	
Evaluation of a Simplified Approach to In-Plane Shear Testing for Damage Tolerance Evaluation.....	713
-D. Weems and S. Llorente, Boeing Helicopters	
Tension Fatigue of Glass/Epoxy and Graphite/Epoxy Tapered Laminates.....	721
-G.B. Murri, T.K. O'Brien, Aerostructures Directorate, U.S. Army AVSCOM, and S.A. Salpekar, Analytical Services and Materials Inc.	
Composite Actuators/Components for Airborne Systems.....	735
-F. Ching, HR Textron Inc.	

AERODYNAMICS I

Aerodynamic Results of a Pressure-Instrumented Model Rotor Test at the DNW	743
-P.F. Lorber, United Technologies Research Center	
Direct Periodic Solutions of Rotor Free Wake Calculations by Inversion of a Linear Periodic System.....	757
-W.O. Miller and D.B. Bliss, Duke University	
An Assessment of Full Potential and Euler Solutions for Self-Generated Rotor Blade-Vortex Interactions.....	771
-A.A. Hassan, McDonnell Douglas Helicopter Co., C. Tung, Aeroflightdynamics Directorate, U.S. Army AVSCOM, and L.N. Sankar, Georgia Institute of Technology	
Model Tilt-Rotor Hover Performance and Surface Pressure Measurement.....	785
-C. Tung and L. Branum, Aeroflightdynamics Directorate, U.S. Army AVSCOM	
Computation and Measurement of the Flowfield Near a Swept Rotor Blade Tip in Hover.....	797
-N.M. Komerath, F.L. Tsung, S.G. Liou, and L.N. Sankar, Georgia Institute of Technology	
Results of Wake Surveys on Advanced Rotor Planforms.....	809
-G.J. Carlin and K.E. Farrance, Boeing Helicopters	

STRUCTURES & MATERIALS II

Finding the Needle in the Haystack: Results of the Army Flight Safety Parts Surveillance Program.....819
-R.W. Arden and C.A. Ross, U.S. Army Aviation Systems Command

Evaluation of Advanced Sandwich Structure Designed for Improved Durability and Damage Tolerance.....825
-S. Llorente, D. Weems, and R. Fay, Boeing Helicopters

Damage Tolerance Testing of SH-2 Seasprite Composite Main Rotor Blade.....833
-K.D. Klotzman and F.B. Clark, Kaman Aerospace Corporation

Damage Tolerance Assessment of the HH-53 Helicopter.....841
-D.E. Tritsch, G.J. Schneider, Sikorsky Aircraft Div., UTC, G. Chamberlain, Warner Robins Air Logistics Center, and J.W. Lincoln, Wright-Patterson Air Force Base

Safe Strength/Damage Tolerance Assessment V. a Fail-Safe Approach in the Design of the SH-2G Engine Mount Structure.....851
-C.D. Van Etten and P.E. Keary, Kaman Aerospace Corporation

A Computational Method for the Determination of Structural Reliability of Helicopter Dynamic Components.....859
-A.E. Thompson and D.O. Adams, Sikorsky Aircraft Div. UTC

Interactive Curve for Fatigue Life Prediction of a Comflex(tm) Rotor Flexure.....875
-J.E. Fale, D.J. Lawrie, and B.P. Gupta, Lord Corporation

A New Methodology to Predict and Optimize Rotorcraft Structural Loads/Weights Using Finite Element Method.....885
-S. Singh and D.R. Lindsay, Bell Helicopter Textron Inc.

