

2011 XVIth International Seminar/Workshop on Direct and Inverse Problems of Electromagnetic and Acoustic Wave Theory

(DIPED 2011)

**Lviv, Ukraine
26 – 29 September 2011**

**IEEE Catalog Number: CFP11458-PRT
ISBN: 978-1-4577-0897-8**

CONTENTS

Plenary Session

<i>B. Z. Katsenelenbaum, N. N. Voitovich</i> , Optimal dielectric antiradar coating for metallic plane and circular cylinder	11
<i>L. Bibilashvili, M. Prishvin, R. Zaridze</i> , Comparative analysis of the computed SAR and temperature rise to the EM exposure child and adult man	16
<i>S. G. Aleksin, O. O. Drobakhin</i> , Inverse problem for structures having both continuous permittivity variation intervals and steps	22
<i>P. V. Tymoshchuk, M. P. Tymoshchuk</i> , Stability and convergence analysis of model state variable trajectories of analogue KWTa neural circuit	26

Propagation in Complex Media

<i>I. Petoev, V. Tabatadze, R. Zaridze</i> , The electromagnetic properties of the infinite periodic lattice embedded in the dielectric layer	39
<i>E. A. Gevorkyan</i> , Losses of energy of two counter-propagating transverse-magnetic waves in the absorbing plate in a waveguide	46
<i>A. V. Gribovsky, O. A. Yeliseyev</i> , The algorithm for the characteristics calculating of the three-dimensional Gaussian wave beams scattering on the flat screens of finite thickness of rectangular holes	51
<i>V. V. Yachin, T. L. Zinenko, V. K. Kiseliyov</i> , Three-dimensional Gaussian beam with circular cross-section scattered from a gyrotropic slab	55
<i>M. Prishvin, D. Kakulia, G. Sapparishvili, A. Kotchlashvili, R. Zaridze</i> , Localization of the inhomogeneity in a two-way line	59

Waveguide and Layered Structures

<i>J. V. Antonenko, A. V. Gribovsky</i> , Autocollimation regime on a reflect array of short-circuited coaxial-sector waveguides	65
<i>Y. V. Shepilko</i> , Scattering of H-polarized electromagnetic wave by infinite dihedral wedge co-axially coupled with dielectric covered slotted cylinder	69
<i>V. P. Chumachenko, V. P. Pyankov, V. V. Vashchenko</i> , Scattering of TE_{10} mode in an E-plane waveguide bend with jump of permittivity	74
<i>L. Angermann, V. V. Yatsyk</i> , Scattering and generation of waves on non-linear cubically polarisable dielectric layer	78
<i>L. Angermann, V. V. Yatsyk</i> , Eigen-modes of the linearised problems of scattering and generation of waves on non-linear layer	82
<i>Z. Nazarchuk, A. Synyavskyy, M. Shahin</i> , Hilbert-Riemann problems in recovering parameters of a plane layered dielectric on conducting substrate	86

Antenna Synthesis and Inverse Problems

<i>F. G. Bogdanov, R. G. Jobava, D. D. Karkashadze, A. L. Gheonjian, E. A. Yavolovskaya</i> , Application of hybrid MoM and multilayered Green's function to EM modeling of printed microstrip antennas	93
<i>E. A. Yavolovskaya, F. G. Bogdanov</i> , Analysis of a compact printed TPMS antenna in complex environment	97
<i>B. M. Levin</i> , Transparent antennas	101
<i>B. M. Levin</i> , Variants of transparent antennas	105
<i>L. P. Protsakh, P. O. Savenko, M. D. Tkach</i> , Nonlinear spectral problems in synthesis theory of antennas with flat aperture	109
<i>L. Klakovych</i> , Antenna synthesis with limitations in the Fresnel region	115
<i>D. Kakulia, K. Tavzarashvili, G. Ghvedashvili, G. Chelidze</i> , Inversion of a prolate metallic object's orientation with the Gauss-Newton minimization algorithm	119
<i>Soon-Soo Oh, Young-Hwan Lee</i> , Simulation study for EIRP measurement of base-station antenna using simple phase retrieval technique	123

