

Proceedings of the 2011 3rd International Youth Conference on Energetics

(IYCE 2011)

**Leiria, Portugal
7 – 9 July 2011**

**IEEE Catalog Number: CFP1135J-PRT
ISBN: 978-1-4577-1494-8**

TABLE OF CONTENTS

NUCLEAR ENERGY I

A Design Study With The COMSY - Code For Validating New EPR Design Concerning Piping Degradation Due To Flow-Accelerated Corrosion	1
<i>D. Schiefner, A. Zander</i>	
Supercritical Water Use In Energetic – Corrosion Issues	6
<i>M. Zychova, M. Ruzickova</i>	
Dynamic Approach to the Reliability Analysis for the Service Water System of a Candu 6 Nuclear Power Plant	12
<i>S. Pistelli, F. Benvenuto, D. Mazzini, M. Mazzini</i>	

INSULATION TECHNOLOGY AND DIAGNOSTICS

Occurrence of Partial Discharges in Low Voltage Cables due to Artificial Mechanical Injuries	18
<i>R. Cselko, I. Berta</i>	
Thermo-Chemical Non Equilibrium in the Case of High-Voltage Circuit Breaker Simulations	24
<i>S. Nichele, K. Bousoltane, G. Gaudart, G. Tchien, Y. Burtshell</i>	
Transformer Status Indicator (TSI) as a New Expert System for Integrating the Diagnostic Results of Power Transformers	33
<i>C. Voros, B. Nemeth, I. Kiss, I. Berta</i>	

ACTUAL QUESTIONS OF ENERGY POLICY I

Investigation Of Operational Issues Regarding Nuclear Power Plant Investments In Hungary	38
<i>Z. Hegedus</i>	
Impacts Of New Rules Under EU Emission Trading System On The Fuel And Technology Mix Of The Polish Power Sector	44
<i>M. Pluta, A. Wyrwa, J. Zysk</i>	
Interstate DC Line Performance Assessment Methods	52
<i>M. Turcik, A. Obushevs, I. Oleinikova</i>	
Competitiveness Of New Conventional Power Generating Units In Hungary	59
<i>P. Gerse, B. Bonda</i>	
Energy Storage – Tool for Decreasing the Error of Wind Power Forecast	67
<i>B. Hartmann, A. Dan</i>	
Legal Regulation Of Licensing Renewable Energy Systems In Hungary	75
<i>E. Uhrin</i>	
Estimation of Reliability Related Costs and Their Affect on Choosing Substation’s High Voltage Switchgear Scheme	80
<i>A. Lvov, A. Mutule</i>	

ENERGY IN BUILDINGS I

Are Energy Certification Tools For Buildings Effective? A Spanish Case Study	87
<i>J. Jaber-Lopez, I. Valencia-Salazar, E. Penalvo-Lopez, C. Alvarez-Bel, R. Rivera-Lopez</i>	
Calculation and Design of the Heat Pumps	92
<i>J. Perko, V. Dugec, D. Topic, D. Sljivac</i>	
Use of Parabolic Trough Solar Collectors for Building Air Conditioning and Domestic Hot Water Production - Case Study	99
<i>E. Quintal, H. Bernardo, P. Amaral, L. Neves</i>	
HVAC System Energy Optimization in Indoor Swimming Pools	104
<i>E. Ribeiro, H. Jorge, D. Quintela</i>	
Research Of The Biological Effectiveness Of Artificial Lighting	111
<i>S. Porokhnya, A. Tlyavsina</i>	

Indoor Environment and Energy Efficiency in Education Buildings - Part 2: Energy Simulation	116
<i>M. Dias, H. Bernardo, J. Ramos, M. Egidio</i>	

NUCLEAR ENERGY II

The Radiological Calculation Methodology of Jules Horowitz Reactor's Hot Cells	122
<i>P. Dostal</i>	
Analysis of SMART Reactor Core Using COREDAX Code	127
<i>J. Lee</i>	
Fusion Plasma Confinement Research at the Gas Dynamic Trap	131
<i>M. Korzhavina, V. Prikhodko, E. Soldatkina, A. Solomakhin, E. Pinzhenin, A. Lvovsky, A. Pushkareva, K. Zaytsev</i>	
Application Of Best Estimate Methodology For Wendelstein 7-X Experimental Nuclear Fusion Device	136
<i>T. Kaliatka, E. Uspuras</i>	
Nuclear Energy Scenarios for Slovakia	142
<i>S. Cerba, V. Necas, P. Darilek</i>	

