2011 International Symposium on Artificial Intelligence and Signal Processing

(AISP 2011)

Tehran, Iran
15 – 16 June 2011

IEEE Catalog Number: CFP1196M-PRT
ISBN: 978-1-4244-9833-8

Table of Contents

Localization of Multiple Simultaneous Sound Sources in Reverberant Conditions Using Blind Source Separation Methods **1**
Hadieh Heli and Hamid Reza Abutalebi . . . . . .

A Compressive Sensing Based Compressed Neural Network for Sound Source Localization **6**
Mehdi Banitalebi Dehkordi, Hamid Reza Abutalebi and Hossein Ghanei . . . . .

Boosting Small MLPs With Entropy Combination Improves Phoneme Posteriors Estimation **11**
Alireza Kazemi, Fariborz Sobhanmanesh and Reza Boostani . . . . . .

Comparative Study Of Different Excitation Signals On Mel-generalized Cepstral Synthesis Filters **15**
Sara Bahaadini, Hossein Sameti and Seyed Hamidreza Mohammadi . . . . . .

A Webpage Similarity Measure for Web Sessions Clustering Using Sequence Alignment **20**
Mozhgan Azimpour-Kivi and Reza Azmi . . . . . .

Fuzzy Rule Extraction using Hybrid Evolutionary Models for Data Mining Systems **25**
Ilnaz Edalat, Mohammad Saniee Abadeh, Mohammad Teshnelab and Ali Nayyerirad . . . . . .

An Incremental Spam Detection Algorithm **31**
Elham Ghanbari and Hamid Beigy . . . . . .

Improving pose manifold and virtual images using bidirectional neural networks in face recognition using single image per person **37**
Fatemeh Abdolali and Seyyedali Seyyedsalehi . . . . . .

Robust watermarking scheme based on RDWT-SVD: Embedding Data in All subbands **43**
Samira Lagzian, Mohsen Soryani and Mahmood Fathy . . . . . .

Moving Object Tracking Based On Mean Shift Algorithm and Features Fusion **48**
Mahnaz Janipoor Deilamani and Rahebe Niaraki Asli . . . . . .

Feature selection and classification of breast MRI lesions based on Multi classifiers **54**
Farzaneh Keyvanfard, Mahdi Aliyari Shoorehdeli and Mohammad Teshnehlab . .

Fuzzy Discrete Correlation for Document Clustering **59**
Malihe Danesh, Mahmoud Naghibzadeh and Ahad Harati . . . . . .

Exonic regions finding on DNA sequences using RLS algorithm and de noising with discrete wavelet **66**
Omid Abbasi and Jafar Rasi . . . . . .

Clustering and feature selection via PSO algorithm **71**
Mehran Javani and Davoud Aghlmandi . . . . . .

An Ensemble PSO-Based Approach for Diagnosis of Coronary Artery Disease **77**
Najmeh Ghadiri Hedeshi and Mohammad Saniee Abadeh . . . . . .

An Evolutionary based discriminative system for keyword spotting **83**
Shima Tabibian, Ahmad Akbari and Babak Nasersharif . . . . . .

Multi-Skill Agents Coalition Formation Under Skill Uncertainty **89**
Seyyed Mohammad Sayyadi Kenari, Majid Vafaei Jahan and Mehrdad Jalali . .

An Adaptive Estimation Algorithm for Distributed Networks with Noisy Links **97**
Azam Khalili, Mohammad Ali Tinati and Amir Rastegarnia . . . . . .

Image Encryption Scheme Based on Choquet Fuzzy Integral with Pseudo-Random Keystream Generator **101**
Seyed Mohammad Seyedzadeh and Sattar Mirzakuchaki . . . . . .

On the Suitability of Current x264 Rate Controller Algorithms for High Definition Video Conferencing **107**
Abbas Javadtalab, Mona Omidyeganeh, Shervin Shirmohammandi and Mojtaba Hosseini . . . . . .

Generalized EXIT Charts for Irregular LDPC Codes **113**
Hossein Mamani and Hamid Saeedi . . . . . .

A Novel Fuzzy Metric to Evaluate Clusters for Prolonging Lifetime in Wireless Sensor Networks **118**
Peyman Neamatollahi, Hoda Taheri, Ehsan Toreini, Mahmoud Naghibzadeh and Mohammad Hossein Yaghmaee . . . . . .

Segmentation and Classification of Remote Sensing Images Using Confident Marker Selection **124**
Mahdi Khodadadzadeh and Hassan Ghassemian . . . . . .

Determining Web Pages Similarity Using Distributed Learning Automata and Graph Partitioning **129**
Shahrzad Motamedi Mehr, Majid Taran, Ali Baradaran Hashemi and Mohammad Reza Meybodi . . . . . .

Using spatial correlations in distributed video coding **135**
Mahmood Fathy and Mohammad Haqqani . . . . . .

Mel-Scaled Discrete Wavelet Transform and Dynamic Features for the Persian Phoneme Recognition **138**
Amirhossein Tavanaei, Mohammad.T Manzuri and Hossein Sameti . . . . . .
