

2011 30th IEEE Symposium on Reliable Distributed Systems Workshops

(SRDSW 2011)

**Madrid, Spain
4-7 October 2011**

**IEEE Catalog Number: CFP1113R-PRT
ISBN: 978-1-4577-1624-9**

2011 30th IEEE Symposium on Reliable Distributed Systems Workshops

SRDSW 2011

Table of Contents

Message from the General Chair	vii
Message from the Technical Program Committee Co-Chairs	viii
Conference Committees	ix
Technical Program Committee	x
Reviewers	xi

DNCMS Workshop

Accelerated Processing of Secure Email by Exploiting Built-in Security Features on the Intel EP80579 Integrated Processor with Intel QuickAssist Technology	1
<i>Vallisha Keshavamurthy, Shambhu Upadhyaya, and Vinodh Gopal</i>	
Later Validation/Earlier Write: Concurrency Control for Resource-Constrained Systems with Real-Time Properties	9
<i>Kamal Solaiman and Graham Morgan</i>	
MTFR: Mobility Tolerant Firework Routing	13
<i>Gen Motoyoshi, Kenji Leibnitz, and Masayuki Murata</i>	
Towards Tag-based Cooperation for Mobile Ad Hoc Networks	20
<i>Nor Effendy Othman and Stefan Weber</i>	
Lightweight Dependable Adaptation for Wireless Sensor Networks	26
<i>Luís Marques and António Casimiro</i>	
Symbiosis of a Lightweight ECC Security and Distributed Shared Memory Middleware in Wireless Sensor Networks	36
<i>Anna Sojka, Krzysztof Piotrowski, and Peter Langendoerfer</i>	
MhRep: Multi-hop Replication Scheme for Data Survival in Unattended Wireless Sensor Networks	42
<i>Domenico Vitali, Angelo Spognardi, Antonio Villani, and Luigi V. Mancini</i>	

RACOS Workshop

Analysis and Comparison of Security Protocols in Wireless Sensor Networks	52
<i>Valentina Casola, Alessandra De Benedictis, Annarita Drago, and Nicola Mazzocca</i>	
NetODESSA: Dynamic Policy Enforcement in Cloud Networks	57
<i>John Bellessa, Evan Kroske, Reza Farivar, Mirko Montanari, Kevin Larson, and Roy H. Campbell</i>	
Autonomic Service-Oriented Architecture for Resilient Complex Systems	62
<i>Pieter den Hamer and Torbjørn Skramstad</i>	
Towards a Federated Simulation Approach for Reliability Evaluation of Unmanned Aircraft Vehicles within Aeronautical Communications Networking	67
<i>Magali Andreia Rossi, Jorge Rady de Almeida Junior, Andrea Bondavalli, and Paolo Lollini</i>	

WNR Workshop

WNR Technical Session 1

Wide-Area Virtual Machine Migration as Resilience Mechanism	72
<i>Andreas Fischer, Ali Fessi, Georg Carle, and Hermann de Meer</i>	
Route Lookup Optimization Including Energy Efficient Conditions in an Optical Transmission Network	78
<i>Mary Luz Mouronte, María Luisa Vargas, and Paloma Martínez</i>	

WNR Technical Session 2

On the Benefit of Network Coding for Timely and Reliable Event Dissemination in WAN	84
<i>Christian Esposito, Stefano Russo, Roberto Beraldi, and Marco Platania</i>	
Attack Resistant Network Embeddings for Darknets	90
<i>Benjamin Schiller, Stefanie Roos, Andreas Höfer, and Thorsten Strufe</i>	
Distributed Fault Diagnosis Using Bayesian Reasoning in MAGNETO	96
<i>Pablo Arozarena, Raquel Toribio, and Álvaro Carrera</i>	

Author Index	102