MILITARY OPERATIONS

CHAMP: A Helicopter/VTOL Flight Model for Integrated Operational Analysis.....899
-S. LaForge, J. Jennings, and A.L. Zobrist, The Rand Corporation

Sustained Combat Availability, A Design Assessment Technique...905
-G. Daugherty, Martin Marietta Electronic Systems

TACTS - Helicopter Air Combat Training System of the Future....911
-B.A. Wunder, Naval Air Test Center

Design Considerations for a Counterair Situation Awareness Display for Army Aviation.....921
-C.C. Smyth, F.J. Malkin, and W.B. DeBellis, U.S. Army Human Engineering Laboratory

Cargo Rotorcraft in Future Army Operations.....	931
-G.R. Marner, Marner System Corporation, T.O. Potthoff, Army Aviation Systems Command, and D.P. Schrage, Georgia Institute of Technology	
Program and Operational Highlights of the Armed OH-58D Kiowa Warrior.....	addendum 1373
-M.M. Kawa, Bell Helicopter Textron Inc., and J.M. Van Kirk, U.S. Army Origram Executive Office-Aviation	

HANDLING QUALITIES

An In-Flight Investigation of Symbology Drive Law Improvements to an Operational Attack Helicopter.....	947
-J.A. Schroeder, W.S. Hindson, NASA Ames Research Center, and M.M. Eshow, Aeroflightdynamics Directorate, U.S. Army AVSCOM	
An Evaluation of the Proposed Specification for Handling Qualities of Military Rotorcraft, MIL-H-8501B, Utilizing Predicted and Actual SH-60B Handling Qualities.....	965
-A.N. Cappetta and J.B. Johns, Naval Air Development Center	
Initial Flight Test Assessment of V-22 Flying Qualities.....	979
-C. Dabundo, Boeing Helicopters and D. Kimball, Bell Helicopter Textron Inc.	
Formulation and Validation of High-Order Linearized Models of Helicopter Flight Mechanics.....	995
-F.D. Kim, R. Celi, University of Maryland and M.B. Tischler, Aeroflightdynamics Directorate, U.S. Army AVSCOM	
A Theory for the Analysis of Rotorcraft Operating in Atmospheric Turbulence.....	1003
-M.F. Costello, Boeing Helicopters	
Helicopter Parameter Identification Using a Trained Multi-Perceptron Neural Network.....	1017
-Q.M. Lam, L.P. Pelosi, R.H. Clapp, Synetics Corporation and M. Kam, Drexel University	

CIVIL OPERATORS

International Aspects of Civil Helicopter Operators.....	1037
F.A. Moore, Canadian Helicopters	
Marketing Helicopter Services.....	1041
B.S. Bilmes, Aero Marketing Consultants	
The Economic Impact of Maintenance on the Helicopter Operator..	1043
R.B. McNab, Edwards and Associates	

Direct Operating Costs and the Cost of Misunderstanding Them....1047
B.M. Battles, Bell Helicopter Textron Inc.

Helicopter Insurance-An Overview.....1053
L. Mattiello, Alpha Aviation Insurance Agency

Heliport/Vertiport Development.....1057
F.L. Jensen, Jr., Helicopter Association International

AERODYNAMICS II

V-22 Flight Test - A Promise Fulfilled.....1065
-M.A. McVeigh and H. Rosenstein, Boeing Helicopters

Theoretical and Experimental Study of Unsteady Rotor/Body Aerodynamic Interactions.....1075
-G.L. Crouse, J.G. Leishman, and N. Bi, University of Maryland

Application of a New Navier-Stokes Inverse Method to the Design of Advanced Airfoils.....1089
-J.C. Narramore, Bell Helicopter Textron Inc., J.B. Malone, NASA Langley Research Center and R. Vermeland, CRAY Research, Inc.

New Vortex/Surface Interaction Methods for the Prediction of Wake-Induced Airframe Loads.....1099
-T.R. Quackenbush, C.M. Lam, Continuum Dynamics, D.B. Bliss and A. Katz, Duke University

Inflow Velocity Perturbations Due to Fuselage Effects in the Presence of a Fully Interactive Wake.....1111
-J.D. Berry and S.L. Althoff, Aerostructures Directorate, U.S. Army AVSCOM

Systematic Correlation and Evaluation of the EHPIC Hover Analysis.....1121
-J.P. Shanley, R.C. Moffitt, and S.J. Davis, Sikorsky Aircraft Div., UTC

