

2011 2nd International Conference on Cognitive Infocommunications

(CogInfoCom 2011)

**Budapest, Hungary
7 – 9 July 2011**

**IEEE Catalog Number: CFP1126R-PRT
ISBN: 978-1-4577-1806-9**

TABLE OF CONTENTS

3D Display Technologies and Effects on the Human Vision System	1
<i>P. Kovacs, T. Holografika</i>	
A New Method for Characterization of Perspicuity of User Interfaces	34
<i>R. Kosztyan, Z. Kosztyan</i>	
A Unified Terminology for CogInfoCom Applications	38
<i>A. Csapo, P. Baranyi</i>	
Adaptive Control Design in Chaos Synchronization as Alternative of Lyapunov’s Direct Method	44
<i>J. Tar, I. Rudas, J. Bito, C. Pozna</i>	
Application of Brush Footprint Geometric Model for Realization of Robotic Chinese Calligraphy	50
<i>J. Lam, Y. Yam</i>	
Automatic Speech to Text Transformation of Spontaneous Job Interviews on the HuComTech Database	55
<i>G. Szaszak, A. Tundik, K. Vicsi</i>	
Auxiliary Information System Applications to Support Control Room Operator Activities	59
<i>Z. Farkas, G. Mischinger, G. Szabo</i>	
Biologically Inspired Informatics; Algorithm for Logical Data Processing	65
<i>S. Piros, P. Korondi</i>	
Classification, Recognition and Feedback in Text based Metacommunication	69
<i>G. Zucs, G. Magyar</i>	
Cognition Factors In Colour Identification Of Colour Blind People	73
<i>G. Abraham, B. Nagy</i>	
Cognitive Aspects Of Augmented Reality Applications	77
<i>I. Nagy</i>	
Cognitive Audio-Visual Infocommunication Applied in Remote Support for Industrial Robot Systems	80
<i>T. Thomessen, T. Kosicki</i>	
Collecting Multi-Modal Data Of Human-Robot Interaction	85
<i>J. Han, J. Dalton, B. Vaughan, C. Oertel, C. Dougherty, C. Looze, N. Campbell</i>	
Current Situations and Issues of Intelligent Spaces from Viewpoints of CogInfoCom - iSpace for CogInfoCom –	89
<i>H. Hashimoto</i>	
Development Of Cognitive Capabilities For Robot Nao In Center For Intelligent Technologies In Kosice	98
<i>P. Smolar, J. Tuharsky, Z. Fedor, M. Vircikova, P. Sincak</i>	
Effective Sensor-Bridging With Visual Preattentive Features	103
<i>Z. Prekopcsak, G. Nagy</i>	
Emergent Verbal Behaviour in Human-Robot Interaction	106
<i>K. Jokinen, G. Wilcock</i>	
Emotion Dependent Dialogues in the VirCA System	110
<i>I. Fulop</i>	
Emotion Dynamic Express By Fuzzy Function For Emotion Robot	113
<i>D. Kim, P. Baranyi, Nair</i>	
Emotional State Recognition in Customer Service Dialogues Through Telephone Line	117
<i>K. Vicsi, D. Sztaho</i>	
Empirical Usability Evaluation of the Wii Controller as an Input Device for the VirCA Immersive Virtual Space	121
<i>A. Komlodi, E. Jozsa, K. Herczegfi, S. Kucsora, D. Borics</i>	
Ensemble of Classifiers for Pedestrian Recognition	127
<i>C. Gaspar-Papanek, Z. Kardkovacs</i>	
Estimation For The Eye Movement Using The Spanning Tree Of Transition Probability-Based Graphs	131
<i>S. Szalai, Z. Vidnyanszky, T. Sziranyi</i>	
Evaluation of Lexical Models for Hungarian Broadcast Speech Transcription and Spoken Term Detection	136
<i>B. Tarjan, P. Mihajlik, A. Balog, T. Fegyö</i>	
Fast Prototyping Tool for Testbeds in Cognitive Mobile Infocommunication Research Projects	141
<i>L. Nemes, A. Kovacs</i>	