POWER SYSTEMS I

Generation Scheduling Based on Two-Level Optimization Problem	147
<i>I. Nechaev</i>	
Algorithm of Nodal Prices Determination for Inhomogeneous Networks	154
<i>I. Umbrasko, R. Varfolomejeva, A. Mahnitko</i>	
Forecasting the Next Day Load Profile using Load Profiling Information and Meteorological Variables	160
<i>J. Sousa, H. Jorge, L. Neves</i>	
Intelligent Monitoring and Forecasting of the Expected Operating Conditions of Electric Power System	166
<i>N. Tomin</i>	
Application of Cloud Computing in Field of Power Engineering	174
<i>E. Minaeva</i>	

ELECTRIC CONTROLLERS AND AUTOMATION

Energetical Performances of Sinusoidal PWM Control of Voltage Inverter and Induction Motor Drive System	179
<i>A. Mitran, M. Linca</i>	
A New Method of Current Calculation in Power Semiconductor Devices of Diode-Clamped Multilevel VSC	185
<i>M. Dybko, S. Brovanov</i>	
LCC Resonant Power Electronic Converter for Photovoltaic System with Battery Energy Storage	192
<i>M. Koniak, P. Biczal, M. Klos, M. Koceba, L. Roslaniec</i>	
Experimental Study Of Surge Protective Devices To Apply In Dc Power Supply System At Power Substation	196
<i>A. Borodulin, A. Gusev, D. Kozlov, A. Molozhnikov</i>	

RENEWABLE ENERGY SOURCES

Fault Analysis Possibilities for PV Panels	201
<i>F. Ancuta, C. Cepisca</i>	
A Study of Using Waste Hydrogen in Desalination and Power Plant as an Energy Source	206
<i>N. Al-Thokair, S. Mansi</i>	
Energy Storage for Hungary – NaS Battery for Wind Farms	211
<i>B. Polgari, B. Hartmann</i>	

SMART-GRIDS AND DEMAND-RESPONSE

Implementing an Advanced Meter Reading infrastructure using a Z-Wave Compliant Wireless Sensor Network	219
<i>P. Amaro, R. Cortesao, J. Landeck, P. Santos</i>	
Demonstrating Smart Buildings and Smart Grid Features in a Smart Energy City	225
<i>B. Morvaj, L. Lugaric, S. Krajcar</i>	
Demand Response Resources Applied to Day Ahead Markets	233
<i>I. Valencia-Salazar, C. Alvarez-Bel, E. Merino-Hernandez, E. Penalvo-Lopez, J. Jaber-Lopez, D. Gamboa-Olivares, G. Dominguez-Sanchez</i>	
Effect of Energy Storage Systems on Optimal Sizing of Islanded Micro-grid Considering Interruptible Loads	237
<i>H. Fard, S. Moghaddas-Tafreshi, S. Hakimi</i>	

POWER SYSTEMS II

Overview on Energy Management Strategies for Electric Vehicles – Modelling, Trends and Research Perspectives	244
<i>P. Melo, R. Araujo, R. Castro</i>	
A Comparative Analysis and Implementation of Various PLL Techniques Applied to Single-phase Grids	252
<i>R. Ferreira, R. Araujo, J. Lopes</i>	
Simulation of the Effect of Demand Side Management to the Power Consumption of Households	260
<i>F. Zeilinger</i>	

TRANSIENTS IN POWER SYSTEMS I

Examination of Under Frequency Load Shedding in Smart Grids	269
<i>I. Vokony, A. Faludi, A. Dan</i>	
Analysis of Low Frequency Electromagnetic Fields and Calculation of Induced Voltages to an Underground Pipeline	277
<i>B. Milesevic, B. Filipovic-Grcic, T. Radosevic</i>	
The P-Q Theory And Active Current Under Non-Sinusoidal Conditions	284
<i>C. Patrascu, C. Suru</i>	

