

2011 IEEE PES 12th International Conference on Transmission and Distribution Construction, Operation and Live-Line Maintenance

(ESMO 2011)

**Providence, Rhode Island, USA
16 – 19 May 2011**

**IEEE Catalog Number: CFP11ESM-PRT
ISBN: 978-1-4577-0566-3**

TABLE OF CONTENTS

Rubber-Insulating Goods	1
<i>Greg Cain</i>	
New Technology for Multiple Conductor Stringing Machinery	9
<i>A. Oscar</i>	
Fiber Optic Installation and Maintenance	15
<i>S. V. Deshmukh, H. A. Atre, Santosh Wangde, D. B. Rane</i>	
Implementing a Voltage Upgrade in a Mega City	20
<i>Vishwas Surange, P. Murugan, D. Raina</i>	
Voltage Detection and Indication by Electric Field Measurement	26
<i>William McNulty</i>	
Network Secondary Distribution System Fault Current Analysis and Application	32
<i>Daniel J. Mungovan, David R. Smith</i>	
Advanced Aerial Inspection and Asset Management of Electricity Towers	38
<i>Graham Earp, Ralph Eyre-Walker, Andrew Ellam, Andrew Thomas</i>	
Advanced NDE Technology for Below Grade T&D Infrastructure Corrosion Detection	45
<i>George Stranovsky, Julius Fuks, Rahmat Shoureshi, John Kile</i>	
Nonlinear Behavior of Wood Pole Structure	52
<i>M. L. Lu</i>	
Thermal Grouting of Underground Transmission and Distribution Conduits	59
<i>Guy Dickes</i>	
Live Replacement of 400kv Busbar Insulators in Brasov Substation	67
<i>Stelian Alexandru, Marius Oltean, Traian Fagarasan, Ioan Sevastre, Lucian Brabete</i>	
On-line Monitoring of OHL Conductor Temperature; Live-Line Installation	74
<i>Stelian Alexandru Gal, Marius Nicolae Oltean, Lucien Brabete, Ioan Rodean, Mircea Opincaru</i>	
Transforming Existing 220kV Double Circuit Line into 400 kV Single Circuit Line in Romania	80
<i>D. Marginean, E. Mateescu, H. S. Wechsler, G. Florea, C. Matea</i>	
Reconductoring using HTLS Conductors. Case Study for a 220kV Double Circuit Transmission LINE in Romania	86
<i>E. Mateescu, D. Marginean, G. Florea, St. I. A. Gal, C. Matea</i>	
Case Study on Increasing the Transport Capacity of 220kV DC OHL Iernut-Baia Mare by Reconductoring using LM Technologies	93
<i>Ilie Ardelean, Marius Oltean, George Florea, Elena Mateescu, Daniel Marginean, Stefan Kilyeni, Constantin Barbulescu</i>	
Bio Phyto Dynamic Modulators or How to Protect the Bare-hand Live-line Workers Under the Low Frequency Electromagnetic Field Influence	100
<i>G. A. Florea, A. Dinca, St. I. A. Gal</i>	
Live-line Procedures to be Applied for the Painting of the 400/220 kV Iron Gates (Romania) S/S Structures Painting	108
<i>G. A. Florea, M. Oltean</i>	
The Emergence of Composites in the Utility Industry	114
<i>Matte Elkins</i>	
Uprating Transmission Lines through the Use of an Innovative Real-time Monitoring System	119
<i>E. Cloet, J. L. Lilien</i>	
Optimization of High Voltage Substations Using a Random Walk Technique	125
<i>G. Gilbert, Y. L. Chow, D. E. Bouchard, M. M. A. Salama</i>	
Detection of Internal Arcing Faults in Distribution Transformers	132
<i>Paul Henault</i>	
Geotechnical Investigations for Above-Ground Electric Transmission Structures in New England	139
<i>Gary R. McAllister, Terese M. Kwiatkowski</i>	
Assessing the Integrity and Increasing the Service Life of HPFF Pipe Type Cables	146
<i>Hank Kleinfelder</i>	
Managing Electrical Safety in Power Utilities	150
<i>Dennis K. Neitzel</i>	
Connectors - The Weak Link in the Chain!	157
<i>Carl R. Tamm</i>	
Technique for Accurate Voltage Measurement of Energized Street Level Objects	167
<i>David Kalokitis, Aaron Prazan</i>	

A Novel Sensing Device for Power System Equipment Condition Monitoring	173
<i>John L. Lauletta</i>	
Ground Testing of Transmission Towers	178
<i>Edward Cunnie</i>	
Author Index