Correlations of Rotor/Wake-Airframe Interaction Measurements with Flow Visualization Data.....1135
-A.G. Brand, Bell Helicopter Textron Inc., H.M. McMahon, and N.M. Komerath, Georgia Institute of Technology

TEST & EVALUATION

Testing of the V-22 Flight Control System.....1147
-W.L. Ballauer, J.R. Leet, J. Mitchell, and D.R. Eck, Boeing Helicopters

Flight Investigation of the Effect of Tail Boom Strakes on Helicopter Directional Control.....	1161
-H.L. Kelley, C.A. Crowell, Aerostructures Directorate, U.S. Army AVSCOM, K.R. Yenni, NASA Langley Research Center, and M.B. Lance, Lockheed Engineering & Sciences Company	
Design and Test of an Advanced Technology Landing Gear.....	1175
-J.K. Sen, McDonnell Douglas Helicopter Co. and N.A. Chase, U.S. Army Aviation Applied Technology Directorate	
Endurance Testing of Damaged Main Rotor Upper Thrust Bearings..	1187
-M.C. Frengley and J.D. Eakin, McDonnell Douglas Helicopter Co.	
Application of the Wide-Field Shadowgraph Technique to Helicopters in Forward Flight.....	1207
-J.S. Light, T.R. Norman, NASA Ames Research Center, and A.A. Frerking, Sterling Federal Systems	
Obtaining Consistent Models of Helicopter Flight-Data Measurement Errors using Kinematic-Compatibility and State-Reconstruction Methods.....	1221
-J.W. Fletcher, Aeroflightdynamics Directorate, U.S. Army AVSCOM	
Aerodynamic and Acoustic Test of a United Technologies Model Scale Rotor at DNW.....	1233
-Y.H. Yu, S.R. Liu, Aeroflightdynamics Directorate, US Army AVSCOM, A.J. Landgrebe, P.F. Lorber, United Technologies Research Center, M. Pollack, Sikorsky Aircraft Div., UTC, R. Martin, NASA Langley Research Center, and D. Jordan, NASA Ames Research Center	
MANUFACTURING & PRODUCT ASSURANCE	
Advanced Surface Hardening Technologies.....	1253
-M.S. Chatterjee, Allison Gas Turbine Division, GM Corporation	
Composite Group Technology Development.....	1269
-K.S. Dehoff, Boeing Helicopters	
Main Rotor Blade Bonding Automation.....	1277
-F.C. Edman, R.W. Gobeil, and G.H. Burdorf, McDonnell Douglas Helicopter Co.	
Optimizing Wire Crimps Using Taguchi Designed Experiments.....	1283
-T.A. Zerby, L.A. Grau, and A. Dragun, McDonnell Douglas Helicopter Co.	
Case Study of Contoured Tape Laying for Production.....	1293
-B.J. Benda and J.P. Fleischman, Bell Helicopter Textron Inc.	

Robotic Welding of Sheet Metal Parts Using the GTAW Process....1299
-F.J. Marzano, M. Harlow, Allied-Signal Aerospace Co.,, Garrett
Engine Div., D. Palmgren, Arizona State University

FLIGHT SIMULATION

Validation of a Flight Simulation Model of the AH-64 Apache Attack
Helicopter Against Flight Test Data.....1309
-J.W. Harding and S.M. Bass, McDonnell Douglas Helicopter Co.

A Comparison of Real-Time Blade-Element and Rotor-Map Helicopter
Simulations Using Parallel Processing.....1327
-L.D. Corliss, NASA Ames Research Center, R.W. Du Val, H. Gillman,
and L.C. Huynh, Advanced Rotorcraft Technology, Inc.

NATC Manned Flight Simulator VTOL Ship Motion Simulation and
Application.....1355
-B. Ferrier, Canadair Division of Bombardier Inc. and J. Semenza,
Rotary Wing Directorate, Naval Air Test Center