POWER SYSTEMS III

Effect of the New ICNIRP Guidelines on Exposure Evaluation of Electrical Power Systems	291
<i>K. Friedl, E. Schmutzner, L. Fickert</i>	
Combined use of SCADA and PMU Measurements for Power System State Estimator Performance Enhancement	296
<i>P. Vide, F. Barbosa, I. Ferreira</i>	
HVDC Light® - A Preferable Power Transmission System for Renewable Energies	302
<i>A. Bodin</i>	

TRANSIENTS IN POWER SYSTEMS II

Survey Of The Equivalent Substation Earth Current And Earth Impedance For Transformer Stations	306
<i>J. Ladanyi</i>	
Oscillography of Transient Processes at Physical Phase-to-ground Fault Modeling in Operational 6-35 kV Networks	311
<i>A. Shirkovets, A. Vasilyeva, A. Telegin, L. Sarin, M. Ilinykh</i>	
Transient Processes at Single Phase-to-ground Faults in Combined Grounded Networks	317
<i>A. Vasilyeva, A. Shirkovets, A. Telegin, L. Sarin, M. Ilinykh</i>	

ENERGY IN BUILDINGS II

Model of Decentralized Energy on Improving the Efficiency in Building Services	323
<i>J. Galvao, S. Leitao, S. Malheiro, T. Gaio</i>	
Energy Audit in a School Building Technology, Professional and Artistic School of Pombal	331
<i>J. Gomes, D. Coelho, M. Valdez</i>	
Energy Efficiency Opportunities of the Buildings Built with Industrialized Technology in Central Europe	337
<i>A. Talamon</i>	
Energy Efficiency in a Hospital Building Case Study: Hospitais da Universidade de Coimbra	342
<i>E. Gordo, A. Campos, D. Coelho</i>	

ELECTRICAL MACHINES AND DRIVES

Power Sources Sizing for Hybrid Vehicles Based on a Stochastic Modeling of Driving Missions	348
<i>G. Souffran, L. Miegerville, P. Guerin</i>	
Reduction of the Torque Ripple in Brushless Doubly-Fed Machine	355
<i>H. Gorginpour, B. Jandaghi, A. Oraee, M. Saket, M. Ahmadian, H. Oraee</i>	
A Survey on Rotor Faults in Brushless Doubly Fed Machines	362
<i>B. Jandaghi, H. Gorginpour, M. Saket, A. Oraee, M. Ahmadian, H. Oraee</i>	
Bearingless Segment Motor with Axial Magnetized Rotor Magnets	370
<i>J. Passenbrunner, W. Gruber, G. Bramerdorfer, W. Amrhein</i>	
Generation System with Variable Frequency and Constant Amplitude	376
<i>D. Makarov, A. Khlebnikov, A. Geist, P. Bachurin</i>	

POSTERS

Comparison of Two Methods for Calculating Yearly Costs and Balances for High Voltage Equipment	385
<i>L. Asgariéh, G. Balzer</i>	
Investigation of the Thermodynamic Effects of Lignite and Biomass Co-firing	392
<i>G. Hollo</i>	
Statistical Approach for Electrical Generator Consumption in an Aeronautical Purpose.....	398
<i>G. Roblot, P. Guerin, C. Baumann</i>	
The Algorithm Of Power Systems Short Period Regime Optimization Through Short-Linear Approximation Of Nonlinear Dependences	404
<i>T. Gayibov</i>	
Investigation on Effect of Real Time Optimization (RTO) On Reducing Energy Consumption in the Gas Sweetening Plant in Iran	407
<i>I. Asadi, E. Asadi</i>	
Trade-Off Between Unavailability And Uncertainty In Nuclear Industry: An Application Of Multi-Objective Genetic Algorithm Approach	414
<i>D. Kancev, B. Gjorgiev, M. Cepin</i>	
Depositions Effects and Losses Caused by Shading on Photovoltaic Panels.....	423
<i>L. Dorobantu, M. Popescu, C. Popescu, M. Cucu</i>	
Commissioning of TRATEL Thermal-hydraulics Experimental Equipment.....	428
<i>T. Vago, A. Aszodi</i>	
Direct Alcohol Fuel Cells: Challenges and Future Trends	436
<i>A. Brouzgou, F. Tzorbatzoglou, P. Tsiakaras</i>	
Analysis Comparison of Energy Efficiency: Calener vs Trnsys.....	442
<i>J. Jaber-Lopez, I. Valencia-Salazar, E. Penalvo-Lopez, C. Alvarez-Bel, D. Gamboa-Olivares, E. Merino-Hernandez</i>	
Efficient Lighting in a Portuguese School Technology Tondela's Professional School.....	447
<i>J. Lemos, D. Coelho, M. Valdez</i>	
Indoor Environment and Energy Efficiency in School Buildings - Part 1: Indoor Air Quality	454
<i>M. Dias, H. Bernardo, J. Ramos, M. Egido</i>	
Energy Losses in Low Voltage Distribution Network.....	461
<i>S. Gasperic</i>	
Simulated And Tested Protection Effects On Electrical Equipment Terminals At Overvoltages Incoming Through Distant SPD	466
<i>T. Kisielewicz, F. Fiamingo, C. Mazzetti, D. Krasowski, P. Sul, B. Kuca</i>	

