

2011 3rd International Workshop on Dependable Control of Discrete Systems

(DCDS 2011)

**Saarbrücken, Germany
15 – 17 June 2011**

**IEEE Catalog Number: CFP1173L-PRT
ISBN: 978-1-4244-8969-5**

Contents

Committees	vii
Keynote abstracts	ix
" <i>Practical formal validation method for interlocking or automated systems</i> " Marc Antoni	ix
" <i>Anomaly detection in event-based manufacturing systems using model generation</i> " Dawn Tilbury	ix
" <i>GENESYS—A generic architecture for embedded control systems</i> " Hermann Kopetz	x
Technical Articles	1
" <i>Testing Programmable Logic Controllers from Finite State Machines specification</i> " Julien Provost, Jean-Marc Roussel and Jean-Marc Faure	1
" <i>Dependability of complex semiconductor systems</i> " Mohammed Farouk Bouaziz, Eric Zamai, Frederic Duvivier, Stéphane Hubac	7
" <i>Implementation and testing of an online fault isolation methodology in a real industrial scenario</i> " Luca Ferrarini, Massimo Allevi, Alessio Dedè	13
" <i>Online control reconfiguration for a faulty manufacturing process</i> " Yannick Nke, Jan Lunze	19
" <i>Survey on Diagnosis of a Pick and Place Benchmark</i> " Alexandre Philippot	25
" <i>A comparative study of three model-based FDI approaches for Discrete Event Systems</i> " Mickaël Danancher, Matthias Roth, Jean-Jacques Lesage, Lothar Litz	29
" <i>Timed Residuals for Fault Detection and Isolation in Discrete Event Systems</i> " Stefan Schneider, Mickaël Danancher, Lothar Litz	35
" <i>Verifying Functional and Non-Functional Properties of Manufacturing Control Systems</i> " Sebastian Preuße, Hans-Michael Hanisch	41
" <i>Methodology to obtain local discrete diagnosers</i> " Alexandre Philippot, Veronique Carré-Ménétrier	47
" <i>Towards Model-driven Safety Analysis</i> " Matthias Güdemann, Frank Ortmeier	53
" <i>Production, preventive and corrective maintenance planning in manufacturing systems under imperfect repairs</i> " Annie Francie Kouedeu, Jean-Pierre Kenne, Victor Songmene	59
" <i>Fault Diagnosis Using Consensus of Markov chains</i> " Dejan P. Jovanović, Philip K. Pollett	65

<i>"Expert judgments collecting and modeling: Application to the Integrated Risks Analysis (IRA) methodology"</i>	72
Geoffrey Fallet, Carole Duval, Christophe Simon, Philippe Weber, Benoit Iung	
<i>"Modeling and Control of Nested Manufacturing Processes using Dioid Models"</i>	78
Thomas Brunsch, Laurent Hardouin, Jörg Raisch	
<i>"On the Use of Observation Equivalence in Synthesis Abstraction"</i>	84
Sahar Mohajerani, Robi Malik, Simon Ware, Martin Fabian	
<i>"Automatic Construction of Diagnoser for Complex Discrete Event Systems"</i>	90
Eric Gascard, Zineb Simeu-Abazi	
<i>"SAT-Based Abstraction Refinement for Programmable Logic Controllers"</i>	96
Sebastian Biallas, Joerg Brauer, Stefan Kowalewski	
<i>"Reliability Estimation using Unscented Transformation"</i>	102
Jan Richter	
<i>"Automatic Adaptive Limit and Level Management of Arrhythmia Alarms"</i>	108
Sahika Genc, Timothy L. Johnson	
<i>"Hazards in Advising Autonomy"</i>	113
Clive Downes, Paul Chung	
<i>"Optimized Scheduling of Complex Resource Allocation Systems through Approximate Dynamic Programming"</i>	119
Spyros Reveliotis	
<i>"Reliability Analysis of Multi-source Multi-sink Critical Interacting Systems"</i>	127
Andrea Bobbio, Roberta Terruggia, Michele Minichino, Ester Ciancamerla	
<i>"Multi-Phase Markov Models for Functional Safety Prediction"</i>	133
Felix Felgner, Georg Frey	
<i>"A Methodology to Upgrade Legacy Industrial Systems to Meet Safety Regulations"</i>	141
Kleanthis Thramboulidis, Doaa Soliman, Georg Frey	
<i>"Dynamic adaptation of IEEE 802.11e priorities for improving temporal performance and safety of a Wireless Networked Discrete Control System"</i>	148
Gilbert Habib, Jean-François Pétin, Thierry Divoux	
<i>"Identification of Petri Nets using timing information"</i>	154
Francesco Basile, Pasquale Chiacchio, Jolanda Coppola, Gianmaria De Tommasi	
<i>"Geometric characterization of invariant regions for timed continuous Petri nets with control actions"</i>	162
Edouard Leclercq, Dimitri Lefebvre	
<i>"Fault Detection by Labeled Petri Nets and Time Constraints"</i>	168
Maria Pia Fanti, Agostino Marcello Mangini, Walter Ukovich	
<i>"Diagnosability Analysis of Partially Observable Deadlock-free Petri Nets"</i>	174
Elías Hernández-Flores, Ernesto López-Mellado, Antonio Ramírez-Treviño	
Index of Authors	181