Diffraction and Scattering

<i>V. R. Tuz, S. L. Prosvirnin, V. S. Butylkin</i> , Enhancement of absorption bistability by planar metamaterial	129
<i>B. Z. Katsenelenbaum</i> , Near field of plane aperture	133
<i>P. L. Mladyonov, V. R. Tuz, S. L. Prosvirnin</i> , Nonlinear interaction of two Fano-shape resonances in bilayered planar metamaterial with fish scale structure	137
<i>V. M. Onufriyenko, O. A. Dolgiy</i> , On ray optics equations for analysis of the waves refraction in fractal medium	141
<i>V. M. Onufriyenko, K. S. Chernyakhovska</i> , Fractal transformation of the Hertz dipole in the EH-vibrator	145

EM Field Application

<i>G. Gabriadze, F. Bogdanov, P. Tsereteli, R. Jobava, E. Yavolovskaya</i> , ACA method and SPAI preconditioner for acceleration BICGSTAB solver in MoM based solver TriD	151
<i>R. Jobava, P. Tsereteli, K. Odisharia</i> , Using hybrid GPU algorithm for solving of EMC problems	156
<i>G. Ghvedashvili, L. Shoshiashvili, T. Gogua, K. Tavzarashvili</i> , Web based research administration and information system	161

<i>M. I. Andriychuk, B. Z. Katsenelenbaum, V. V. Klimov, N. N. Voitovich</i> , Application of generalized method of eigenoscillations to problems of nanoplasmonics	165
<i>K. Tavzarashvili, G. Ghvedashvili, D. Kakulia</i> , MAS simulation of plasmon coupling in nanosphere pairs	170
<i>L. Shoshiashvili, K. Tavzarashvili, G. Ghvedashvili, T. Gogua</i> , Electromagnetic research environment (EMAGRE) - crossplatform EM software package based on FDTD method	174

Acoustics, Analytical and Numerical Methods

<i>Shande Li, Qibai Huang, Tianyun Li</i> , Iterative solution of high-order boundary element method for acoustic problems	181
<i>O. Pidubniak, N. Pidubniak</i> , Sound radiation from piston in fluid cylinder of finite length	186
<i>V. V. Matus, Ya. I. Kunets, V. V. Porochovs'kyj, V. O. Mishchenko</i> , Effective boundary conditions for a straight thin-walled elastic inclusion of low contrast in the thin plate	193
<i>O. O. Bulatsyk</i> , Application of multidimensional residues theory to determining number of solutions of transcendental equation systems arisen in phase optimization problems	196
<i>O. O. Bulatsyk, Yu. P. Topolyuk, I. V. Tupyachak</i> , System of integro-transcendental equations in case of vanishing solution of free phase problem	200
<i>A. D. Polishchuk</i> , Solution of searched function and its normal derivative jump problem for the Laplacian in R^3 by means of simple and double layer potentials	205
<i>A. R. Sydor</i> , Models of reliability parameters of compound electromagnetic systems	209
<i>S. Litynskyy, A. Muzychuk</i> , Combining of Fourier-Laguerre method with boundary elements method for the numerical solution of mixed problems for wave equation	213
<i>V. A. Abdulkadyrov</i> , Interaction of electromagnetic wave with a composite semiconductor structure	216
<i>V. F. Borulko</i> , Comparison of subdomain functions in the moment method for quasiperiodic waveguiding structures	220
<i>V. Borulko, O. Drobakhin, D. Sidorov</i> , Quasi-periodic Bragg structures with thin lossy layers	224
<i>G. N. Georgiev, M. N. Georgieva-Grosse</i> , On the L_4 numbers and their applicaton	228