GOET European Project of Serious Games for Students with Intellectual Disability	143
<i>C. Lanyi, D. Brown, P. Standen, J. Lewis, V. Butkute, D. Drozdik</i>	
INCOGNITO: Cognitive Interaction Between Human and Virtual Environment for Engineering Applications	149
<i>C. Antonya</i>	
Incremental Sheet Forming in Cyberspace - A Process Oriented Cognitive Robotics Application	153
<i>J. Nacsá, I. Paniti, S. Kopácsi</i>	
Inferring Emotional Information from Vocal and Visual Cues: a Cross-Cultural Comparison	158
<i>M. Riviello, A. Esposito, M. Chetouani, D. Cohen</i>	
Interactive Evolution of Graphical User Interface with Gtk Toolkit	163
<i>M. Ilavsky, R. Jaksá</i>	
Joint Boosting Of Histogram Like Features For The Generic Recognition Of Object Classes And Subclasses	169
<i>D. Molnar, Z. Szlavik</i>	
Navigation Strategies on Multi-Column Textual Pages	174
<i>R. Matrai, Z. Kosztyan, C. Lanyi</i>	
Nonlinear Systems Controller Design As A Result Of Uninorm Tuning	179
<i>C. Pozna, L. Koczy, M. Takacs, A. Ballagi</i>	
Real-time Traffic Sign Recognition System	185
<i>Z. Kardkovacs, Z. Paroczi, E. Varga, A. Siegler, P. Lucz</i>	
Remote Control Of Industrial Robot Systems Using Cognitive Info Communication	190
<i>T. Thomessen, L. Nagy, K. Olah</i>	
Results Concerning a New Pattern of Human Knowledge	196
<i>C. Pozna, R. Precup</i>	
Smartphone Emotions Based on Human-Dog Interaction	214
<i>T. Kifor, T. Gottdank, A. Hajnal, P. Baranyi, B. Korondi, P. Korondi</i>	
Some Aspects of HMM Speech Synthesis Optimization on Mobile Devices	220
<i>B. Toth, G. Nemeth</i>	
Speech and Mobile Technologies for Cognitive Communication and Information Systems	225
<i>M. Pleva, S. Ondas, J. Juhar, A. Cizmar, J. Papaj, L. Dobos</i>	
Speech-Enhanced Interaction With TV	230
<i>G. Nemeth, A. Viktoriusz, C. Zainko, K. Juhasz, M. Bartalis</i>	
Speed and Position Control of BLDC Servo Systems with Low Inertia	235
<i>A. Stinean, S. Preitl, R. Precup, C. Pozna, C. Dragos, M. Radac</i>	
The Object Permanency Principle in the Usability Discipline	245
<i>G. Vitalyos</i>	
The Outlines Of A Theory And Technology Of Human–Computer Interaction As Represented In The Model Of The HuComTech Project	249
<i>L. Hunyadi, K. Bertok, E. Nemeth, I. Szekrenyes, A. Abuczki, G. Nagy, N. Nagy, P. Nemeti, A. Bodog</i>	
Towards Proactive Human-Robot Interaction in Human Environments	255
<i>M. Buss, D. Carton, B. Gonsior, K. Kuehnlénz, C. Landsiedel, N. Mitsou, R. Nijs, J. Zlotowski, S. Sosnowski, E. Strasser, M. Tscheligi, A. Weiss, D. Wollherr</i>	
Vibrotactile Force Feedback for Telemanipulation: Concept and Applications	261
<i>P. Galambos, P. Baranyi</i>	
Virtual Reality in Product Design and Robotics	267
<i>D. Talaba, C. Antonya, A. Stavar, V. Georgescu</i>	
Virtual Reality Technologies As An Interface Of Cognitive Communication And Information Systems	273
<i>B. Sobota, F. Hrozek, S. Korecko, C. Szabo</i>