Development of a SRM Power Electronic System with a Reduced Number of Power Semiconductors.....	472
<i>R. Kobler, D. Andessner, W. Amrhein</i>	
Energetic Planning With Individualized Representation Of Hydroelectric Power Plants Using "Featured Outflow"	479
<i>R. Scarcelli, M. Castro, A. Carneiro</i>	
Implementation of a Multiple Input DC-DC Converter for Electric Vehicle Power System	486
<i>M. Silva, J. Trovao, P. Pereirinha</i>	
Batteries Usability for Electric Vehicle Powertrain.....	494
<i>H. Melo, J. Trovao, P. Pereirinha</i>	
Reactive Power Control in Distribution Systems by using Advanced Techniques.....	501
<i>M. Golkar</i>	
The Insulation Characteristics of GFRP for Superconducting Devices	507
<i>H. Kim, K. Seong, J. Choi, S. Kim</i>	
Influence on the Environment of Individual Wires Located on Metal Bed	511
<i>M. Cucu, L. Dorobantu, C. Popescu, M. Popescu</i>	
Power Demand Impacts of the Charging of Electric Vehicles on the Power Distribution Network in a Residential Area.....	515
<i>L. Trovao, H. Jorge</i>	
Trajectory Sensitivity Analysis of Dynamic Voltage Stability in Power Systems.....	521
<i>R. Pereira, C. Ferreira, P. Barbosa</i>	
Transmission Line with Asymmetrical Phase Arrangement.....	525
<i>D. Gerendas, F. Novothny</i>	
Dynamic Performance Analysis of Synchronous Generators Excitation Systems in Distributed Generation Power Plants.....	532
<i>M. Calsan, M. Almeida</i>	
Application of High-Temperature Superconductive Cable Lines as Components of DC Transmission Systems for Enhancing the Reliability of Megalopolis Electric Power Supply	540
<i>A. Brilinskiy, O. Gook, A. Sevastianova, D. Sorokin, S. Smolovik</i>	
Impact Assessment of Electric Vehicle Charging on a LV Distribution System	544
<i>C. Farkas, K. Szabo, L. Prikler</i>	
Magnetic Field Harmonic Analysis in Brushless Doubly Fed Machine	552
<i>H. Gorginpour, B. Jandaghi, M. Saket, A. Oraee, H. Oraee</i>	
A Tool for Fault and Power Quality Disturbance Analysis in Oscillographic Records	559
<i>F. Costa, W. Santos, J. Andrade, B. Souza, N. Brito</i>	
The Effects of the Mother Wavelet for Transmission Line Fault Detection and Classification	565
<i>F. Costa, A. Sobrinho, M. Ansaldi, M. Almeida</i>	
Eddy Current Losses in Brushless Doubly-Fed Machines	571
<i>M. Ahmadian, B. Jandaghi, A. Oraee, M. Saket, H. Gorginpour, H. Oraee</i>	
WEL-IUA a New Economic Laboratory Website for Energy Auctions.....	576
<i>I. Valencia-Salazar, C. Alvarez-Bel, E. Merino-Hernandez, E. Penalvo-Lopez, J. Jaber-Lopez, F. Mugarra-Llopis, G. Dominguez-Sanchez</i>	

ADDITIONAL PAPER

Features Affecting the Load Forecasting Error on Country Level	584
<i>M. Matijas, M. Cerjan, S. Krajcar</i>	
Author Index
